PM Modi's Vision, Already on Road: Revolt Riders Cross 72 Crore Electric Kilometres

As the Prime Minister calls on India to reduce fuel dependence and embrace EVs, Revolt's growing community of 57,654+ riders have already been building that future, one electric kilometre at a time.

New Delhi, 14th May 2026: Revolt Motors, India's No.1 electric motorcycle brand, welcomes Prime Minister Narendra Modi's recent call encouraging citizens to reduce dependence on petrol and diesel and adopt more sustainable mobility choices as part of a nationally responsible lifestyle.

For Revolt riders across India, this transition is not a future ambition. It is already a lived reality.

Every day, thousands of Revolt riders choose electric mobility not only for convenience and savings, but as a conscious step towards a cleaner and more self-reliant India. Long before sustainability became a national conversation, this growing community had already begun redefining the way India rides. Today, that collective shift is translating into measurable impact.

Revolt Riders Across India Have Collectively:

- Covered over **72 crore +** (72,00,61,295) electric kilometres
- Helped avoid an estimated **93+ Lacs** (9,398,694) litres of petrol consumption
- Enabled cumulative rider savings of over **₹89.28 crore** since inception

These are not projections or future targets. These are real journeys completed by Indians who chose electric mobility because they believed in a smarter and more sustainable way forward. Today, the Prime Minister's words give that belief a national voice.

Ms Anjali Rattan, Chairperson, RattanIndia Enterprises Limited, said, *"Prime Minister Modi has put into words what our riders have lived every single day. When he speaks of reducing India's dependence on imported fuel and choosing a more responsible way of life, our riders across the country have already been contributing to that vision quietly and consistently. We are proud that Revolt Motors is part of building the India the Prime Minister envisions."*

As India accelerates towards a cleaner mobility future, Revolt Motors remains committed to making electric motorcycles accessible, practical, and relevant for everyday riders. Through continuous innovation, expanding accessibility, and a growing nationwide ecosystem, the company continues to strengthen its mission of accelerating EV adoption across the country.

Revolt Motors is available across 200+ cities through its expanding dealership network. For every Indian ready to answer the Prime Minister's call, the switch to electric mobility has never been more accessible.

For more information, customers can visit the official Revolt Motors website at <https://www.revoltmotors.com> or to have the hand-on experience of Revolt electric motorcycles, customers can visit their nearest authorized dealership.

Revolt Intellicorp

Revolt Intellicorp (Revolt Motors), founded in 2017, is leading the charge in India's electric vehicle landscape. With a mission to democratize clean commutes using futuristic mobility solutions, we have introduced India's first AI-enabled motorcycle, seamlessly combining innovation with performance

and aesthetics. With a strong focus on innovative technology, Revolt Motors is redefining the way we think about two-wheel transportation.

Beyond motorcycles, Revolt Intellicorp provides a full range of genuine parts and accessories through its authorized dealerships, ensuring a comprehensive electric riding experience. Join us in reshaping the future of smart, sustainable mobility.

RattanIndia Enterprises Limited

RattanIndia Enterprises Limited (REL) is the flagship company of the RattanIndia Group, focused on building and scaling new-age, technology-led businesses in India. A **public-listed company with a market capitalization of approximately ₹7,000 crore**, REL is proudly featured in the **Fortune 500 India list**—a recognition of its growing scale, performance, and influence across sectors.
