Dear Sir,

Sub: Media release regarding pre-commissioning activities at 100 MW Concentrated Solar Power (CSP) project in Rajasthan's Jaisalmer district by Rajasthan Sun Technique Energy Private Limited

We are pleased to inform you that pre commissioning activities have commenced for 100 MW Concentrated Solar Power (CSP) project in Rajasthan's Jaisalmer district which is being developed by Rajasthan Sun Technique Energy Private Limited, a wholly owned subsidiary of the Company.

A copy of the Media Release being released in this connection is attached.

Kindly bring the above to the notice of your members.

Yours faithfully
For Reliance Power Limited

N. Venugopala Rao
Chief Financial Officer

Encl: as above

MEDIA RELEASE

**PRE-COMMISSIONING ACTIVITIES COMMENCED AT 100 MW CSP PROJECT OF
RELIANCE POWER IN RAJASTHAN**

PROJECT SET TO BE COMMISSIONED BY MARCH 2014

**100 MW CSP IS THE WORLD'S LARGEST SOLAR PLANT BASED ON COMPACT
LINEAR FRESNEL REFLECTOR (CLFR) TECHNOLOGY**

CLFR TECHNOLOGY PROVIDED BY AREVA SOLAR

PROJECT DEVELOPED AT A COST OF ₹ 2,100 CRORES

**100% OFFTAKE OF POWER FOR 25 YEARS BY NVVN – A WHOLLY OWNED
SUBSIDIARY OF NTPC**

Mumbai, November 29, 2013: Reliance Power announced that pre commissioning activities have commenced for its Concentrated Solar Power (CSP) project in Rajasthan's Jaisalmer district. The project is the world's largest CSP project based on CLFR technology. The 100 MW CSP plant is being built at a cost of Rs. 2,100 Crores, adjacent to the 40 MW solar photovoltaic project commissioned by the Company last year.

Steam blowing is a critical milestone towards pre commissioning activities of the Solar CSP Plant. The Project is all set to be commissioned during 1st quarter of 2014.

Rajasthan Sun Technique Energy Private Limited, a wholly owned subsidiary of Reliance Power, was awarded the CSP project in December 2010, based on international competitive bidding conducted by NTPC Vidyut Vyapar Nigam Limited (a subsidiary of NTPC Ltd.) under the prestigious Jawaharlal Nehru National Solar Mission of Government of India.

The project is the largest investment undertaken by any private sector entity in CSP Technology in India. The project is financed through Debt from multilateral agencies like Asian Development Bank (ADB), Export Import Bank of the United States, Financierings Maatschappij Voor Ontwikkelingslanden N.V. (FMO), Netherlands and Axis Bank.

The innovative CFLR Technology for the project is provided by Areva Solar of France, which is simple in design, having minimal environmental spill, lesser land requirement and is more efficient than other solar thermal technologies available.

About Reliance Power:

Reliance Power Limited, a part of Reliance Group, is India's leading private sector power generation company. The company has the largest portfolio of power projects in the private sector, based on coal, gas, hydro and renewable energy, with an operating portfolio of 2,545 MW. The company also has the largest captive coal reserves in the private sector, estimated at more than two billion tonnes. Besides, the company is also developing coal mines in Indonesia and coal bed methane blocks in India.
