In June 2013, Mahindra & Mahindra (M&M) announced a Global Alliance with CIE. The alliance was executed completely in Dec'14 and has led to the formation of a single publicly-listed entity in India that includes all of the Systech automotive component businesses as well as CIE's European forgings business. Rationale for the alliance between Mahindra & CIE <ul style="list-style-type: none"> ➤ Mahindra now has access to a global auto components supplier while CIE has gained entry into Asia – a key automotive market it had limited presence in. MCIE strategy regionwise <ul style="list-style-type: none"> ➤ India : Waiting for volumes to return at key customers and benefit from existing operating leverage. Focus is to diversify product-customers with CIE support. MCIE India exports from some of its verticals like Foundry, Gears & Magnetism. It will continue to explore these opportunities but the main focus will remain the domestic market ➤ MFE – Turnaround by focusing on internal efficiency improvements. ➤ Metalcastello – Turnaround by focusing on cost reduction & increasing revenues via new customers. ➤ CIE Forge – Maintain current performance Overall goals of MCIE: In the 1st phase, MCIE will focus on financial consolidation and meeting the five parameters that CIE uses to evaluate businesses viz. RONA%, EBIT%, Free Cash Flow/ EBITDA, Net Operating Assets/ EBITDA, Debt/ EBITDA. In the 2nd phase, MCIE will focus on growth including via acquisitions both in India & ASEAN. Acquisitions will be subject to prudent financial norms listed above Integration <ul style="list-style-type: none"> ➤ To ensure integration, the different verticals of MCIE work closely with similar verticals of CIE under the guidance of the CIE global heads of each of these verticals.
