Press Note
For Immediate Release

Rolta's solution wins the prestigious eGovernment Excellence Award 2015 in Bahrain

Mumbai, April 22, 2015 – Rolta today announced that its eGovernance solution implementation has received the prestigious eGovernment Excellence Award 2015 from the Government of Bahrain. Winners of the eGovernment Excellence Award 2015 were honored by Deputy Prime Minister and the Chairman of the Supreme Committee for Information and Communication Technology, Shaikh Mohammed bin Mubarak Al Khalifa.

The award for the best eGovernment project was won by the Ministry of Works, Municipalities and Urban Planning ("MOW") for their Enterprise Asset Management System ("EAMS") project. EAMS was designed, developed and implemented by Rolta. Rolta adopted an innovative approach to seamlessly integrate data pertaining to roads, drainage and government buildings in the Kingdom of Bahrain from four major repositories based on disparate technologies – Infor, IBM, Oracle and ESRI – around Rolta OnPoint™. The solution provided by Rolta addresses the management of the full life cycle of an asset covering planning, design, construction, operation, maintenance, and retirement. EAMS has enabled Bahrain MOW staff, even with minimal IT skills, to carry out routine tasks and asset performance analytics more rapidly and cost-effectively.

Commenting on the Award received by MOW, Mr. Hisham Yousif Sater, Director – ITD, Ministry of Works said, "The EAMS project has been instrumental in reducing costs and enhancing the overall effectiveness of asset management. He added, "Rolta has worked with us in true spirit of partnership, and can justifiably take pride in this recognition bestowed on MOW by the Supreme Committee."

Congratulating MOW on this success, Mr. Reida Elwannas, President, GIS/Mapping – EMEA, Rolta said, "We take pride in having had the privilege of working with MOW on this project, and for which they have received the prestigious Award." It reinforces our confidence in and commitment to our strategy of uniquely combining IT and GIS capabilities for delivering high value solutions that address 'Smart City' initiatives to our clients across the globe."

About Rolta: Rolta is a leading provider of innovative IT solutions for many vertical segments, including Federal and State Governments, Defense, Homeland Security, Utilities, Oil & Gas, Financial Services, Manufacturing, Retail, and Healthcare. By uniquely combining its expertise in the IT, Engineering and Geospatial domains, Rolta develops exceptional solutions for these segments. The Company leverages its industry-specific know-how, rich repository of field-proven intellectual property that spans photogrammetry, image processing, geospatial applications, Business Intelligence, Big Data analytics, Cloud computing, and Software Defined Infrastructure for providing sophisticated enterprise-level integrated solutions. Rolta is a multinational organization headquartered in India. The Company operates from 40 locations worldwide through its subsidiaries, and has executed projects in over 45 countries.
