Dear Shareholder,

Sub: Web-link of the Annual Report for the Financial Year ended March 31, 2026**Folio No: [•]**

We are pleased to inform you that the 26th Annual General Meeting (AGM) of SBI Life Insurance Company Limited ('the Company') is scheduled to be held on **Friday, August 14, 2026 at 02.30 P.M. (IST)** through Video Conference (VC) / Other Audio-Visual Means (OAVM), in compliance with the various circulars issued by Ministry of Corporate Affairs (MCA) and Securities and Exchange Board of India (SEBI) from time to time to transact the business(es) as set out in the Notice convening the Meeting (Notice).

In September 2025, the Ministry of Corporate Affairs (the MCA) issued a clarification, continuing the relaxation from dispatching physical copies of financial statements (including Board's report, Auditor's report or other documents required to be attached herewith) to the Members.

The Notice of the 26th AGM along with the Integrated Annual Report for the financial year 2025-26 is being sent by electronic mode to Members whose e-mail IDs are registered with the Registrar & Share Transfer Agent (RTA) or the Depository Participants (DPs).

In terms of Regulation 36(1)(b) of the SEBI (Listing Obligations and Disclosure Requirements), Regulations, 2015, in the absence of your email ID registered with the RTA / Depository Participant, this letter is being sent to you to provide the web-link along with the path to access the Annual Report of Company, which is given below.

The Notice of the 26th AGM of the Company and the Integrated Annual Report for FY 2025-26 can also be accessed through the website of the stock exchange(s) where the shares of the Company are listed i.e. BSE Limited at www.bseindia.com and National Stock Exchange of India Limited at www.nseindia.com. The Notice of the AGM can also be accessed through the website of Remote e-Voting service provider i.e. KFin Technologies Limited (KFintech) at <https://evoting.kfintech.com>.

We would also like to draw your attention to the Senior Citizens Investor Cell created by our RTA to assist exclusively the shareholders who are above 60 years of age for any investor service related issues. Senior citizens who wish to avail this service can send the communication to senior.citizen@kfintech.com. A dedicated toll-free number 1800-3094-001 is also provided for the convenience of the senior citizens.

Pursuant to the provisions of Section 108 of the Companies Act, 2013 read with Rule 20 of the Companies (Management and Administration) Rules, 2014, Regulation 44 of SEBI Listing Regulations and any other applicable provisions, the Company shall provide Members with a facility to exercise their right to vote by electronic means for the business to be transacted at the AGM. The Company has accordingly engaged KFintech as the authorized agency for facilitating voting through electronic means. The remote e-voting facility will be available as given below:

Commencement of e-voting	Monday, August 10, 2026, 09:00 A.M.
Closure of e-voting	Thursday, August 13, 2026, 05:00 P.M.

During the above period, Members as on Friday, August 07, 2026 i.e. the cut-off date, may cast their vote electronically. The e-voting module shall be disabled by KFintech for voting thereafter. An additional window for e-voting shall also be made available during the AGM to those Members who could not cast their vote during the above e-voting period. The detailed procedure for e-voting and joining virtual meeting is provided in the AGM Notice.

The Members will be able to attend the AGM or view its live webcast made available by KFintech at <https://emeetings.kfintech.com>. The link for VC/OAVM will be available in Shareholder/Member login where the E-voting Event Number (EVEN) '9947' and the name of the company can be selected.

Please note that the Members who do not have the User ID and Password for e-voting or have forgotten the User ID and Password may retrieve the same by following the e-voting instructions mentioned in the AGM Notice.

In case of any query pertaining to e-voting, members may refer the Frequently Asked Questions (FAQs) and e-voting User Manual available at the 'download' section of <https://evoting.kfintech.com> or call on toll free no. 1800-309-4001 or send a request to KFintech at inward.ris@kfintech.com who will address the grievance connected with the facility for the voting by electronic means. Alternatively, members may also write to Company at investor@sbilife.co.in.

For any queries or further assistance on KYC updation, demat holders are requested to contact their respective Depository Participants.

EXPLANATORY STATEMENT PURSUANT TO SECTION 102(1) OF THE COMPANIES ACT, 2013

As required under Section 102(1) of the Companies Act, 2013, a statement setting out the material facts concerning ordinary and special business in respect of Item No. 3 to 4 as set out above is annexed hereto.

ITEM NO. 3

Pursuant to the provisions of Sections 139(5) and 142 of the Companies Act, 2013 ("Act"), the Statutory Auditors of the Company are appointed by the Comptroller and Auditor General of India ("C&AG"). The Statutory Auditors for the financial year 2026-27 are yet to be appointed by the C&AG.

In terms of Section 142 of the Act, the remuneration of the Statutory Auditors is required to be fixed by the Company in the Annual General Meeting or in such manner as the Company in general meeting may determine. The approval of the Members is sought to authorise the Board of Directors, on the recommendation of the Board Audit Committee, to determine and fix the remuneration payable to the Statutory Auditors appointed by the C&AG for the financial year 2026-27 i.e. for the period from the date of their appointment until the conclusion of the next Annual General Meeting.

The Board recommends the Ordinary Resolution set out at Item No. 3 of the Notice for approval of the Members.

None of the Directors, Key Managerial Personnel of the Company and their relatives is, in any way, concerned or interested, financially or otherwise, in the proposed resolution.

ITEM NO. 4

Mr. Amit Jhingran (DIN: 10255903) was appointed as the Managing Director & Chief Executive Officer ("MD & CEO") of the Company for a period of two years with effect from October 1, 2023 at the Board meeting held on September 28, 2023, in accordance with the approval of the Members, and approval accorded by Insurance Regulatory Development Authority of India ("IRDAI") in terms of Section 34A of the Insurance Act, 1938. Further, members at their meeting held on August 29, 2025 at 25th Annual General Meeting have approved the extension of tenure of MD & CEO of the Company with effect from October 1, 2025 till January 31, 2027.

The remuneration of Mr. Amit Jhingran, MD & CEO is governed by SBI Officers Service Rules and is being reimbursed by the Company to State Bank of India ("SBI") as Mr. Amit Jhingran is on deputation from SBI. The revision in the remuneration of Mr. Amit Jhingran, MD & CEO, is due to change in the SBI Officers Service Rules.

After considering his immense experience in the business and his knowledge of various aspects relating to the Company's affairs and long term business experience, expansion, based on performance evaluation during his tenure and pursuant to change in SBI Officers Service Rules, the Board of Directors based on the recommendation of Board Nomination & Remuneration Committee has recommended the proposal for revision in the remuneration of Mr. Amit Jhingran for approval of the members.

The current remuneration of MD & CEO is as follows:

4. Furnished house, vehicle etc. provided by the Company
5. Leave Encashment on actual basis
6. All salary payments, including perquisite and bonus, are subject to change as per SBI's terms and conditions

The revision in the remuneration is subject to the prior approval of IRDAI under Section 34A of the Insurance Act, 1938. It may be noted that the Company, being an Indian Insurance Company in terms of the Insurance Act, 1938 and read with applicable notifications issued thereunder, the provisions relating to remuneration, including amendment thereof, of Managing Director / Whole Time Directors are regulated by the said Act and the IRDAI (Corporate Governance for Insurers) Regulations, 2024 and Master Circular on Corporate Governance for Insurers, 2024 dated May 22, 2024 as amended from time to time.

Brief profile and other additional information in respect of Mr. Amit Jhingran, pursuant to the Secretarial Standard on General Meetings (SS-2) issued by the Institute of Company Secretaries of India, is provided at **Annexure A** to this Notice.

Except Mr. Amit Jhingran and his relatives, none of the Directors, Key Managerial Personnel of the Company or their relatives are in any way, concerned or interested, financially or otherwise, in the said Resolution.

Mr. Amit Jhingran is not related to any Director or Key Managerial Personnel of the Company. Further, the relatives of Mr. Amit Jhingran may be deemed to be interested in the resolution to the extent of their shareholding interest, if any, in the Company. SBI having nominated Mr. Amit Jhingran as the MD & CEO, shall be deemed to be interested in the proposed resolution.

The Board, accordingly, recommends passing of the Ordinary resolution as set out at Item No. 4 of this Notice, for the approval of the Members.

Approach to Reporting

At SBI Life Insurance Company Limited, our approach to reporting reflects the way we run the business, integrated, transparent and aligned to long-term value creation.

As we complete over 25 years of operations, our reporting philosophy has evolved from presenting financial outcomes to delivering a more connected view of performance, bringing together strategy, governance, risk, sustainability and stakeholder engagement into a cohesive narrative.

This Integrated Annual Report for FY26 provides a balanced perspective of our financial and non-financial performance, key priorities, risks and opportunities, aligned with regulatory requirements and global best practices.

Reporting Objective

Our objective is to present relevant, consistent and comparable information that enables stakeholders to make well-informed decisions.

Scope and Boundary

This Report covers SBI Life's operations and performance for the period **April 1, 2025 to March 31, 2026**, including both financial and non-financial aspects.

Reporting Framework

This Report has been prepared in compliance with applicable laws and regulations, including:

- Insurance Act, 1938, as amended from time to time, including amendments introduced under the Sabka Bima Sabki Raksha (Amendment of Insurance Laws) Act, 2025
- Companies Act, 2013
- Regulations issued by IRDAI (including Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024, IRDAI (Corporate Governance for Insurers) Regulations, 2024 etc
- SEBI (LODR) Regulations, 2015
- Accounting Standards issued by ICAI
- Secretarial Standards issued by ICSI

The Report also draws guidance from the <IR> Framework (IFRS Foundation) and aligns with globally accepted principles for integrated and non-financial reporting.

Voluntary Reporting and ESG Alignment

SBI Life continues to be among the early adopters of integrated reporting in the Indian insurance sector, having voluntarily first adopted in FY19. This marks our eighth Integrated Annual Report, reinforcing our commitment to transparency and responsible business practices.

We have also published a detailed ESG Report, providing deeper insights into our Environmental, Social and Governance initiatives.

Strategic Priorities

We adopt an integrated approach to decision-making, aligning strategy, risk management, ESG priorities and capital allocation to deliver sustainable value for stakeholders.

- S1** – Robust distribution model with unparalleled reach
- S2** – Sustainable growth with value creation
- S3** – Customer engagement with enhanced experience
- S4** – Building a skilled and dynamic team
- S5** – Expanding digital footprints for seamless journey

Mitigating the Risks that Matters

We proactively identify and manage key risks while leveraging emerging opportunities to sustain long-term growth.

- Distribution Risk
- Product Mix Risk
- New Business Risk
- Data Privacy Risk
- Cyber Security Risk

Our Capitals

We create sustainable long-term value by effectively managing six interconnected capitals:

Financial Capital

Strong financial performance and prudent capital management

Service Capital

Extensive distribution network and digital infrastructure

Intellectual Capital

Technology, innovation and data-driven capabilities

Human Capital

Skilled workforce supported by a culture of performance and care

Social & Relationship Capital

Trusted relationships with customers, partners and communities

Natural Capital

Responsible resource use and environmentally conscious operations

Stakeholders and Their Value Drivers

We actively engage with stakeholders to understand their expectations and align our strategies accordingly:

Customers – Financial protection, seamless digital experiences, transparent communication

Employees – Inclusive workplace, career development, health and well-being

Suppliers – Responsible sourcing and long-term partnerships

Distributors – Digital enablement, collaboration and shared growth

Shareholders – Sustainable returns, strong governance, ESG focus

Regulators – Compliance, ethical conduct and timely disclosures

Communities – Social impact, inclusion and development initiatives

Our Material Topics

We identify material matters based on stakeholder inputs, regulatory developments and internal assessments. These topics represent the most significant issues influencing our ability to create sustainable value.

Built on Trust. Shared in Growth.

For over 25 years, SBI Life has helped individuals and families ascend in life's milestones with confidence, preparedness and financial security. This trust has been earned through products that respond to actual requirements, service that brings clarity, claims support that stands by customers when it matters most and relationships built with care and responsibility. As protection needs evolve, the Company continues to strengthen its role as a dependable life insurer, enabling people to plan for tomorrow with assurance.

India's growth is being shaped by millions of aspirations. For a first-generation earner in a smaller town, protection can help convert a new income into lasting security. For an entrepreneur, it can support continuity beyond the uncertainties of business. For a retiree, it can bring dignity, stability and peace of mind. Their journeys may differ, but the need remains shared: the confidence to protect what they value and participate in growth with greater certainty.

SBI Life's purpose lies in widening this assurance across geographies, income groups and life stages, making the promise of protection more accessible to a changing India.

*Trust is not what is promised.
It is what is proven,
when it matters the most.*

That trust was both validated and deepened. In FY26, Gross Written Premium crossed ₹1 lakh crore for the first time in the Company's history. Over 85.2 million lives are now in force under SBI Life's protection. When the industry faced a GST-driven transition, the Company passed the full benefit to its customers, without hesitation, without condition. Because 25 years of building trust does not allow for exceptions.

Shared growth is the natural outcome of trust compounded over time. When SBI Life grows, more Indian families are protected. When more Indian families are protected, the country grows with greater confidence. This is not a strategy. It is what happens when an institution stays true to its purpose, year after year, cycle after cycle, through every wave of change.

Shared growth is not felt by customers alone. It is felt by employees who grow as the Company grows, by distributors whose livelihoods are built on the same trust they help create, by partners and vendors who are part of an ecosystem grounded in doing things right and by shareholders whose long-term conviction is honoured every time SBI Life chooses lasting value over short-term gain. When growth is rooted in trust, it does not belong to one stakeholder. It belongs to all of them.

*Growth that is shared is the
only kind worth building.*

The next 25 years will be defined by reach, how far the Company goes, how deep it penetrates into underserved India, how many more families are brought under the shelter of meaningful Insurance cover. The foundation for that journey has been laid, trusted relationship for life time. And it will carry SBI Life forward, into every corner of a growing, aspiring, unstoppable India.

Our Purpose

Liberate individuals to pursue their dreams, by securing the needs and aspirations of their loved ones.

Inside SBI Life

Growing with
India Through
Trust and Protection

For 25 years, the Company has grown alongside India, building trust, expanding access and strengthening financial resilience across generations.

Founded in 2001, SBI Life Insurance Company Limited has evolved into one of India's most trusted life insurers, guided by enduring values of trust, transparency and financial empowerment. Backed by the strength of its distribution channels, its journey reflects a deep-rooted commitment to India's progress.

Today, the Company enables aspirations through meaningful insurance solutions, delivered via a robust multi-channel ecosystem and strengthened by digital innovation and disciplined performance.

As SBI Life marks this important milestone, its ambition remains clear to reach further into Bharat, deepen the insurance penetration and build an institution that earns its place in India's story for the next 25 years and beyond.

Chairman's Message

Protecting India's Aspirations for 25 Years

"Twenty-five years ago, we began with a simple purpose of helping Indian families protect what matters most. That purpose remains unchanged. What has evolved is our scale, our responsibility and the trust millions continue to place in SBI Life."

Challa Sreenivasulu Setty
Chairman

Dear Stakeholders,

FY26 marks a significant milestone in SBI Life's journey as we complete 25 years of building trust, protecting aspirations and strengthening financial security for Indian families. This milestone is both a moment of reflection and a reminder of the responsibility we carry as one of India's leading life insurer.

Over the past two and a half decades, SBI Life has grown alongside a transforming India. We have expanded our reach across generations and geographies while remaining anchored in the values that define enduring institutions with trust, discipline, prudence and long-term value creation.

A Resilient India in a Changing Global Environment

The global economy continued to navigate uncertainty during FY26. Geopolitical tensions, trade realignments, elevated interest rates and persistent inflationary pressures weighed on growth across major economies. Global financial markets experienced periodic volatility as central banks maintained a cautious stance amid concerns around energy prices, supply chains and slowing productivity growth.

Against this backdrop, India has demonstrated remarkable resilience. With real GDP growth of 7.7%, India remained among the fastest-growing major economies globally. Strong domestic consumption, sustained infrastructure investment, improving private capital expenditure and stable macroeconomic fundamentals continued to support economic momentum.

Inflation moderated steadily during the year, while the Reserve Bank of India reduced the repo rate by a cumulative 125 basis points, creating a more supportive environment for long-term savings, investment and household financial planning.

India's long-term structural strengths remain compelling. Rising formalisation, favourable demographics, accelerating digital adoption and expanding financial inclusion continue to reinforce the country's growth trajectory and strengthen its position in the global economy.

For the life insurance industry, these trends are particularly significant. Economic growth not only raises incomes, it also deepens financial awareness and increases the need for protection, retirement

planning and long-term savings solutions. While India is expected to add millions of middle-income households over the coming decade, life insurance penetration remains at approximately 2.6%–2.7% of GDP, significantly below global averages. This represents both a substantial opportunity and an important responsibility for the industry.

Building Scale in a Rapidly Evolving Insurance Landscape

India's life insurance sector continued to evolve during FY26, supported by regulatory progression, rising customer awareness and digital adoption. The industry is poised for sustained growth, aligned with IRDAI's vision of "Insurance for All by 2047", which emphasises accessibility, inclusion and customer centricity.

Reforms such as the transition to Ind AS, enhanced foreign investment limits and strengthened policyholder protection frameworks are expected to enhance transparency, resilience and long-term sustainability.

One of the key developments this year was the GST exemption on individual life insurance premiums. This is expected to make life insurance more affordable and reduce costs for policyholders,

encouraging more people to take coverage. By improving access, this step can help increase insurance penetration and strengthen financial security for individuals and families across the country. SBI Life has passed on the full benefit directly to customers, reflecting continued commitment to affordability, accessibility and a strong customer-first approach.

Customer preferences are also evolving steadily. Demand for protection, retirement and long-term savings products continues to strengthen, while digital adoption is transforming how insurance is distributed, serviced and experienced. These shifts are not viewed as disruptions, but as opportunities to build deeper and more enduring customer relationships.

Building an Enduring Institution

Over 25 years, your company has evolved from a young entrant in a liberalising insurance market into one of India's leading life insurance companies with a strong market presence, diversified product portfolio and deep customer relationships.

What differentiates SBI Life is not only the scale of business, but the quality and sustainability of growth, grounded in prudent risk management, strong governance, operational discipline and long-term vision.

Today, SBI Life stands on a strong financial foundation, supported by a diversified business model, robust risk management practices and one of the widest distribution networks in the industry. As your company enters the next phase of growth, the focus remains on strengthening accessibility, deepening customer engagement and building resilience across every aspect of the business.

FY26 was a year of balanced and consistent progress. SBI Life strengthened its market position, expanded reach across emerging customer segments and geographies and continued

to focus on sustainable growth, product relevance and long-term value creation for policyholders and shareholders alike.

Strengthening Trust Through Customer-Centricity

In life insurance, trust is earned over time. It is reflected not only in new business growth, but also in renewals, claims honoured and relationships sustained across decades.

Your company's persistency ratios remained healthy during FY26, reflecting continued customer confidence in the products and services offered by the company. Claim settlement ratio remained around 99.4%, while mis-selling ratio continued to be amongst the lowest in the private industry at 0.02%. These are more than operational metrics, they reflect your company's commitment to ethical conduct, transparency and responsible selling practices.

Technology and digitalisation continued to play a critical role in enhancing customer experience and operational efficiency. Today, nearly all the core processes are digitally-enabled, helping simplify onboarding, underwriting and servicing. Integration with the SBI ecosystem, including the YONO platform, has further strengthened the ability to serve customers seamlessly across physical and digital channels.

SBI Life continues to strengthen its capabilities in data analytics, artificial intelligence and intelligent automation, while recognising the fact that insurance remains fundamentally a relationship-driven business. Your company's focus is on integrating technology with human engagement to deliver a seamless and trusted experience.

Equally important is the strength of the distribution franchise. SBI Life today has one of the widest distribution networks in the industry, covering bancassurance, agency, corporate agents, brokers and digital partnerships. During the year, your

company expanded its presence across Tier 2, Tier 3 and rural markets, a segment with strong growth potential to drive higher insurance penetration and sustain long-term, inclusive growth.

Looking Ahead with Confidence and Responsibility

The long-term opportunities before India's life insurance industry remain substantial. Rising financial awareness, increasing digital adoption, favourable demographics and growing household incomes are expected to drive sustained demand for protection and long-term savings solutions. The next phase of growth in the industry will not be defined by scale alone, but by accessibility, customer trust, product relevance and the ability to serve a broader cross-section of society.

We believe SBI Life is well prepared for this future - to build a resilient, customer-centric and sustainable institution that creates long-term value for all stakeholders.

Every policy your company issues represents a promise, a promise of protection, trust and financial security.

Twenty-five years is an important milestone, but we believe the journey ahead holds even greater possibilities.

On behalf of the Board, I sincerely thank our customers, employees, distributors, shareholders and partners for their continued support and trust which has been fundamental to your company's success. We remain committed to building an institution that contributes meaningfully to India's progress and continues to serve generations to come.

Thank you.

Warm Regards,

Challa Sreenivasulu Setty

MD & CEO's Message

Protecting Lives. Building Trust. Creating Long-Term Value.

"As we now enter the next phase, our strategic focus remains clear - deliver disciplined growth, superior value creation and continue strengthening our role in the evolution of India's life insurance sector."

Amit Jhingran
Managing Director & Chief Executive Officer

Dear Stakeholders,

FY26 was a landmark year for SBI Life as we completed 25 years of protecting Indian families and building one of the country's most trusted life insurance franchises.

This year was defined not just by growth, but by the quality and sustainability of growth. In an evolving macroeconomic, regulatory and customer landscape, we delivered resilient performance by staying focused on our core priorities – customer-centric growth, diversified distribution, disciplined underwriting, digital transformation, prudent risk management and long-term value creation.

Our performance in FY26 reaffirms the strength of our business model, the depth of our distribution franchise, the trust of our customers and the execution capability of our people. More importantly, it reflects our ability to grow responsibly while remaining firmly aligned to our purpose of protecting lives and enabling financial security for every Indian household.

Strengthening Our Core Purpose: Protection and Financial Security

At the heart of SBI Life's strategy is a simple but powerful purpose to provide financial protection and peace of mind to individuals and families.

- Total Sum Assured reached ₹ 13,795.5 billion
- We now protect 85.2 million lives

- Serving 5.0 million additional lives in FY26
- Issued 2.2 million individual policies
- Presence expanded to 1,230 offices across India

These milestones reflect our continued commitment to expanding financial protection across geographies and customer segments.

Product suite for every Indian

FY26 witnessed strong momentum across product categories, supported by a balanced portfolio and a sharp focus on customer needs. Our individual business, registered steady growth of 13.0% during the year, reflecting continued customer trust and balanced expansion across product categories.

- Participating business grew 121.1%, underscoring customer preference for long-term, stable and value-oriented propositions
- Individual Annuity segment grew 33.5%, reinforcing retirement-readiness
- Individual Protection:
 - New Business Premium grew 22.7%
 - Sum Assured increased 61.2%

During the year, we further strengthened our portfolio with the launch of 5 new products across protection, savings, wealth creation and retirement solutions, enabling us to address evolving customer needs across life stages. We will continue to build

a product architecture that balances customer value and risk discipline.

Unparalleled Distribution Reach

Our diversified multi-channel model enables us to reach customers through the most relevant and trusted touchpoints.

Backed by a network of more than 59,000 Certified Insurance Facilitators, the bancassurance business through SBI and Regional Rural Banks (RRBs) contributed 60.0% of total APE during the year, reinforcing the strength, trust and reach of this channel.

Agency channel continued its strong momentum, with Individual APE reaching ₹ 68.6 billion, reflecting a 15.3% year-on-year growth, alongside a robust 76.1% growth in Agency Individual Sum Assured. During the year, we added more than 1,20,000 agents on a gross basis, taking our agency force to 2,82,001, reinforcing our long-term commitment to strengthening the agency franchise. This expansion strengthens our ability to serve customers across urban, semi-urban and rural markets. The agency channel remains a critical pillar for personalised advice, customer education and long term relationship building.

Our other distribution channels, including direct business, corporate agents, other banks, brokers, online platforms and web aggregators, grew by 21.9% and contributed 11.5% of total APE.

Supporting this extensive distribution network is a dedicated workforce of 29,344 employees, whose efforts continue to drive customer engagement, operational excellence and sustainable growth across the organisation.

Digital at the Core

Technology is no longer an enabler alone, it is central to how we acquire, serve, underwrite and engage with customers. FY26 marked continued progress in our digital transformation journey, with a strong focus on simplicity, speed, scale and security.

Today:

- 99.7% of individual proposals are submitted digitally
- Over 4,99,000 Individual protection policies were issued fully digitally
- Our Smart Care app crossed 1 million downloads

Our technology strategy is focused on building an integrated, intelligent and customer centric operating model. We are investing in digital onboarding, data-driven underwriting, customer self-service, analytics-led cross-sell and up-sell, workflow automation and AI-enabled capability building.

Delivering on our promise at the time of claims remains central to customer trust. We continue to enhance our service and claims framework through digitisation, streamlined processes and strong governance, enabling faster, seamless and transparent claim settlements.

Our focus on omni-channel servicing, proactive communication and robust grievance redressal is reflected in improved customer experience outcomes, including a strong Net Promoter Score (NPS). By combining technology with empathetic service, we ensure every customer interaction reinforces trust and reliability.

Digital capability is also being embedded in our people development agenda. Through platforms such as e-Shiksha and Eklavya, employees completed an average of 14 hours of E-Learning. Eklavya's AI-powered, roleplay-based learning design further amplifies impact by driving immersive, real-world learning-enhancing practical skills, deepening customer engagement capabilities and building

critical behavioural competencies through dynamic, interactive modules.

In parallel, we continued to invest in robust cybersecurity capabilities, strengthening our information security framework to safeguard customer data, ensure operational resilience and support our growing digital ecosystem.

Digital transformation is helping us deliver faster, simpler and more seamless customer experiences at scale.

Delivering Sustainable Financial Performance

Our disciplined approach continues to deliver sustainable and long-term value creation. FY26 was also a year of strong financial resilience.

- Gross Written Premium crossed ₹ 1 lakh crore & grew by 19.2%
- New Business Premium grew by 19.6%
- Profit After Tax stood at ₹ 24.7 billion
- Value of New Business stands at ₹ 66.7 billion with growth of 12.0%
- Assets Under Management reached ₹ 4,871.6 billion
- Solvency Margin remained strong at 190%

The quality of our performance is as important as the scale. We remain focused on maintaining a healthy balance between growth, profitability, persistency, capital efficiency and customer outcomes. Our disciplined approach to expense management, underwriting, product mix and distribution quality continues to support long-term value creation.

Sustainability with Purpose

At SBI Life, sustainability remains integral to the way we create long-term value for all stakeholders. As a life insurer, our role extends beyond financial performance; we contribute to social protection, long-term savings, responsible investment and community resilience.

Guided by our **C.A.R.E** framework

- C - Customer, Community & Contributors,
- A - Accountability & Ethics,
- R - Responsible Governance,
- E - Environmental Stewardship

We continue to advance environmental responsibility, social inclusion and responsible governance. During the year, our corporate office and processing centre operated entirely on renewable energy, while our environmental initiatives included maintaining over 60,000 native saplings and supporting the restoration of more than 9 lakh mangroves in the Sundarbans.

Beyond business, our purpose remains rooted in expanding inclusive insurance, with SBI Life currently protecting 52.3 million lives under PMJJBY and 4.7 million lives through micro insurance initiatives.

We continue to integrate ESG principles into investment decision-making, risk management and governance processes. Responsible investing, climate awareness, ethical conduct and transparent reporting are essential to building a resilient institution.

Built on Trust, Shared in Growth

India's life insurance industry stands at a pivotal stage, supported by increasing financial awareness, digital adoption and a supportive regulatory environment.

SBI Life enters the next phase with strong confidence. We have the brand trust, financial strength, distribution depth, digital capabilities and experienced leadership required to lead meaningfully in this evolving environment.

For the past twenty-five years, our journey has been anchored in a simple yet enduring promise to protect Indian dreams and secure the future of millions of families. As we look ahead, we remain focused on building a stronger, more resilient institution that creates sustainable value for all stakeholders.

I extend my sincere gratitude to our customers, employees, distributors, shareholders and regulators for their continued trust, support and partnership in this journey.

Warm regards,

Amit Jhingran
Managing Director & CEO

Strategy

Grounded in Trust and Focused on the Future

Twenty-five years of navigating India's evolving insurance landscape have shaped a strategy that is deeply considered, consistently applied and built to endure. At SBI Life, strategy is not reactive to market cycles, it is anchored in enduring convictions about serving customers well, growing responsibly and building an institution of lasting relevance.

In FY26, that strategy was tested by industry-wide transition and held firm. It continues to be organised around five strategic pillars, strengthening distribution, enhancing customer experience, driving sustainable and profitable growth, building future-ready talent and expanding digital capabilities, each showing the other as part of an integrated, self-sustaining ecosystem.

External Environment

India's Momentum and the Opportunity It Creates

India enters FY26 as one of the most compelling growth stories in the world and for the life insurance sector, with favourable environment. A fast-growing economy, a young and aspirational population, a reform-oriented regulator and a vast underinsured market together create a structural opportunity that will define the next decade of growth for this industry. SBI Life is not simply a beneficiary of this environment. It is an active participant in shaping it, deepening distribution, broadening product access and building the financial resilience of millions of Indian families.

7.7% Real GDP growth, fastest-growing major economy globally	100 bps Repo rate reduction by RBI, three rate cuts in FY26	2.6% Life insurance penetration as % of GDP vs global average of ~3.0%	83% India's protection gap, highest among peer economies	8.5% Industry Individual NBP 3 YR CAGR
--	---	--	--	--

#1 TREND A Growing Economy Creates a Growing Need for Insurance

Context

India's real GDP grew by 7.7%, firmly establishing the country as the fastest-growing major economy in the world. The RBI implemented three repo rate cuts in FY26, lowering the policy repo rate from 6.25% to 5.25%, a 100 bps reduction during FY26 and 125 bps cumulatively since February 2025, stimulating household consumption and financial confidence. India is projected to add 140 million middle-income households by 2030, with 68% of the population in the working-age bracket. Rising incomes, formalisation of the economy and deepening financial awareness are together creating a continuous wave of first-time insurance buyers entering the system. According to Swiss Re, India's life insurance sector is projected to grow at a CAGR of 6.8% in real terms between 2026 and 2030, among the highest growth trajectories of any major market globally.

#2 TREND Customers are Asking for More Than Just a Policy

Context

Indian customers are evolving rapidly in their relationship with financial security, buying insurance more deliberately, in higher amounts, for longer durations and with a clearer understanding of what insurance means. Life insurance penetration in India stands at approximately 2.7% of GDP against a global average of approximately 3%. The shift is visible across multiple dimensions, demand for pure protection surging, participating products gaining traction, retirement planning becoming a priority and riders being attached at significantly higher rates.

