Ruchi Soya Industries Limited Q1 (2010-11)- Net Profit up by 4.5% at Rs. 52.41 Crore

Mumbai – August 2, 2010 The Board of Ruchi Soya Industries Limited (RSIL) met on July 31, 2010 to consider and approve the unaudited financial results for the quarter ended June 30, 2010. As compared to the corresponding period of the previous year, Net sales/Income from operations up by 11.5 % from Rs.3112.11 crore to Rs.3469.05 crore. PAT up by 4.5 % from Rs.50.15 crore to Rs.52.41 crore. The quantum of oil seed crushed has been higher by 36.5 % from 144491 MT to 197285 MT and the edible oil refined by 4.2 % from 359099 MT to 374098 MT. The ratio of turnover from manufacturing activities to supply chain activities has improved from 60 : 40 to 63 : 37. The branded sales of increased by 2.7 % from Rs.839.30 crore to Rs.861.9 crore.

Commenting on the performance, **Mr. Dinesh Shahra, Managing Director, Ruchi Soya Industries Limited** said : The quarter ended June, 2010 has been challenging due to unfavourable price parity more particularly in oil seed crushing. The prices of commodities have been, by and large, lower than the corresponding period of the previous year. Improvement in our business volumes and our balanced business model have contributed to the over all growth. However, we believe that the current monsoon will have a favourable impact on our industry in the current year. Our expansion in the edible oil refining facilities, focus on higher branded sales volume and the backward integration process initiatives will cater to the growing demand for edible oil and support value added growth in the times to come.
