Object 1: Capacity expansion and upgradation of manufacturing facilities: The Government of Telangana vide G.O. In view of these policy developments, the Company considered the regulatory position regarding approvals for further upgradation of manufacturing facilities located within the identified areas while evaluating its future manufacturing expansion plans. In parallel, the Company undertook a comprehensive technical, financial and regulatory feasibility assessment to evaluate more efficient strategic alternatives to the proposed upgradation of its existing sterile injectable manufacturing facilities. Based on this assessment, the Company identified the development of a new state-of-the-art sterile injectable manufacturing facility outside the Outer Ring Road (ORR) as a more suitable and strategically advantageous alternative for achieving the underlying objectives disclosed in the Prospectus. During this strategic evaluation, the Company identified an opportunity to acquire a controlling 60% equity stake in Saicriti Pharma Private Limited, which, is constructing a state-of-the-art critical care injectable manufacturing facility at Gummaddala, Hyderabad, designed to meet international regulatory standards including EU-GMP and USFDA.					
Object 2: Establishment of a new R&D Centre: The Company proposes to acquire a 60% equity stake in Pratyaksh Laboratories Private Limited ("Pratyaksh"). Pratyaksh has established pharmaceutical R&D organisation at Genome Valley, Hyderabad. The proposed acquisition will provide the Company with immediate access to an existing R&D facility, experienced scientific personnel, specialised research capabilities and an ongoing product development pipeline. Instead of setting up a new R&D Centre from the ground up, the Company proposes to acquire an established R&D platform and is expected to achieve the same objectives in a shorter timeframe and at a lower cost.					
4) Effect of the proposed variation/alteration on the financial position of the company- The proposed variation will not result in any increase in the total amount of the IPO proceeds proposed to be utilised for the respective objects. The Company proposes to utilise Rs.838.34 million, out of the amount originally earmarked for capacity expansion and upgradation of manufacturing facilities, towards the acquisition of a 60% equity stake in Saicriti Pharma Private Limited. Similarly, Rs.180.23 million, originally allocated for establishment of the Research and Development (R&D) Centre, will be utilised towards the acquisition of a 60% equity stake in Pratyaksh Laboratories Private Limited. Accordingly, the proposed variations do not involve any additional utilisation of the IPO proceeds beyond the amounts originally approved by the shareholders. Instead, it changes the mode of implementation of the approved objects by utilising the allocated funds for acquiring controlling stakes in established businesses that are expected to achieve the same strategic objectives.					
5) Major Risk factors pertaining to the new Objects- a) The proposed acquisition of a 60% equity stake in Saicriti Pharma Private Limited is subject to execution of definitive agreements, receipt of statutory and regulatory approvals, fulfilment of customary conditions and completion of the transaction. Any delay in these processes may impact the proposed implementation timeline. Since the manufacturing facility is currently under development, there may be delays in construction, installation of equipment, validation activities or receipt of regulatory approvals required for commencement of commercial production. Following completion of the acquisition, the Company will also undertake integration of the operations and systems of Saicriti Pharma Private Limited with its own. The continued involvement of the existing promoters, who will retain a 40% equity stake, is expected to support a smooth transition and continuity in project execution. Further, as disclosed under Risk Factor No. 13 on pages 45 and 46 of the Prospectus, the operations at Unit I and Unit II are proposed to remain suspended until the commencement of commercial operations at the manufacturing facility of Saicriti Pharma Private Limited. b) The proposed acquisition of a 60% equity stake in Pratyaksh Laboratories Private Limited is subject to execution of definitive agreements, completion of due diligence, receipt of statutory and regulatory approvals, fulfilment of customary conditions precedent and completion of the transaction. Any delay in satisfying these requirements may impact the proposed implementation timeline. Following completion of the acquisition, the Company will integrate Pratyaksh's operations, management systems, quality processes and business functions with its own. Effective integration will be important to realise the expected benefits of the acquisition. The Company will also be dependent on retaining Pratyaksh's experienced scientific personnel and technical expertise, which are integral to its research and development capabilities and ongoing product development programmes.