SBI Life's response

SBI Life crossed ₹ 1 lakh crore in Gross Written Premium for the first time in FY26, reaching ₹ 1,012.9 billion, a growth of 19.2%. Renewal premium grew 18.9% to ₹ 587.3 billion, reflecting the deepening trust of an expanding policyholder base. The Company's 5-year New Business Premium CAGR stands at 15.6%, consistently outpacing industry growth. SBI Life's private market share in Individual Rated Premium improved to 22.9% in FY26 and its total market share rose to 16.5%, evidence of sustained, broad-based growth in a rising market.

SBI Life's response

While ULIP grew at 7.9%, SBI Life's participating segment grew 121.1% in new business premium in FY26. Individual pure protection grew 89.3% (NBP basis), the clearest indication of shifting customer intent. Annuity new business grew 34.1% to ₹ 70.3 billion, driven by growing retirement planning awareness. Individual sum assured grew 61.2% year-on-year, with rider sum assured now accounting for 31.5% of individual sum assured. The Company launched new products during the year – Smart Shield Plus, Smart Money Back Plus, Smart Platina Advantage, Money Back Saver and Group Pension Plus, taking its portfolio to 26 individual and 9 group products across every life stage.

#3 TREND Regulatory Reform is Reshaping the Industry's Architecture

Context

FY26 marked one of the most active regulatory periods in the recent history of Indian life insurance. The IRDAI's overarching vision of Insurance for All by 2047 continues to drive structural reforms across the sector. The GST exemption on individual life insurance premiums, introduced in September 2026, is widely regarded as one of the most meaningful demand stimulants the industry has received in years, improving affordability and expanding access for households across income levels. Alongside this, the FDI limit was raised to 100%, the free-look period was extended from 15 to 30 days. The announcement of a transition to Indian Accounting Standards (Ind AS) from April 1, 2027 will further align India's insurance reporting with global standards, enhancing transparency and investor confidence.

SBI Life's response

SBI Life welcomed the GST reform and, in keeping with its customer-first philosophy, passed the full benefit of the exemption to its customers without exception, absorbing the input tax credit transition internally. The Company has sought one-year forbearance to enable a controlled, regulator-aligned transition to Ind AS with timely execution of the Board-approved action plan. The Company remains committed to achieving full Ind AS compliance within the proposed timeline under strong governance and Audit Committee oversight. The Company's 13th month persistency improved and its mis-selling ratio remains lowest amongst private players, reflecting a governance posture that is consistently ahead of regulatory expectations.

#4 TREND Digital Technology is Redefining How Insurance is Experienced

Context

The digitisation of insurance is accelerating across every dimension, from distribution and onboarding to underwriting, servicing and claims. The online channel is growing rapidly, where customers are increasingly researching, comparing and purchasing independently. Artificial intelligence and machine learning are transforming risk assessment, pricing and customer engagement. At the same time, rising cyber threats and data privacy risks are creating new governance imperatives for insurers. The life insurance industry's digital transformation is no longer a strategic choice; it is an operational necessity.

SBI Life's response

In FY26, 99.7% of SBI Life's individual proposals were submitted digitally and processed through automated underwriting. The online channel grew 46.8% on APE basis during the year. The Company's revamped RIA chatbot, enhanced with GenAI capability, serves over 66,000 users every month. Deep integration with SBI's YONO ecosystem and SBI Life's Smart Care self-servicing app provide a seamless, frictionless experience at scale. On cyber and data governance, the Company holds ISO 27001:2022 certification, maintains a Security Operations Centre and has a Board-approved Data Governance Policy, ensuring that its digital ambition is matched by institutional responsibility.

#5 TREND Demographics are Creating a Long-Term Structural Tailwind

Context

India is one of the youngest large economies in the world, with a median age of 28 years and 68% of its population in the working-age bracket. This demographic profile creates a natural, sustained pipeline of first-time earners, first-time borrowers and first-time insurance buyers entering the formal financial system. Simultaneously, India's ageing population, projected to grow from 10.5% of the population in 2022 to 20.8% by 2050, is creating rapidly expanding demand for annuity and retirement solutions. Rising life expectancy and improving awareness are beginning to close this gap.

SBI Life's response

SBI Life's annuity and pension business grew 34.1% in FY26 to ₹ 70.3 billion, reflecting the early stages of what the Company expects to be a structurally growing opportunity. Group savings, covering gratuity, superannuation and employee benefit solutions, surged 55.3% to ₹ 84.8 billion. The Company has expanded its agency network into Tier 3, Tier 4 and rural markets, adding 1,20,000+ agents on gross level and opening 120 new branches during the year, to reach first-time insurance buyers where they live. Through PMJJBY, the Company currently protects 52.3 million lives and through micro insurance, an additional 4.7 million, ensuring that the demographic dividend translates into financial security for every segment of India's population.

■ **UDAAN (Induction Program for Non-Sales Employees):** The 5-day residential training program for Non-Sales employees achieved coverage of 716 participants, building strong functional expertise, process excellence and stakeholder management capabilities to support business continuity and growth.

■ **SRIJAN (Induction Program for Management Trainees):** The SRIJAN program delivered a 6-day foundational insurance training to 84 Management Trainees in a single batch, building strong domain knowledge aligned to business objectives and brand purpose in partnership with IIRM.

Driving Capability and Customer-Centricity at Scale

■ **Customer First 2.0:** 1-day training for **30,120** CIFs and **1,583** BMs, focusing on need-based product positioning.

■ **Product Diversity Training Program:** The Product Diversity Program achieved 81% coverage among target LMs, with 74% demonstrating improved product diversification (shifting from 2 to 3-4 products), driving stronger portfolio mix, LM activation and customer value.

Digital Enablement & AI-Powered Learning

Our digital skilling journey was strengthened with AI integration and self-paced programs:

■ **Eklavya:** Project Eklavya, launched in Apr'25, enabled AI-driven role-play training for frontline and leadership cohorts, driving 90%+ adoption, 12-module completion within 90 days and measurable improvements in pitch effectiveness, certification-readiness and renewal conversation quality across 5+ employee segments.

- **edX Self-Paced Courses:** The edX learning initiative for senior leaders achieved 100% coverage with 179 participants completing 2+ curated functional and behavioural courses, driving enhanced leadership capability and global learning exposure.
- **LinkedIn:** The LinkedIn Learning initiative for senior management drove coverage of 947 learners, each targeted to complete 6+ courses and 6 learning hours, leveraging personalised, on-demand content to strengthen role-based capability and continuous development at scale.
- **Virtual Coaching for III Certifications:** Helped employees prepare for licentiate, associate and fellowship exams. During FY26, 134 employees completing Licentiate, 53 achieving Associateship and 51 attaining Fellowship.

Leadership & Knowledge Building

To groom next-gen leaders and nurture expertise across verticals, we launched flagship programs:

- **SLEP (Sales Leadership Excellence Program):** A 3-day intervention blending functional and behavioural skilling for Branch Heads & Area Managers covering 941 Branch Heads and Area Managers in 46 Batches.
- **ASCEND:** 4-day simulation-based leadership program with 270° feedbacks for DRMs & ZAMs covering 260 ZAM and DRM in 13 Batches.
- **360 Degree:** The 2-day residential workshop for HPC and Functional Heads achieved coverage of 267 employees across 14 batches, enhancing operational awareness and process alignment at Regional Operation Centres.
- **KNOWLEDGE PREMIER LEAGUE:** KPL Season 5 Grand Finale leveraged an AI avatar-based quiz format to achieve 99% nationwide employee participation and 2,100+ family engagements, reinforcing a strong, technology-led learning culture across SBI Life.

Specialised Functional Interventions

Our L&D efforts covered niche learning needs across the organisation:

- **HO/CPC Modules:** Covered customer grievance redressal, insurance fraud and corporate governance.
- **Golden Years Program (69 participants):** Promoted well-being for retired employees and spouses.

Premier Institute Collaborations

Our tie-up with ISB offered role-elevating exposure to select talent through the following interventions:

- **ISB Emerging Leaders**
- **Leadership with AI**
- **General Management Program**
- **Women Leaders' Program**

- These initiatives reflect our deep commitment to employee growth, business alignment and innovation in learning. As we step into FY26, we continue to scale with **blended learning, AI integration and role-based academies**, ensuring our people remain our greatest competitive advantage.

Performance Management

SBI Life's performance management philosophy is anchored in meritocracy, transparency and accountability, fostering a high-performance culture through fair, objective and competitive people practices. The framework is designed to encourage consistent excellence while aligning individual goals with the Company's strategic objectives and long-term vision.

The Company's Performance Management System, LEAP (Leading through Excellence and Performance), adopts a balanced scorecard approach that integrates business outcomes with behavioural and functional competencies, enabling holistic performance evaluation, continuous feedback, role clarity and outcome-driven conversations that empower employees to maximise their potential.

Beyond performance-linked rewards and career progression, the Company recognises the importance of non-monetary appreciation through the "Going Extra Miles" (GEMs) initiative, celebrating employees who demonstrate exceptional dedication, customer-centricity and commitment by going beyond their defined responsibilities. Such contributions are recognised and appreciated by the leadership team, reinforcing a culture of excellence and collaboration across the organisation.

Way forward: Future-focused workforce strategy

SBI Life remains committed to building a future-ready, agile and people-centric workforce aligned with its long-term growth strategy. In FY27, the focus will be on strengthening digital HR transformation, enhancing employee experience and building organisational capabilities through technology-enabled, data-driven people practices.

The Company will continue to invest in talent development, leadership capability, employee engagement, diversity and inclusion initiatives, leveraging HR One to drive operational excellence and a seamless employee experience. With sustained focus on innovation, collaboration and a high-performance culture, SBI Life aims to nurture a resilient workforce that contributes meaningfully to sustainable growth and superior customer outcomes.

Driving Innovations in Service Delivery

SBI Life continued to strengthen customer experience across the policy lifecycle and grievance redressal through focused service innovations aimed at improving communication, accessibility and responsiveness.

- Conducted **18 customer awareness campaigns** across platforms such as WhatsApp and email to enhance customer understanding and engagement
- Implemented a structured **WhatsApp communication framework** across **11 products**, enabling customers to stay informed post-policy issuance through timely updates on product benefits, features and servicing touchpoints
- Expanded the **Personalised Audio-Visual initiative** across **nine products**, wherein tailored videos were shared with policyholders to simplify policy details, benefits and key milestones in an engaging and easy-to-understand format

- Introduced the dedicated **'We Care' grievance email ID**, creating a single and seamless platform for grievance redressal while reinforcing transparency, responsiveness and customer-centric service
- Strengthened the grievance resolution mechanism through the introduction of the **Internal Ombudsman framework** in July 2024, with personal hearing provisions added from February 2026 to enhance fairness, transparency and accountability

Through these initiatives, the Company remained committed to delivering a more seamless, transparent and customer-focused service experience while reinforcing trust and satisfaction across customer touchpoints.

Our Customer-Centric Journey

We engage with our customers across a four-stage lifecycle - **Pre-purchase, Purchase, Onboarding and Policy Servicing** – ensuring a seamless and consistent experience at every touchpoint. This journey is anchored in our five core pillars of customer centricity, which guide how we design, deliver and continuously enhance customer interactions.

Our 4-Step Customer-Centric Approach

Pre-purchase

We enable informed decision-making through deep customer understanding and transparent communication.

- **Holistic profiling via digital journeys** capturing life stage, financial goals and risk appetite
- **Smart algorithm-led recommendations** for personalised product suitability
- **Transparent benefit illustrations** with clear disclosures on returns, costs and commissions
- **Simplified product communication** with explicit customer consent

Purchase

We deliver a convenient and intuitive buying experience, driven by digital-first capabilities.

- **In-app digital purchase journeys** integrated with Pre-Issuance Verification (PIV) to enable seamless, convenient and transparent policy buying
- **Multi-lingual PIV with flexible verification options** including phone-based and Insta PIV, with enhanced checks for select products and customer profiles
- **Robust quality assurance mechanisms** through live photo matching and KYC validation to ensure accuracy and reinforce product clarity
- **Strong compliance and ethical selling** practices supporting informed decision-making and responsible policy issuance

Onboarding

We ensure a secure, verified and compliant onboarding process that reinforces trust.

- **Free-look cancellation option** offering customers a risk-free experience and the flexibility to review their purchase decisions
- **Net Promoter Score (NPS) feedback mechanisms** capturing customer experience insights and enabling data-driven improvements across journeys
- **Strong governance practices** through sharing of PIV transcripts and verification records to reinforce transparency and trust
- **Seamless digital onboarding journeys** enabled by robust platforms to ensure a smooth, intuitive and efficient customer experience

Policy Servicing

We build long-term relationships through proactive engagement, accessibility and responsive service ecosystems.

- **Predictive renewal persistency management** using risk scoring and targeted customer interventions
- **Comprehensive self-servicing ecosystem** across mobile, web, chatbot, WhatsApp, IVR and branch channels
- **Personalised post-purchase engagement** through digital communication and audio-visual tools
- **Robust grievance redressal framework** with structured oversight and expert-led governance

Driving Financial Inclusion Across Bharat

The Company continued to expand its financial inclusion footprint, bringing life insurance to communities that have historically had the least access to formal financial protection. SBI Life's reach across PMJJBY, rural markets, micro insurance and the social sector is not a distribution strategy, it is a statement of purpose. India's protection gap is most acute not in its cities but in its towns and villages and closing that gap, one policy at a time, remains central to what SBI Life was built to do.

Through Insurance Awareness and SLIC activities in Chhattisgarh, the Company made targeted efforts to deepen insurance literacy in alignment with IRDAI's Vision 2047, conducting widespread seminars, engaging 1,500+ people through community activities, reaching 4,000+ students through school competitions and delivering financial literacy sessions for teachers, government staff, self-employed individuals, ASHA workers and rural communities.

CSR Initiatives

Beyond insurance access, SBI Life's commitment to communities runs deeper, into healthcare, education, livelihoods and the environment. The Company's CSR work is rooted in the belief that financial security alone is not enough; the communities it serves must also have access to health, learning, skills and a sustainable environment to truly thrive.

Sambhav - Unifying Our Purpose, Amplifying Our Impact

In FY26, on the occasion of our 25th Foundation Day, the Company unified all its CSR initiatives under a single identity - Sambhav, reflecting our conviction that every programme is a pathway to liberation, enabling individuals to move beyond survival toward aspiration. Sambhav brings together four interconnected pillars, each addressing a distinct but complementary dimension of human development.

Livelihood

14,000+ beneficiaries

Large-scale skill development and income-generation programmes targeting women, youth and marginalised groups, covering vocational training in retail, IT, BFSI, hospitality and nursing, alongside entrepreneurship support and agriculture-based livelihood promotion. Financial literacy was integrated across all interventions, enabling beneficiaries to manage incomes and access formal financial systems.

Environment

9 lakh+ saplings

Large-scale mangrove restoration in the Sundarbans of West Bengal, contributing to biodiversity enhancement, carbon sequestration and strengthened community resilience to climate change.

Healthcare

4,400+ beneficiaries

Life-saving interventions including congenital heart defect surgeries for children and cataract surgeries for underprivileged individuals, significantly reducing the financial and emotional burden on families and improving long-term quality of life.

Education

600+ beneficiaries

Programmes focused on bridging learning gaps and enabling access to quality schooling and higher education for children from low-income and underserved communities, including merit-based scholarships for deserving students.

Stories of Impact

Namita - From Training to Independence

Namita Somnath Navgire, a Bachelor of Arts (B.A.) graduate, illustrates how skill development and livelihood support can enable women to achieve financial independence and build sustainable sources of income. A mother of a two-year-old daughter, she has balanced caregiving responsibilities with her aspiration to become self-reliant.

Due to household responsibilities and early-stage motherhood, Namita had limited opportunities for formal employment. Her strong motivation to secure financial stability for herself and her child led her to explore skill-based training opportunities.

She was introduced to a Beauty & Wellness training program supported by SBI Life along with implementing partner Vipra Foundation through a personal reference and enrolled in a three-month course. Despite managing childcare responsibilities, she consistently attended the training and successfully completed it, gaining

technical skills, practical exposure and workplace-readiness.

Following completion of the program, Namita gained hands-on experience by working at a beauty parlour for three months, where she strengthened her customer service and service delivery skills.

Building on this experience, she established a home-based beauty parlour. Starting at a small scale, she began offering services within her community, including home visits, which helped her steadily build a client base through word-of-mouth and repeat customers.

She currently earns an average monthly income of approximately ₹ 10,000 and continues to expand her services. Beyond income generation, the initiative has enabled her to achieve financial independence, improved confidence and greater household stability.

Stories of Impact

Lakshmi R is a 14-year-old student studying at Parikrma Humanity Foundation, a school that supports quality education and holistic development for children from underserved communities. The program is supported by SBI Life Insurance. She comes from a modest family, where her mother is a homemaker and her father works as an auto driver.

When she joined the school, Lakshmi was very shy and found it difficult to speak

in front of others or take part in group activities. She often held back during classes and school events. With regular support from her teachers and the school environment, she slowly started participating in group work, conversations and extracurricular activities.

Over time, she became more comfortable expressing herself. She also began participating in cultural activities and gradually built confidence in interacting with others.

Alongside this change, Lakshmi developed an interest in athletics, especially sprinting. She started

training and representing her school in competitions. She went on to win gold medals in the 100-metre and 200-metre races and also performed well in relay events. She was recognised as the Under-16 Individual Champion at the Parikrma Sports Meet. She has also taken part in events such as the Mahethon Marathon and Ryan Marathon and secured third place in a taluka-level 100-metre race.

She has maintained an A grade in her academics while continuing to participate actively in sports and school activities.

Today, Lakshmi participates more confidently in school life and continues to improve in both academics and sports. She hopes to pursue athletics further and aims to represent the country in the future, while also building a stable career.

Her journey reflects how a structured learning environment, along with consistent support, can help students build confidence, develop skills and grow steadily over time.

Lakshmi - Confidence Built in a Classroom

Stories of Impact

The Urban Forest Project supported by SBI Life Insurance and implemented by Prayas Youth Foundation with 30,000 native saplings at Delhi, has achieved an 88% survival rate through a structured plantation management system focused on ecological sustainability and long-term impact.

The project follows a planned maintenance and supervision framework to ensure healthy plant establishment and growth. Regular monitoring enables early identification of plant stress and timely corrective action, while on-ground implementation is supported through dedicated site supervision by the project team.

Soil health improvement has been a key focus area, with the use of organic inputs such as Jeevamrut, humic acid and vermicompost to enhance fertility and support sustainable plant growth. These practices contribute

to improved soil structure and long-term ecological balance within the plantation site.

Plant stability and survival are further supported through timely protective measures, including staking for taller saplings to prevent uprooting due to wind or structural weakness. Maintenance of site conditions, including removal of unwanted vegetation and periodic upkeep of plantation areas, ensures reduced competition for nutrients and improved plant health.

These interventions collectively contribute to the development of a healthy green cover that supports local biodiversity by creating micro-habitats for birds, insects and other small organisms. Over time, the plantation enhances ecological balance and strengthens urban biodiversity in the surrounding landscape.

Risk Management

Resilience That Protects Shared Growth

Trust is built not only through performance, but through the ability to navigate uncertainty with discipline and foresight. Over the past 25 years, SBI Life has strengthened its risk management capabilities to protect stakeholder interests, honour long-term commitments and support sustainable growth. As the Company enters its next phase of evolution, it remains committed to fostering a resilient risk culture, strengthening governance and enhancing preparedness for a rapidly changing world.

Risk Management Framework

At SBI Life, Enterprise Risk Management (ERM) is integrated across all organisational processes and activities. The Company's risk management approach is designed to meet current needs remaining adaptable to future change. Risk management is embedded as an integral part of planning and decision-making at every level of the organisation.

ERM at SBI Life covers six risk categories, Strategic and Business Risk, Insurance Risk, Investment Risk, Operational Risk, Information and Technology Risk, Regulatory and Legal Risk, enabling comprehensive identification, assessment and management of all material risks.

The Enterprise Risk Management framework is compliant with ISO 31000:2018, reflecting the Company's commitment to international best practices. The Statement of Compliance covers all departments and functions at the Corporate Office, Central Processing Centre / Regional and Branch Offices.

The Company follows a dual Top-Down and Bottom-Up approach to risk identification, evaluation and monitoring:

- **Top-Down:** Risk Appetite Statements, Annual Risk Review and Risk Dashboard are formulated at the corporate level and reviewed by the Risk Management Committee of the Board, integrating risk management with strategic business objectives.
- **Bottom-Up:** Key Risk Indicators at the functional level, Risk and Control Self-Assessments and Incident Reporting enable monitoring of risks at the process level across the organisation.

Risk Governance Structure

To proactively manage risks, SBI Life has established dedicated Risk Committees. Recognising the importance of risk management in corporate governance, these committees oversee and mitigate risks at various levels within the organisation. The designated Committees and their roles in brief are as mentioned below -

- **Risk Management Committee of the Board – RMC-B** is the designated sub-Committee of the Board to oversee and guide the risk management initiatives in the organisation. RMC-B is assisted by the Risk Management Committee of the Executives - RMC-E and the Asset Liability Committee (ALCO).
- **Risk Management Committee of the Executives – RMC-E** is responsible for identification and management of all the risks. Risk Management activities carried out during the period is presented to the RMC-E every quarter.
- **Asset Liability Management Committee – ALCO** has oversight in respect of Insurance risk and investment risk.
- **Risk Events Monitoring Committee (REMC) – REMC** is constituted to monitor and prepare strategies to manage reputation risk and other significant external risk events that the Company may face. Update of REMC is shared with the RMC-E.
- **Information Security Risk Management Committee (ISRMC) –** This Committee oversees the Information Security related aspects and meets on a quarterly basis. Update of ISRMC is shared with the RMC-E.
- **Data Governance Committee –** The DGC plays a pivotal role in ensuring that the organisation complies with applicable data privacy law and regulations. Update of DGC is shared with the RMC-E.

Risk Governance Framework - Three Lines of Defence

SBI Life's risk governance is structured around a robust Three Lines of Defence model, ensuring clear accountability, effective oversight and comprehensive risk control across the organisation.

Risk Management Process

SBI Life's Risk Management Process is based on the ISO framework, encompassing identification, assessment, treatment and monitoring of risks across the organisation.

The key tools and processes that support this framework are:

Annual Risk Assessment

Aids in identifying, assessing, prioritising, managing and monitoring key risks of SBI Life. Risks identified are reviewed and monitored at regular intervals through the year.

Risk and Control Self-Assessment (RCSA)

Performed to identify risks in processes and review the design and operating effectiveness of controls. Consequence and likelihood are combined to produce an estimated level of risk.

Risk Treatment

Following assessment, the Company determines the appropriate response based on likelihood, impact and risk appetite, accepting, mitigating, transferring or eliminating risks in alignment with organisational objectives.

Key Risk Indicators (KRIs)

Defined and monitored for critical risks that could impact overall strategy, enabling management to track risks likely to breach acceptable levels and determine the top risks for the Company.

Incident Reporting

A systematic, self-improvement process for reporting incidents and is required to be followed across all departments and offices. Incident reporting serves as a key tool for operational loss data collection, with Function Heads, Risk Officers and employees responsible for reporting in their respective areas.

Business Continuity Management (BCM) and Disaster Recovery Planning (DRP)

The Company maintains a robust Business Continuity Plan and Disaster Recovery Plan, both tested at least once annually, with results shared with RMC-E and RMC-B for review.

Risk Control Unit (RCU)

The RCU cascades and drives Enterprise Risk Management practices at the regional and branch level, with Risk Managers performing risk assessment, monitoring and training across all regions.

Fraud Monitoring

Governed by the Company's Fraud Prevention Policy in adherence to IRDAI guidelines, providing a holistic approach to identifying, measuring, controlling and monitoring fraud risk.

Information Security

A Chief Information Security Officer (CISO) monitor information security risks and ensure compliance with regulatory and statutory requirements.

Data Protection

A Data Protection Officer (DPO) oversee data governance, including data privacy, classification, categorisation, utilisation and data protection analysis and to implement applicable data privacy regulations.

Monitoring and Reporting

Risk updates are shared with RMC-E and RMC-B every quarter as an essential component of the risk management cycle.

Strengthening Risk Culture

SBI Life recognises that effective risk management must be embedded in organisational culture. Throughout FY26, the Company undertook structured initiatives to enhance risk awareness and foster a risk-conscious culture across all employees – through classroom training, induction sessions, targeted snippets and emailers covering incident reporting, Risk and Control Self-Assessment (RCSA), operational risk, fraud monitoring, business continuity, information security and data protection.

In addition, the Company observes the following dedicated awareness days:

- **Risk Awareness Day** (1st September) - Week-long initiatives through customised messages, emailers, audio-visuals and employee activities

- **Computer Security Day** (30th November) - Observed as Computer Security Month through November/December, focused on information and cyber security awareness
- **Data Privacy Day** (28th January) - Used to sensitise employees on data privacy and protection
- **Cyber Jaagrookta (Awareness) Diwas** (First Wednesday of every month) - In line with Government of India and Ministry of Home Affairs directives, focused on prevention of cyber crimes

A Risk Culture Assessment was also undertaken during the year to evaluate employee awareness and behaviour toward risk, identify gaps between policies and practices and strengthen risk accountability and communication across the organisation.

Adapting Global Best Practices

SBI Life holds the Statement of Compliance for **ISO 31000:2018** (Enterprise Risk Management) and is certified under **ISO 22301:2019** (Business Continuity Management Systems) and **ISO 27001:2022** (Information Security Management Systems). Annual surveillance audits and periodic recertification audits by external auditors ensure that risk management practices are reviewed at least annually.

The Company also undertakes an **Internal Capital Adequacy Assessment Process (ICAAP)**, covering assessment of material risks, capital requirements and adequacy for maintaining solvency requirements.

Innovation and Data-Driven Risk Practice

SBI Life leverages the **Operational Risk Management System (ORMS)** for multiple risk management activities, including Incident Reporting, Risk and Control Self-Assessment, Business Continuity Management Assessments, Business Impact Analysis and Branch Risk and Information Security Assessment modules, on a single integrated platform.

In addition, a **predictive underwriting model** is deployed to aid underwriters by generating risk scores based on individual customer profiles. Built on historical data, the model predicts the probability of a death claim using key parameters and assigns a score to each assessed proposal. This risk categorisation prompts underwriters to undertake additional validations where required, reducing anti-selection and supporting more effective and informed underwriting decisions.

On the governance front, the Company significantly strengthened its **Third-Party Risk Management (TPRM)** framework during FY26, establishing a centralised TPRM function as a single point of contact for all vendor-related matters, supported by a structured, risk-based assessment framework across key domains.

Information Security

SBI Life's information security practices are governed by its Information and Cyber Security Policy and certified under ISO 27001:2022. The dedicated Information Security Team (IST), led by the Chief Information Security Officer (CISO), is responsible for safeguarding all information assets across the organisation.

The Information Security Risk Management Committee (ISRMC), oversees all information security initiatives on a quarterly basis. Regular updates are shared with the Board Risk Management Committee, ensuring transparency and accountability.

In compliance with IRDAI's Cyber Security Guidelines, an annual audit is conducted through a CERT-IN empanelled auditor. A Cyber Security Maturity Assessment is also conducted annually through the Company's Information Security Service Provider, based on the NIST Cybersecurity Framework (CSF) version 2.0, supporting a shift in security posture and risk management from a reactive to a proactive approach.

Mitigating Principal Risks In Our Operating Environment

Distribution Risk

Arises from a dependence on a limited range of distribution channels. Such concentration may increase exposure to regulatory, operational or market-related disruptions affecting those channels and may reflect insufficient diversification of the distribution mix

Mitigation

- Increased focus on agent recruitment and retention of performing agents
- Activation of inactive agents/Life Mitras (LMs)
- Continuously improving the training & development programme for sales teams of the various distribution channels
- Special digital initiatives to simplify and enhance the online selling process to increase the business via E-commerce platform
- Continued efforts to partner with licensed entities across categories to ensure diversification

Capitals Impacted

Opportunity

Channel diversification creates an opportunity to expand reach into underpenetrated markets, particularly Tier 3, Tier 4 and rural geographies, through agency expansion, digital platforms and new banca partnerships, strengthening long-term distribution resilience.

Product Mix Risk

Product Mix Risk is broadly defined as risk to which a company is exposed due to poorly defined policy terms, poorly defined Product Mix or non-availability of a product to address a specific client need.

Mitigation

- Enhanced product portfolio by increasing the focus on Non-Par and Protection products while maintaining a balanced product mix
- Innovative products introduced on periodic intervals in line with market needs and competition
- Monitoring products below minimum sales thresholds to identify underselling in specific segments
- Launched new products in Non ULIP segments

Stakeholders Impacted

Material Topics

M1, M3

Capitals Impacted

Opportunity

Growing customer awareness and evolving preferences toward protection and guaranteed savings present a significant opportunity to build a more balanced, margin-accretive product portfolio, with pure protection and annuity emerging as high-growth categories.

New Business Risk

New Business risk is defined as the risk of not being able to meet pre-defined targets for new business, either due to internal or external factors.

Mitigation

Several measures are being taken to ensure that incremental feet on street are being monitored to improve the business targets through addition of Life Mitras – Retail Agency Channel and Specified Persons – Other Banks. Also focus is on to increase the activation of SBI /Non SBI Bank Branch out of total banking branches, CIF activation and Development Manager. There is also a special focus by Retail agency on sales budget achievement at branch level. Tailored engagement programmes for Regional Rural banks and Other corporate agents for deepening partner engagement and accelerating digitisation remains a key focus area.

Capitals Impacted

Opportunity

India's large underinsured population and rising financial awareness present a substantial opportunity for new business growth, particularly through deepening penetration in rural markets, expanding group protection and scaling digital channels for protection-led acquisition.

Data Privacy Risk

Data privacy risk is the risk of compromise of confidential / customer / employee information. This needs to be monitored closely considering the current global privacy landscape, reliance on 3rd party service providers, reputational impact and regulatory censures related to any data breach incident.

Mitigation

Board-approved Data Governance Policy and Data Governance Committee in place. DLP and Data Classification tools deployed under DPO supervision. DRM solution implemented for third-party vendor data. Regular sensitisation and awareness campaigns across digital and physical modes.

Stakeholders Impacted

Material Topics

M1, M4, M7

Capitals Impacted

Opportunity

Robust data governance and privacy practices position SBI Life as a trusted custodian of customer information, strengthening customer confidence, supporting regulatory alignment and creating a competitive advantage in an environment of increasing data sensitivity.

