Dear Sir/ Madam

Subject: Press Release

Please find attached a copy of Press Release titled “**MMRFIC (Associate Company of Sansera Engineering Limited) collaborates with IITM for the development of Secure SoC IP**”

The attached Press Release will also be made available on the website of our Company www.sansera.in.

Kindly take the same on your record.

Thanking you,

for Sansera Engineering Limited

Rajesh Kumar Modi
Company Secretary and Compliance Officer

MMRFIC Collaborates with IITM for the development of Secure SoC IP

Tuesday, 1st April 2025, Bengaluru – MMRFIC Technology Private Limited, an associate company of Sansera Engineering Limited, announced a strategic partnership by signing a Memorandum of Understanding (MoU) with Indian Institute of Technology Madras (IITM) for the development of RISC-V based Secure SoC as a Strategic venture for Government of India. The Indian Institute of Technology Madras is known both nationally and internationally for excellence in technical education, basic and applied research, innovation, entrepreneurship and industrial consultancy.

Details of this collaboration:

RISC-V (pronounced “risk-five”) is a free and open Instruction Set Architecture (ISA) enabling a new era of processor innovation through open standard collaboration. The aim of SHAKTI (an open-source initiative by the RISE group at IITM) is to produce production-grade processors, complete System on Chips (SoCs), development boards and SHAKTI-based software platforms. This 5-year MOU, which facilitates the use of each other’s Engineering manpower and EDA tools required, is a joint responsibility of IITM and MMRFIC.

MMRFIC has all the required capabilities, expertise and experience to contribute to this development and will be responsible for the following:

- Building and testing the “Secure SoC” using the hardware and software components given by IITM and MMRFIC’s indigenously developed Cryptographic accelerators.
- Coordinating the project plan, schedule and sharing of resources, including human, hard and soft resources
- Integrating the hardware and software components, software toolchain, scripts, specifications and validation results

About MMRFIC Technology Private Limited

MMRFIC is a Bangalore-based indigenous mm-Wave & RF Product company. Established in 2014, the company specializes in the design and development of mm-Wave & RF Products for the Defence, Communication, Automotive, and Health-care sectors. MMRFIC is indigenously developed components, sub systems and end-to-end systems with RF and mm-Wave Technology for next generation Radar in the Defence & Automotive sectors leveraging Machine learning and AI for Object Identification, including Friend & Foe recognition. Additionally, in the Health-care market, MMRFIC has provided IoT enabled IPs and Solutions for monitoring essential health parameters.

About Sansera Engineering Limited

Sansera Engineering Limited was incorporated in 1981. Sansera is an engineering-led integrated manufacturer of complex and critical precision engineered components across automotive and non-automotive sectors. Within the automotive sector, we manufacture and supply a wide range of precision forged and machined components and assemblies, such as connecting rod, rocker arm, crankshaft, gear shifter fork, stem comp, and aluminum forged parts, which are critical for engine, transmission, suspension, braking, chassis and other systems for the 2-wheeler, passenger vehicle and commercial vehicle verticals. Within the non-automotive sector, the Company manufactures and supplies a wide range of precision components for the aerospace, off-road, agriculture and other segments, including engineering and capital goods.
