Govt clears Dixon-Vivo JV for domestic phone manufacturing

Dixon Technologies said on Thursday the Indian government had approved its joint venture with Chinese smartphone maker Vivo Mobile, clearing the way for the companies to set up a smartphone manufacturing company in India. The joint venture will be owned 51 per cent by Dixon and 49 per cent by Vivo Mobile India. Large investments by Chinese companies in Indian ventures draw tougher scrutiny under domestic regulations. The venture will manufacture smartphones and other electronic devices as an original equipment manufacturer in India and will undertake Vivo's smartphone production orders.

Micron to invest \$250 bn in US chip supply chain

Micron Technology said on Thursday it plans to invest more than \$250 billion in the US through 2035, driven by surging demand for memory chips in the AI era and US President Donald Trump's push to bolster domestic chip production. The new investment plan represents a jump from the \$200 billion that Micron announced last June, which was already increased by \$30 billion from its original spending plans. Shares of Micron were up about 8 per cent in early trading, adding to a more than 200 per cent surge in value so far this year.

Gujarat launches data centre policy

The Gujarat government on Thursday launched the "Viksit Gujarat Data Centre Policy 2026-29", and announced that it has already received proposals from 14 companies to set up data centres and expects investments of more than ₹6 trillion in the first phase. Chief Minister Bhupendra Patel said the initiative will make Gujarat the country's preferred destination for data centres.

Meta debuts Muse Spark 1.1 with preview open to developers

Meta Platforms on Thursday released long-awaited developer access to its Muse Spark AI model alongside an upgraded version, pitting it directly against the business models of Anthropic and OpenAI in charging for use of its AI. The social media giant touted Muse Spark 1.1 as its most capable model for real-world coding and agentic tasks, part of a broader mission the company is pitching of delivering "personal superintelligence." Meta said the upgraded model can write and debug code, use software and external tools, understand text, images and video, and carry out complex multi-step tasks with less human intervention. In April, Meta debuted Muse Spark, the first text and reasoning AI model from the superintelligence team it assembled last year.

APPS, EXPERTS FLAG TRAI'S APPROACH AS 'OVERREACH'

Meity evaluating Trai request for regulating caller ID apps

AASHISH ARYAN & GULVEEN AULAKH New Delhi, 9 July

The Ministry of Electronics and Information Technology (Meity) is evaluating a request from India's telecom regulator to be designated as an authorised agency to regulate apps that offer caller identification and call management services, Meity Secretary S Krishnan said on Thursday, adding that the ministry was in discussions with the department of telecom (DoT) on the matter.

"They have reached out to us to seek powers to regulate call-management apps like Truecaller. We are consulting the DoT on granting powers and we will have to see legally what to do about it," Krishnan said on the sidelines of the "CII GCC Summit".

Caller ID apps like Truecaller do not directly fall under the regulatory scrutiny and jurisdiction of the Telecom Regulatory Authority of India

Caller scrutiny

- Looking into Trai's proposal to regulate caller ID apps: Meity secy
- Banks flagged issue of consumers not taking calls with series 1600- /140-
- Banks' ability to raise fraudulent transactions, pursue loan recovery getting impacted, officials said
- Trai seeking to become authorised agency under IT Act to flag violations

(Trai), the regulator. As intermediaries, they are governed by rules and regulations falling under the Information Technology Act, 2000.

Truecaller Chief Executive Officer Rishit Jhunjhuna said in a post on X on July 8 that what Trai sought was "unacceptable". Trai regulates licensed providers of telecom, internet and broadcasting services in accordance with the Trai Act.

According to officials, Trai has not asked for powers to regulate these apps but to be designated an "authorised agency" by Meity in accordance with the IT Act so that it can act on violations of its regulations by apps. The issue stems from banking and financial-sector entities seeking Trai's intervention to ensure that callers they make to customers do not get blocked by platforms like Truecaller.

TCS headcount up 9.2K in Q1

AVIK DAS Bengaluru, 9 July

Tata Consultancy Services (TCS) added 9,279 employees in the first quarter, marking the second straight period when the company increased its headcount after the massive layoffs last financial year.

TCS' total headcount stood at 593,798 at the end of June. It added 2,356 people between January and March.

The headcount addition marks a good start to the year when macroeconomic uncertainties persist and the environment remains volatile. Still it means the company has better visibility into deal pipelines.

CEO K Krithivasan said white collar jobs are unlikely to go down because of AI. "We hire whenever we feel we'll have enough demand and for specific skills. I don't believe AI will reduce overall headcount."

"This quarter, we completed annual salary increments for all associates globally and aligned salary structures with the new India labour Code requirements. We continue to invest into AI infrastructure, next-generation skill development platforms, to enable our people to be future ready," Sudeep Kunnungal, chief HR officer, said.

In April, India's biggest IT services company said it will hire about 25,000 engineering graduates from college campuses, down sharply from its average of 40,000, stoking concerns about jobs in the IT sector.

Kunnungal said in the fourth quarter, TCS onboarded 14,000 campus graduate. "As we speak we are visiting top universities across the country and hiring top talent."

Nilekani-backed Fundamentum launches third fund of ₹2,200 crore

(From left) Fundamentum Fund III will be led by Mayank Kacchawaha, Sanjeev Aggarwal, Prateek Jain, and Sanjay Chaturvedi

PEERZADA ABRAR Bengaluru, 9 July

The Fundamentum Partnership, the venture capital firm cofounded by Infosys cofounder Nandan Nilekani and veteran investor Sanjeev Aggarwal, said it launched a ₹2,200 crore third fund, betting that India's growth-stage startups still need dedicated capital.