Cyber Security Risk

Cybersecurity risk is the risk of unauthorised access, disruption, or damage to systems, networks and digital assets due to threats such as hacking, malware, ransomware, or insider attacks. It requires close monitoring given the evolving threat landscape, increasing digital interconnectivity, reliance on third-party technologies and the potential operational, financial, legal and reputational impact of incidents.

Mitigation

In order to track and mitigate cybersecurity risk, the Company has established a Security Operations Centre (SOC) for continuous monitoring and incident response, along with regular employee sensitisation through awareness sessions, phishing simulations and initiatives such as Cyber Jaagrookta Diwas.

Additionally, Red Team assessment and Breach attack simulation is carried out to identify potential vulnerabilities, which are closed in a timely manner. The Company also leverages external expertise for best practices in vendor risk management, Vulnerability Assessment and Penetration Testing (VAPT), Information Security Management System (ISMS) sustenance and application security, supported by cyber insurance coverage and continuous monitoring of internet-facing systems in coordination with the Indian Computer Emergency Response Team (CERT-In) and internal security teams.

Stakeholders Impacted

M1, M4

Capitals Impacted

Opportunity

Strengthening cybersecurity posture enhances customer trust, reduces operational risk exposure and positions SBI Life as a digitally-resilient insurer, enabling greater confidence in scaling digital distribution, automated underwriting and data-driven customer engagement.

Further, all the risks are monitored through KRIs and discussed with the respective functions and the Senior Management. We have put in place adequate safeguard(s) to mitigate each of the risks and monitor the same on an ongoing basis.

Fraud Risks

Fraud Risk Management

In accordance with the IRDAI Guidelines on Insurance Fraud Monitoring Framework and Master Circular on Corporate Governance for Insurers, SBI Life Insurance has a Fraud Prevention Policy in place along with a robust Fraud Monitoring Framework

- The company adopts a 'Zero Tolerance' approach to fraud without any kind of exclusion to fraudulent act committed by internal and external stakeholders
- Fraud risks are identified and assessed across business lines based on past experience, emerging trends and applicable regulatory guidelines, with appropriate preventive, detective and corrective controls implemented across all processes
- The Company strongly encourages individuals to report fraud
- Dedicated Central Complaints and Fraud Investigation Cell with a vast network of field investigators that assist through investigation of frauds is in place
- Use of analytics to identify suspected frauds from internal data and external environment
- Incidents are investigated for identification of process/system failures and/or identification of responsible internal/external parties
- Tracking of all losses to be recovered in respect of fraud incidents and periodic monitoring of the same is undertaken
- Incidents are investigated to identify process, people, events or system failures, with punitive, corrective, preventive measures and recovery measures, if any, initiated as per requirement
- Ongoing awareness program are conducted for all the stakeholders reinforcing understanding of fraud risks, prevention mechanisms and reporting procedures

disruptions during such events can cause volatility in equity and debt portfolios, impacting asset-liability matching and market risk exposures and with the growing risk of recurrence due to mutating variants and increased global mobility, the likelihood of future pandemics with unpredictable characteristics remains elevated.

Climate Change

Increased exposure to and changing patterns of extreme weather events such as floods, storms and rising sea levels are perceived as having more tangible effects than financial risks or liability risks related to climate change. In view of the changing climate situation, there could be an impact on Investments made by global investors in terms of additional exposure to specific sectors like EV, alternative sources of energy, etc. while withdrawing money from certain other sectors. Increased temperature variability and the resulting heatwaves can not only affect agriculture, productivity, water resources, but also on health and mortality.

Geopolitical Instability

Geopolitical tensions may mean higher fuel prices, cost of living, etc. which may impact our expense ratios. Geopolitical tensions are spilling over into the financial markets, thereby impacting our investments. Geopolitical and geo-economic tensions will make it more difficult to tackle common global challenges.

Artificial Intelligence

AI and its related technologies will have a seismic impact on all aspects of the insurance industry, from distribution to underwriting and pricing to claims. Advanced technology and data are making insurance faster and easier, allowing policies to be purchased and issued almost instantly. As AI becomes more deeply integrated in the industry, carriers must position themselves to respond to the changing business landscape. Insurance executives must understand the factors that will contribute to this change and how AI will reshape claims, distribution and underwriting and pricing.

All the emerging risks are being monitored closely and suitable steps and safeguards are being envisaged.

Jolly & Polly

The same promise in two assuring voices

The onboarding of cricketing superstars **Rishabh Pant** and **Ravindra Jadeja** as **SBI Life's brand endorsers** marked a new chapter in the brand's journey. For the first time, SBI Life brought together two distinct voices through **Jolly and Polly**, characters that echo the same promise and belief of brand SBI Life; to bring reassurance, clarity and confidence to the different ways India thinks, feels, and plans for their future and that of their loved ones.

Through their engaging conversations, **Jolly and Polly** made financial planning more relatable, reflecting the questions, choices, and aspirations that shape everyday decisions. Backed by the personalities of **Rishabh Pant** and **Ravindra Jadeja**, they helped bring the brand's promise closer to people, turning important financial conversations into stories that felt familiar, relevant, and easy to connect with.

A legacy in silver.
A future in gold.

Our twenty-five years were more than a milestone. It is a celebration of trust earned, relationships nurtured, and promises honoured. As **SBI Life completed 25 years**, the journey was brought alive across SBI Life through a simple yet powerful theme **Silver in Years. Golden in Promise.**

The silver milestone reflects a legacy built over two and a half decades, while the golden promise looks ahead with renewed purpose. It is a commitment to continue standing by customers through every stage of life, carrying forward the trust of millions and the promise of protection for years to come.

Over the years, **SBI Life** has grown alongside millions of families, helping them protect their aspirations and live life with confidence. While much has evolved, one belief has remained constant: **Apne Liye, Apno Ke Liye.**

Spellings, Spellers, and Spellionaire.

With the theme Bee Spellionaire, SBI Life Spell Bee 2025 inspired young minds to discover the true wealth hidden in words. Celebrating vocabulary as more than a means of communication, the initiative encouraged children to see every new word as a gateway to knowledge and opportunity.

At the heart of the theme was the belief that a Spellionaire sees the world through words. Every object, idea and experience becomes an opportunity to learn and grow. As participants expanded their vocabulary, they also broadened their perspectives, proving that the richer one's word bank, the richer one's world becomes.

Bringing together students from across the country, the competition fostered curiosity, sharpened thinking and nurtured a lifelong love for learning. More than a spelling competition, Spell Bee 2025 celebrated knowledge as a true measure of wealth, empowering the next generation to dream bigger, learn further and become Spellionaires in every sense of the word.

IDEATION X 2.0

Ideation from the young ones of the nation.

IdeationX 2.0 was built around a larger purpose of advancing financial literacy in India as the nation progresses toward becoming the world's third-largest economy. Aligned with the vision of "Insurance for All by 2047", SBI Life created a national innovation platform that engaged over 31,000 students from 160+ leading B-schools to solve real-world challenges facing the insurance industry. By encouraging young minds to co-create solutions and build meaningful conversations that make insurance more accessible, relevant, and future-ready, the initiative fostered innovation while promoting greater awareness and insurance penetration. The platform's credibility and scale were further enhanced with Olympic Gold Medalist, Abhinav Bindra as the face of the property and a nationally televised Grand Finale on CNBC TV18, giving participants unparalleled visibility and recognition. More than just a competition, IdeationX 2.0 reflected SBI Life's commitment to empowering future leaders and shaping a more financially secure India.

THANKS A DOT...

A BREAST CANCER AWARENESS INITIATIVE

A dot that made the difference

Thanks A Dot turned a simple symbol into a powerful call for awareness. Created to encourage conversations around breast cancer and the importance of early detection, the initiative inspired people to pay attention to the signs that can make a crucial difference.

What began as an awareness campaign grew into a nationwide movement, bringing communities together in support of a cause that touches countless lives. By sparking conversations often left unsaid, it helped place breast health at the forefront of public attention. The movement's growing impact was further reflected when the Indian Women's Cricket Team took the field in an all-pink ODI jersey, lending their support to the cause and amplifying the message of breast cancer awareness on a national stage.

The campaign reached a landmark moment with the achievement of a Guinness World Record, by using a record 1,191 'Hug of Life' hot water bags to create the largest mosaic, spelling out the message i.e. 'Take A Breast Self-Exam with Thanks-A-Dot', reflecting the scale of participation and the strength of a shared purpose. More importantly, it demonstrated how collective action can drive awareness, inspire dialogue, and create meaningful impact, proving that even the simplest symbol can unite people behind a life-changing cause.

SBI Life HACK-AI-THON

A marathon, but not on steps.

The SBI Life Hack-AI-Thon brought together some of the country's brightest tech talent to explore how artificial intelligence can shape the future of life insurance. Focused on areas such as customer engagement, fraud detection, predictive analytics, and process automation, the initiative encouraged participants to solve real-world challenges through technology and innovation.

Drawing enthusiastic participation from students and developers across India, the competition culminated in a grand finale that

showcased bold ideas and practical solutions. More than a technology challenge, Hack-AI-Thon reflected SBI Life's commitment to embracing innovation and leveraging emerging technologies to create smarter, more customer-centric experiences for the future.

Management Discussion & Analysis

Macroeconomic Environment

Overview of the Global Economic Environment and Key Trends Influencing Financial Markets

A) Global Economic Growth Outlook

According to the International Monetary Fund (IMF), global economic growth is expected to remain stable but below long-term historical averages. Global output is projected to grow at around ~3.3% over the next two years.

Growth in advanced economies is expected to remain modest at approximately 1.5%, reflecting slower productivity growth and tighter financial conditions. In contrast, emerging and developing economies are projected to grow at over 4%, supported by stronger domestic demand, favourable demographics and structural reforms.

B) Inflation Trends and Monetary Policy Environment

Global inflationary pressures have moderated compared to post-pandemic highs. The IMF projects global headline inflation to decline from about 4.1% in 2025 to 3.8% in 2026, while the OECD expects inflation across G20 economies to be around 4.0% in 2026. However, core inflation in some advanced economies remains above central bank targets due to persistent services inflation and energy price volatility.

Central banks have therefore maintained a cautious monetary policy stance, with interest rates in many advanced economies remaining above pre-pandemic levels. As inflation gradually moderates, policy may shift toward a more balanced stance, influencing global liquidity, borrowing costs and investment flows.

C) Financial Market and Emerging Market Developments

Global financial markets have experienced intermittent volatility due to evolving macroeconomic conditions, geopolitical developments and changing interest rate expectations. However, equity markets in both developed and emerging economies have remained relatively resilient, supported by corporate earnings growth and continued investment in technology, digital transformation and artificial intelligence, while bond markets reflect shifting monetary policy expectations.

Emerging markets continue to show relatively stronger growth supported by domestic consumption, infrastructure investment and policy reforms, though they remain sensitive to global financial conditions such as capital flow volatility, currency movements and changes in global liquidity.

At the same time, structural trends including digital transformation and artificial intelligence are influencing global investment patterns. Nevertheless, risks such as geopolitical tensions, energy price volatility, trade fragmentation and rising global debt levels may continue to affect market sentiment.

Macroeconomic developments in India & Impact on savings behaviour, household financial assets and long-term insurance demand

A) Economic Growth Supported by Strong Domestic Demand

India's economy continues to exhibit strong growth momentum supported by resilient domestic demand, favourable demographics and stable macroeconomic fundamentals. Robust private consumption, sustained government capital expenditure and increasing investment activity remain key drivers of economic expansion.

Real Gross Domestic Product (GDP) growth has remained strong, with real GDP growth of 7.7% in FY26, reinforcing India's position among the fastest-growing major economies globally. At current prices, nominal GDP is projected to expand by around 8.0%, reflecting sustained economic activity.

A strong growth environment typically supports higher household incomes, improved employment prospects and greater financial awareness. These factors contribute to increased demand for life insurance protection, savings and retirement products. Rising disposable incomes also enhance the capacity of households to allocate a larger share of savings towards long-term financial protection and investment products offered by life insurers.

B) Indian Financial Market & Household Savings Outlook

India's financial markets are strengthening, underpinned by moderating inflation, easing interest rates and increasing household participation in financial assets. Inflation has moderated, with CPI falling from 6.7% in FY22 to average 4.6% in FY25 and projected near the 4% target in FY27. Correspondingly, the RBI reduced the policy repo rate by a cumulative 125 basis points during 2025, from 6.50% at the start of the year to 5.25% by December 2025, supporting investment, consumption and household financial planning.

Household savings are increasingly shifting from traditional instruments to market-linked products, reflected in the rapid expansion of the mutual fund industry, whose AUM grew from USD 425.9 billion in FY21 to USD 864.0 billion in FY26 and is projected to reach USD 1.2 trillion by 2030. This trend supports growth in Unit Linked Insurance Plans (ULIPs), offering both investment and protection benefits.

At the same time, India's credit environment remains supportive, with bank credit expected to be around 12-13% in FY26, enabling broader household access to formal financial products. The NBFC sector is also expanding rapidly, with AUM projected at ₹ 50 lakh crore by FY27, improving financial inclusion in semi-urban and rural areas. Structural shifts in banking deposits, including moderation in the CASA ratio, further reflect evolving household savings behaviour and deeper financial penetration.

Global Insurance Industry Outlook and Developments in India

World Life Insurance Market

Global life insurance premium growth is expected to re-accelerate after a moderation in 2025 as the interest rate-driven surge witnessed during 2023-2024 normalises. According to Swiss Re, global life premiums are projected to grow at an average CAGR of around 2.5% in real terms during 2026-2027, compared with an estimated 2.2% in 2025.

Emerging markets are expected to outpace advanced economies, with premium growth projected at around 3.8% CAGR during 2026-2027, supported by rising incomes, improving financial inclusion and the continued expansion of bancassurance distribution. Demand in these markets continues to be driven by risk protection and savings-linked products.

In advanced markets, life premium growth is expected to remain steady at around 2.1% annually during 2026-2027, compared with a modest CAGR of 0.8% during 2020-2024. Regional growth is projected at approximately 1.6% for North America, 2.4% for Western Europe and around 2% for advanced Asia-Pacific markets. In emerging Asia, savings premium growth in China is expected to moderate following strong expansion during 2023-2025. However, excluding China, emerging markets are expected to maintain healthy momentum, with premiums projected to grow at around 3.9% annually, supported by steady demand and expanding retail distribution.

Global life insurance premiums, real terms growth rates

The outlook for India remains positive. India is the second-largest life insurance market among emerging economies, accounting for around 11% of emerging market premiums and about 3% of global life premiums, indicating significant long-term growth potential. According to Swiss Re, life insurance premiums in India are expected to grow by around 3.5% in 2025-26 and at a CAGR of about 6.9% during 2026-2030 in real terms, supported by regulatory reforms and favourable demographics. The life insurance penetration rate stood at around 2.6% in 2025, higher than the emerging markets average of approximately 1.9%.

India will be one of the fastest growing insurance markets in the medium term

We forecast that India's insurance market will grow in real terms at a 6.9% compound annual growth rate over 2026 to 2030, higher than major emerging and advanced insurance markets.

Indian Life insurance Industry

The Indian insurance sector continues to demonstrate strong growth potential, driven by rising incomes, increasing financial awareness and favourable demographics. Life insurance remains the dominant segment with a growing focus on protection, savings and retirement solutions. Industry penetration, however, remains low relative to global benchmarks, indicating significant room for expansion.

Regulatory Environment

The sector's growth is supported by a proactive regulatory framework under Insurance Regulatory and Development Authority of India (IRDAI). Key initiatives include:

- 'Insurance for All' by 2047, targeting universal coverage for citizens and enterprises
- FDI limit increased to 100% and NOF requirement for Foreign Reinsurance Branches reduced from ₹ 50 billion to ₹ 10 billion, supporting capital inflows, solvency and product innovation
- Notifications under Sabka Bima, Sabki Raksha to advance the vision of universal coverage and strengthen insurance penetration across the country
- Enhanced consumer protection, including the extension of the free-look period from 15 to 30 days

Product Mix

The industry has witnessed a gradual shift in product preferences between FY19 and FY25:

Industry NBP Segment mix (%)

- Non-Par products increased from 30% to 34%, reflecting demand for guaranteed and protection-oriented solutions.
- Participating (Par) products declined from 23% to 11% as customers preferred transparent return structures.
- Pension products rose from 20% to 27%, highlighting retirement planning awareness.
- ULIPs increased from 13% to 19%, driven by market-linked investment interest.
- Annuity products remained stable at ~9%.

Technology & Innovation

The adoption of Robotic Process Automation (RPA), Artificial Intelligence (AI) and Internet of Things (IoT) devices is transforming insurance operations, risk assessment and personalised offerings. IoT-enabled insurance, including wearable health trackers and connected vehicles, is projected to grow rapidly, with the market expected to reach ₹ 1,83,120 crore (USD 21.4 billion) by 2033.

Outlook

Supported by regulatory reforms, expanding distribution channels, technology adoption and rising consumer awareness, the Indian insurance sector is expected to sustain robust growth in FY26. Insurance penetration is projected to rise from 3.5% in 2025 to above 4% by 2036, while product innovation and market-linked solutions continue to reshape customer preferences.

Note: Components may not add up to total due to rounding off

A) Market Trend - Segment

Private Players

At the private insurer level, traditional products continue to dominate the portfolio, although Unit Linked Insurance Plans (ULIPs) maintain a strong presence.

The share of ULIPs declined from 38% in FY19 to 29% in FY22 amid market volatility and a shift towards guaranteed products but recovered to 36% in FY25 following improved equity market performance.

Correspondingly, the share of traditional products increased from 62% in FY19 to 71% in FY22 before moderating to 64% in FY25 as ULIPs regained momentum.

Private life insurers in India typically have a higher share of ULIPs in their portfolios compared with public sector players, driven by greater product innovation, targeted marketing strategies and a focus on offering transparent, flexible investment solutions that combine protection with market-linked returns.

Private (%)

Public Player

In the public sector, the product mix remains heavily dominated by traditional life insurance products. These accounted for 100% of the portfolio in FY19 and although their share declined slightly to 95% by FY25, they still form the core offering.

ULIPs have only recently gained traction, increasing gradually from 0.03% in FY19 to 5% in FY25, reflecting a gradual switch from traditional products to market-linked solutions.

Public (%)

B) Distribution evolution and customer preferences

The life insurance distribution landscape has evolved significantly over time, transitioning from a largely agent-driven model to a more diversified framework that now includes bancassurance, digital platforms and direct sales channels.

Private (Individual NBP)

Industry (Individual NBP)

Looking ahead, multi-channel and hybrid digital distribution models, including bancassurance and online platforms, are expected to gain further traction, especially among urban and younger customers. The adoption of digital channels accelerated significantly after the COVID-19 pandemic, particularly for term and savings products. This shift has improved transparency and customer convenience through features such as real-time personalised premium calculators and instant policy issuance.

Other channel such Direct Business – Company Website, IMF, Insurance Marketing Firm, Micro Agents, Online, Referral and Web Aggregators are getting quite popular and thus gaining market share in private and overall industry.

C) Growth (NBP basis)

The industry recorded an overall CAGR growth of 10.6% between FY21 and FY26. While private life insurance players recorded a CAGR growth of 16.2%, public life insurers recorded a CAGR growth of 7.2% for the said period as depicted below.

Public insurer continue to hold a strong position due to their large existing customer base and strong brand trust. However, private life insurers have often grown faster because of their innovative products, customer-focused approach and diversified distribution channels. Despite this faster growth, public insurers still lead in overall scale and reach, especially in rural and less-penetrated markets.

Opportunities

1) Low Insurance Penetration in India

Life insurance penetration in India remains relatively low, providing significant long-term growth potential for insurers expanding coverage.

Life Insurance Penetration¹ (Premium as % of GDP)

1. Swiss RE Sigma No.3/2024

Life Insurance Density¹ (USD)

How/Why an opportunity?

1. Large Untapped Customer Base

India's insurance penetration remains relatively low at ~3.7% of GDP in FY25, with life insurance penetration at ~2.7%, compared with the global average of ~3%. This indicates a large, underinsured population and significant scope for expanding life insurance coverage as financial inclusion deepens. (IRDAI Annual Report 2024-25)

2. Low Penetration in Rural & Underserved Markets

Insurance coverage in rural areas remains limited despite a large population base, offering strong growth potential through targeted products, digital distribution and awareness initiatives.

3. Rising Awareness & Supportive Policy Environment

Life insurance premiums reached ₹ 8.8 lakh crore in FY25 (IRDAI Annual Report 2024-25), reflecting steady industry growth. Post-pandemic awareness of financial protection, government-led financial inclusion initiatives and regulatory reforms supporting the "Insurance for All by 2047" vision by IRDAI is expected to further accelerate insurance adoption.

Strategies

1. Expand Access in Underserved Markets

Leveraging its network of 2.8+ lakh agents and 13,000+ partner branches, SBI Life can deepen penetration in Tier-2, Tier-3 and rural markets through affordable and simplified protection products, addressing the large uninsured population.

2. Scale Digital Distribution

Integration with the YONO platform and the ecosystem of SBI enables seamless customer access. With ~99.7% processes digitally-enabled and SBI targeting ~20 crore mobile banking users, digital channels present a significant growth opportunity.

3. Strengthen Financial Literacy and Awareness

Targeted awareness campaigns, employer partnerships and community outreach can improve understanding of life insurance and support the broader insurance inclusion agenda led by government and regulator.

Opportunities

2) Favourable Demographics & Rising Middle Class

Increasing disposable income, a growing workforce and expanding middle-class population are expected to drive demand for protection and savings products.

Composition of Population¹ (%)

1. United Nations, Department of Economic and Social Affairs, World Population Prospects 2024.

How/Why an opportunity?

1. Young and Expanding Workforce

With ~68% of India's population aged 15-64, a steady stream of first-time insurance buyers is entering the workforce, driving long-term demand for protection and savings products.

(World Bank / WDI (2024) / Sample Registration System (SRS) Statistical Report, 2023)

2. Rising Middle Class and Income Levels

The addition of ~140 million middle-income households by 2030 and increasing disposable incomes are expanding affordability, boosting demand for protection, retirement and investment-linked solutions.

(Bain & Company / World Economic Forum)

3. Greater Financial Awareness and Planning

Growing focus on long-term goals such as retirement, children's education and wealth creation is increasing adoption of life insurance products with long policy tenures and savings components.

Strategies

1. Target Young Professionals with Affordable, Flexible Plans

Design protection + savings products tailored for early-career customers, focusing on affordability and long-term wealth creation.

2. Expand Digital & Goal-Based Offerings

Promote insurance products aligned with goals like child education and retirement, while strengthening digital channels to reach tech-savvy middle-class customers.

Opportunities

3) Strong Distribution Network

The partnership with banks provides access to thousands of bank branches and a large customer base, along with massive Agency network, enabling strong distribution reach and premium growth

How/Why an opportunity?

1. Access to Large Customer Base

Partnership with SBI and other Banks, provides access to a vast and diversified customer base through more than ~40,500 branches, enabling scalable distribution and deeper market penetration.

2. Nationwide, High-Productivity Channel

Vast branch presence and massive agency network across urban, semi-urban and rural areas enables deeper insurance penetration and wider market reach.

3. Faster Customer Onboarding & Conversion

Pre-existing KYC, financial data and in-branch assistance enable quicker onboarding and higher conversion rates.

4. High Trust & Cross-Selling Potential

Strong brand credibility increases customer trust, while relationships through salary accounts, savings accounts and home loans create significant cross-selling opportunities.

Strategies

1. Leverage Distribution Network

Drive bancassurance growth by enhancing branch engagement, training, incentives and digital tools to improve cross-selling and productivity.

2. Integrate Insurance with Agency, Banking & Digital Ecosystem

Embed insurance offerings within product suite (e.g., home loans, savings accounts) and digital platforms (such as YONO) to enable seamless, data-driven and contextual cross-selling.

3. Strengthen Sales Capability

Enhance productivity through continuous training, digital enablement to improve need-based selling and customer conversion.

Opportunities

4) Digital Transformation & Insurtech Adoption

Increased use of AI, analytics and digital platforms enhances customer experience, risk assessment and operational efficiency.

How/Why an opportunity?

1. Enhanced Customer Experience

Digital platforms enable faster policy issuance and claims servicing, aligned with India's 950M+ internet users, driving higher adoption of online insurance. ('Internet in India Report 2025' released by Internet and Mobile Association of India (IAMAI))

2. Data-Driven Underwriting & Personalisation

Advanced analytics and AI improve risk selection and enable targeted offerings, supporting better conversion and underwriting efficiency.

3. Lower Costs & Scalable Reach

Automation reduces servicing costs, while digital channels provide pan-India reach beyond physical networks, supporting scalable growth.

Strategies

1. Invest in AI & Advanced Analytics

Deploy AI/ML for faster underwriting, fraud detection and claims automation to improve turnaround times and underwriting accuracy.

2. Strengthen End-to-End Digital Sales Platforms

Enhance web and mobile platforms to enable seamless policy purchase, e-KYC onboarding and servicing, supporting scalable growth through digital channels.

3. Leverage Data & Insurtech Partnerships

Use customer data for personalised offerings and collaborate with Insurtech firms to adopt technologies like chatbots and digital advisory tools.

5) Growing Demand for Protection & Retirement Products

Opportunities

Rising life expectancy and awareness about financial security are increasing demand for protection and retirement planning solutions.

3. Global Pension Assets Study, 2025

How/Why an opportunity?

1. Rising Life Expectancy Driving Retirement Planning

Increasing life expectancy in India (~71 years, UN 2023) is driving demand for long-term retirement income, creating growth potential for pension and annuity products. (UN Population Division, 2023; World Bank/Statista, 2025)

2. Limited Social Security Coverage

A large portion of the workforce lacks formal government pension coverage, highlighting the need for private retirement and protection solutions.

3. Growing Awareness of Financial Protection

Rising awareness of income loss and family financial security is boosting demand for life protection and long-term savings products. With life insurance penetration at only 2.7% of GDP, the market remains highly under-penetrated, indicating significant growth potential.

Strategies

1. Expand Retirement & Pension Solutions

Strengthen offerings that provide guaranteed income and long-term financial security for retirees, addressing the protection gap.

2. Target Mid-Career Professionals

Design products for individuals in their 30s-40s actively planning for retirement, combining protection and savings.

3. Drive Early Adoption through Advisory & Awareness

Promote financial planning and retirement-readiness through campaigns, digital advisory and personalised guidance, encouraging early adoption of protection and pension plans.

6) Financial Inclusion & Rural Market Expansion

Opportunities

Expanding insurance coverage in rural and underserved markets provides significant growth opportunities.

How/Why an opportunity?

1. Large Untapped Rural Population with Insurance Needs

Rural India (~68.8% of the population) remains significantly under insured, highlighting strong unmet demand for protection and long-term products. (Census of India, 2011)

2. Strong Government Push for Financial Inclusion

Government schemes such as PMJJBY have enrolled 27.1+ crore people with low cost life cover, demonstrating latent insurance uptake potential in underserved segments. (Press Release, Ministry of Finance)

3. Growing Rural Incomes & Structural Gaps

Rising rural incomes combined with persistently low insurance penetration create a significant opportunity to expand first time insurance adoption and build long term customer relationships.

Strategies

1. Develop Affordable Protection and Micro-Insurance Products

Expand affordable protection and micro-insurance offerings through low-premium products and government-backed schemes such as Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY) to increase insurance penetration, promote financial inclusion and strengthen presence in rural and underserved markets.

2. Strengthen Agent & Advisor Networks

Recruit and train community-based agents and advisors to build trust, educate customers on product benefits and drive rural distribution.

3. Promote Awareness & Financial Literacy

Conduct targeted village-level campaigns and collaborate with local groups to raise awareness of insurance benefits and financial planning, especially in underserved regions.

7) Tax and Reforms Increasing Insurance Demand

Opportunities

Lower taxation on life insurance products and government initiatives to expand insurance coverage can support premium growth.

How/Why an opportunity?

1. GST & Tax Measures Improving Affordability

Government reforms, including the GST exemption on individual life insurance premiums, are making protection products more affordable and contributing to increased consumer interest in pure protection plans.

2. Industry Push for Enhanced Income Tax Incentives

Industry bodies and research reports are advocating for additional tax deductions for life and health premiums, which could further boost adoption and reduce cost barriers.

Strategies

1. Position Insurance as Core Financial Security

Emphasise life and long-term protection products as essential tools for financial security and disciplined savings, beyond just tax considerations.

2. Promote Insurance as a Holistic Financial Planning Tool

Educate customers on how our products support wealth creation, retirement planning and protection for dependents, building financial resilience and disciplined savings habits.

Risks

1) Macroeconomic Volatility & Market Fluctuations

Equity market volatility can impact investment income and demand for market-linked products

How/Why a risk?

1. Impact on Investment Returns

Volatility in equity and bond markets affects insurer portfolios, with insurers typically allocating majority of investments in fixed income instruments, making returns sensitive to interest rate movements and yield fluctuations.

2. Demand Slowdown & Persistency Risk

Economic uncertainty may lower investments in market-linked products (ULIPs) and increase policy surrenders or delayed premium payments.

3. Asset-Liability Mismatch Risk

Interest rate volatility creates challenges in matching long-term liabilities with assets, impacting solvency and margin stability.

Strategies

1. Diversified Portfolio & Risk Management

Maintain a balanced asset mix across fixed income and equities, with robust ALM frameworks and hedging to manage interest rate and market risks.

2. Shift Towards Protection & Guaranteed Products

Increase focus on protection and non-linked products to reduce sensitivity to market volatility and stabilise earnings.

3. Strengthen Persistency through Customer Engagement

Drive awareness of long-term benefits and use digital engagement to reduce surrenders and improve renewal premium collections.

2) Persistency & Customer Retention Risk

Lower renewal rates or poor persistency could impact long-term profitability.

How/Why a risk?

1. Impact on Long-Term Profitability and Cost Efficiency

Lower policy persistency reduces renewal premium inflows, which adversely affects long-term profitability. Although SBI Life maintains healthy persistency levels (around 85-87% in the 13th month and 58-60% in the 61st month), sustaining policyholder retention remains critical for stable earnings. At the same time, lower renewal rates increase reliance on acquiring new customers, leading to higher acquisition and distribution costs. This raises the overall cost of doing business and reduces operational efficiency, thereby putting additional pressure on profitability.

2. Reduced Customer Lifetime Value

Poor persistency limits cross-sell and upsell opportunities, reducing customer lifetime value and long-term revenue potential.

3. Reputation & Customer Experience Risk

Higher lapse rates may indicate gaps in customer experience, potentially affecting brand trust and market perception.

Strategies

1. Implement Customer Engagement Programs

Regular communication, policy reminders and value-added services can enhance customer loyalty and encourage timely renewals.

