Sattva Engineering wins ₹123.9 crore BWSSB orders with 7-year O&M component; Strengthens water infrastructure portfolio

Chennai, India – May 14, 2026: Sattva Engineering Construction Limited has secured two turnkey wastewater treatment infrastructure contracts from Bangalore Water Supply and Sewerage Board with a combined order value of approximately ₹123.9 crore (excluding GST). The projects involve the design, construction, commissioning, and 7-year operations & maintenance (O&M) of sewage treatment plants (STPs) in Bengaluru, further strengthening the company's presence in India's urban water and environmental infrastructure sector.

Project background:

Sattva Engineering Construction Limited has received **Letters of Acceptance** (LoAs) from BWSSB for two wastewater treatment infrastructure projects:

1. Koramangala STP Project

- **Capacity:** 20 MLD¹
- **Technology:** Integrated Fixed Film Activated Sludge (IFAS) with BNR²
- **Scope:** Design, construction, commissioning, tertiary treatment, odor control systems, and 7 years of O&M³
- **Order value:** ₹76.1 crores
- **Execution timeline:** 30 months construction + 7 years O&M³

2. Basavanapura STP Project

- **Capacity:** 10 MLD
- **Technology:** Sequential Batch Reactor (SBR) with BNR
- **Scope:** Design, construction, commissioning, tertiary treatment, odour control systems, and 7 years O&M³
- **Order value:** ₹47.8 crores
- **Execution timeline:** 30 months construction + 7 years O&M³

These order wins reinforce the company's growing capabilities in the water and wastewater infrastructure segment while further strengthening its relationship with BWSSB. The embedded long-term O&M³ component enhances revenue visibility and supports the development of a more stable and recurring revenue profile over time. With increasing investments across urban sanitation, water recycling, & environmental infrastructure in India, the company remains well-positioned to capitalize on the sector's long-term growth opportunities.

1. MLD - Million liters per day | 2. BNR - Biological nutrient removal | 3. O&M - Operations and maintenance

About Sattva Engineering and Construction Limited:

Sattva Engineering Construction Limited (“Sattva Engineering” or the “Company”) is an engineering and infrastructure company with expertise in executing turnkey industrial and environmental infrastructure projects, with a growing presence in water and wastewater treatment solutions. The Company offers integrated capabilities across engineering design, procurement, construction, commissioning, and long-term operations & maintenance, enabling end-to-end project execution. Its clientele includes government agencies, public utilities, and industrial customers requiring technically complex infrastructure solutions. Sattva focuses on delivering quality-led execution across water treatment, wastewater management, and allied infrastructure segments, supported by disciplined project management and engineering expertise.
