Boost to ‘Make in India’: Sahasra–Biometrik Partner for AI Enabled Face-Detecting Authentication Tokens

New Delhi, February 20, 2026

Sahasra Group today announced the signing of a strategic Memorandum of Understanding (MoU) with Biometrik at the India AI Impact Summit 2026, held at Bharat Mandapam, New Delhi. The partnership marks a significant step towards strengthening India’s capabilities in secure digital authentication hardware under the Make in India and Digital India initiatives.

Under the agreement, Sahasra Group will serve as the manufacturing partner for AI enabled Face-Detecting USB-based Authentication Tokens and Readers, while Biometrik will bring its proprietary technology expertise as the technology partner. The collaboration aims to enable secure, indigenous production of advanced authentication devices designed to support digital governance, enterprise security, fintech, and critical infrastructure applications.

The signing took place at Bharat Mandapam during the AI Summit in the presence of Shri. Sushil Pal, Joint Secretary, MeitY, re-enforcing Government of India’s continued commitment to nurturing indigenous innovation and partnerships. The MoU was signed by Mr. Ram Kunchur from Biometrik and Mr. Varun Manwani from Sahasra.

Shri. Sushil Pal, Joint Secretary, MeitY on the occasion of the signing, said:

“Partnerships like this between Sahasra Group and Biometrik demonstrate how Indian technology innovation and manufacturing can come together to build trusted, secure, and globally competitive solutions. This collaboration aligns strongly with the Government’s vision of Atmanirbhar Bharat and Digital India.”

Mr. Ram Kunchur, Founder, Biometrik, added:

“At Biometrik, our mission has always been to deliver cutting-edge authentication technologies that enhance trust in digital systems. Partnering with Sahasra Group allows us to combine deep technology innovation with world-class manufacturing capabilities in India. Together, we aim to scale production of advanced AI enabled Face-Detecting USB based Authentication Tokens and RFID Card Readers for India and the world.”

Mr. Varun Manwani, CEO, Sahasra Group, said:

“This partnership represents a significant milestone for Sahasra Group as we continue to expand our footprint in electronics manufacturing. By collaborating with Biometrik, we are enabling the production of secure, AI-enabled authentication devices within India. We are committed to building robust, future-ready manufacturing capabilities that position India as a global hub for trusted electronics manufacturing.”

The collaboration is expected to boost local manufacturing of secure hardware, lower import dependence, and strengthen India’s position in the growing global market for authentication and digital identity solutions.

About Sahasra Group

Sahasra, meaning the new millennium, established in the year 2000 is a leading player in the Indian electronics system design and manufacturing space for the last 25 years.

We operate across key product verticals in Electronics that include PCB Fabrication, EMS Services, Memory Products & Solutions, Consumer and Enterprise IT Hardware, Smart LED Lighting, RFID Solutions & Semiconductor Packaging.

We export to 20+ countries worldwide and supply to India's biggest and to global companies. With six manufacturing facilities in India and Rwanda, and a global footprint which includes offices in the USA, Canada, Europe, Africa, the UK, and Asia we serve these markets.