2. Offer Flexible and Customised Products

Design policies with flexible premium payment options and rider benefits that suit changing customer needs to improve retention.

3. Digital Enablement for Retention

Use mobile apps, email and SMS notifications to track policy status, offer personalised advice and simplify renewals.

Business Overview

SBI Life has successfully concluded the financial year with a continued strategic focus on new business growth. A wide distribution network and customer-centric product portfolio have enabled the Company to capitalise on the significant opportunities in the Indian insurance market. The Company's focus on digitalisation is aimed at delivering high-quality, value-driven products and services to our customers.

Segment-wise business performance

The life insurance sector can be broadly categorised into three product segments: participating, non-linked and unit-linked products. Non-linked products include traditional products that provide savings with protection benefits or purely savings or protection products. Non-linked products are further classified into participating products – that offer variable returns linked to the insurer's performance – and non-participating products that provide fixed benefits. Unit-linked products (ULIPs) offer returns, directly tied to the performance of underlying debt and equity market investments.

New business performance of the Company can be analysed based on the following segments: –

(₹ in billion)

Sr. No.	Segments	FY26	FY25	Product Mix (FY26)	Y-o-Y Growth	CAGR (FY21 – FY26)
1.	Participating Segment	16.67	7.54	3.92%	121.15%	11.53%
2.	Non-Participating Segment					
	- Individual Savings	106.46	86.13	25.02%	23.61%	36.62%
	- Group Savings	78.66	56.67	18.49%	38.79%	4.30%
	- Individual Protection	9.73	7.93	2.29%	22.69%	5.57%
	- Group Protection	36.49	33.02	8.58%	10.51%	16.27%
3.	Linked Segment	177.50	164.48	41.71%	7.92%	15.62%
	Total NBP	425.51	355.77	100.00%	19.60%	15.59%

A brief description of the segments is given below:

1. Participating Segment

Participating life insurance products are savings-oriented protection plans where policyholders are entitled to a share in the surplus generated from the participating segment during the term of the policy contract. These products offer a guaranteed sum assured along with potential long-term returns through surplus distribution, if any, subject to the fund's performance. Policyholders receive at least a 90% share of the surplus, while the remaining is allocated to shareholders. The Company offers a range of participating insurance products designed to meet diverse customer needs, including whole life insurance that provides lifelong coverage, endowment life insurance products that provide benefits over a defined term and child plans that helps secure a child's future financial needs through planned savings and protection benefits.

New business premium from participating segments accounted for almost 3.92% of the total new business premium during FY26.

2. Non-Participating Segment

The Non-Participating segment comprises individual savings, group savings and protection segments. These product offerings provide defined benefits over a fixed period and do not entitle the insured to

a share in the fund surplus. Any surplus arising in the case of non-participating business is transferred to the shareholders' account, on the recommendation of the appointed actuary.

i) Individual Savings

The individual savings segment comprises endowment products, guaranteed benefit plans and immediate annuity products.

Endowment Products: An endowment plan pays the sum assured to the beneficiary either on maturity or on the occurrence of a covered event during the specified term.

Immediate Annuity and Deferred Annuity Products: An immediate annuity plan guarantees a defined lifelong income, commonly known as a pension, beginning immediately after purchase, thereby addressing the longevity risk. A deferred annuity plan helps customers accumulate a retirement corpus during the policy term, with pension payouts commencing at a future date after the deferment period, thereby supporting long-term retirement planning and income security.

New business premium from the individual non-par savings segment constituted 25.02% of the total new business premium for FY26, registering a growth of 23.61%, rising from ₹ 86.13 billion in FY25 to ₹ 106.46 billion in FY26.

ii) Group Savings

Group savings solutions comprise group fund-based insurance products and immediate annuity offerings.

Fund-based group insurance products cater to the needs of employers seeking financial solutions to fund their employees' benefit schemes including gratuity, superannuation and leave encashment.

Group immediate annuity products are primarily meant for corporate clients (employer-employee groups) and other informal groups, seeking to fulfil annuity obligations for their members' annuity liability.

iii) Protection

The protection segment includes both individual and group products.

Individual protection products offer fixed benefits during the policy term, upon the occurrence of specific insured events, typically the death of the insured, but may also include permanent disability or critical illness. These products expire if the designated event does not occur. This segment also includes health insurance products which provide cover against expenses arising due to medical emergencies requiring hospitalisation and critical illnesses.

The Group protection segment includes credit life insurance products which cover the outstanding loan liabilities of banks and financial institutions

in the event of death or disability of the insured members of the group.

The group protection segment also includes products which provide life insurance coverage to a group of individuals, where, upon the death of a member, the sum assured is paid to the member's nominee. These products are usually structured as employee-employer schemes where the employer holds the master policy and employees are the insured members. In addition, the segment includes social security schemes such as the Pradhan Mantri Jeevan Jyoti Bima Yojana (PMJJBY) providing affordable life insurance coverage to eligible account holders.

3. Linked Segment

Linked products offer a combination of insurance protection and market-linked investment opportunities. Returns are directly linked to the performance of the underlying funds, with a transparent and pre-defined charge structure. The investment risk on these products is borne entirely by the policyholder. This segment also includes fund-based group solutions for gratuity, superannuation and leave encashment tailored for employers' needs.

New business premium from the linked segment constituted 41.71% of the total new business premium for FY26, amounting to ₹ 177.50 billion, reflecting a robust growth of 7.92% over the previous year.

- Gross written premium has increased by 19.18% from ₹ 849.85 billion in FY25 to ₹ 1,012.86 billion in FY26, due to strong growth in new business premium by 19.60%.
- Individual new business premiums have increased by 12.99% from ₹ 263.60 billion in FY25 to ₹ 297.83 billion in FY26 due to increase in new business premium from Par savings and Pure Protection segment.
- The renewal business has increased by 18.88% from ₹ 494.08 billion in FY25 to ₹ 587.35 billion in FY26, mainly due to an increase in individual renewal business from the Linked Life and Non-Par life segments.
- The group's new business premium increased by 38.53% from ₹ 92.17 billion in FY25 to ₹ 127.68 billion in FY26.

1. Interest and Dividend includes net of Accretion of discount / (Amortisation of premium)

Total income from investment at ₹ 110.54 billion in FY26 comprised ₹ (35.03) billion under the unit-linked portfolio and ₹ 145.58 billion under the traditional portfolio. Total investment income has decreased by ₹ 206.72 billion from ₹ 317.26 billion in FY25 to ₹ 110.54 billion in FY26, mainly due to a decrease in the change in fair value on account of the valuation of the equity portfolio under the Unit Linked segment.

Traditional Portfolio (Par and Non-Par):

Total investment income under the traditional portfolio has increased by ₹ 13.54 billion from ₹ 132.04 billion in FY25 to ₹ 145.58 billion in FY26, majorly due to the following:

- Interest income under the traditional portfolio increased by ₹ 12.76 billion from ₹ 103.75 billion in FY25 to ₹ 116.51 billion in FY26 due to an increase in investment in debt securities by 12.30% under the traditional portfolio.
- Dividend income has increased by ₹ 0.67 billion from ₹ 2.32 billion in FY25 to ₹ 2.98 billion in FY26.

Unit Linked Portfolio:

Total investment income under unit-linked portfolio has decreased by ₹ 220.26 billion from ₹ 185.23 billion in FY25 to ₹ (35.03) billion in FY26 mainly due to fair value change. Fair value change has decreased by ₹ 214.64 billion from ₹ 17.13 billion in FY25 to ₹ (197.51) billion in FY26 primarily due to mark-to-market in the unit linked segment in FY26 as compared to previous year. During FY26, Nifty decreased by 5.05% as compared to a growth of 5.34% in FY25.

Total	4.57%	4.45%	1.07%	1.28%	4.05%	4.02%

Commission expenses majorly pertain to individual business. The commission expense increased by 19.94% from ₹ 34.18 billion in FY25 to ₹ 41.00 billion in FY26, mainly due to the following:

- First year commission for Individual Business has increased by 21.04% from ₹ 19.87 billion in FY25 to ₹ 24.09 billion in FY26.
- Renewal commission from Individual Business has increased by 21.07% from ₹ 11.90 billion in FY25 to ₹ 14.40 billion in FY26 on account of higher renewal premium collection.

iv. Operating expenses related to Insurance business

The summary of operating expenses is as follows –
(₹ in billion)

Particulars	FY26	FY25
Employees remuneration and welfare expenses	32.52	27.29

Legal and professional expenses	2.62	2.33
Others	23.18	11.81
Total Operating Expenses	62.25	44.91

Operating expenses related to the insurance business increased by 38.63% from ₹ 44.91 billion in FY25 to ₹ 62.25 billion in FY26. The Employees' remuneration increased by 19.16% from ₹ 27.29 billion in FY25 to ₹ 32.52 billion in FY26 due to annual increments and an increase in the number of employees to support expanded business operations. Increase in advertisement, publicity and marketing expenses from ₹ 1.97 billion in FY25 to ₹ 2.38 billion in FY26 reflects higher investment in digital marketing campaigns conducted by the Company to enhance brand visibility and customer engagement.

v. Goods and Services Tax on charges

Goods and services tax on charges has decreased by 52.50% from ₹ 11.06 billion in FY25 to ₹ 5.25 billion in FY26 due to increase in linked income charges namely fund management charges, premium allocation charges, etc.

vi. Benefits paid (net) and interim and terminal bonus paid

viii. Surplus (Revenue Account), Transfer to Shareholders' Account (Profit and Loss Account) and Funds for Future Appropriation (FFA)

a. Surplus (Revenue Account)

As a result of the above changes in income and expenses, the surplus in the Revenue Account increased from ₹ 29.94 billion in FY25 to ₹ 32.89 billion in FY26.

Segment-wise breakup of Surplus is as under:

(₹ in billion)		
Particulars	FY26	FY25
Participating segment	4.32	3.93
Non-Participating segment	(7.24)	(3.12)
Unit-Linked segment	17.08	15.68
Surplus (net of Contribution from Shareholders)	14.15	16.49
Add: Contribution from Shareholders	18.74	13.46
Surplus	32.89	29.94

b. Transfer to Shareholders' Account (Profit and Loss Account)

The surplus generated in the Revenue Account after setting aside Funds for Future Appropriation is transferred to the Profit and Loss Account (Shareholders Account) based on the recommendation of the Appointed Actuary. Transfer to Shareholders' Account increased by 15.35% from ₹ 27.40 billion in FY25 to ₹ 31.60 billion

in FY26. The remaining surplus of ₹ 1.29 billion was retained as Funds for Future Appropriation.

Participating segment: Profits in the participating business are driven by the total bonuses declared to policyholders on an annual basis. Currently, as per the regulatory norms, one-ninth of the bonus declared for policyholders, is transferred to shareholders. Bonus declared as per regulatory provisions has increased from ₹ 25.40 billion in FY25 to ₹ 27.64 billion in FY26. The amount transferred to shareholders increased to ₹ 3.07 billion in FY26 from ₹ 2.82 billion in FY25.

Non-Participating segment: Profits from the non-participating business are primarily derived from premium and investment income net of expenses, claims and policyholder liabilities. Loss in non-participating segment has increased from ₹ (3.12) billion in FY25 to ₹ (7.24) billion in FY26.

Unit-Linked (ULIP) segment: In the unit-linked business, profit arises exclusively from charges (net of expenses) levied on policyholders. Under unit linked business, Assets under Management (AUM) increased by 4.57% on account of better market performance and increase in total business by 16.6%.

c. Funds for Future Appropriations (FFA)

Funds for Future Appropriations represent surplus funds that remain unallocated to either policyholders or shareholders as of the valuation date. During the year, a sum of ₹ 1.29 billion was transferred to Funds for Future Appropriation.

B. Profit and Loss Account (Shareholders' Account)

(₹ in billion)

Material Developments in Human Resources

At SBI Life, we believe that our employees are our most valuable assets. We are committed to fostering a dynamic and nurturing work environment where every individual can thrive, unlock their full potential and make a meaningful impact. We invest in our people's continuous growth through targeted development programmes and cultivate an inclusive culture where everyone feels valued, respected and empowered. To promote work-life balance and agility, we also offer flexible work arrangements.

Attracting, engaging and retaining top talent continues to be our foremost priority. We have implemented a comprehensive range of initiatives aimed at attracting quality talent, enhancing their skills and fostering a culture of high performance and excellence.

Our rewards and recognition programmes are anchored in the principle of meritocracy, promoting

a culture of excellence through fair and competitive compensation that motivates employees to achieve superior results. Through LEAP (Leading through Excellence & Performance), our comprehensive performance management system, we recognise and reward achievements aligned with individual, team and organisational goals. To support career growth, we also provide cross-functional opportunities via our Internal Job Posting system.

This year, we have implemented HR One, a new HR Management system, which will help in enhancing the employee experience by further streamlining HR processes and empowering employees. This cloud-based, user-friendly platform enables seamless employee life cycle management such as leave, attendance, performance and other HR services and can be accessed through web as well as mobile devices to enable employees with the easy access of their HR data.

This digital shift will make every day HR interactions simpler and more transparent.

We are fully committed to promoting diversity and inclusion by cultivating a respectful environment where every employee has equal opportunities for growth and is free from bias. Our Diversity, Equity and Inclusion Policy encourages open communication, collaboration and flexible work practices that supports the diverse needs of our workforce.

Reflecting on our commitment to gender diversity, initiatives such as “Project Shakti”, “Graduate Sales Trainee Program” and “Business Associate Model” have been launched to increase the participation of women and young talent across the organisation. These initiatives have significantly improved our gender ratio over the years.

We understand that an engaged and motivated workforce is essential for long-term success and sustainability. This year, we have further strengthened our employee engagement and well-being initiatives to nurture a healthy, connected and motivated workforce. To promote holistic health, we organised informative Health Awareness sessions with leading medical experts, encouraging our employees to embrace a balanced and mindful lifestyle. Beyond wellness, we foster a sense of camaraderie and team spirit through various employee engagement events, including off-site retreats, team dinners and our annual celebration ‘Sangam’. This special event unites employees and their families in a joyful celebration, strengthening our culture of togetherness, belonging and shared success.

Our employee benefits closely reflect our brand promise, Apne Liye, Apno Ke Liye – empowering employees to fulfil their own needs while securing the needs of their loved ones. Under our Group Medclaim policy, employees get the flexibility to include dependents such as parents and parents-in-law, with various top-up options for enhanced coverage. We also offer free annual health check-ups for employees. This year, we introduced a special integrated health screening and evaluation check-up exclusively for all women employees, reinforcing our commitment towards health and wellness of our employees. The check-up covers a range of tests including TFT (Thyroid function test), LFT (Liver function test), Consultation with Gynaecologist, etc.

We support our employees throughout key life events with progressive policies such as sabbatical leave, flexi time and paternity leave, helping them to effectively balance personal and professional commitments. To cultivate a culture of continuous learning, we have enhanced incentives for employees pursuing insurance-specific certifications, enabling upskilling and reskilling to stay ahead of evolving industry trends, regulations and technologies.

Internal Control Systems and their Adequacy

The Company has established its internal financial control system in alignment with the requirements of the Companies Act, 2013 and in accordance with globally recognised risk-based frameworks such as that issued by the Committee of Sponsoring Organizations (COSO). This framework is designed to enhance transparency and accountability in the Company's internal control environment by guiding the design, implementation and maintenance of effective controls.

As part of this framework, the Company systematically identifies and analyses key risks and develops appropriate response strategies. A comprehensive internal financial control framework has been successfully implemented and is periodically assessed to ensure its continued effectiveness.

The Company follows the 'Three Lines of Defence' model to ensure robust governance and risk management. Clearly-defined Standard Operating Procedures (SOPs) and policies govern day-to-day operations, supported by a well-structured delegation of authority that specifies approval limits for both revenue and capital expenditures.

The control environment is regularly tested and validated through a structured audit mechanism comprising Statutory, Concurrent and Internal Auditors. In addition, the Company has appointed a Chief Audit Officer who leads a dedicated internal audit team, appropriately scaled to the size, nature and complexity of the Company's operations.

The internal audit plan includes a comprehensive coverage of Information System Audits, process audits and transaction-based audits conducted across the Head Office, Regional Offices and various branch locations. The audit approach emphasises adherence to regulatory requirements, evaluation of operational and system-related controls, ensuring continuous improvement and compliance across the organisation.

2. Industry and Company Outlook

The global economy continued to navigate a challenging environment during FY26, marked by geopolitical uncertainties, evolving trade dynamics, persistent inflationary pressures in key advanced economies and heightened volatility across global financial markets. Despite these external headwinds, India continued to demonstrate strong macroeconomic resilience and remained among the fastest-growing major economies globally. According to the latest estimates released by the National Statistics Office (NSO), India's real GDP is estimated to have grown by 7.7% in FY26. Looking ahead, the Reserve Bank of India (RBI)

has projected India's GDP growth at around 6.6% for FY27, reflecting a normalisation in growth momentum while continuing to be supported by strong domestic fundamentals.

India's long-term growth prospects remain underpinned by favourable demographics, rising urbanisation, increasing economic formalisation, rapid digital adoption and expanding financial inclusion. These structural drivers continue to strengthen financial awareness and are expected to drive sustained demand for protection, retirement and long-term savings solutions, thereby reinforcing the growth potential of the life insurance sector.

Against this backdrop, the Indian life insurance industry maintained healthy growth momentum during FY26, supported by improving customer awareness, greater adoption of digital distribution channels and progressive regulatory reforms. The industry witnessed growth in new business premiums by 15.7%, driven by strong demand across protection, savings and retirement-oriented products. Total sum assured grew by 23.6% further reflected increasing customer awareness of the need for adequate financial protection, reinforcing the sector's role in enhancing financial security.

During the year, the GST reforms introduced by the government represent a significant shift in the insurance landscape, aiming to make life and health insurance more affordable and encourage broader coverage among the population. These measures are aligned with the long-term objective of expanding insurance coverage across the country and support the Insurance Regulatory and Development Authority of India's (IRDAI) vision of "Insurance for All by 2047". The sector also continued to benefit from other key regulatory initiatives, including the transition towards a Risk-Based Capital framework and the ongoing development of the Bima Sugam digital platform. Collectively, these reforms are expected to enhance accessibility, improve transparency, strengthen operational efficiency and support the long-term growth and resilience of the insurance sector.

Key areas on which Insurers need to focus to become future-ready

- Digital Transformation and Technology Integration:** Insurers need to accelerate adoption of Artificial Intelligence (AI), automation, advanced analytics and digital platforms to enhance operational efficiency,

improve customer engagement and enable faster, data-driven decision-making across underwriting, claims and servicing processes.

- Cyber Security and Data Privacy:** As digital adoption increases, insurers are exposed to growing cybersecurity risks involving sensitive customer and financial information. Strengthening cybersecurity infrastructure, enhancing real-time monitoring, investing in secure technologies and promoting employee awareness are critical to safeguarding data, ensuring operational resilience and maintaining customer trust and regulatory compliance.
- Sustainability and Climate Change:** The insurance industry is increasingly prioritizing sustainability and climate resilience within its business strategies. Beyond providing financial protection, insurers are expected to support risk prevention and mitigation related to climate change by developing sustainable insurance solutions and collaborating with stakeholders to promote environmentally responsible practices
- Customer-Centric Business Models:** Insurers are increasingly shifting toward customer-centric operating models focused on delivering seamless, personalized and relationship-driven experiences. Leveraging technology and data analytics to better understand evolving customer needs will be essential to enhancing engagement, strengthening trust and improving long-term customer retention and satisfaction.

The insurance industry is undergoing a significant transformation driven by evolving customer expectations, rapid technological advancements, regulatory developments and increasing focus on sustainability. As the sector adapts to a more digital and interconnected environment, insurers will need to strengthen cybersecurity frameworks, enhance customer-centric capabilities and integrate sustainable business practices into their long-term strategies.

Thus, the future of life insurance seems promising, and as a Company, we are prepared to seize the opportunities that lie ahead. We remain committed to deepening customer engagement, enhancing insurance accessibility, accelerating technology investments and developing innovative solutions that address the evolving financial protection and savings needs of our customers.

- Net Promoter Score (NPS) has improved significantly from 72 in FY 2024 to 86 in FY 2026.

b) Customer Engagement, Retention & Persistency Management

Customer retention and renewal premium collections remain critical to the Company's long-term profitability and financial stability. Persistency, which reflects the proportion of policies remaining in force over time, serves as a key indicator of customer satisfaction, trust and engagement. Strong renewal performance underscores customers' confidence in the Company's brand, products and service delivery, and contributes to sustained growth and profitability.

The Company continuously monitors persistency trends to gain insights into customer behaviour and expectations, as well as the effectiveness of its product offerings and service standards. Improved renewal collections signal positive customer experience

and support predictable cash flows, while also providing visibility on customer tenure and long-term relationship strength.

To enhance customer stickiness, loyalty and persistency, the Company remains focused on deepening customer engagement, strengthening renewal premium collections and persistency, and proactively managing exits through effective surrender and lapse control mechanisms.

Customer Engagement

Customer engagement remained a key focus area during the year, with the Company undertaking multiple initiatives to strengthen long-term relationships and enhance overall customer experience. Proactive engagement mechanisms were deployed at key policy milestones to reinforce product understanding, highlight the importance of timely premium payments and communicate the longterm value of insurance. Customer communications were further standardised and simplified across the policy lifecycle to ensure clarity, transparency and consistency.

The Company also undertook structured customer awareness initiatives across multiple communication channels to educate policyholders on policy features, servicing norms and available digital service touchpoints. These initiatives aimed at empowering customers through timely and relevant information, encouraging self-service adoption and building greater confidence and trust. The use of personalised, policy-specific digital content further enhanced transparency, reduced grievances and supported informed decision-making by customers.

In parallel, the Company continued to strengthen governance around customer protection. All mis-selling complaints were subjected to detailed internal review, with cases requiring further scrutiny referred for investigation and appropriate action taken in line with internal conduct policies. Insights from complaint analysis were regularly shared with leadership, distribution, product and training teams to enable continuous improvement and reinforce a customer-centric culture across the organisation.

Renewal collections & Persistency Management

During the financial year 2025-26, the Company achieved renewal premium collections of ₹58,734.8 crore registering a year-on-year growth of 18.9%. This improvement in renewal

collections was supported by sustained customer engagement initiatives and translated into improved persistency levels. The 13th-month persistency for regular premium policies increased to 87.9% (YoY improvement of 0.5%), while the 25th-month persistency improved to 78.0% (YoY improvement of 0.3%), reflecting stronger customer retention across the policy tenure.

The Company continued to focus on enhancing renewal efficiency through increased adoption of auto-debit and digital payment mechanisms. Auto-debit mandates were registered for 65.2% of new policies issued during the year, supported by early and proactive customer outreach. Over 98% of premium collections were received through digital and alternate payment modes during the year, with collections through physical instruments further declining. Additionally, focused retention and revival initiatives resulted in the revival of over 1.34 lakh lapsed policies during the year, generating renewal premium of ₹888 crore. These outcomes underscore the effectiveness of the Company's data-driven engagement strategies, digital enablement and targeted customer communication framework, strengthening renewal collections and persistency on a sustainable basis.

Surrender Prevention

To mitigate policy surrenders, the Company further strengthened its surrender retention efforts during the year by expanding the Surrender Prevention Tool, increasing its coverage to 91% of surrenderable policies through integration of newer products. The tool provides a concise, personalized retention note to policyholders intending to surrender, explaining key decision drivers in a simple and transparent manner, including comparisons of returns realized and projected over different time horizons, and highlighting the benefits of continued disciplined savings and rupee-cost averaging. The note also enables frontline teams to engage constructively and objectively with policyholders to address surrender concerns and support informed decision-making. As a result of these initiatives, surrender retention improved to 35% in FY 2025-26 compared to 33% in the previous year, with the tool covering 18 products across 11 versions as at year end.

c) Customer Support & Service Delivery

The Company continued to strengthen customer support and service delivery capabilities during the year by optimising servicing touchpoints and expanding digital and assisted service channels. The 24x7 inbound contact

centre, supported by multilingual voicebot capabilities and dedicated desks for HNI and NRI customers, handled significantly higher customer interactions with strong customer satisfaction outcomes. Self-service channels, including missed call services, the Smart Care mobile application, WhatsApp and AI enabled chatbots, enabled customers to access a wide range of policy servicing, payment, renewal, revival and information services in a seamless and digital manner, leading to high adoption across key policy alterations and transactions. Further, integration of Smart Care with the Smart Advisor platform enhanced intermediary assisted and operations assisted servicing, enabling efficient digital support for renewals, revivals and KYC related activities, thereby improving service accessibility, turnaround times and overall customer experience.

d) Process Quality Excellence & Risk Mitigation

Robust Quality assurance framework has been put in place to monitor the quality of data and processes across the spectrum of functions and transactional systems to ensure accuracy alongside mitigating operational risks. The process quality includes monitoring key financial transactions, operational and automated processes, data quality, development of automated and tech tools to improve the efficiency, effectiveness and scalability of the quality monitoring processes.

The key initiatives involves automated system for realtime validation of benefit payments independent check on the quality and accuracy of the payouts made to customers to mitigate risk, prevent financial loss & improve compliance and automated UAT for faster product launches and improved operational efficiency. Automation has enabled reduced testing cycles, enhanced quality and accelatated time to market.

e) Grievance Redressal

Grievance handling is not just about resolving complaints; it is about building trust, reinforcing our brand promise, and demonstrating our commitment to every policyholder. Each interaction is an opportunity to turn a dissatisfied customer into a brand advocate provided we respond with empathy, efficiency, and accountability.

We have taken multiple steps to enhance our systems and empower the employees to improve the quality of resolutions of customer's

grievances. The key initiatives undertaken includes robust Customer Relationship Management (CRM) system, designed to streamline the entire grievance lifecycle, integration of CRM with the 'Bima Bharosa' Portal (IRDAI) on real time basis. Through these initiatives, we continue to strengthen our service delivery with a focus on responsiveness, compliance, and customer-centricity.

The Net Promoter Score (NPS) is one of our key measures of customer satisfaction and improving the overall response rates and effective looping of the feedbacks to address the process gaps is our key focus area. We have improved our overall NPS Score to "86" in FY 26 as compared to "82" in FY 25.

The ratio of customer grievances to new policies issued stands at 0.22% in FY26. Additionally, the mis-selling complaints ratio remained constant at 0.02% over the same period.

f) Continual Process Improvement

Many process improvements and simplifications were rolled out during the year to enhance efficiency and effectiveness, as well as to mitigate risks and costs, as part of our continual improvement cycle. This cycle involves constantly looking beyond our boundaries, assessing external competition, and continuously benchmarking ourselves to drive improvement and innovation.

Some important changes made during the financial year are highlighted below:

i. Underwriting

Authority limits have been updated to strengthen operational efficiency and decision-making. Regional Underwriting Units (RUU) have been granted enhanced authority to enable faster processing of proposals. Limits have been increased across auto-underwriting as well as for RUU and CPC underwriters to support improved turnaround times.

The Underwriting First Framework has been developed to optimize risk management while enabling faster and more efficient issuance of policies.

C. IRDAI Directions

a) The IRDAI has issued directions under section 34 (1) of the Insurance Act, 1938 to refund allegedly excess commission paid to corporate agents amounting to ₹ 27,529 Lakhs (previous year ended March 31, 2025: ₹ 27,529 Lakhs) to the members or the beneficiaries vide order no. IRDA/Life/ ORD/Misc/083/03/2014 dated March 11, 2014. The SBI Life Insurance Company Limited ('the Company'), has preferred appeal against the order with the Securities Appellate Tribunal ('the SAT') for quashing the order passed by IRDAI as aforesaid. While deciding/disposing off the appeal the SAT vide its order dated

29 January 2020 opined that the amount of ₹ 27,529 Lakhs has wrongly been calculated by the IRDAI and the appeal is partly allowed. The matter is remitted to the IRDAI to recalculate the unlawful gain, namely, the interest earned on advance premium collected and recover the same accordingly and pay it to the policyholders. However, the IRDAI recalculation, if any, has not been received by the Company instead the IRDAI preferred an appeal against the SAT order before the Hon'ble Supreme Court of India in Civil Appeal Nos. 254-255 of 2021. The Company has also challenged the SAT order dated 29 January 2020 before the Hon'ble Supreme Court of India in Civil Appeal No. 2497-2498 of 2021, inter-alia praying for quashing the aforesaid order. At this juncture, the operation of the SAT order granting partial reliefs on quantum of disgorgement has been challenged in the Hon'ble Supreme Court by the IRDAI and the Company. Pending final adjudication of these cross appeals filed with the Hon'ble Supreme Court, the Company has considered entire disputed amount of ₹ 27,529 Lakhs as contingent liability.

b) IRDAI has issued directions under section 34(1) of the Insurance Act, 1938 to distribute the administrative charges paid to master policyholders amounting to ₹8,432 Lakhs vide its order no. IRDA/Life/ ORD/MISC/228/10/2012 dated October 5, 2012 and subsequent order no. IRDA/Life/ ORD/MISC/009/01/2017 dated January 11, 2017. The Securities Appellate Tribunal (SAT) vide its order dated April 7, 2021 has dismissed the appeal filed by the Company against the IRDAI order. Subsequently, the Hon'ble Supreme Court vide its order dated September 22, 2021 has dismissed petition filed by the Company against the SAT order. Accordingly, in FY 2022, the Company has made provision in the Profit and Loss Account (Shareholders' Account) for refund of administrative charges paid to group master policy holders amounting to ₹ 8,432 Lakhs plus applicable interest as per IRDAI order dated January 11, 2017. Corporate Governance Report

Introduction

Our Company is explicitly committed to creating value for all its stakeholders – policyholders, employees, investors, vendors and the community. Fairness in words, actions and deeds with all stakeholders form the base of the Company's Corporate Governance philosophy. Corporate Governance enables the Company to perform efficiently and ethically towards the long-term wealth and create value for all its stakeholders.

The imperative need to have good governance surfaced to demarcate the division between its ownership and its management. Concept of corporate governance rests on the fulcrum of transparency behind all decisions taken, accountability for the said decisions and safeguarding the interests of stakeholders. It helps to adopt sound and prudent principles and practices for the governance of the Company.

The Company continues to lay great emphasis on the highest standards of Corporate Governance which are an integral part of all Company activities to ensure efficient conduct of the affairs of the Company, without compromising its core values. Effective corporate governance practices constitute the strong foundation on which successful commercial enterprises are built to last.

