- Company delivered a strong improvement in profitability, with PAT margin at **14%** expanding sharply YoY, reflecting operating leverage, improved efficiencies, and disciplined cost management

Commenting on the Results, Mr. Sanjay Shah, Managing Director *said,*

Q1FY27 marks another period of steady progress, supported by healthy year-on-year growth. The company remains on a strong growth trajectory in terms of both revenue and profitability, reinforcing the promising outlook for the business over the longer term. Our Oncology business remains a key pillar of our strategy. During the quarter, we expanded commercial engagements, strengthened export momentum, and advanced dossier submissions, Marketing Authorizations, site variation approvals, and technology transfer projects with leading global pharmaceutical partners. We also enhanced our integrated oncology platform by expanding our portfolio of in-house APIs supported by key regulatory certifications, reinforcing our capabilities and long-term competitive position.

Looking ahead, we remain confident that converting regulatory approvals into commercial launches and supplies, alongside growing export opportunities and the gradual ramp-up of oncology volumes, will improve capacity utilisation and operating leverage. Backed by a robust product pipeline, regulatory progress, and an expanding international presence, we are well positioned to deliver sustainable and profitable growth. Our long-term outlook remains promising, underpinned by the scalability of our oncology platform and the progressive commercialization of our product portfolio

About Sakar HealthCare Limited:

Established in 2004 and headquartered in Ahmedabad, Gujarat, Sakar Healthcare Limited is a publicly listed pharmaceutical manufacturer and exporter specializing in oncology, antibiotics, and general formulations. The company operates world-class, EU-GMP and WHO-GMP certified facilities equipped to manufacture oral solids, injectables, oral liquids, and high-potent oncology products. Sakar's oncology division at Bavla represents a research-driven, API-integrated facility focused on developing and commercializing complex cytotoxic formulations and APIs, underscoring its commitment to innovation and quality. With an extensive global footprint across more than 60 countries, Sakar serves as a trusted partner to multinational pharmaceutical companies through CDMO, CRAMS, and technology transfer collaborations. Driven by its vision to deliver world-class healthcare solutions that make lives healthier and more meaningful, Sakar continues to expand its presence across regulated markets through strong R&D capabilities, regulatory excellence, and sustainable manufacturing practices rooted in green chemistry principles.
