MEDIA RELEASE

REPL appointed for providing consultancy services for the Vetting of Draft Base Maps and Attribute collection for Amrut City- Jammu, JK UT Order worth Rs. 21 Lacs (excluding GST)

New Delhi, 23rd March 2021: Town Planning Organization, Jammu has appointed leading infrastructure consultancy firm Rudrabhishek Enterprises Ltd. (REPL) to provide consultancy services for vetting of draft base maps and attribute data collection for AMRUT City – Jammu.

The project will develop accurate common digital geo referenced base maps and land use maps using Geographical Information System (GIS) enabling authorities to make more informed strategic decisions. REPL will vet the Geospatial database created by National Remote Sensing Centre (NRSC) from high resolution satellite data by field data collection as per the design and standards of AMRUT. This includes spatial data verification, correction and addition of new features on the field maps. REPL will also collect the attribute data for the spatial features along with point data information of the AMRUT city - Jammu.

Mr. Pradeep Misra, CMD-REPL said, “This project aims at holistic development of the Union Territory of Jammu and Kashmir. Vetting of the base map will help in the better planning of Jammu as an AMRUT city which will further speed up the development in the region. Our previous experience of working in the domain will help us accomplish the project with precision.”

Dr. Harish Sharma, ED-REPL said, “Preparation of GIS based master plan has become extremely important for effective planning of a city. For the given project, GIS base map needs to be verified for correctness and completeness by carrying out field work and feature wise attributes to be collected from field and records as per AMRUT Design and Standards.”

REPL will correct all spatial data on field map provided and verify each urban land use polygon and corresponding codes. It will also verify every building footprints, line feature (Road, Rail, Bridges, Flyovers, etc.), and collection of point features (Bus stops, Community toilets, Fire Stations, Landfill sites, , Garbage collection etc.), on the field map. The project is divided into three stages and expected to be completed in 90 days.

Apart from this, REPL is already working on various infrastructure and planning projects for both the state and central government including Smart Cities, PMAY, BIM consultancy for