Company's Philosophy on Corporate Governance:

Company's philosophy on Corporate Governance is laid on a foundation of Integrity, Excellence and Ethical values, which have been in practice since its inception. Strong leadership and effective corporate governance practices have been the Company's inherited values from the SBI culture and ethos. The Board is committed to meet the expectation of all the stakeholders and strive hard to fulfill them. SBI Life, in this pursuit, places emphasis in the philosophy of Corporate Governance by embedding values like transparency, humility, integrity, innovation and sustainability in the Company Structure. This is ensured by taking ethical business decisions and conducting business with a firm commitment to values.

The Company believes in adopting and adhering to the best standards of corporate governance. Certain tenets of our Corporate Governance Philosophy are:

- Appropriate composition, size of the Board and commitment to adequately discharge its responsibilities and duties.
- Transparency and independence in the functions of the Board.
- Maximum disclosure of information to the Board and its Committees for focused and meaningful discussions in the meetings.

- Operating in a sound system of internal control and risk management with a thrust on integrity and accountability.
- Independent verification and assured integrity of financial reporting.
- Timely and adequate disclosure of all material information to all stakeholders.
- Compliance of applicable laws, rules, regulations & guidelines.
- Fair and equitable treatment of all its stakeholders including employees, vendors, policyholders and shareholders.

The Company complies with the IRDAI (Corporate Governance for Insurers) Regulations, 2024 read with the Master Circular on Corporate Governance for Insurers, 2024 ("IRDAI Corporate Governance Regulations"). Further, the Company also complies with the Corporate Governance provisions prescribed under SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("Listing Regulations") and as amended thereto.

(I) Board of Directors ('Board')

The Board of Directors of the Company, being the highest governance authority within the Management structure of the Company, is at the core of our Corporate Governance practices. The Board exercises its fiduciary responsibilities to foster sound standards of Corporate Governance within the Company thus providing direction and independence to the Management to achieve its objectives for value creation as well as protecting long-term interests of all stakeholders.

The composition of the Board of Directors of the Company is governed by the provisions of Companies Act, 2013, Listing Regulations issued by SEBI and IRDAI Corporate Governance Regulations.

The role of the Board is that of trusteeship, to protect and enhance the shareholder value through strategic direction to the Company. The role of the Chairman and the Chief Executive Officer are distinct and separate. The Chairman is primarily responsible for ensuring that the Board provides effective governance to the Company and the responsibility of Chief Executive Officer is to execute the corporate strategy in consultation with the Board.

The Board of Directors comprises of Executive director, Non-Executive Non-Independent directors as well as Independent Directors. There is an optimum combination of Executive, Non-Executive and Independent Directors.

Except the Managing Director and CEO, all other directors including Chairman of the Board are Non-Executive Directors. There is one Woman Independent Director on the Board of Company. The Directors possess experience in diverse fields including Banking, Finance, Insurance, Human Resource, Information Technology and Marketing. The skill and knowledge of the Directors have proved to be of immense value to the Company. There is no inter-se relationship between the Directors.

During the year, the Non-Executive Directors of the Company had no pecuniary relationship or transactions with the Company. They play a critical role in balancing the functioning of the Board by providing independent judgments on various issues raised in the Board meetings like formulation of business strategies, monitoring of performances, etc.

All the Independent Directors have confirmed that they meet the criteria of independence as laid down under Section 149 of Companies Act, 2013 and Listing Regulations issued by SEBI and in the opinion of the Board, the independent directors fulfill the conditions specified in Listing Regulations and are independent of the management. The Company has well-defined Policy for determining criteria for appointment of Directors and Senior Management personnel.

Composition of the Board

As on March 31, 2026, the Board comprised of eight (8) Directors i.e., five (5) Independent Directors, three (3) Directors nominated by State Bank of India ("SBI") including Managing Director & CEO. During the financial year ended March 31, 2026, there were no instances of resignation of Independent Directors.

The Board functions either as a full Board or through various Committees constituted to oversee specific areas. The Board has constituted nine Committees, namely, Board Audit Committee, Board Risk Management Committee, Board Investment Committee, Board Policyholders' Protection, Grievance Redressal and Claims Monitoring Committee, Board Nomination & Remuneration Committee, Board Corporate Social Responsibility Committee, Board 'Stakeholders' Relationship & Sustainability Committee, Board With Profits Committee and Board Technology and Digital Strategy Committee¹.

As per Regulation 26 of the Listing Regulations, the number of Committees (Audit Committee and Stakeholders' Relationship Committee) of public limited companies in which a Director is a member or chairman is within the limits prescribed under the Listing Regulations.

Board Meetings

Notice, Agenda and Minutes

The meetings of the Board of Directors are usually held in Mumbai where the registered office of the Company is situated or through video conference. The Board meets at least once in every quarter, a minimum of four (4) meetings are held in a financial year to review financial results, business strategies, risk management and other regular agendas. The Board also meets as and when necessary to address specific issues concerning the businesses of the Company.

The Board Meetings are governed by a structured Agenda. The Agenda along with detailed explanatory notes and supporting material are circulated in advance before each meeting to all the Directors for facilitating effective discussion and decision making. The proceedings of each meeting of the Board and its Committees are conducted

in accordance with the provisions of the Companies Act, 2013 and rules made thereunder.

Pursuant to notification dated December 30, 2020 and all the previous notifications w.r.t. same the Ministry of Corporate Affairs had relaxed companies to hold physical meetings and allowed the Companies to conduct the meeting through Video Conferencing or other audio-visual means in accordance with Companies (Meetings of Board and its Powers) Fourth Amendment Rules, 2020. Further, pursuant to notification dated June 15, 2021, the Ministry of Corporate Affairs had clarified on the relaxation from holding physical meeting in accordance with the Companies (Meetings of Board and its Powers) Amendment Rules, 2021. Video or tele-conferencing facilities are also used to facilitate Directors travelling or residing abroad or at other locations to participate in the meetings.

In case of a special and urgent business need, the Board's approval is taken by passing resolutions by circulation, as permitted by the Companies Act, 2013, which is confirmed in the next Board Meeting.

The Company Secretary is responsible for collation, review, preparation and distribution of the agenda papers submitted to the Board and preparation of minutes. The Company Secretary attends all the meetings of the Board and its Committees. The Company Secretary acts as a mediator between the Board of Directors and other stakeholders to ensure proper flow of information for the smooth functioning of the business operations.

With a view to leverage on technology and as a Go Green initiative, the notice and agenda papers of Board and Board Committee meetings including presentations are circulated to the members and invitees in soft copy through a web-based application.

Independent Directors are familiarized with their roles, rights and responsibilities in the Company as well as with the nature of industry and business model of the Company through induction programmes through presentations on economy and industry overview, key regulatory developments, strategy and performance which are made to the Directors from time to time. The policy on familiarization programmes for Independent directors and the details of the familiarization programmes have been hosted on the website of the Company and can be accessed on the link <https://www.sbilife.co.in/about-us/investor-relations>

³ The Board Technology and Digital Strategy Committee was constituted w.e.f. May 21, 2025

(IV) Meeting of Independent Directors

The meeting of the Independent Directors as envisaged under Schedule IV of the Companies Act, 2013 was conducted on March 30, 2026. All Independent Directors attended the meeting through Video Conference. Ms. Usha Sangwan was elected as the Chairperson of the meeting.

The Independent Directors reviewed the performance of the non-independent Directors (including the Chairman) and the Committees of the Board and the Board as a whole as per the requirements of the Companies Act, 2013 and Listing Regulations.

(V) Annual Performance Evaluation of Board, Committees and Directors

In terms of the provisions of the Companies Act, 2013 read with rules made thereunder, the IRDAI Corporate Governance Regulations and Listing Regulations, the Board of Directors on the recommendation of the Board Nomination and Remuneration Committee, have evaluated the effectiveness of the Board. Accordingly, the performance evaluation of the Board, each Director (including Independent Director) and Committees were carried out for the financial year ending March 31, 2026.

A reputed independent external evaluator assisted the Company in laying down parameters for Performance evaluation of the Board, Individual Directors (including Independent Directors), the Committees and the Chairman of the Board and facilitated the performance evaluation process. The Board Nomination and Remuneration Committee had approved the framework/ criteria for the said performance evaluation.

The evaluation was conducted by developing an online tool for carrying out surveys based on structured questionnaires which were approved by the Board Nomination and Remuneration Committee and the Board and one-to-one interactions with the directors.

The performance of the Board was assessed on the basis of four broad categories including the structure of the Board, Board dynamics, Board operations and governance responsibilities of the Board. The evaluation criteria for the Individual Performance of Directors were based on their learning agility, professional and ethical conduct, competence, etc. The evaluation criteria for the Committees related to its composition, committee dynamics, committee operations, governance responsibilities of the Committee, etc. The evaluation criteria for the Chairman of the Board focused incrementally on competence, function and duties, management relations, professional and ethical conduct, strategic skills, etc.

All the Directors had participated in the evaluation process. The responses received from the individual Directors were compiled by the external evaluator and a consolidated report was shared with the Board Nomination and Remuneration Committee and the Board.

(VIII) Disclosures of Remuneration pursuant to IRDAI (Corporate Governance for Insurers) Regulation 2024

IRDAI Corporate Governance Regulations, requires the Company to make following disclosures on remuneration on an annual basis in their Annual Report:

Qualitative Disclosures

(i) Information relating to the composition and mandate of the Nomination and Remuneration Committee

The Board Nomination and Remuneration Committee (NRC) oversees and governs the compensation practices of the Company. The Company's Remuneration Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under section 178 of Companies Act 2013, IRDAI (Corporate Governance for Insurers) Regulations, 2024 and Master Circular issued thereunder and SEBI Listing Regulations.

Kindly refer to Point E of the Corporate Governance Report for details on the composition of the Board Nomination & Remuneration Committee.

(ii) Information relating to the design and structure of remuneration policy and the key features and objective of remuneration policy

We follow contribution-oriented philosophy and our compensation is performance-driven, emphasizing and recognizing the contributions that individual employees make to the organization. It accentuates performance-based pay, incentives, and shared responsibility for benefits. The key objectives of the remuneration policy are:

- To define and implement overall remuneration philosophy and framework for payment of remuneration payable to Directors (Executive and Non-Executive), Key Managerial Persons and other employees of the Company.
- To ensure that level and composition of remuneration is reasonable and sufficient, relationship of remuneration to performance is clear and meets performance benchmarks. Remuneration shall consist of Fixed Pay including allowances, perquisites, retirement benefits and Variable Pay including incentives, bonus, share linked instruments, joining / sign of bonus, etc.
- To provide to Key Management Persons, Senior Management and other employees rewards linked directly to their effort, performance, dedication and achievement relating to the Company's operations and shall not encourage Key Managerial Persons to take inappropriate or excessive risks for their performance based variable remuneration.
- To retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage.
- To ensure alignment of compensation with prudent risk taking.

The policy is reviewed by Board NRC annually or as and when required.

(iii) Description of the ways in which current and future risks are taken into account in the remuneration policy including the nature and type of the key measures used to take account of these risks.

The Remuneration policy promotes sound and prudent risk management. Remuneration structure is well aligned with the long-term growth, health and objectives of the company. Compensation outcomes are symmetric with risk outcomes and pay-outs thereof are sensitive to the time horizon of the risk and the mix of cash, equity and other forms of remuneration are consistent with risk alignment.

The Remuneration policy of the Company ensures proper balance between fixed pay and variable pay. Variable Pay is in the form of "pay at risk" and depending on performance and risk outcomes at individual and company-wide level, the quantum of Variable Pay changes.

As per the Remuneration policy, which is aligned with IRDAI master circular, for Key Managerial Persons, at least 50% of the total variable pay is under deferral arrangement and the deferral is spread over at least three years. The deferred variable pay is also subject to Malus and Claw-Back clauses as detailed in the Remuneration Policy of the Company.

(iv) Description of ways in which the insurer seeks to link performance, during a performance measurement period, with levels of remuneration.

The Company has an annual increment and variable pay policy which is based on merit pay philosophy linked to both individual as well as Company's performance.

Various performance parameters for the Company are reviewed by Board NRC and approved by the Board at the beginning of every year. Based on the pre-defined parameters, the performance of the Company is reviewed by Board NRC to award a performance rating. The Company performance rating is approved by the Board based on the recommendations of Board NRC at the end of every financial year.

The framework of annual increment and performance linked Variable Pay for all employees is reviewed by the Board NRC and approved by the Board every year.

ANNEXURE - I

REMUNERATION POLICY

In pursuance of the Company's endeavour to attract, motivate and retain manpower in a competitive market, and in terms of the provisions of the Companies Act, 2013 and other applicable rules and regulations, the Policy on remuneration of Directors, Key Managerial Persons and other employees of the Company has been put in place.

The Company's Remuneration Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under section 178 of the Companies Act, 2013, IRDAI (Corporate Governance of Insurers) Regulations, 2024 and Master Circular issued thereunder and SEBI Listing Regulations.

Objectives of the remuneration policy:

- To define and implement overall remuneration philosophy and framework for payment of remuneration payable to Directors (Executive and Non-Executive), Key Managerial Persons and other employees of the Company.
- To ensure that level and composition of remuneration is reasonable and sufficient, relationship of remuneration to performance is clear and meets performance benchmarks. Remuneration shall consist of Fixed Pay including allowances, perquisites, retirement benefits and Variable Pay including incentives, bonus, share linked instruments, joining / sign of bonus, etc.
- To retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage.
- To ensure alignment of compensation with prudent risk taking.

Philosophy:

At SBI Life, we follow contribution-oriented philosophy and our compensation is performance-driven, emphasizing and recognizing the contributions that individual employees make to the organization. It accentuates performance-based pay, incentives, and shared responsibility for benefits. The basic objective of remuneration policy is to:

- Be compatible with the organization's Brand Purpose and Value;
- Be externally & internally equitable;
- Ensure relationship of remuneration to performance is clear and meets appropriate performance benchmarks;

- Provide to Key Management Persons, Senior Management and other employees rewards linked directly to their effort, performance, dedication and achievement relating to the Company's operations and shall not encourage Key Managerial Persons to take inappropriate or excessive risks for the performance based variable remuneration.

- Retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage.

Remuneration and Reward Policies:

- Remuneration aims to motivate personnel to deliver Company's Key strategies, create a strong performance-oriented environment and reward achievement of meaningful targets over the short and long term.
- Non-Executive Directors ("NED") are entitled to receive the sitting fees and reimbursement of their expenses for participating in the Board and other meetings, subject to compliance with the provisions of Companies Act, 2013. The Board Nomination & Remuneration Committee ("NRC") will recommend the remuneration to be paid to the NEDs / Independent Directors ("ID") to the Board for their approval. Remuneration shall be limited to maximum limits specified under the IRDAI Regulations and Master Circular, Companies Act, 2013 and SEBI Regulations. NEDs / IDs are not eligible for any equity linked benefits of the Company as prohibited under the IRDAI Regulations and Master Circular.
- The remuneration of the Managing Director & CEO and other KMPs on deputation from SBI is governed by SBI Officers Services Rules and is being reimbursed by the Company to State Bank of India (SBI). Revision in Remuneration of the Managing Director will be reviewed by Board Nomination and Remuneration Committee and recommended to the Board for approval. Revision in remuneration of MD & CEO is subject to approval of IRDAI and Shareholders. Revision in Remuneration of Key Management Persons on Deputation from SBI shall be governed by SBI Officers' service rules.
- The remuneration of KMPs shall be aggregate of Fixed Pay (including monetary and non-monetary perquisites) and Variable Pay. Fixed pay of the remuneration shall be reasonable taking into account all relevant factors and will consist of elements like Basic Salary, Allowances, Perquisites as defined under the Income-tax Act, 1961, contribution towards

ANNEXURE I (Contd..)

retirals and all other fixed items of Compensation. Variable Pay shall include incentives, bonus, share linked instruments, etc. given basis performance of Individual and Company. Performance based incentives shall be aligned with long-term value creation and time horizon of risks to which Company may be exposed to. The composition of Variable Pay, Limits of Variable Pay, Key Performance Indicators, Deferral of Variable Pay, etc. shall be as per the applicable regulatory provisions. The revision in Remuneration of KMPs will be in accordance with the policies approved by the Board / NRC.

The Remuneration Policy has been updated with effect from FY 2026-27 to align with the requirements stipulated in the IRDAI circular dated May 25, 2026 on remuneration of Key Management Persons (KMPs).

- The remuneration of all other employees shall be aggregate of Fixed Pay (including monetary and non-monetary perquisites) and Variable Pay. Revision in remuneration will be with approval of the Managing Director & CEO and governed by the HR policies of the Company.

Executive Summary & web-link for Impact Assessment Reports of CSR Projects

During FY 2025-26, three CSR projects were eligible for impact assessment in accordance with the applicable provisions of the Companies (Corporate Social Responsibility Policy) Rules, 2014, as amended. The assessments were conducted by independent agencies to evaluate the effectiveness and outcomes of the interventions.

The assessed projects primarily focused on improving access to quality education and strengthening healthcare and nutrition outcomes for underserved and vulnerable communities. Collectively, these initiatives contributed to the following United Nations Sustainable Development Goals (SDGs):

SDG 3: Good Health and Well-being

SDG 4: Quality Education

SDG 5: Gender Equality

SDG 8: Decent Work and Economic Growth

1. Project: Quality Education and Holistic Development Programme

Implementing Partner: Parikrma Humanity Foundation

The project aimed to provide quality education and holistic development for children from economically disadvantaged families living in urban slum communities. It adopted a comprehensive 360-degree development model that addressed multiple dimensions of a child's well-being through access to quality education, nutritious meals, comprehensive physical and mental healthcare, extracurricular opportunities, and family support

services. This integrated approach contributed to improved educational outcomes, overall well-being, and long-term development of the beneficiaries.

2. Project: Education Support Programme

Implementing Partner: Reaching the Unreached

The project focused on providing quality primary, secondary, and higher education to students from economically disadvantaged rural families in Theni and Dindigul districts of Tamil Nadu. The beneficiaries primarily included children from orphaned and semi-orphaned households and those belonging to Scheduled Caste (SC) and Scheduled Tribe (ST) communities. The intervention enhanced access to education, improved student retention, and created opportunities for higher education and sustainable livelihoods.

3. Project: Navodaya

Implementing Partner: Action Against Hunger Foundation

Implemented in Rajasthan and Madhya Pradesh, Project Navodaya aimed to improve the nutritional and health status of pregnant women, lactating mothers, newborns, and young children in rural and tribal communities. Through strengthened nutrition services, community awareness, and improved access to maternal and child healthcare, the project contributed to better nutrition practices and enhanced health outcomes among vulnerable beneficiaries.

FORM No. MR-3

SECRETARIAL AUDIT REPORT

FOR THE FINANCIAL YEAR ENDED 31ST MARCH, 2026

[Pursuant to section 204(1) of the Companies Act, 2013 and rule No. 9 of the Companies (Appointment and Remuneration of Managerial Personnel) Rules, 2014]

To,
The Members,
SBI Life Insurance Company Limited.
Natraj M.V. Road & Western Express High Junction,
Andheri (East), Mumbai, Maharashtra, India, 400069.

I have conducted the Secretarial Audit of the compliance of applicable statutory provisions and the adherence to good corporate governance practice by **SBI Life Insurance Company Limited** (hereinafter called "the Company"). Secretarial Audit was conducted in a manner that provided me a reasonable basis for evaluating the corporate conducts / statutory compliances and expressing my opinion thereon.

Based on my verification of the Company's books, papers, minutes books, forms and returns filed and other records maintained by the Company and also the information provided by the Company, its officers, agents and authorized representatives during the conduct of Secretarial Audit, I hereby report that in my opinion, the Company has, during the audit period covering financial year ended March 31, 2026, complied with the statutory provisions listed hereunder and also that the Company has proper Board-processes and compliance-mechanism in place to the extent, in the manner and subject to the reporting made hereinafter:

1. I have examined the books, papers, minute books, forms and returns filed and other records maintained by the Company, for the financial year ended on March 31, 2026, according to the provisions of:
 - i. The Companies Act, 2013 (the 'Act') and the rules made thereunder;
 - ii. The Securities Contracts (Regulation) Act, 1956 ('SCRA') and the rules made thereunder;
 - iii. The Depositories Act, 1996 and the Regulations and Bye-laws framed thereunder;
 - iv. Foreign Exchange Management Act, 1999 ('FEMA') and the rules and regulations made thereunder to the extent of Foreign Direct Investment. Overseas Direct Investment and External Commercial Borrowings are

not applicable to the Company for the year under review.

- v. The following regulations and guidelines prescribed under the Securities and Exchange Board of India Act, 1992 ('SEBI Act') are:
 - a) The Securities and Exchange Board of India (Substantial Acquisition of Shares and Takeovers) Regulations, 2011;
 - b) The Securities and Exchange Board of India (Prohibition of Insider Trading) Regulations, 2015;
 - c) The Securities and Exchange Board of India (Issue of Capital and Disclosure Requirements) Regulations, 2018;
 - d) The Securities and Exchange Board of India (Share Based Employee Benefits and Sweat Equity) Regulations, 2021;

 - f) The Securities and Exchange Board of India (Registrars to an Issue and Share Transfer Agents) Regulations, 1993, regarding the Companies Act and dealing with client;
 - g) The Securities and Exchange Board of India (Delisting of Equity Shares) Regulations, 2021 – **Not Applicable**;
 - h) The Securities and Exchange Board of India (Buy-back of Securities) Regulations, 2018 – **Not Applicable**;

Amongst the various laws which are applicable to the Company, following are the laws which are specifically applicable to the Company:

1. Insurance Act, 1938 (amended till date) and Insurance Rules, 1939;
2. Insurance Regulatory and Development Authority Act 1999, and Rules & Regulation, Circular and Notifications etc. issued by the IRDAI thereunder;

ANNEXURE III (Contd..)

3. Prevention of Money Laundering Act (PMLA), 2022 and Anti-Money Laundering Regulation issued by IRDAI and various Circulars and Guidelines thereunder;
4. The Sexual Harassment of Women at Workplace (Prevention, Prohibition and Redressal) Act, 2013.
5. All the relevant Circulars, Notifications, Regulations and Guidelines issued by Insurance Regulatory and Development Authority of India as applicable.

I have examined compliances with applicable clauses of:

- i. Secretarial Standards issued by the Institute of the Company Secretaries of India;
- ii. The Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015.

During the financial year under review, the Company has complied with the provisions of the Act, Rules, Regulations, Guidelines, Standards, etc. mentioned above.

I further report that:

The Board of Directors of the Company is duly constituted with proper balance of Executive Director, Non-Executive Directors and Independent Directors. The changes in the composition of the Board of Directors that took place during the year under review were carried out in compliance with the provisions of the Act.

Adequate notice, agenda and detailed notes have been given to all Directors to schedule the Board Meetings at least seven days in advance, in case of less than seven days the Company has taken shorter notice consent from Directors / Members of the Board / Committees, and a system exists for seeking and obtaining further information and clarifications on the agenda items before the meeting and for meaningful participation at the meeting.

The decisions at Board Meetings and Committee Meetings are carried out and recorded in the minutes of the Board of Directors and Committee of the Board accordingly.

The Company has adequate systems and processes commensurate with its size and operations to monitor and ensure compliance with applicable laws.

I further report that during the year under review, the Company has undertaken event / action having a major bearing on the Company's affairs in pursuance of the above referred laws, rules, regulations, guidelines, standards, etc. referred to above viz.

27. Overview of the entity's material responsible business conduct issues

Please indicate material responsible business conduct and sustainability issues pertaining to environmental and social matters that present a risk or an opportunity to your business, rationale for identifying the same, approach to adapt or mitigate the risk along-with its financial implications, as per the following format.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
1.	Customer Service and Satisfaction	Opportunity	By prioritizing exceptional service and being responsive to customer feedback, organizations can strengthen customer loyalty, uncover opportunities for innovation and stay aligned with evolving industry trends. This approach helps build strong, lasting relationships that improve retention and encourage positive referrals, ultimately supporting sustained business growth.	NA	Positive. In the life insurance sector, exceptional customer service plays a vital role in building confidence and loyalty among policyholders. Given the long-term nature of insurance policies and the complexities involved, customers value timely support and clear communication. A strong service experience not only encourages customers to remain with the company but also to advocate for the brand, increasing the company's reach and attracting new business opportunities.
2.	Governance, Transparency and Ethical Business Practices	Risk	Governance and ethical practices have been identified as a risk because any failure to comply with applicable laws, regulations or ethical standards can result in legal penalties, financial losses, reputational damage and loss of stakeholder trust. Such incidents may negatively affect growth and long-term viability. Upholding high ethical standards helps reduce these risks and supports lasting success.	The Company's risk mitigation approach is grounded in globally recognized best practices and strict compliance with relevant laws, regulations and codes of conduct. It adheres to the requirements of the Securities and Exchange Board of India (SEBI) and the Insurance Regulatory and Development Authority of India (IRDAI) by aligning its corporate governance framework with the Companies Act, 2013 and applicable SEBI regulations. The Company's approach is guided by robust compliance practices, effective governance mechanisms and well-established ethical standards that guide both employees and suppliers. It places significant emphasis on fostering strong stakeholder relationships through open, transparent and ongoing communication. Regular performance reviews and a commitment to continuous enhancement help the organization adapt to evolving regulatory requirements while strengthening operational and governance practices.	Negative. A decline in trust can significantly damage an insurer's reputation, leading to loss of customers and can make it more challenging to acquire new business. Unethical practices can also expose the organization to regulatory investigations, legal sanctions and financial losses, while increasing compliance risks. Weak governance and ethical shortcomings can create a negative workplace environment, reducing employee engagement, productivity and retention.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
3.	Purposeful Products and Services Driving Financial Inclusion	Opportunity	Purposeful products and services driving financial inclusion enable the organization to extend financial protection and security to a wider range of individuals, including underserved and economically vulnerable populations. By offering accessible, affordable and customer-centric insurance solutions, the company can address protection needs, enhance societal well-being and support greater economic resilience. This approach also creates opportunities to expand into underserved markets, strengthen customer relationships and drive sustainable business growth while delivering positive social impact.	NA	Positive. Affordable and easily accessible insurance products enable the company to reach underserved and emerging customer groups, creating opportunities for business expansion and revenue growth. By extending financial protection to a broader population, the company can expand market potential while contributing to greater financial inclusion. This approach strengthens the organization's reputation as a responsible and customer-focused insurer, fostering trust and long-term relationships with policyholders. Additionally, a commitment to inclusive insurance solutions enhances market competitiveness, supports sustainable growth and helps build a stronger, more resilient customer base for the future.
4.	Data Privacy and Information Security	Risk	Data privacy and Information Security are a risk due to the sensitive personal and financial information being handled by the organization. As digital transactions and data volumes continue to grow, the risk of cyberattacks, unauthorized access and data breaches increases. Any compromise of customer data could result in identity theft, financial fraud, regulatory penalties, legal liabilities and significant reputational damage. Such incidents adversely affect business operations and long-term sustainability.	A structured approach has been adopted to manage data privacy and cybersecurity risks, built on a comprehensive Information and Cybersecurity Policy that is aligned with prevailing industry standards. Supporting this foundation, a Data Governance Policy establishes accountability and ensures adherence to applicable regulatory requirements, while an Acceptable Usage Policy helps prevent unauthorized access and improper use of systems and data. To strengthen implementation, regular audits are carried out alongside continuous employee training and awareness initiatives, ensuring policies are effectively embedded across the organization. Operational resilience is further enhanced through an advanced Security	Negative. Cybersecurity incidents and privacy breaches can have significant financial, regulatory and reputational implications. Unauthorized access to or loss of sensitive information may erode customer confidence, resulting in reduced retention and potential financial losses. Such events can also heighten compliance risks through stakeholder complaints, regulatory investigations and resulting penalties. Over time, inadequate data protection measures may weaken stakeholder trust and adversely affect the Company's reputation and business performance.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
				Operations Centre (SOC) that provides 24/7 monitoring for potential threats. Defined Incident Response Plans enable prompt action to mitigate any security incidents. Together, these measures safeguard customer information while maintaining compliance and protecting organizational trust and reputation.	
5.	Risk Management and Business Continuity	Risk	Risk management and business continuity are critical due to the potential impact of operational disruptions, regulatory changes, market volatility, cyber incidents and natural disasters on business performance. Failure to effectively identify, assess and mitigate these risks may result in financial losses, operational interruptions, reputational damage and reduced stakeholder confidence. By proactively identifying and mitigating these challenges, the organization safeguards its assets, protects its reputation, strengthens operational resilience and supports long-term sustainability, while ensuring the ability to respond effectively to and recover swiftly from unforeseen disruptions.	The Enterprise Risk Management System is aligned with ISO 31000:2018, ensuring a structured and consistent risk management approach across all functions, including the Corporate Office, Central Processing Centre and Regional & Branch Offices. This alignment embeds globally recognized best practices into day-to-day operations. A comprehensive Risk Management Policy defines the processes for identifying, assessing and mitigating risks. It is reviewed annually by the Risk Management Committee of the Board to ensure it remains relevant in light of emerging and evolving risk landscapes. Complementing this, the Business Continuity Management Policy sets out clear procedures to minimize operational disruptions and enable swift recovery during significant incidents, supported by certification under ISO 22301:2019. These frameworks are periodically reviewed and updated to reflect changing regulatory and business requirements, ensuring continued effectiveness and resilience. To further strengthen implementation, risk management practices are embedded into the organizational culture through ongoing training and awareness initiatives, enabling employees at all levels to actively contribute to risk mitigation and operational continuity.	Negative. Inadequate risk management practices and business continuity planning can expose the Company to significant financial losses, regulatory sanctions and operational disruptions, adversely affecting profitability and compliance. Such shortcomings may harm the Company's reputation, reduce its competitive position and hinder the achievement of strategic objectives. Diminished investor confidence can negatively impact the Company's ability to sustain long-term growth and resilience.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
6.	Employee & Supplier Centricity	Opportunity	Fostering a safe, diverse, equitable and inclusive workplace enables the organization to attract, retain and develop talent while enhancing employee engagement and productivity. By providing continuous learning, upskilling, feedback and career development opportunities, the company empowers its workforce and business partners to achieve their full potential, contributing to improved organizational performance and service quality. Additionally, integrating sustainability considerations into the supply chain and partner ecosystem strengthens responsible business practices, aligns with evolving stakeholder expectations and enhances the company's reputation and long-term competitiveness.	NA	Positive. Employee-focused practices can significantly improve a life insurance company's financial performance by boosting retention, satisfaction and productivity within a safe, inclusive and fair workplace. This reduces recruitment and training expenses while also strengthening leadership capacity. On the supplier front, integrating ethical and sustainable practices build stronger partnerships and drives operational efficiency, which enhances brand reputation and appeals to socially responsible customers.
7.	Human Rights	Risk	Human rights concerns arise from potential lapses in upholding dignity, equality and fair treatment across the organization and its value chain. Inconsistent adherence to human rights principles can negatively impact workplace culture and long-term business sustainability. Strong governance, continuous monitoring and proactive mitigation measures ensure respect for human rights in all aspects of operations.	A Human Rights Policy has been implemented to promote fair treatment and foster an inclusive workplace culture. To strengthen transparency and accountability, the Whistle Blower Policy provides a confidential mechanism for reporting concerns, enabling timely resolution of grievances. These commitments are further reinforced through a Supplier Code of Conduct, which extends human rights and ethical expectations to the supply chain. The code sets out clear standards for responsible business conduct and human rights compliance, ensuring that suppliers operate in alignment with the organization's core principles.	Negative. Violations of human rights may result in legal action, including litigation and regulatory penalties, which can adversely affect financial outcomes. Such issues may also interrupt business operations and lower employee morale, leading to reduced productivity and higher attrition while weakening the organization's capacity to sustain a competitive position in the industry.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
8.	Responsible Investment	Opportunity	Strategically aligning investment decisions with sustainability priorities support stronger financial returns, attract sustainability-focused stakeholders and enhance reputational value. By embedding environmental, social and governance (ESG) considerations, the organization can improve its ability to anticipate and manage risks while aligning with evolving regulatory expectations that promote responsible and sustainable business practices.	NA	Positive. By integrating environmental, social and governance (ESG) considerations into decision-making, the Company ensures that capital is allocated in line with ethical and sustainability goals. This strategy can appeal to investors and customers who prioritize social responsibility and may contribute to steadier performance over time by managing long-term risks more effectively. Responsible Investing also helps unlock new collaboration opportunities and market expansion by connecting with organizations that operate under similar principles, supporting innovation and sustainable industry growth.
9.	Environmental Impact and Climate Change	Risk	Climate change is becoming a material risk for life insurance companies, as it increases the likelihood and intensity of extreme weather events, resulting in higher claims and greater financial strain. To address these challenges, insurers must incorporate climate change into their strategic planning and reinforce their focus on environmental sustainability. Taking proactive steps such as reducing carbon emissions and supporting biodiversity conservation can help lower environmental impact, strengthen long-term resilience and align business operations with global climate change mitigation efforts.	The Company is committed to a comprehensive approach that integrates both mitigation and adaptation strategies, with a strong focus on reducing its environmental footprint and advancing sustainability across all operations. It is implementing measures to monitor and reduce greenhouse gas emissions through improved energy efficiency and transitioning to renewable energy sources. The organization is also enhancing water recycling practices and minimizing waste. In addition, it is embracing a circular economy framework to strengthen recycling systems, including electronic waste management to further reduce its overall environmental impact.	Negative. Climate change pose significant financial challenges for life insurance companies, including higher claims and benefit payouts driven by the rising frequency and severity of extreme weather events, which can place pressure on financial reserves. In addition, uncertainty surrounding long-term health effects makes risk evaluation and pricing more complex, potentially impacting profitability and overall financial stability.