The fund, which includes a ₹400 crore greenshoe option, makes Fundamentum the only pure-play Series-B investor in India to reach a third vintage.

Nilekani has made his largest personal investment yet in any venture firm as the fund's anchor investor, the company said.

Fund III marks the continuation of Fundamentum's thesis-led Series-B investment strategy. The early-growth stage—where companies have achieved product-market fit and are preparing to scale—remains a critical funding gap in India's startup ecosystem.

"This new fund is being launched at a significant moment as India's startup ecosystem enters a new phase, driven by technol-

ogy, formalisation, expanding domestic demand and a robust digital public infrastructure that was practically absent a decade ago," said Nilekani, also known as the architect of Aadhaar. "Indian startups in the coming decade will scale at a pace unlike any previous generation, and Fundamentum with its expanded leadership team, is well positioned to enable that journey."

Fund III will be led by Aggarwal, Prateek Jain, Mayank Kacchawaha and chief financial officer Sanjay Chaturvedi. Jain and Chaturvedi have been with

Fundamentum since its launch, while Kacchawaha joined during Fund II to build the firm's fintech investment practice.

"We are building a generational firm. Our goal is to build a firm which outlasts all of us. As we launch Fund III, we are excited to see the evolution of home-grown leaders within the firm take on the mantle of General Partners," said Aggarwal. "With this expanded leadership team, Fundamentum Partnership continues to be bullish in identifying the next generation of enduring tech-led businesses from India."

RDI fund's maiden startup cohort may plug deeptech gaps

The first batch of five startups selected as part of the government's ₹1 trillion Research, Development and Innovation (RDI) fund is likely to emerge as an anchor portfolio of deep-tech firms that are developing indigenous technologies in strategic sectors. The cohort was selected by the Technology Development Board (TDB), which was allocated ₹2,000 crore to invest in deep-tech companies.

UDISHA SRIVASTAV

First batch selected under TDB-RDI fund

Project cost (₹cr)	TDB-RDI funding (₹cr)	Project description
125	250	Eyestem Research Developing cell therapies for dry age-related macular degeneration & idiopathic pulmonary fibrosis
105	210	Dhruva Space Project Garuda: First indigenous 500 kg-class communication satellite platform
94	191	e-TRNL Energy Developing & manufacturing next-gen lithium-ion batteries
30	60	Endure Air Systems SABAL-200: Indigenous heavy-lift unmanned aerial system to transport payloads up to 200 kg
11.4	22.83	Noccarc Robotics Developing a portable critical-care platform for ambulances & resource-constrained hospitals

India's ecom mkt may reach \$250 bn by '30

India's ecommerce market is projected to nearly triple to about \$250 billion by 2030 from roughly \$90 billion in 2025, as artificial intelligence reshapes how consumers discover, buy and receive goods online, according to a report by logistics platform Shiprocket and consulting firm Deloitte. The report also highlights the growing importance of Bharat in India's digital commerce journey. It said businesses will need to build more inclusive, vernacular-first commerce experiences. This is because 488 million rural internet users account for 55 per cent of India's active internet population. The report also notes that Tier-II and -III cities already account for over 60 per cent of India's online shoppers, reflecting the growing contribution of Bharat to India's digital economy.

SANDHAR Sandhar Technologies Limited

Registered Office: B-6/20, L.S.C. Safdarjung Enclave, New Delhi-110029 Website: www.sandhargroup.com, E-mail: investors@sandharin

Shareholders of the Sandhar Technologies Limited ("the Company") are hereby informed that pursuant section 124 of the Companies Act, 2013 read with Investor Education and Protection Fund Authority (Accounting Audit, Transfer and Refund) Rules, 2016 ("the Rules"), as amended, from time to time, the Final Dividend for the Financial Year 2018-19, which remain unclaimed for seven years as on 05th October, 2026 will be credited to IEPF. The corresponding share on which dividends were unclaimed for seven consecutive years will also be transferred as per the procedure set out in the Rules.

Individual notices are being sent to all the concerned shareholders whose shares are liable to be transferred to IEPF as per the aforesaid Rules, the full details of such shareholders are made available on the Company's Website https://sandhargroup.com/

In this connection, please note in case you hold shares in electronic form: Your demat account will be debited for the shares liable for transfer to the IEPF.

We request the shareholders in their own interest, to verify the details of shares liable to be transferred to IEPF and claim their dividends. In the event valid claim is not received on or before 05th October, 2026 the Company will proceed to transfer the unclaimed dividend and equity shares in favour of IEPF authority, without any further notice.

Please note that no claim shall lie against the Company in respect of unclaimed dividend amount and shares transferred to IEPF pursuant to the said rules. It may be noted that the concerned shareholders can claim the shares and dividend from IEPF authority by making an application in the prescribed Form IEPF-5 Online and sending the physical copy of the requisite documents enumerated in the Form IEPF-5, to the Nodal Officer of the Company.

For any clarification on the matter, please contact the undersigned. The request in this regard should be sent at companies e-mail i.e. investors@sandharin or at Company's Registrar and Transfer Agent (MUFG Intime India Private Limited) email: rnt.helpdesk@in.mfpmu.com
