Ruchi Soya Industries Limited
Performance for Q2 (2010-11)

- Net sales up by 19.45 % at Rs.3805.83 crore
- PAT up by 31.85 % at Rs. 63.63 crore

Indore, November 10, 2010: Ruchi Soya Industries Limited (RSIL) has announced its financial results for the quarter ended September 30, 2010. As compared to the corresponding period of the previous year, net sales rose by 19.45% from Rs. 3186.10 crore to Rs. 3805.83 crore. Net profit for the quarter increased by 31.85 % from Rs. 48.26 crore to Rs. 63.63 crore.

Commenting on the performance, **Mr. Dinesh Shahra, Managing Director, Ruchi Soya Industries Limited** said "Despite being a non peak season for soya crushing operations, performance for the quarter that ended on September 30, 2010 was satisfactory. Earnings have improved due to consistent high utilization of our port based edible oil refining facilities and better availability of soya crop and capacity utilization of crushing facilities as compared to the previous period. Estimated soya crop production of around 10 Mio MT for the current year is expected to be higher by approx 25% over the previous year. Considering the encouraging business environment, we expect superior contribution from soya crushing operations during the next two quarters and a promising year ahead."