S. No.	Material issue identified	Indicate whether risk or opportunity (R/O)	Rationale for identifying the risk / opportunity	In case of risk, approach to adapt or mitigate	Financial implications of the risk or opportunity (Indicate positive or negative implications)
10.	CSR and Community Development	Opportunity	Integrating CSR initiatives into business strategy enhances the company's reputation, strengthens stakeholder trust and builds customer loyalty. By contributing to community development and aligning with societal values, the organization supports sustainable business growth and strengthens relationships with communities and other stakeholders.	NA	Positive. A strong commitment to Corporate Social Responsibility can strengthen the Company's reputation and build trust among customers, investors and other stakeholders. Through meaningful contributions to community development and environmental sustainability, the Company can create positive social impact while differentiating itself in an increasingly competitive marketplace.

3. Describe the processes in place to safely reclaim your products for reusing, recycling and disposing at the end of life, for (a) Plastics (including packaging) (b) E-waste (c) Hazardous waste and (d) other waste.

E-waste

Assets are typically replaced after five years of use or earlier in cases where they become damaged. Once identified for replacement, they are written off and disposed in accordance with the procedure outlined below:

- Assets older than five years (with a residual value of Re. 1/-) or those damaged are recorded in an Excel sheet and verified by the Finance team.
- A formal write-off proposal is created and submitted to the relevant approving authority in line with the Delegation of Authority (DoA).
- After approval, the Procurement team initiates disposal by inviting at least three sealed quotations from potential buyers, who inspect the assets before submitting bids.
- The highest (H1) bidder is identified through comparative evaluation and final approval is obtained under the DoA.
- The selected vendor is informed to arrange asset pickup and submit a Demand Draft for the quoted amount, which is forwarded to the Accounts department along with the approval documents.
- The assets are then handed over for disposal using environmentally sustainable methods and the vendor provides a Green Disposal Certificate as proof of responsible disposal.

Paper & Cardboard Waste

Paper and cardboard waste generated is collected and responsibly processed through an authorized third-party waste management vendor for recycling and pulping purposes. This process supports effective waste management practices, promotes resource recovery and helps minimize the contribution of waste to landfills.

4. Whether Extended Producer Responsibility (EPR) is applicable to the entity's activities (Yes / No). If yes, whether the waste collection plan is in line with the Extended Producer Responsibility (EPR) plan submitted to Pollution Control Boards? If not, provide steps taken to address the same.

10. Health and safety management system

- a. Whether an occupational health and safety management system has been implemented by the entity? (Yes/ No). If yes, the coverage of such a system?

Yes. The Company follows a comprehensive approach towards establishing and maintaining safe, secure and employee-friendly infrastructure across all its offices. The Company has implemented enhanced security measures at its Corporate Office, Central Processing Centre and Regional Offices, including biometric-based entry and exit systems to strengthen workplace security and access control. Across offices nationwide, employees are provided with clean and ventilated workspaces, hygienic washrooms, safe drinking water and adequate fire safety arrangements to ensure a comfortable and healthy work environment. Compliance with infrastructure and workplace safety standards is periodically reviewed through scheduled branch audits.

The Company has established various policies, program and assessment mechanisms to strengthen occupational health, safety and employee well-being. These include the Office Ambience Policy, Annual Electrical and Fire Safety Audits, Mock Evacuation drills, Mass Awareness Programs, self-assessment of offices, Health and Wellness Programs and the Environment, Health and Safety (EHS) Policy, which incorporates workplace safety, health, environment and excellence checklists.

As part of its commitment to workplace safety, regular fire drills and mock evacuation exercises are conducted across offices. Each office has an emergency evacuation team, while the Corporate Office has additional safety mechanisms such as designated floor marshals for every floor to support emergency response and evacuation procedures. The premises are equipped with firefighting equipment and records relating to fire extinguishers are systematically maintained and monitored.

The Company also undertakes regular maintenance of air conditioning systems, office furniture and pest control through annual maintenance contracts, in line with business continuity management guidelines, to ensure a safe and hygienic workplace environment.

Employee health and well-being remain a key priority for the Company. A dedicated doctor facility is available at the Corporate Office & Central Processing Centre to provide immediate medical assistance and support to employees. A lady doctor is also available for consultation with women employees of the company. In addition, eligible employees are offered complimentary annual health check-ups as part of the Company's preventive healthcare initiatives. Leadership Indicators

1. Provide the processes for consultation between stakeholders and the Board on economic, environmental, and social topics or if consultation is delegated, how is feedback from such consultations provided to the Board.

The company follows a structured approach for stakeholder consultation and ensures that feedback is systematically communicated to the Board on economic, environmental and social matters. Consultation processes vary depending on the stakeholder group and the nature of engagement, with multiple channels such as meetings, conferences, forums, surveys and digital communication platforms being utilized. The Board and its Committees receive periodic updates on key topics, including stakeholder feedback and emerging issues. The company also participates in consultations with government and regulatory authorities through meetings, conferences and formal submissions to consultation papers within prescribed timelines. Insights from these interactions are shared with the Board to support informed decision-making.

Stakeholder inputs are reviewed by the Board's Committees, each of which operates under a defined charter and is responsible for specific areas such as audit, risk management, policyholder protection, CSR, sustainability and stakeholder relationships. These Committees evaluate feedback from various consultations and provide recommendations to the Board. For engagements involving detailed discussions such as meetings and conferences, minutes are documented and key outcomes are presented to the Board for review and follow-up action. In the context of NGOs and local communities, the company's CSR team conducts regular interactions to assess needs, evaluate the impact of initiatives and gather feedback. NGO partners further facilitate focused group discussions within communities, consolidate insights and share them with the CSR team, which in turn presents these findings to the CSR Committee and the Board for consideration and action. Customer engagement is carried out through multiple channels, including surveys, call centers, digital platforms and social media. Feedback and analytics derived from these interactions are analyzed to generate insights, which are periodically presented to the Board to enhance products, services and overall customer experience.

2. Whether stakeholder consultation is used to support the identification and management of environmental, and social topics (Yes / No). If so, provide details of instances as to how the inputs received from stakeholders on these topics were incorporated into policies and activities of the entity.

Yes, stakeholder consultation forms an integral part of the Company's approach towards identifying and managing environmental and social topics. Inputs received from various stakeholder groups are actively considered while designing, reviewing and strengthening the Company's policies, programmes and operational activities.

For community and CSR-related initiatives, the Company works closely with NGO partners, who play a key role in engaging with beneficiaries and gathering feedback on community needs, project effectiveness and areas requiring improvement. The observations and insights collected are shared with the CSR team and are used to refine project strategies, align interventions with beneficiary expectations and enhance overall programme impact. For significant projects and strategic interventions, the CSR Head further consults with the Board-level CSR Committee, whose guidance and feedback are incorporated into project planning and implementation.

Employee feedback or insights are gathered through various HR and Management Services engagement initiatives. The feedback received helps the Company strengthen workplace practices, employee well-being initiatives and people-related policies.

Customer feedback is collected through multiple channels, including online feedback forms, social media platforms, distribution partner inputs, customer satisfaction surveys, Net Promoter Score (NPS) assessments and behavioural analytics. These inputs help the Company improve customer experience, enhance service delivery and strengthen customer-centric processes and practices.

3. Provide details of instances of engagement with, and actions taken to, address the concerns of vulnerable/ marginalised stakeholder groups.

The Company actively engages with vulnerable and marginalized stakeholder groups through structured, need-based CSR interventions across livelihood, healthcare, education and environmental sustainability. These initiatives are designed through continuous on-ground engagement with communities and implementation partners to understand localized challenges and co-create inclusive solutions.

In healthcare, targeted interventions such as pediatric cardiac care and cataract surgeries have addressed critical access gaps, restoring health, dignity and quality of life for underprivileged individuals. In education, focused programs for children from low-income and underserved communities, along with scholarship initiatives, have helped bridge learning gaps and enable equitable access to quality education.

Livelihood and skilling initiatives have been central to addressing economic vulnerability, particularly among women, rural households and marginalized youth. Through capacity building, vocational training and entrepreneurship support, the Company has enabled sustainable income generation, financial independence and improved socio-economic mobility.

Environmental initiatives have been implemented in consultation with local communities, creating shared value through climate resilience and livelihood support.

These actions reflect a governance-led approach rooted in inclusivity, accountability and long-term impact, ensuring that stakeholder concerns are not only heard but also translated into measurable, sustainable outcomes aligned with national priorities and the UN Sustainable Development Goals.

8. Does the entity have any project related to reducing Green House Gas emission? If Yes, then provide details.

Yes.

The organization is committed to minimizing its environmental impact through sustainable and energy-efficient practices aimed at reducing greenhouse gas (GHG) emissions. Key initiatives include the use of rainwater harvesting systems and treated water from the STP for cooling tower operations, supporting responsible water management and conservation.

To improve energy efficiency, CFL was replaced with LED lights, motion sensors were installed in meeting rooms, energy efficient appliances were procured across offices, digital and hybrid working models were adopted. The organization has also transitioned its corporate office, CPC and select regional offices to 100% renewable energy and climate change assessment is in progress covering physical and transitional change. Further, we have measures in place to reduce Scope 1 & Scope 2 emissions and to track Scope 3 emissions.

Sustainable waste management practices include the use of an eco-composter to convert wet food waste into organic manure for on-campus greenery. In addition, employee awareness initiatives are conducted to encourage reduced paper consumption, while a strict ban on single-use plastics reinforces the organization's commitment to environmental sustainability and responsible resource management.

10. Briefly describe the waste management practices adopted in your establishments. Describe the strategy adopted by your company to reduce usage of hazardous and toxic chemicals in your products and processes and the practices adopted to manage such wastes.

Environmental sustainability and responsible waste management remain integral to the organization's operational approach. A range of initiatives has been implemented to minimize environmental impact, promote resource efficiency and support sustainable business practices.

Plastic Waste: The organization has taken significant steps to reduce plastic consumption across its offices by eliminating single-use plastics from daily operations. Sustainable alternatives such as glass water bottles, paper cups and paper-based folders have been adopted to reduce plastic waste generation.

E-Waste: In line with its commitment to responsible disposal practices, electronic waste generated from operations is managed through authorized recycling partners. Proper documentation and certification processes are maintained to ensure compliance with applicable environmental regulations and responsible e-waste handling.

Wet Food Waste: Organic waste management is also an important focus area. An eco-composter installed at the headquarters processes wet food waste into organic manure, which is further utilized for maintaining office greenery and landscaping.

As a service-sector organization, environmentally safe waste management practices are followed, with no use of toxic chemicals in the process.

11. If the entity has operations/offices in/around ecologically sensitive areas (such as national parks, wildlife sanctuaries, biosphere reserves, wetlands, biodiversity hotspots, forests, coastal regulation zones etc.) where environmental approvals / clearances are required, please specify details in the following format:

5. Does the entity have a business continuity and disaster management plan? Give details in 100 words/ web link.

Yes.

The Company has established a comprehensive [Business Continuity Management](#) (BCM) framework to ensure operational resilience and preparedness against potential disruptions. Guided by a Board-approved Business Continuity Management Policy, the framework defines clear procedures, objectives and resource requirements to effectively manage and respond to unforeseen events.

The Business Continuity Management Plan (BCMP) focuses on three key areas: disaster prevention, emergency response and post-disaster recovery and resumption. The framework addresses a broad range of risks, including natural disasters, cyberattacks, pandemics and other disruptive incidents, with mitigation and recovery strategies developed for each identified risk category.

To strengthen preparedness, the organization regularly conducts business impact assessments, scenario planning exercises and testing of continuity plans in coordination with relevant departments and functions. Updates on business continuity activities are presented quarterly to the Risk Management Committee of the Board.

The BCM framework is aligned with and certified under the ISO 22301:2019 standard, reflecting the organization's commitment to internationally recognized business continuity practices. The policy applies to employees, contractors, critical processes, facilities and IT infrastructure and is accessible through the company's intranet and internal communication channels.

PRINCIPLE 9: Businesses should engage with and provide value to their consumers in a responsible manner

Essential Indicators

1. Describe the mechanisms in place to receive and respond to consumer complaints and feedback.

Customer Complaints: The Company has established a comprehensive grievance redressal framework embedded within its CRM platform, ensuring that every customer complaint is systematically recorded, monitored and addressed. This mechanism is fully compliant with IRDAI guidelines and is integrated with the Bima Bharosa Portal of IRDAI.

All complaints are promptly acknowledged upon receipt, with resolutions delivered within the prescribed regulatory turnaround time of 14 days. Customers are provided with multiple channels to raise concerns, including the Company's branch network, corporate website, mobile application and 24x7 toll-free contact center (via both voice and email)

Escalation Matrix: To facilitate efficient grievance resolution, the Company has implemented a structured four-tier escalation mechanism comprising:

- Regional Level
- Head Office – Head of Customer Service & Experience
- Head Office – Grievance Redressal Officer
- Internal Ombudsman, who serves as an independent authority for fair and impartial review of unresolved cases.

Leadership Oversight: A formalized review mechanism led by the MD & CEO ensures senior-level oversight of customer grievances. Select cases are reviewed on a weekly basis and the insights derived are translated into targeted corrective actions aimed at addressing root causes and strengthening overall service delivery.

Customer Feedback: In addition to its grievance redressal system, the Company has established a structured approach to capturing customer feedback across all touchpoints. Such feedback is systematically reviewed, appropriate actions are undertaken and customers are kept informed of any resulting developments.

Additionally, the Company undertakes periodic customer surveys across different stages of the policy lifecycle to gather proactive insights. The results are systematically assessed and used to identify trends, refine processes and drive continuous enhancements in customer experience.

Particulars	Number	Reason for recall
Voluntary recalls	NA	NA
Forced recalls	NA	NA

5. Does the entity have a framework/ policy on cyber security and risks related to data privacy? (Yes/No) If available, provide a web-link of the policy

Yes. Information and cyber security are treated as strategic priorities that support operational resilience, business continuity, service excellence and long-term growth. Recognising the increasing dependence on digital infrastructure and information assets, the Company has integrated cyber and information security into its broader enterprise risk management framework.

The Company has established Board-approved Information and Cyber Security and Data Governance policies that define the principles, governance structures and minimum-security standards applicable across all business functions. These policies are available internally through the Company intranet, while the Privacy Policy is publicly accessible on the Company website through [SBI Life Privacy Policy](#). In cases where regulatory or legal requirements prescribe stricter standards, those requirements are adopted to ensure adherence to the highest level of compliance.

Aligned with the guidelines issued by the Insurance Regulatory and Development Authority of India, the Company's security framework reflects strong oversight and commitment from senior management. The framework establishes clear accountability for the implementation, monitoring and enforcement of security controls throughout the organisation. It also promotes the responsible usage of technology systems and information assets while ensuring access is restricted to authorised users based on business requirements.

The scope of the Company's security framework extends across customer information, intellectual property, business data and technology infrastructure. To strengthen protection against cyber threats, unauthorised access, data loss and manipulation, business units work closely with the Information Security Team to periodically assess risks and evaluate the evolving threat environment. Based on these assessments, suitable controls and mitigation measures are implemented to maintain the confidentiality, integrity and availability of critical information assets.

Further strengthening its governance practices, the Company has constituted a Data Governance Committee comprising senior representatives from key functions. The Committee periodically reviews governance initiatives and provides strategic guidance on data management and protection practices. Through a combination of organisational oversight and robust technical safeguards, the Company seeks to ensure responsible data stewardship, safeguard sensitive and personal information and maintain stakeholder confidence.

The Company's commitment to internationally recognised information security standards is further demonstrated through its ISO 27001:2022 certification.

6. Provide details of any corrective actions taken or underway on issues relating to advertising, and delivery of essential services; cyber security and data privacy of customers; re-occurrence of instances of product recalls; penalty / action taken by regulatory authorities on safety of products / services.

No incidents were recorded during the reporting period in relation to advertising, cybersecurity and customer data privacy. The Company also did not witness any product recalls or regulatory actions/penalties pertaining to the safety of its products or services.

The Company remains focused on continuously strengthening its service delivery framework. Efforts have been directed toward improving operational efficiency, expanding accessibility and elevating the overall customer experience. This includes targeted capability-building initiatives for frontline sales and distribution personnel, with an emphasis on deepening their understanding of customer needs and product suitability. The Company also leverages policy-level data, including income, age, occupation and gender, to better align product offerings with customer needs. Additional measures such as the Customer Self-Service Application, the Smart Advisor mobile app for partners, Voice of the Customer (VOC) analysis, monthly complaint reviews and detailed root cause analysis have been implemented.

7. Provide the following information relating to data breaches:

- a. **Number of instances of data breaches**
There were no instances of data breaches in FY 2026.
- b. **Percentage of data breaches involving personally identifiable information of customers**
0%
- c. **Impact, if any, of the data breaches**
None

Assurance – Yes, Reasonable assurance is done by S K Patodia & Associates LLP

Leadership Indicators

1. Channels / platforms where information on products and services of the entity can be accessed (provide web link, if available).

The details of the Company's [products](#) and [services](#) are made available on its website through dedicated and clearly defined sections. Separate web links are provided for products and services, offering comprehensive information on key features, premium ranges, entry age, eligibility criteria and associated benefits.

The services section also provides details of missed call facilities and includes access to the customer portal, enabling users to perform various self-service functions such as downloading premium paid certificates, updating personal information and accessing guidebooks.

In addition, the Company regularly updates and shares relevant information through its social media channels to ensure customers remain well-informed.

2. Steps taken to inform and educate consumers about safe and responsible usage of products and/or services.

The Company undertakes periodic Customer Awareness Campaigns to sensitize policyholders on important aspects of its products and services. These initiatives cover understanding of policy benefits, terms and conditions, awareness of available service channels and their effective usage, as well as key do's and don'ts to help prevent any misunderstanding or incorrect usage.

The campaigns are driven by three core objectives: enhancing policyholder knowledge of product features and service processes, encouraging greater use of digital self-service platforms for faster and more convenient access to services and fostering greater trust and transparency through consistent and proactive communication. These efforts enable customers to take more informed decisions and contribute to an improved and seamless service experience.

3. Mechanisms in place to inform consumers of any risk of disruption/discontinuation of essential services.

To ensure customers are adequately informed about any potential risk of disruption or discontinuation of essential services, the Company follows a structured and timely communication approach. Proactive notifications are issued through multiple channels, including email, SMS and mobile application alerts, to provide advance intimation of any anticipated service interruptions or changes.

In addition, relevant updates and notifications are published on the Company's website and social media platforms to ensure wider visibility. Where required, alternative arrangements or service options are also provided to ensure uninterrupted access to essential services. These measures are designed to keep customers well-informed, minimize inconvenience and sustain trust in service continuity.

4. Does the entity display product information on the product over and above what is mandated as per local laws? (Yes/No/Not Applicable) If yes, provide details in brief.

Yes. The Company upholds strong commitment to transparency and ethical selling practices, ensuring that customers receive information that goes beyond mandatory disclosures to support informed decision-making and build trust.

Accordingly, customers are provided with clear and simplified explanations of product features, benefits, risks and exclusions. Emphasis is also placed on assessing suitability to enable need-based product recommendations and selection.

To further strengthen understanding and accessibility of information, the Company uses a range of digital communication formats, including explainer videos, FAQs, SMS alerts, WhatsApp communication and social media channels. These tools are used to improve product awareness and ensure customers can easily access and comprehend key information.

Did your entity carry out any survey with regard to consumer satisfaction relating to the major products / services of the entity, significant locations of operation of the entity or the entity as a whole?
(Yes/No)

Yes.

The Company regularly conducts Customer Satisfaction Surveys across key customer segments and locations. These surveys help assess: (1) customer satisfaction levels, (2) service quality across touchpoints and (3) areas for improvement and innovation. The insights from these surveys are analysed in detail and used to design targeted service improvement plans.

As part of the customer survey mechanism, the Company engages customers at three critical stages: (1) onboarding stage – to understand first impressions and onboarding support, (2) annual check-ins – to gather ongoing service experience feedback and (3) maturity stage – to evaluate the overall relationship and satisfaction. These inputs guide the Company's commitment to continuous improvement and reinforce its ethical, customer-first culture.

Value Chain Assessment

Scope of Assessment

In compliance with SEBI's requirements (SEBI/HO/CFD/CFD-SEC-2/P/CIR/2023/122; SEBI/HO/CFD/CFD-PoD-1/P/CIR/2025/42) and the consultation paper — Recommendations of the Expert Committee for Facilitating Ease of Doing Business with respect to Business Responsibility and Sustainability Reporting (BRSR) — listed entities are required to conduct an ESG assessment of their value chain partners through the lens of BRSR Core parameters and disclose the findings in their annual reports. The guidelines further specify that the value chain partners list must encompass the top upstream and downstream partners of the listed entity — individually comprising 2% or more of the entity's purchases and sales (by value), respectively. However, listed entities may limit disclosure of the value chain to cover up to 75% of their total purchases and sales (by value).

To comply with these requirements, we first identified the top 2% upstream and downstream partners, which represented 40% of our total purchase and sales values, respectively. To gain broader insights into our value chain ecosystem, we extended the coverage to include partners accounting for the top 75% of upstream and downstream activities by value. This expanded assessment allowed us to include a significantly larger number of value chain partners in our analysis.

Attribute	Number	Coverage
Total number of value chain partners with 2% or above of purchase and sales respectively by value	6	40.36%
Total number of value chain partners which account for top 75% of upstream and downstream activities by value	42	75.17%

List of Identified Value Chain Partners

The final list comprises 9 upstream and 36 downstream value chain partners. The majority are from the financial sector including banks, NBFCs and infrastructure finance companies followed by companies from the infrastructure, technology, telecommunications, metals and mining sectors. Only 6 companies hold a share equal to or greater than 2%.

Total Value Chain Partners Identified	Total upstream value chain partners	Total downstream value chain partners

Assessment Methodology

For the current financial year, our focus remained on listed entities. To ensure consistency and comparability across evaluations, we developed standardized templates for extracting data from publicly available BRSR reports. FY 2025-26 disclosures were used wherever available while for others, the most recent available reports for FY 2024-25 were considered. These templates comprised 47 parameters, enabling a uniform approach to data collection across all value chain partners. Using the disclosures made in these BRSR reports, we conducted a comprehensive assessment to evaluate the ESG maturity of each partner, yielding valuable insights into the sustainability practices embedded within our value chain.

Key Findings of the Assessment

The assessment revealed significant variation in ESG disclosure levels across the nine BRSR Core attributes. Key highlights include:

- Highest disclosure was observed for Greenhouse Gas (GHG) Footprint at 99.39%, followed closely by Energy Footprint at 97.56%.
- Strong disclosures were also noted for Gender Diversity in Business (95.12%), Inclusive Development (92.68%), Fairness in Engaging with Customers and Suppliers (91.06%), Employee Wellbeing and Safety (89.63%) and Water Footprint (89.02%).
- Lowest disclosure was recorded for Openness of Business (56.10%) and Embracing Circularity and Waste Management (68.64%), indicating these as key areas for improvement.

The table below presents a detailed breakdown of disclosure levels across all nine BRSR Core attributes:

Sr. No.	BRSR Core Attributes	%age of value chain partners disclosed data
1	Green-house gas (GHG) footprint	99.39%
2	Water footprint	89.02%
3	Energy footprint	97.56%
4	Embracing circularity - details related to waste management by the entity	68.64%
5	Enhancing Employee Wellbeing and Safety	89.63%
6	Enabling Gender Diversity in Business	95.12%
7	Enabling Inclusive Development	92.68%
8	Fairness in Engaging with Customers and Suppliers	91.06%
9	Open-ness of business	56.10%

- Boundary of the report covers SBI Life’s operations in India which includes 1230 locations.
- Our reasonable assurance engagement is with respect to the Identified Sustainability Information for the reporting boundary as mentioned above for financial year ended 31 March 2026 and we have not performed any procedures with respect to any other elements included in the BRSR and, therefore, do not express any opinion thereon.

Criteria

- The criteria used by the Company to prepare the Identified Sustainability Information is issued under Regulation 34(2)(f) of the Securities and Exchange Board of India (the “SEBI”) (Listing Obligations and Disclosure Requirements), Regulations, 2015 (“LODR Regulations”) as amended, read with SEBI Master circular HO/49/14/14(7)2025-CFD-POD2/I/3762/2026 dated 30 January 2026 and BRSR Core Reporting Standard formulated by Industry Standards Forum (“Criteria”).

Management’s Responsibility

- The Company’s management is responsible for selecting or establishing suitable criteria for preparing the Identified Sustainability Information, taking into account applicable laws and regulations, if any, related to reporting on the Identified Sustainability Information, identification of key aspects, engagement with stakeholders, content, preparation and presentation of the Identified Sustainability Information in accordance with the Criteria. This responsibility includes design, implementation and maintenance of internal control relevant to the preparation of the BRSR and the measurement of the Identified

Sustainability Information, which is free from material misstatement, whether due to fraud or error. The Management and the Board of Directors of the Company are also responsible for overseeing the Company's compliance with the requirements of the LODR Regulations, the SEBI Master Circular and BRSR Framework in relation to the sustainability information included in the Annual Report.

Inherent limitations

7. The absence of a significant body of established practice on which to draw to evaluate and measure non-financial information allows for different, but acceptable, measures and measurement techniques and can affect comparability between entities.

Practitioner's Independence and Quality Control

8. We are independent of the Company and have fulfilled our other ethical responsibilities in accordance with the requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India ('ICAI') and have the required competencies and experience to conduct this assurance engagement.
9. Our firm applies Standard on Quality Control (SQC) 1, "Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements" and accordingly maintains a comprehensive system of quality control including documented policies and procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

Practitioner's Responsibility

10. Our responsibility is to express a reasonable assurance in the form of an opinion on the Identified Sustainability Information based on the procedures we have performed and evidence we have obtained. We conducted our engagement in accordance with the Standard on Sustainability Assurance Engagements (SSAE) 3000, "Assurance Engagements on Sustainability Information", issued by the Sustainability Reporting Standards Board of the ICAI.
11. This standard requires that we plan and perform our engagement to obtain reasonable assurance about whether the Identified Sustainability Information are prepared, in all material respects, in accordance with the Criteria. A reasonable assurance engagement involves assessing the suitability in the circumstances of the Company's use of the Criteria as the basis for the preparation of the Identified Sustainability Information, assessing the risks of material misstatement of the Identified Sustainability Information whether due to fraud or error, responding to the assessed risks as necessary in the circumstances and evaluating the overall presentation of the Identified Sustainability Information.
12. The procedures we performed were based on our professional judgment and included inquiries, observation of processes performed, inspection of documents, evaluating the appropriateness of quantification methods and reporting policies, analytical procedures and agreeing or reconciling with underlying records.
13. Given the circumstances of the engagement, in performing the procedures listed above, our work procedures included the following:
 - Obtained an understanding of the Identified Sustainability Information and related disclosures;

8. Risk Exposure and Mitigation

A. Risk Management Framework

Effective management of risks is essential to achieve the Company's strategic, business and operational objectives and goals, with a degree of assurance. In line with its quest for implementation of Enterprise Risk Management, SBI Life has developed a robust Enterprise Risk Management Framework to identify, assess and mitigate its risks.

The Company has 'Statement of Compliance' for the ISO 31000:2018 standard for Enterprise Risk Management System of SBI Life. The scope covers all departments and functions at Corporate Office, Central Processing Centre, Regional & Branch Offices of the Company.

The Company has a comprehensive Risk Management Policy for effective and robust risk management and the same is reviewed by the Risk Management Committee of Board (RMC-B) annually.

The Company has various Committees to manage the risks faced by it. The Company considers risk management to be fundamental to prudent management practice and a significant aspect of Corporate Governance.

B. Risk Identification and Monitoring

The Company's risk management policy ensures a robust risk management framework for its operations.

The Risk Management Committee of the Board (RMC-B) is responsible for overseeing the Company's risk management. Further, Risk management is considered to be the responsibility of every employee of SBI Life and the same is driven by the Board.

