Sub: JSW Energy commissions the third and final 80 MW Unit of the 240 MW Kutehr Hydro Plant

Ref: Regulation 30 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015

Dear Madam / Sir,

In continuation of our letters dated 2nd and 6th August, 2025, we wish to inform that the Company has successfully commissioned the third and final 80 MW Unit, marking the full commissioning of the 240 MW (3 x 80 MW) Kutehr Hydroelectric Power Plant, situated in Chamba district of Himachal Pradesh. Power dispatch to Haryana has commenced from the entire 240 MW capacity.

A Press Release in this regard is attached.

Yours faithfully,

For **JSW Energy Limited**

JSW Energy Commissions 240 MW Kutehr Hydro Plant; Installed Capacity Surpasses 13 GW

Mumbai, India — August 8, 2025 – JSW Energy Limited (“The Company”) is pleased to announce the successful commissioning of the third and final 80 MW Unit of Kutehr Hydroelectric Power Plant (“HEP”), marking the full commissioning of the 240 MW greenfield hydro project.

The Kutehr plant is situated in Chamba district of Himachal Pradesh and is amongst one of the fastest built greenfield hydro projects in India. The project is backed by a long-term Power Purchase Agreement with Haryana Power Purchase Centre (HPPC) for the entire 240 MW at a levelized ceiling tariff of ₹4.50/kWh, valid for 35 years with provisions for extension. Power generated will supply Haryana’s state distribution utilities — Uttar Haryana Bijli Vitran Nigam and Dakshin Haryana Bijli Vitran Nigam.

The commissioning of Kutehr HEP, coupled with recent organic wind capacity additions, has taken the Company’s installed capacity to 13,020 MW, up from 10,875 MW at the end of FY25, reflecting a robust 2,145 MW increase since March 2025. The Company is proud to have achieved this significant installed capacity scale-up, which underscores its strong execution capabilities and commitment to powering a sustainable future.

With these capacity additions, the installed hydro capacity stands at 1,631 MW, solar at 2,157 MW, Wind at 3,574 MW, taking the share of renewables to 57%.

Mr. Sharad Mahendra, Joint Managing Director and CEO of JSW Energy

“We are proud to announce the full commissioning of the 240 MW Kutehr Power Plant, one of the fastest greenfield hydro projects to be completed in India. This milestone highlights our strong project execution capabilities and unwavering commitment to delivering clean, sustainable energy to the nation. What makes this accomplishment truly remarkable is the project execution in less than six years, despite COVID-19 disruptions, lockdowns, and extreme weather conditions. The commissioning comes at a highly opportune time, allowing us to capitalise on the ongoing high-generation season driven by healthy water inflows.”

JSW Energy has total locked-in generation capacity of 30.3 GW comprising of 13.0 GW operational, 12.7 GW under-construction across thermal and renewable and has pipeline of 4.6 GW. The company also has 29.4 GWh of locked-in energy storage capacity through hydro pumped storage projects of 26.4 GWh and battery energy storage system of 3.0 GWh. The Company aims to reach 30 GW generation capacity and 40 GWh of energy storage capacity by FY 2030 and achieve Carbon Neutrality by 2050.

ABOUT JSW ENERGY: JSW Energy Ltd is one of the leading Private sector power producers in India and part of the USD 23 billion JSW Group which has significant presence in sectors such as steel, energy, infrastructure, cement, sports among others. JSW Energy Ltd has established its presence across the value chains of power sector with diversified assets in power generation, and transmission. With strong operations, robust corporate governance and prudent capital allocation strategies, JSW Energy continues to deliver sustainable growth, and create value for all stakeholders. JSW Energy began commercial operations in 2000, with the commissioning of its first 2x130 MW thermal power plants at Vijayanagar, Karnataka. Since then, the company has steadily enhanced its power generation capacity from 260 MW to 13.0 GW, ensuring diversity in geographic presence, fuel sources and power off-take arrangements. The Company is presently constructing various power projects to the tune of 12.7 GW, with a vision to achieve a total power generation capacity of 30 GW by 2030.

Forward Looking and Cautionary Statements:

Certain statements in this release concerning our future growth prospects are forward looking statements, which involve a number of risks, and uncertainties that could cause actual results to differ materially from those in such forward-looking statements. The risks and uncertainties relating to these statements include, but are not limited to, risks and uncertainties regarding fluctuations in earnings, our ability to manage growth, intense competition within Power Industry including those factors which may affect our cost advantage, wage increases in India, our ability to attract and retain highly skilled professionals, time and cost overruns on fixed-price, fixed-time frame contracts, client concentration, restrictions on immigration, our ability to manage our internal operations, reduced demand for Power, our ability to successfully complete and integrate potential acquisitions, liability for damages on our service contracts, the success of the companies in which JSW Energy has made strategic investments, withdrawal of fiscal governmental incentives, political instability, legal restrictions on raising capital or acquiring companies outside India, unauthorized use of our intellectual property and general economic conditions affecting our industry.
