SUB: Sakar is listed amongst TOP 10 ONCOLOGY DRUG MANUFACTURERS 2024 by India Pharma Outlook

Ref.: Announcement under Regulation 30 (LODR)

Dear All,

We are happy to share that Sakar's research-driven API-integrated EU GMP approved oncology finished dosage formulation manufacturing unit has been listed amongst Top 10 oncology drugs manufacturers 2024 by India Pharma Outlook.

This cytotoxic plant is vertically integrated with API and manufactures oral solids (tablets, capsules) and injections (liquid, lyophilised). The EU GMP approved unit is equipped with up-to-date equipment and complies relevant regulatory guidelines. The unit presently caters to domestic partners, while Sakar is in the process of active business development at global level with major focus of licensing out prepared European standard dossiers to partners in regulated markets. This will open up the export business vertical with few quarters.

This accreditation will certainly encourage present partners who have relied on Sakar since inception of the oncology unit and provide the boost in overseas prospects' confidence. Now, Sakar oncology ranked amongst top 10 oncology drug manufacturers will certainly add the impetus to deliver the best of technology and drugs to the society and improve the top and bottom lines for the organisation.

We thank you for your patience, continual support and encouragement.

Thanking you.

Yours faithfully,

for SAKAR HEALTHCARE LIMITED