Key risks to the Company are monitored and reported to the Board on a timely basis. A defined Board Committee structure and terms of reference for the same is in place.

The Company has formulated Risk Appetite statements at the corporate level, which are reviewed and monitored by the RMC-B and Risk Management Committee of Executives (RMC-E) so as to integrate risk management with strategic business objectives and lay down the overall risk appetite for the organization.

The Company also carries out an ICAAP (Internal Capital Adequacy Assessment Process) activity, which details the assessment of material risks,

estimation of capital requirement and adequacy for maintaining solvency requirements.

The Company conducts various Risk Assessment activities for identification, assessment, mitigation, monitoring and controlling of the key risks of the Company. The Company uses tools like Risk and Control Self-Assessment (RCSA), Incident Reporting (Loss data collation), Fraud Monitoring, Business Continuity Management (BCM), Risk Analytics, Predictive Risk Models and Key Risk Indicators (KRI) to identify, manage and monitor risks.

C. Risk Categories and Measures

The Company is exposed to the following broad risk categories in pursuit of its business goals and objectives, which are further split into various risks.

- Strategic and Business Risk (Distribution, Product Mix, New Business, Surrender and Reputation Risk)
- Insurance Risk (Mortality, Reinsurance, Pricing, Persistency, Expense Risk)
- Investment Risk (Credit, Liquidity, Market, ALM and Interest Rate Risk)
- Operational Risk (Business Continuity, Fraud, Market Conduct, Process, Third Party and People & Culture Risk)
- Information & Technology Risk (Data Privacy, Cyber Security and IT System & Infrastructure Risk)
- Regulatory & Legal Risk (Reporting & Disclosure, Regulatory Guidelines and Legal Risk)

Key Risks identified during the Annual Risk Assessment - FY 25-26 along with the mitigation measures are as follows:

(a) Distribution Risk

This is the risk of having excessive dependence on one or two specific distribution channels which may also be an indicator of the inability to develop or grow the other channels. There is a significant proportion of the business that is coming in from one channel which can be a material risk, more so if there are any regulatory changes happening or any such factors in the future.

From a mitigation point of view, there is an increased focus on agent recruitment and retention of performing agents along with activation of inactive agents/Life Mitras

(LMs). Also, continuous effort is being made to improve the training & development programme for sales teams of the various distribution channels. Further, special digital initiatives are being undertaken to simplify and enhance the online selling process to increase the business via E-commerce platform. There is a continued push to partner with more licensed entities across categories to ensure diversification.

(b) Product Mix Risk

Product risk is broadly defined as the risk to which a company is exposed due to poorly defined policy terms, poorly defined Product Mix or non-availability of a product to address a specific client need.

To manage the risk the organisation provides for Product Mix in a way to reduce concentration on unit-linked products (ULIPs), while increasing the sales target of Non-Par and Protection products. Further company has a complete basket of products; also, innovative products are introduced on periodic intervals in line with market needs and competition. The Company has also recently launched new products in Non ULIP segments and has also aligned the products in comparison with peer's average IRR on similar products in Non ULIP category. Also, proportion of products not meeting minimum sales is monitored for detection of underselling in specific segments of the products.

(c) New Business Risk

New Business risk is defined as the risk of not being able to meet pre-defined targets for new business, either due to internal or external factors.

Several measures are being taken to ensure that incremental feet on street are being monitored to improve the business targets through addition of Life Mitras – Retail Agency Channel (Life Mitra addition) and Specified Persons – Other Banks (Specified Person addition). Also focus is on to increase the activation of SBI /Non SBI Bank Branch out of total banking branches (including SBI), CIF activation and Development Manager / Life Mitra productivity. There is also a special focus by Retail agency on sales budget achievement at branch level. Also, separate contests are being driven for Regional Rural Banks (RRB's) to achieve their targets and Institutional Alliances

(IA)'s focus on partner engagement, digitization and integration.

(d) Data Privacy Risk

Data privacy risk is the risk of compromise of confidential / customer / employee information. This needs to be monitored closely considering the current global privacy landscape, reliance on 3rd party service providers, reputational impact and regulatory censures related to any data breach incident.

The Company employs various data protection solutions to ensure the data of its customers, employees, vendors and other stakeholders is appropriately handled through its life cycle. A Data Governance Framework has been established in SBI Life and has a Board-approved Data Governance Policy. A Data Governance Committee comprising of competent Senior Officials meet regularly to steer and advise on the Data Protection initiatives.

The Company has implemented Data Loss Prevention (DLP) solution and Data Classification tool to classify, monitor and restrict data movements under the supervision of Data Protection Officer (DPO). Further, Data Rights Management (DRM) solution is implemented to secure sensitive business data that is processed by third-party vendors. Additionally, regular sensitization and data privacy awareness/ campaigns are carried out through digital and physical modes for various stakeholders and employees.

(e) Cyber Security Risk

Cybersecurity risk is the risk of unauthorized access, disruption, or damage to systems, networks, and digital assets due to threats such as hacking, malware, ransomware, or insider attacks. It requires close monitoring given the evolving threat landscape, increasing digital interconnectivity, reliance on third-party technologies, and the potential operational, financial, legal, and reputational impact of incidents.

In order to track and mitigate cybersecurity risk, the Company has established a Security Operations Centre (SOC) for continuous monitoring and incident response, along with regular employee sensitization through awareness sessions, phishing simulations, and initiatives such as Cyber Jaagrookta Diwas.

Additionally, Red Team assessment and Breach attack simulation is carried out to identify potential vulnerabilities, which are closed in a timely manner. The Company also leverages external expertise for best practices in vendor risk management, Vulnerability Assessment and Penetration Testing (VAPT), Information Security Management System (ISMS) sustenance, and application security, supported by cyber insurance coverage and continuous monitoring of internet-facing systems in coordination with the Indian Computer Emergency Response Team (CERT-In) and internal security teams.

Further, all the key risks are monitored through Key Risk Indicators (KRIs) and discussed with the respective functions and the Senior Management. The Company has put in place adequate safeguard(s) to mitigate each of the risks and monitors the same on an ongoing basis. An update on the Functional KRIs is given to Risk Management Committee of the Executives and on the company level KRI's to the Risk Management Committee of the Board every quarter.

Other Risks

(f) Market risk:

To manage the interest risk, the Company monitors the duration of assets and liabilities for different portfolios on quarterly basis. Also, expected cash-flows of the assets and liabilities are monitored closely to identify any potential re-investment risk.

Investment strategy for each line of business is laid down so that the assets are appropriately matched by the nature and duration of liabilities. A range is provided for each asset class and the investment front office team takes tactical investment decision within the stated range.

All investments are made strictly in compliance to the IRDAI Investment Regulations issued from time to time. Market risk is monitored at the fund level and the Company level.

(g) Credit risk:

The Company manages the credit risk through the following measures:

- (i) Exposure limits for companies, groups and industries are in accordance with

IRDAI (Investment) Regulations, 2016, and regulations/orders/directions issued by IRDAI thereafter.

- (ii) Internal risk assessment and constant monitoring of the Investment portfolio for change in credit ratings.
- (iii) Limit Credit Exposure by setting a range for investments in Corporate Bonds, in the context of risk reward framework.
- (iv) Counterparty risk is mitigated by placing reinsurance only with reputed and highly rated reinsurers.
- (v) Counterparty credit risk under derivative transactions is mitigated through exchange of margin once MTM threshold is crossed.

(h) Liquidity risk:

The Company faces limited liquidity risk due to the nature of its liabilities & business structure. The cash investment along with expected future premium from existing business provides the liquidity to meet outgoes.

(i) Morbidity and Mortality risk:

The Company conducts the mortality experience on regular basis and monitors the emerging experience. In order to mitigate any potential risk, Company takes various measures including appropriate underwriting, claim monitoring, reinsurance and in some cases, reprice the products.

Various measures have been introduced to combat fraudulent death claims and in response to the modification of section 45 of the Insurance Act. These include:

- a. Monitoring the early claims at agent, unit manager, branch and regional level.
- b. Introduction of risk based underwriting through claim analysis.

(j) Persistency risk:

The persistency risk is managed with the following approaches:

- (i) Experience analysis: The Company conducts experience analysis on regular basis, monitors and takes necessary action to ensure that emerging experience continue to remain in line.

- (ii) Service initiatives: The Company uses a combination of proactive and reactive interventions to manage persistency. The interventions could include sending communication via different media like email, WhatsApp, SMS to customers and distributors, renewal due intimations through Voice BOT and call center executives to the customers, Run Revival Campaigns to enable the lapsed policy holders to renew & restore their policy benefits and visits to customers. Various customer education initiatives are also taken up for this cause.

- (iii) Aligning key performance areas: The Company uses different key performance areas for different levels of hierarchy in Sales and Operations to align interests and ensure adequate focus on persistency. The Renewal & Customer Retention Heads at regional level help to focus on the key performance area with inputs time to time to all the stakeholders and also cater the needs and requirements of the customers besides contributing to the renewal business.

(k) Expense risk:

The Company manages its expenses very efficiently as a result there is no expense overrun. The Company uses the current expense loadings along with appropriate allowances towards future inflation in product pricing/future projection and does not consider any further improvement from the current level that is expected to achieve in view of expected improved productivities. Further, in daily operations, the Company adheres to expense budgeting and management process that controls expenses.

Stress testing for Expense Risk is being done with deterministic shocks as per historical experience given for entire portfolio.

(l) Operational risk:

The Company manages its Operational Risks through-

(i) Risk Registers

Risk Registers document the high level risks for all the offices based on likelihood & impact rating. Controls in

place to manage the risks are captured and rated to arrive at the residual risk.

- (ii) **Risk Control Self-Assessment (RCSA)**
RCSA requires each business unit within the Company to identify and assess inherent risks and controls relevant to the risk. The risk events are then mapped to the existing control framework to determine the residual risk. The controls are periodically assessed for its effectiveness.

(iii) Incident Reporting

The Company also has a web-based incident reporting process to collect loss incidents to track the extent of operational risk. The incident reporting tool has helped the company in development of system based modules for operational efficiency and to prevent recurrence. Loss data records may be used to estimate the capital required for operational risk.

(iv) Risk Control Unit (RCU)

A 'Risk Control Unit' (RCU) is in place to undertake proactive measures for detecting process gaps / weakness so as to mitigate frauds / leakages. Lacunae observed are addressed in consultation with the relevant stakeholder. The RCU carries out 'Risk Assessments,' reviews processes and provide inputs to mitigate risks.

(v) Fraud Monitoring

The Company takes a holistic approach to identify, measure, control and monitor fraud risk through the Fraud Prevention Policy. Various measures taken in coordination with the concerned stakeholders to mitigate fraud risk. The Company also participates in Industry forums to proactively obtain information on latest fraud trends.

(vi) Business Continuity Management

The Company has requisite business continuity and disaster recovery plans in place. The Company's Business Continuity Management System (BCMS) is certified to ISO 22301:2019 standard on Business Continuity. The Company also adheres to the Business Continuity requirements notified by the Authority.

(m) Regulatory risk:

Compliance function monitors regulatory risks and has a sound compliance management and suitable monitoring mechanisms in place. Relevant regulatory requirements and clarifications are communicated to relevant business functions on a timely basis. Suitable training is imparted to ensure adherence to applicable regulations.

(n) Reputational risk:

The Company has a structured process for identifying and managing risks emerging from reputational and other external events. Such events are discussed in the Risk Events Monitoring Committee, which meets on a quarterly basis. Events impacting the reputation are also monitored through the Corporate Risk Appetite statement.

(o) Legal risk:

Litigation cases are reviewed periodically by the senior management and appropriate steps are taken to adequately represent the Company in various forums.

(p) Country Risk:

The Company is operating only in India and hence has no exposure to other country risk.

D. Risk Awareness

Risk management is embedded into the organization's culture through continuous awareness and sensitisation initiatives conducted via workshops, emailers, seminars, conferences, quizzes, and case studies, covering key areas such as incident reporting, Risk & Control Self-Assessment (RCSA), operational risk, fraud monitoring, business continuity, information security, and data protection. To further reinforce this culture, the Company observes dedicated events including Risk Awareness Day with week-long engagement activities, Computer Security Day alongside a month-long focus on cyber security, Data Privacy Day and Cyber Jaagrookta Diwas as per Government of India guidelines. Additionally, a Risk Culture Assessment survey is conducted to evaluate employee awareness and behaviour, identify gaps between policy and practice, and strengthen accountability, communication, and overall effectiveness of risk management across the organization.

10. Valuation of Investments

We certify that the valuation of investments made out of Shareholders' funds and Non-Linked Policyholders' funds and valuation of investments made out of linked business are done as stated below:

Investments are made and accounted in accordance with the Insurance Act, 1938 as amended by the Insurance Laws (Amendment) Act, 2015 and Insurance (Amendment) Act, 2021, the IRDAI AFI Regulations 2024, IRDAI AFI Master Circular 2024, Investment Policy of the Company and various other circulars/ notifications as issued by IRDAI from time to time.

Investments are recorded on the trade date at cost, which includes brokerage, security transaction tax, education cess and stamp duty, wherever applicable and excludes interest paid, if any, on purchase.

i. Classification of Investments

Investments maturing within twelve months from balance sheet date and investments made with the specific intention to dispose-off within twelve months from balance sheet date shall be classified as short-term investments.

Investments other than Short-term investments are classified as "Long-term investments".

ii. Valuation – shareholders’ investments and non-linked policyholders’ investments

Debt securities

Debt securities, including Government securities and money market securities are stated at historical cost subject to amortisation of premium or accretion of discount over a period of holding/ maturity on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, the closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing (‘SLB’), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Bonus entitlements are recognised as investments on the ‘ex-bonus date’. Rights entitlements are recognised as investments on the ‘ex-rights date’.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under “Equity” as specified by IRDAI, are valued at prices obtained from Credit Rating Information Services of India Limited (‘CRISIL’).

Unrealised gains or losses arising due to change in the fair value of equity shares are recognised in the Balance Sheet under “Fair value change account”.

On each balance sheet date, the Company assess whether impairment of listed equity securities has occurred. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its weighted average cost as reduced by any previous impairment loss recognised as an

expense in the Revenue or Profit and Loss Account. Any reversal of impairment loss, earlier recognised in Revenue or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

Mutual funds

Investments in mutual funds are valued at the previous day’s Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Balance Sheet under “Fair value change account”.

Alternative Investment Funds (AIFs)

Investments in Alternative Investment Funds (AIFs) are valued at latest available NAV. Unrealised gains or losses arising due to change in the fair value of Alternative Investment Funds (AIFs) are recognised in the Balance Sheet under “Fair value change account”.

Interest Rate Derivatives (IRDs)

Interest Rate Derivative (IRD) contracts for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business, are accounted for in the manner specified in accordance with ‘Guidance Note on Accounting for Derivative Contracts’ (Revised 2021) issued by the Institute of Chartered Accountants of India (ICAI), IRDAI Investment Master Circular as amended from time to time.

The Company has well defined Board approved interest rate risk hedging Policy and Process document covering various aspects related to functioning of the derivative transactions undertaken to mitigate interest rate risk as per the Interest rate risk hedging strategy. At the inception of the hedge, the Company designates and documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter at Balance Sheet date.

Forward Rate Agreement (‘FRA’) and Bond Forward Agreement (‘BFA’) is a forward contract to hedge the risk of movements in interest rates.

In FRA and BFA contract, the Company fixes the yield on the government bond for the period till the maturity of the contract. The Company enters into forward contract to hedge interest rate risk on forecasted transactions: a) Reinvestment of maturity proceeds of existing fixed income investments; b) Investment of interest income receivable; and c) Expected policy premium income receivable on insurance contracts which are already underwritten in Life, Pension & Annuity business.

The Company follows “hedge accounting” for accounting of all Interest rate derivative financial instruments as per Guidance Note on Accounting for Derivative Contracts issued by ICAI.

The Forward contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till forward contract settlement date, at applicable INR-OIS rate curve. The fair valuation or Mark-to-market valuation of the derivative financial instruments is done independently by both the parties i.e. the Company and the counter party. The counter party (bank) valuation is considered for margin settlement as the counter party (bank) is the valuation agent as per forward rate agreement.

Hedging instruments are initially recognised at fair value and are re-measured at fair value at subsequent reporting dates. The effective portion of fair value gain / loss on the interest rate derivative that is determined to be an effective hedge is recognised in equity account i.e. “Hedge Fluctuation Reserve” or “HFR” under the head ‘Credit/(Debit) Fair Value Change Account’ in the Balance Sheet and the ineffective portion of the change in fair value of such derivative instruments is recognised in the Revenue Account or Profit and Loss account in the period in which they arise. The fair value gain / loss on the interest rate derivative that is determined to be an ineffective hedge is recognised in the Revenue Account or Profit and Loss account in the period in which they arise.

The accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or Profit and Loss account, in the same period during which the income from investments acquired from underlying forecasted cash flow is recognized in

the Revenue Account or Profit and Loss Account. Hedge accounting is discontinued when the hedging instrument is terminated or it becomes probable that the expected forecast transaction will no longer occur or the risk management objective is changed or no longer expected to be met. On such termination, accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or Profit and Loss Account. Costs associated with derivative contracts are considered as at a point in time cost.

Real Estate Investment Trusts (REITs)/ Infrastructure Investments Trusts (InvITs)

The Investment in Units of REITs / InvITs are valued at Market Value (last quoted price should not be later than 30 days). For the purpose of determining market value, the closing price at primary exchange i.e. NSE is considered. If NSE closing price is not available for any security, then BSE closing price is used for valuation. Where market quote is not available for the last 30 days, the units are valued as per the latest NAV (not more than 6 months old) of the units published by the trust. Unrealised gains or losses arising due to change in the fair value of Real Estate Investment Trust (REITs)/ Infrastructure Investments Trusts (InvITs) are recognised in the Balance Sheet under “Fair value change account”.

iii. Valuation – Linked business

Debt securities

Debt securities including Government securities with remaining maturity of more than one year are valued at prices obtained from Credit Rating Information Services of India Limited (‘CRISIL’).

Debt securities including government securities with remaining maturity of less than one year are valued on yield to maturity basis, where yield is derived using market price provided by CRISIL on the day when security is classified as short term. If security is purchased during its short term tenor, it is valued at amortized cost using yield to maturity method. In case of securities with options, earliest Call Option / Put Option date will be taken as maturity date for this purpose.

Money market securities are valued at historical cost subject to amortisation of premium or accretion of discount on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing (SLB), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from CRISIL.

Unrealised gains or losses arising due to change in the fair value are recognised in the Revenue Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Revenue Account.

Real Estate Investment Trusts (REITs)/ Infrastructure Investments Trusts (InvIT)

The Investment in Units of REITs / InvITs are valued at Market Value (last quoted price should not be later than 30 days). For the purpose of determining market value, the closing price at primary exchange i.e. NSE is considered. If NSE closing price is not available for any security, then BSE closing price is used for valuation. Where market quote is not available for the last 30 days, the units are valued as per the latest NAV (not more than 6 months old) of the units published by the trust. Unrealised gains or losses arising due to change in the fair value of REITs units are recognised in the Revenue Account.

iv. Transfer of investments

a. Transfer of investments from Shareholders' fund to Policyholders' fund

In the case of deficit in Revenue Account, transfer of securities from shareholders to policyholders is done as below:

- (i) Debt securities are transferred at lower of net amortised cost or market value on the date of transfer;
- (ii) Equity securities are transferred at lower of cost or market value on the date of transfer.

b. Transfer of investments from Policyholders' fund to Shareholders' fund

In the case of surplus in Revenue Account, transfer of securities from policyholders' to shareholders' is done as below:

- (i) Debt securities are transferred at net amortised cost;
- (ii) Equity securities are transferred at market value on the date of transfer.

c. Transfer of investments between non-linked Policyholders' funds

No transfer of investments is carried out between non-linked policyholders' funds.

d. Transfer of investments between unit-linked funds

In case of unit linked fund, inter schemes transfers of equity, preference shares, ETFs and Government Securities are made at prevailing market price at the time of transfer. In case, if the trade has not taken place on the day of transfer, the transfer of investments is accounted at previous day valuation price as per IRDAI AFI Regulations 2024.

For all other securities, transfer of investments is accounted at previous day valuation price as per IRDAI AFI Master Circular 2024.

v. Impairment of Investments

On each balance sheet date, the Company assesses whether there is any indication of impairment of investments or reversal of impairment loss recognised in prior periods. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account. Any reversal of impairment loss, earlier recognised in Revenue or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

vi. Provision for Non-Performing Assets (NPAs)

All assets where the interest and/or principal repayment remain overdue for more than 90 days at the Balance Sheet date are classified as NPA and provided for in accordance with the requirement of applicable IRDAI Regulations/circulars.

a. Loans

Investments in Loans are stated at historical cost, less repayments, subject to provision for impairment losses & non-performing asset (NPA) provision, if any.

b. Provision for Standard Assets

In accordance with the IRDAI valuation guidelines on 'Income Recognition, Asset Classification, Provisioning and Other related matters' vide the IRDAI AFI Master Circular 2024, adequate provisions are made for estimated loss arising on account from/under recovery of loans and advances (other than loans and advances granted against insurance policies issued by the insurer) outstanding at the Balance Sheet date in respect of standard assets.

Independent Auditors' Report

To the Members of
SBI Life Insurance Company Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying Financial statements of **SBI Life Insurance Company Limited** ("the Company"), which comprise the Balance Sheet as at March 31, 2026, the related Revenue Account (also called the "Policyholders' Account" or the "Technical Account"), the Profit and Loss Account (also called the "Shareholders' Account" or "Non-Technical Account") and the Receipts and Payments Account (also called the "Cash Flow Statement") for the year ended on that date, and a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements"). In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required in accordance with The Insurance Act, 1938 (the "Insurance Act"), the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), The Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024 (the "IRDAI AFI Regulations"), orders/ directions/ circulars issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") and the Companies Act, 2013 ("the Act"), to the extent applicable, in the manner so required and give a true and fair view in conformity with accounting principles generally accepted in India, as applicable to Insurance companies:

- in the case of the Balance Sheet, of the state of affairs of the Company as at March 31, 2026;
- in the case of the Revenue Account, of the surplus for the year ended on that date;
- in the case of the Profit and Loss Account, of the profit for the year ended on that date; and
- in the case of the Receipts and Payments Account, of the Receipts and Payments for the year ended on that date.

Basis for Opinion

We conducted our audit of the Financial Statements in accordance with the Standards on Auditing (SAs) specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by the Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are

relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

- Valuation of Investments (March 31, 2026: 4,87,16,262 Lakhs March 31, 2025: 4,48,03,858 lakhs)**
(Refer Significant Accounting Policies in note no.16 B (k) (Investments) and Schedule 8, 8A, 8B and 9 note no. 16 C (20 & 21) (Impairment of investment assets) to the financial statements)

The Company's investment portfolio consists of Policyholders' investments (traditional and unit linked policy holders) and Shareholders investments.

Total investment portfolio of the Company (i.e. Assets under Management (AUM)) represents 99.01 per cent of the Company's total assets.

Investments are made and valued in accordance with the Insurance Act, 1938, the IRDAI AFI Regulations, 2024, Investment Policy of the Company and relevant Indian GAAPs.

These valuation methods use multiple observable market inputs, including observable interest rates, credit spreads, equity prices, counterparty credit quality, and corresponding market volatility levels etc.

The portfolio of quoted investments is 42.37 per cent of the Company's AUM and the portfolio of investments that are valued primarily using observable inputs is 56.92 per cent of the Company's AUM. We do not consider these investments to be at a high risk of significant misstatement, or to be subject to a significant level of judgement because they comprise liquid, quoted investments. However, due to their materiality in the context

of the financial statements as a whole, they are considered to be one of the areas which had the significant impact on our overall audit strategy.

The portfolio of unquoted investments is 0.30 per cent of the Company's AUM. The valuation of unquoted investments involves judgement depending on the observability of the inputs into the valuation and further judgement in determining the appropriate valuation methodology where external pricing sources are either not readily available or are unreliable.

Valuation of investments was considered to be one of the areas which required significant auditor attention and was one of the matters of most significance in the financial statements due to the materiality of total value of investments to the financial statements.

Auditors' Responses Principal Audit Procedures

Our audit procedures for this area included but were not limited to the following:

- Obtained an understanding of the Company's process and controls over the valuation of investments. The understanding was obtained by performance of walkthroughs, which included inspection of documents produced by the Company and discussion with those involved in the pertinent process;
- Evaluated and tested the design, implementation and operating effectiveness of key controls over the valuation process, including the Company's assessment and approval of assumptions used for the valuation including key authorisation and data input controls thereof;
- Obtained independent external confirmations for investments as at balance sheet date from the Custodians and Depository Participants appointed by the Company to confirm the units of securities for the purpose of valuation re-computation;
- On a test check basis, recomputed valuation of different class of investments to assess appropriateness of valuation methodologies with reference to IRDAI Investment Regulations along with the Company's Board approved valuation policy;
- Examined movement and appropriateness of accounting in Fair Value Change account for specific investments.
- Ensured the appropriateness and reasonableness of methodology, assumptions and judgements used by management with

reference to the valuation and impairment of investments as per the Company's Board approved valuation and impairment policy.

- Obtained written representations from management on compliance of valuation of investments with the regulations and adequacy of impairment recorded for the year.

(b) Information Technology Systems and Controls (IT Controls)

All insurance companies are highly dependent on technology due to the significant number of transactions that are processed on a daily basis. A significant part of the Company's financial processes is heavily reliant on IT systems with automated processes and controls over the capturing, valuing, and recording of transactions. Thus, there exists a risk that gaps in the IT control environment could result in the financial accounting and reporting records being materially misstated.

The Company has separate software applications for management of its various activities. Transfer of data from / to these software's is critical for accurate compilation of financial information. We have identified 'IT systems and controls' as key audit matter because of significant use of IT environment and the scale and complexity of the IT architecture.

Auditors' Responses Principal Audit Procedures

- We obtained an understanding of the Company's IT environment and key changes if any during the audit period that may be relevant to the audit.
- We have reviewed the design and operating effectiveness of key automated controls.
- We have reviewed the reconciliations between the core operating systems and the accounting software to mitigate the risk of incorrect data flow to/from separate application software.
- We have also obtained management representations wherever considered necessary.

(c) Contingent Liabilities and Litigations (Refer Significant Accounting Policies in note no. 16 B (r) (Provisions and contingent liabilities/assets) and note no. 16 C (1) to the financial statements)

The Company has pending litigation matters with various appellate authorities and at different forums. The same involves judgements in accordance with applicable Accounting Standards to determine the final outcome of such open litigation matters.

The management with the help of its experts, as needed, have made judgments relating to the likelihood of an obligation arising and whether there is a need to recognize a provision or disclose a contingent liability. We therefore focused on this area as a result of uncertainty and potential material impact.

Auditors' Responses Principal Audit Procedures

- We read the various regulatory correspondences and related documents pertaining to litigation cases and corroborated them with our understanding of legal position as per various statutes;
- We obtained legal opinion sought by management from the independent legal counsel to review the sustainability of the dispute. We discussed the status and potential exposures in respect of significant litigation with the company's internal legal team and obtaining details regarding the progress of various litigations including management views on the likely outcome of each litigation and the magnitude of potential exposure;
- The various litigation matters were reviewed in order to assess the facts and circumstances and to identify the potential exposures and to satisfy ourselves that it is not probable that an outflow of economic benefits will be required, or in certain cases where the amount cannot be estimated reliably, such obligation is disclosed by the company as a contingent liability.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's Board of Directors is responsible for the preparation of the other information. The other information comprises the information included in the Management Discussion and Analysis, Directors' Report including Annexures to Directors' Report, Corporate Governance, but does not include the financial statements and our auditor's report thereon. The other information is expected to be made available to us after the date of this auditor's report.

Our opinion on the financial statements does not cover the other information and we will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information identified above when it becomes available and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated.

When we read the other information, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance.

Management's Responsibility for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in Section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the Balance Sheet, the related Revenue Account, the Profit and Loss Account and the Receipts and Payments Account of the Company in accordance with accounting principles generally accepted in India, including the provisions of The Insurance Act as amended from time to time, the IRDA Act, the IRDAI AFI Regulations, orders/directions/circulars issued by IRDAI in this regard and the Accounting Standards specified under Section 133 of the Act, to the extent applicable.

This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in

the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal financial controls relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls system in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Other Matters

- (a) The actuarial valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2026 is the responsibility of the Company's Appointed Actuary (the "Appointed Actuary"). The actuarial valuation of these liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2026 has been duly certified by the Appointed Actuary, and in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by IRDAI and the Institute of Actuaries of India ("IAI") in concurrence with the Authority. Accordingly, we have relied upon the Appointed Actuary's certificate in this regard for forming our opinion on the valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as contained in the financial statements of the Company (Refer Note no. 5 of Schedule 16(C)).
- (b) The financial statements of the Company for the year ended March 31, 2025, were audited by K. S. Aiyar & Co., one of the current joint auditors of the Company jointly with A. John Morris & Co., who had jointly expressed an unmodified opinion vide their report dated April 24, 2025

Our opinion is not modified in respect of the above matters.

 - (e) The actuarial valuation of liabilities for life policies in force and for policies in respect of which premium has been discontinued but liability exists as at March 31, 2026 has been duly certified by the Appointed Actuary. The Appointed Actuary has also certified that, in his opinion, the assumptions for such valuation are in accordance with the guidelines and norms issued by IRDAI and the Institute of Actuaries of India in concurrence with the Authority;
 - (f) In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements comply with the Accounting Standards specified under section 133 of the Act, as amended, to the extent not inconsistent with the accounting principles prescribed in the IRDAI AFI Regulations and orders/directions/circulars issued by IRDAI in this regard;
 - (g) In our opinion and to the best of our information and according to the explanations given to us, investments have been valued in accordance with the provisions of the Insurance Act, the

Regulations and orders / directions issued by IRDAI in this regard;

- (h) In our opinion and to the best of our information and according to the explanations given to us, the accounting policies selected by the Company are appropriate and are in compliance with the Accounting Standards specified under Section 133 of the Act to the extent not inconsistent with the accounting principles prescribed in the IRDAI AFI Regulations and orders/directions/circulars issued by IRDAI in this regard;
- (i) On the basis of written representations received from the directors and taken on record by the Board of Directors, none of the Directors are disqualified as on March 31, 2026 from being appointed as a director in terms of section 164 (2) of the Act;
- (j) With respect to the adequacy of the internal financial controls with reference to financial statements of the Company and the operating effectiveness of such controls, refer to Annexure 'II' to this report;
- (k) With respect to the other matter to be included in the Auditor's Report in accordance with the requirements of section 197(16) of the Act, as amended in our opinion and to the best of our information and according to the explanations given to us, the remuneration paid by the Company to its directors during the year is in accordance with the provisions of section 197 of the Act read with Section 34A of the Insurance Act, 1938. The remuneration paid to any director is not in excess of the limit laid down under Section 197 of the Act read with Section 34A of the Insurance Act, 1938. The Ministry of Corporate Affairs has not prescribed other details under Section 197(16) which are required to be commented upon by us;
- (l) With respect to the other matters to be included in the Auditor's Report in accordance with Rule 11 of the Companies (Audit and Auditors) Rules, 2014, in our opinion and to the best of our information and according to the explanations given to us:
 - (i) The Company has disclosed the impact of pending litigations on its financial position in its financial statements- Refer Note 1 & 2 of Part C of Schedule 16;
 - (ii) The Company has made provision, as required under the applicable law or accounting standards, for material foreseeable losses, if any, on long term

contracts if any, including derivative contracts - Refer Note 35 of Part C of Schedule 16;

(iii) There has been no delay in transferring amounts, required to be transferred, to the Investor Education and Protection Fund by the Company during the year ended March 31, 2026;

(iv) (A) The management has represented that, to the best of its knowledge and belief, the Company have not advanced or loaned or invested from any kind of funds to or in any other person(s) or entity(ies), including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall, directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the company ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(B) The management has represented that, to the best of its knowledge and belief, the Company have not received funds from any person(s) or entity(ies), including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the company shall, directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever by or on behalf of the Funding Party ("Ultimate Beneficiaries") or provide any guarantee, security or the like on behalf of the Ultimate Beneficiaries;

(C) Based on the audit procedures that were considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (iv) (A) and (B) contain any material mis-statement.

(v) The dividend declared or paid during the year by the Company is in compliance with section 123 of the Companies Act, 2013.

(vi) Proviso to Rule 3(1) of the Companies (Accounts) Rules, 2014 requires the Company to maintain books of account using accounting software which has a feature of recording audit trail (edit log) facility.

Based on our review, we state that the Company has used an accounting software for maintaining its books of account which is equipped with access controls and a fully functional audit trail (edit log) feature, which was actively operational throughout the year for capturing the audit trail of all relevant transactions with respect to Financial Statements.

The Company has implemented a database activity monitoring (DAM) tool at database level having centralised monitoring of database activities which is an alternative way of demonstrating Database level audit trail through relying on activity logs generated by the DAM solution instead of traditional database auditing mechanisms (Audit Trail).

The audit trail, as stated above, has been preserved by the Company as per the statutory requirements for record retention.

Annexure 'II' to the Independent Auditor's Report

(Referred to in paragraph 3(j) under 'Report on Other Legal and Regulatory Requirements' section of our Independent Auditors' report of even date to the Members of SBI Life Insurance Company Limited)

Report on the Internal Financial Controls with reference to Financial Statements under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act").

We have audited the internal financial controls with reference to financial statements of SBI Life Insurance Company Limited ("the Company") as of March 31, 2026 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's management is responsible for establishing and maintaining internal financial controls based on the internal financial control with reference to financial statements criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by the Institute of Chartered Accountants of India (the "Guidance Note"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Insurance Act, 1938 (the "Insurance Act"), as amended from time to time, including amendment brought by Insurance Laws (Amendment), Act 2015, the Insurance Regulatory and Development Authority Act, 1999 (the "IRDA Act"), the Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024 (the "IRDAI AFI Regulations"), orders/directions/circulars issued by the Insurance Regulatory and Development Authority of India (the "IRDAI") and the Companies Act, 2013 (the "Act"), to the extent applicable.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to financial statements based on our audit. We conducted our audit in accordance with the Guidance Note and the Standards on Auditing, issued by ICAI and as prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with

reference to financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system with reference to financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system with reference to financial statements.

Meaning of internal financial controls with reference to Financial Statements

A company's internal financial control with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial control with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorizations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of internal financial controls with reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections

of any evaluation of the internal financial controls with reference to financial statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, an adequate internal financial controls system with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2026, based on the internal financial control with reference to financial statements criteria established by the Company

considering the essential components of internal control stated in the Guidance Note.

Other Matter

The actuarial valuation of liabilities for life policies in force and policies in respect of which premium has been discontinued but liability exists as at March 31, 2026 has been certified by the Appointed Actuary as per the IRDAI AFI Regulations, and has been relied upon by us, as mentioned in “Other Matter” of our audit report on the financial statements for the year ended March 31, 2026. Accordingly, our opinion on internal financial controls with reference to the financial statements does not include reporting on the operating effectiveness of the management’s internal controls over the valuation and accuracy of the aforesaid actuarial valuation. Our opinion is not modified in respect of the above matter.

Independent Auditors’ Certificate

(Ref: Independent Auditor’s Certificate in accordance with the Schedule III Part III (9) of the Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024)

To the Board of Directors

SBI Life Insurance Company Limited

1. This certificate is issued in accordance with terms of our engagement letter with SBI Life Insurance Company Limited (the “Company”). Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024 (“the IRDAI AFI Regulations”) require the auditors to issue certificate regarding applicable Net Asset Value (“NAV”) for applications received as at March 31, 2026 in terms of Schedule III Part III Annexure INV – I A{11(d)} of the AFI Regulations.

Management’s responsibility:

- The preparation and maintenance of all accounting and other relevant supporting records and documents is the responsibility of the management of the Company. This responsibility includes the design, implementation and maintenance of internal controls relevant to the applicability of NAV for applications received as at March 31, 2026.
- The Company’s management is responsible for complying with conditions stated in the AFI Regulations.

Auditor’s Responsibility:

- Pursuant to the requirement of this certificate, it is our responsibility to provide reasonable assurance as to whether:
 - The Company has declared March 31, 2026 as a business day for accepting applications;
 - The Company has declared NAV for March 31, 2026 on a basis consistent with its accounting policy as disclosed in its financial statements for the year ended March 31, 2026;
 - The applications received on March 31, 2026, upto 3.00 p.m. have been stamped and NAV of March 31, 2026 is applied as per Policy Issuance Procedure;
 - The applications received on March 31, 2026, after 3.00 p.m. have been stamped and NAV of next business day of financial year i.e. April 01, 2026 is applied as per Policy Issuance Procedure.

5. We audited financial statements of the Company as of and financial year ended March 31, 2026 on which we issued an unmodified audit opinion vide our report dated April 22, 2026. Our audit of these financial statements was conducted in accordance with the Standards on Auditing specified under Section 143(10) of the Companies Act, 2013 and other applicable authoritative pronouncements issued by the Institute of Chartered Accountants of India (the “ICAI”). Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the standalone financial statements are free of material misstatement. Our audits were not planned and performed in connection with any transactions to identify matters that may be of potential interest to third parties.

- In this connection, we have performed the following procedures:
 - Obtained representation from the management that the Company has declared March 31, 2026 as a business day for accepting application forms and that it has declared NAV for March 31, 2026;
 - Obtained the list of applications for New Business, Renewal Premium, Top-up, Surrender, Free – Look Cancellation, Fund Switches, Withdrawal, and Partial Withdrawal in respect of Unit linked Products on March 31, 2026 (together referred to as “Application Forms”), from the Company;
 - Selected samples of Application Forms from the listing mentioned in paragraph 6(b) above and verified whether:
 - The applications received on March 31, 2026, upto 3.00 p.m. have been appropriately stamped; and the NAV of March 31, 2026 is applied for such applications for the selected samples as per Policy Issuance Procedure; and
 - The applications received on March 31, 2026, after 3.00 p.m. hours have been appropriately stamped; and the NAV of next business day of financial year i.e. April 01, 2026 is applied for such applications for the selected samples as per Policy Issuance Procedure.

- d) We have read the certificate dated April 16, 2026 of the concurrent auditors of the Company, M/s. CHOKSHI & CHOKSHI LLP, Chartered Accountants which has been furnished to us certifying compliance with Schedule III Part III (9) of the AFI Regulations.
7. We conducted our examination in accordance with the Guidance Note on Reports or Certificates for Special Purposes (Revised 2016) issued by the Institute of Chartered Accountants of India. The Guidance Note requires that we comply with the ethical requirements of the Code of Ethics issued by the Institute of Chartered Accountants of India.
8. We have complied with the relevant applicable requirements of the Standard on Quality Control (SQC) 1, Quality Control for Firms that Perform Audits and Reviews of Historical Financial Information, and Other Assurance and Related Services Engagements.
- Opinion:**
9. Based on the procedures performed by us, as mentioned in paragraph 6 above, and according to the information and explanations and representations provided to us by the Company's management, we report that:
- (a) The Company has declared March 31, 2026 as a business day for accepting applications;
- (b) The Company has declared NAV for March 31, 2026 on a basis consistent with its accounting policy as disclosed in its financial statements for the year ended March 31, 2026
- (c) The applications received on March 31, 2026 upto 3.00 p.m. have been stamped and that the NAV of March 31, 2026 is applied for applications received upto 3.00 p.m. as per Policy Issuance Procedure and
- (d) The applications received on March 31, 2026 after 3.00 p.m. have been stamped and that the NAV of immediate next business day of financial year i.e. April 01, 2026 is applied for applications received after 3.00 p.m. as per Policy Issuance Procedure.
10. This certificate is addressed to and provided to the Board of Directors of the Company, solely for inclusion in the annual accounts of the Company as per Schedule III Part III (9) of the AFI Regulations and should not be used by any other person or distributed for any other purpose. We have no responsibility to update this certificate for events and circumstances occurring after the date of this certificate.

Comments of Comptroller and Auditor General of India (C&AG)

Comments of Comptroller and Auditor General of India (C&AG)

Comments of the Comptroller and Auditor General of India under section 143(6)(b) of the Companies Act, 2013 on the financial statements of SBI Life Insurance Company Limited for the year ended 31 March 2026

The preparation of financial statements of SBI Life Insurance Company Limited for the year ended 31 March 2026 in accordance with the financial reporting framework prescribed under the Insurance Act, 1938 read with the Insurance Regulatory and Development Authority (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024 and Companies Act, 2013 (Act) is the responsibility of the management of the Company. The Statutory Auditors appointed by the Comptroller and Auditor General of India under section 139(5) of the Act are responsible for expressing opinion on the financial statements under section 143 of the Act based on independent audit in accordance with the standards on auditing prescribed under section 143(10) of the Act. This is stated to have been done by them vide their Audit Report dated 22 April 2026.

I, on the behalf of the Comptroller and Auditor General of India, have conducted a supplementary audit of the Financial Statements of SBI Life Insurance Company Limited for the year ended 31 March 2026 under section 143(6)(a) of the Act. This supplementary audit has been carried out independently without access to the working papers of the Statutory Auditors and is limited primarily to inquiries of the Statutory Auditors and company personnel and a selective examination of some of the accounting records.

On the basis of my supplementary audit nothing significant has come to my knowledge which would give rise to any comment upon or supplement to statutory auditors' report under section 143(6)(b) of the Act.

Schedule 16

Significant accounting policies and notes forming part of the accounts for the year ended March 31, 2026

A. Corporate Information and Nature of Operations

SBI Life Insurance Company Limited ('the Company') incorporated on October 11, 2000 as a Company under the Companies Act, 1956 as amended. The Company is registered with the Insurance Regulatory and Development Authority of India ('the Authority' or 'IRDAI') vide registration no. 111 dated March 29, 2001 and is carrying on the business of life insurance. The Company's life insurance business comprises of individual life and group business, including participating, non-participating, pension, group gratuity, group leave encashment, group superannuation, group annuity, unit-linked insurance products, variable insurance products, health and micro insurance. Some of these policies have riders such as accident and disability benefit, level term and critical illness. The equity shares of the Company are listed on the National Stock Exchange (NSE) and BSE Limited (formerly known as Bombay Stock Exchange).

B. Basis of Preparation and Significant Accounting Policies

a. Basis of preparation and presentation

The Financial Statements are prepared under the historical cost convention unless otherwise stated, on accrual basis in accordance with the generally accepted accounting principles in India (Indian GAAP) and in compliance with the Accounting Standards notified under Section 133 of the Companies Act, 2013, further amended by Companies (Accounting Standards) Amendment Rules, 2016, to the extent applicable, the provisions of the Insurance Act, 1938, as amended by the Insurance Laws (Amendment) Act, 2015 and Insurance (Amendment) Act, 2021, the Insurance Regulatory and Development Act, 1999, the Insurance Regulatory and Development Authority of India (Actuarial, Finance and Investment Functions of Insurers) Regulations, 2024 ('the IRDAI AFI Regulations 2024'), the Master Circular on Actuarial, Finance and Investment Functions of Insurers dated May 17, 2024 ('the IRDAI AFI Master Circular 2024') and various circulars and notifications issued by the IRDAI thereafter to the extent applicable.

The accounting policies used in preparation of the financial statements are consistent with those

followed in the preparation of the Company's financial statements for the previous year.

Use of estimates

The preparation of the financial statements in conformity with generally accepted accounting principles in India (Indian GAAP) requires the management to make estimates and assumptions that affect the reported amount of assets, liabilities, revenues and expenses and disclosure of contingent liabilities as of the date of the financial statements. The reliance upon estimates and assumptions used in the accompanying financial statements are based on management's evaluation of the relevant facts and circumstances as of the date of the financial statements. Actual results may differ from the estimates and assumptions used in preparing the accompanying financial statements. Difference between the actual and estimates are recognised in the period in which the actual results materialise or are known. Any revision to accounting estimates is recognised prospectively in current and future periods.

b. Revenue recognition

i. Premium Income

Premium of non-linked business is recognised as income (net of Goods and Service Tax) when due from policyholders. In respect of linked business, premium income is recognised when the associated units are allotted. In case of variable insurance products (VIPs), premium income is recognised on the date when the Policy Account Value is credited. Uncollected premium from lapsed policies is not recognised as income until such policies are revived.

Top up premiums are considered as single premium.

ii. Income from Linked funds

Income from linked funds which includes fund management charges, policy administration charges, mortality charges, etc. are recovered from linked fund in accordance with terms and conditions of policy and recognised when recovered.

iii. Investment Income

Dividend income for quoted shares is recognised on ex-dividend date, for non-quoted shares the dividend is recognised when the right to receive dividend is established.

Schedules Forming Part of Financial Statements

Investment income on Alternate Investment Funds (AIFs), Real Estate Investment Trusts (REITs) Infrastructure Investment Trusts (InvITs), are recognized as and when declared by respective Fund/Trust.

Interest income is recognised on accrual basis. Pre-acquisition interest paid/received to/from counterparty on purchase/sale transaction is debited/credited to interest accrued and not due account. Accretion of discount and amortisation of premium in respect of debt securities are effected over the remaining term of such instruments on the basis of the related Yield-to-Maturity.

Realised gains and losses in respect of equity securities and units of mutual funds, Equity Exchange Traded funds (ETFs), Infrastructure Investment Trusts (InvITs) and Real Estate Investments Trusts (REITs) are calculated as the difference between the net sales proceeds and their cost. In respect of debt securities, the realised gains and losses are calculated as difference between net sales proceeds or redemption proceeds and weighted average amortised cost. Cost in respect of equity shares and units of mutual funds, Equity Exchange Traded funds (ETFs), Infrastructure Investment Trusts (InvITs) and Real Estate Investments Trusts (REITs) are computed using the weighted average method.

Fees received on lending of equity shares under Securities lending and borrowing scheme (SLB) is recognised as income over the period of the lending on straight-line basis.

iv. Income from loans

Interest income on loans is recognised on an accrual basis. Loan processing fee is recognised on receipt basis.

v. Rental Income

Rental income is recognised in the income statement on the straight line basis over the lease period.

c. Reinsurance premium ceded

Premium ceded on reinsurance is accounted in accordance with the terms of the reinsurance treaty or in-principle arrangement with the re-insurer.

d. Liability for life policies (Policy liabilities)

The actuarial liability of all the life insurance policies has been calculated by the Appointed Actuary in accordance with the Insurance Act 1938, as amended by the Insurance Laws (Amendment) Act, 2015 and Insurance (Amendment) Act, 2021 and as per the rules & regulations and circulars issued by IRDAI from time to time and the relevant Guidance Notes (GN) and / or Actuarial Practice Standards (APS) issued by the Institute of Actuaries of India (IAI).

Non-linked business is reserved using a prospective gross premium valuation method. Mathematical reserves are calculated based on future assumptions having regard to current and future experience e.g. interest rates, mortality and expenses.

For participating products, appropriate future bonus assumptions have been made.

For Group-Par-Pension, the reserve is the Accumulated Fund Value.

For Non-Linked – Individual fund-based products and Non-Linked – Group fund-based products, the policy liability in respect of savings portion is equal to the fund value as on the date of valuation.

The unit liability in respect of Individual – Linked and Group – Linked business has been considered as the value of the units standing to the credit of the policy holders, using the net asset value (NAV) as on the valuation date.

The adequacy of charges under individual unit linked policies to meet future expenses has been tested and provision made as appropriate. Provision has also been made for the cost of guarantee under unit linked products offered with guarantee.

Variable Insurance Policies (VIPs) have also been valued in a manner similar to the ULIP business by considering liability as the policy account standing to the credit of the policyholders plus additional provisions for adequacy of charges to meet expenses.

e. Funds for future appropriation

Funds for future appropriation (FFA) account represents funds, the allocation of which, either to policyholders or to shareholders, has not been determined at the Balance Sheet date.

- Claims by maturity are accounted on the policy maturity date.
- Survival and annuity benefit claims are accounted when due.
- Surrenders and withdrawals are accounted as and when intimated. Benefits paid also includes amount payable on lapsed policies which are accounted for as and when due. Surrenders, withdrawals and lapsation are disclosed at net of charges recoverable.
- Repudiated/rejected claims disputed before judicial authorities are provided for based on management prudence considering the facts and evidences available in respect of such claims.
- Amount recoverable from re-insurers are accounted for in the same period as the related claim are intimated and are reduced from claims.

g. Acquisition costs

Acquisition costs such as commission, medical fees, etc. are costs that are primarily related to the acquisition of new and renewal insurance contracts. The same are expensed in the period in which they are incurred.

h. Fixed assets, intangibles and depreciation

Fixed assets

Fixed assets are stated at cost, less accumulated depreciation and impairment, if any. Cost includes the purchase price and any other cost which can be directly attributed to bringing the asset to its working condition for its intended use. Subsequent expenditure incurred on existing fixed assets is expensed out except where such expenditure increases the future economic benefits from the existing assets.

Intangibles

Intangible assets are stated at cost, less accumulated amortisation and impairment, if

any. Expenditure incurred on application software and their customisation or further development is recognised as an intangible asset. The same is capitalised under fixed assets if such expenditure results in a benefit of enduring nature. Other software expenses are expensed in the period in which they are incurred. Subsequent expenditure incurred on existing assets is expensed out except where such expenditure increases the future economic benefits from the existing assets, in which case the expenditure is amortised over the remaining useful life of the original asset.

Capital work in progress

Costs of assets as at the Balance sheet date not ready for its intended use are disclosed as capital work-in-progress. Advances paid towards the acquisition of fixed assets and intangibles at the Balance Sheet date are disclosed as capital work-in-progress.

Depreciation/ amortisation

The Company is following straight line method of depreciation provided on pro rata (monthly) basis for period of use for the following type of assets based on useful life as prescribed under Part “C” of Schedule II to the Companies Act, 2013:

Nature of Asset	Useful life
Furniture & fittings	10 Years
Office equipment's	5 Years
Vehicles	8 Years
Building	60 Years
Information technology equipment	3 Years
Servers & networks	6 Years

The residual value of the assets (other than building) being very negligible is considered to be ₹1 and the residual value of the building is considered as 5% of the cost of building as prescribed under Part C of Schedule II of the Companies Act, 2013.

Software expenses are amortised over a maximum period of 3 years.

Leasehold improvements are amortised equally over the period of lease. Capital expenditure on individual assets up to ₹ 1,000 are not capitalized and expensed out as revenue expenditure.

Assets individually costing more than ₹1,000 and up to ₹20,000 are fully depreciated in the month of acquisition.

Schedules Forming Part of Financial Statements

Depreciation is charged to Revenue and Profit & Loss Account based on the available for use criteria.

i. Impairment of fixed assets

The carrying values of assets at each Balance Sheet date are reviewed for impairment. If any indication of such impairment exists, the recoverable amounts of those assets are estimated and impairment is recognised, if the carrying amount of those assets exceeds their recoverable amount. The recoverable amount is the greater of the net selling price and their value in use. Value in use is arrived by discounting the estimated future cash flows to their present value based on an appropriate discount factor. If at the Balance sheet date, there is an indication that an impairment loss recognised for an asset in earlier accounting periods is no longer required or has decreased; reversal of impairment loss is recognised. The recoverable amount is reassessed and the asset is reflected at recoverable amount, subject to a maximum of depreciable historical cost.

j. Foreign currency transactions

As per Accounting Standard 11 on The Effects of Changes in Foreign Exchange Rates, transactions denominated in foreign currencies are recorded in INR at the exchange rate prevailing on the date of transaction.

Monetary assets and liabilities denominated in foreign currency as at the Balance Sheet date are converted at the exchange rates prevailing on that date.

Non-monetary items like fixed assets which are recorded at historical cost are reported using the exchange rate at the date of transaction.

Non-monetary items other than fixed assets, which are recognised at fair value or other similar valuation are reported using exchange rate at the date when such value was determined.

Exchange differences either on settlement or on translation are recognised in the Revenue Account or Profit and Loss Account, as the case may be.

k. Investments

Investments are made and accounted in accordance with the Insurance Act, 1938 as amended by the Insurance Laws (Amendment) Act, 2015 and Insurance (Amendment) Act, 2021, the IRDAI AFI Regulations 2024, IRDAI AFI Master Circular 2024, Investment Policy of the Company and various

other circulars/ notifications as issued by IRDAI from time to time.

Investments are recorded on the trade date at cost, which includes brokerage, security transaction tax, education cess and stamp duty, wherever applicable and excludes interest paid, if any, on purchase.

i. Classification of Investments

Investments maturing within twelve months from balance sheet date and investments made with the specific intention to dispose-off within twelve months from balance sheet date shall be classified as short-term investments.

Investments other than Short-term investments are classified as "Long-term investments".

ii. Valuation – shareholders' investments and non-linked policyholders' investments

Debt securities

Debt securities, including Government securities and money market securities are stated at historical cost subject to amortisation of premium or accretion of discount over a period of holding/maturity on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, the closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing ('SLB'), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Bonus entitlements are recognised as investments on the 'ex-bonus date'. Rights entitlements are recognised as investments on the 'ex-rights date'.

Schedules Forming Part of Financial Statements

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from Credit Rating Information Services of India Limited ('CRISIL').

Unrealised gains or losses arising due to change in the fair value of equity shares are recognised in the Balance Sheet under "Fair value change account".

On each balance sheet date, the Company assess whether impairment of listed equity securities has occurred. Any impairment loss is recognised as an expense in the Revenue or Profit and Loss Account to the extent of the difference between the re-measured fair value of the security or investment and its weighted average cost as reduced by any previous impairment loss recognised as an expense in the Revenue or Profit and Loss Account. Any reversal of impairment loss, earlier recognised in Revenue or Profit and Loss Account, is recognised in the Revenue or Profit and Loss Account.

Mutual funds

Investments in mutual funds are valued at the previous day's Net Asset Value (NAV). Unrealised gains or losses arising due to change in the fair value of mutual fund units are recognised in the Balance Sheet under "Fair value change account".

Alternative Investment Funds (AIFs)

Investments in Alternative Investment Funds (AIFs) are valued at latest available NAV. Unrealised gains or losses arising due to change in the fair value of Alternative Investment Funds (AIFs) are recognised in the Balance Sheet under "Fair value change account".

Interest Rate Derivatives (IRDs)

Interest Rate Derivative (IRD) contracts for hedging of highly probable forecasted transactions on insurance contracts and investment cash flows in life, pension and annuity business, are accounted for in the manner specified in accordance with 'Guidance Note on Accounting for Derivative Contracts' (Revised 2021) issued by the Institute of Chartered Accountants of India (ICAI), IRDAI Investment Master Circular as amended from time to time.

The Company has well defined Board approved interest rate risk hedging Policy and Process document covering various aspects related to functioning of the derivative transactions undertaken to mitigate interest rate risk as per the Interest rate risk hedging strategy. At the inception of the hedge, the Company designates and documents the relationship between the hedging instrument and the hedged item, the risk management objective, strategy for undertaking the hedge and the methods used to assess the hedge effectiveness. Hedge effectiveness is the degree to which changes in the fair value or cash flows of the hedged item that are attributable to a hedged risk are offset by changes in the fair value or cash flows of the hedging instrument. Hedge effectiveness is ascertained at the time of inception of the hedge and periodically thereafter at Balance Sheet date.

Forward Rate Agreement ("FRA") and Bond Forward Agreement ("BFA") is a forward contract to hedge the risk of movements in interest rates. In FRA and BFA contract, the Company fixes the yield on the government bond for the period till the maturity of the contract. The Company enters into forward contract to hedge interest rate risk on forecasted transactions: a) Reinvestment of maturity proceeds of existing fixed income investments; b) Investment of interest income receivable; and c) Expected policy premium income receivable on insurance contracts which are already underwritten in Life, Pension & Annuity business.

The Company follows "hedge accounting" for accounting of all Interest rate derivative financial instruments as per Guidance Note on Accounting for Derivative Contracts issued by ICAI.

The Forward contract is valued at the difference between the market value of underlying bond at the spot reference yield taken from the SEBI approved rating agency and present value of contracted forward price of underlying bond including present value of intermediate coupon inflows from valuation date till forward contract settlement date, at applicable INR-OIS rate curve. The fair valuation or Mark-to-market valuation of the derivative financial instruments is done independently by both the parties i.e. the Company and the counter party. The counter

Schedules Forming Part of Financial Statements

party (bank) valuation is considered for margin settlement as the counter party (bank) is the valuation agent as per forward rate agreement.

Hedging instruments are initially recognised at fair value and are re-measured at fair value at subsequent reporting dates. The effective portion of fair value gain / loss on the interest rate derivative that is determined to be an effective hedge is recognised in equity account i.e. "Hedge Fluctuation Reserve" or "HFR" under the head 'Credit/(Debit) Fair Value Change Account' in the Balance Sheet and the ineffective portion of the change in fair value of such derivative instruments is recognised in the Revenue Account or Profit and Loss account in the period in which they arise. The fair value gain / loss on the interest rate derivative that is determined to be an ineffective hedge is recognised in the Revenue Account or Profit and Loss account in the period in which they arise.

The accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or Profit and Loss account, in the same period during which the income from investments acquired from underlying forecasted cash flow is recognized in the Revenue Account or Profit and Loss Account. Hedge accounting is discontinued when the hedging instrument is terminated or it becomes probable that the expected forecast transaction will no longer occur or the risk management objective is changed or no longer expected to be met. On such termination, accumulated gains or losses that were recognised in the Hedge Fluctuation Reserve are reclassified into Revenue Account or Profit and Loss Account. Costs associated with derivative contracts are considered as at a point in time cost.

Real Estate Investment Trusts (REITs)/ Infrastructure Investments Trusts (InvITs)

The Investment in Units of REITs / InvITs are valued at Market Value (last quoted price should not be later than 30 days). For the purpose of determining market value, the closing price at primary exchange i.e. NSE is considered. If NSE closing price is not available for any security, then BSE closing price is used for valuation. Where market quote is not available for the last 30 days, the units are valued as per the latest NAV (not more than 6 months old) of the units published by the trust. Unrealised gains or losses arising due to change in the fair

value of Real Estate Investment Trust (REITs)/ Infrastructure Investments Trusts (InvITs) are recognised in the Balance Sheet under "Fair value change account".

iii. Valuation – Linked business

Debt securities

Debt securities including Government securities with remaining maturity of more than one year are valued at prices obtained from Credit Rating Information Services of India Limited ('CRISIL').

Debt securities including government securities with remaining maturity of less than one year are valued on yield to maturity basis, where yield is derived using market price provided by CRISIL on the day when security is classified as short term. If security is purchased during its short term tenor, it is valued at amortized cost using yield to maturity method. In case of securities with options, earliest Call Option / Put Option date will be taken as maturity date for this purpose.

Money market securities are valued at historical cost subject to amortisation of premium or accretion of discount on yield to maturity basis.

Investments in Fixed Deposits with banks and Reverse Repo are valued at cost.

Equity, equity related instruments & preference shares

Listed equity shares, equity related instruments & preference shares are measured at fair value on the Balance Sheet date. For the purpose of determining fair value, closing price at primary exchange i.e. NSE is considered.

If NSE closing price is not available for any security, then BSE closing price is used for valuation.

Unlisted equity shares, equity related instruments & preference shares are measured at historical cost.

In case of Security Lending & Borrowing (SLB), Equity Shares lent are valued as per valuation policy for equity shares as mentioned above.

Additional Tier 1 (Basel III Compliant) Perpetual Bonds classified under "Equity" as specified by IRDAI, are valued at prices obtained from CRISIL.

Schedules Forming Part of Financial Statements

Notes:

Note 1:

Show-cause notices issued by various Government Authorities are not considered as an obligation. When any order or notice is raised by the authorities for which the Company is in appeal under adjudication, these are disclosed as contingent liability except in cases where the probability of any financial outflow is remote.

Note 2:

The IRDAI has issued directions under section 34 (1) of the Insurance Act, 1938 to refund allegedly excess commission paid to corporate agents amounting to ₹ 27,529 Lakhs (previous year ended March 31, 2025: ₹ 27,529 Lakhs) to the members or the beneficiaries vide order no. IRDA/Life/ORD/Misc/083/03/2014 dated March 11, 2014. The SBI Life Insurance Company Limited ('the Company'), has preferred appeal against the order with the Securities Appellate Tribunal ('the SAT') for quashing the order passed by IRDAI as aforesaid. While deciding/disposing off the appeal the SAT vide its order dated 29 January 2020 opined that the amount of ₹ 27,529 Lakhs has wrongly been calculated by the IRDAI and the appeal is partly allowed. The matter is remitted to the IRDAI to recalculate the unlawful gain, namely, the interest earned on advance premium collected and recover the same accordingly and pay it to the policyholders. However, the IRDAI recalculation, if any, has not been received by the Company instead the IRDAI preferred an appeal against the SAT order before the Hon'ble Supreme Court of India in Civil Appeal Nos. 254-255 of 2021. The Company has also

challenged the SAT order dated 29 January 2020 before the Hon'ble Supreme Court of India in Civil Appeal No. 2497-2498 of 2021, inter-alia praying for quashing the aforesaid order. At this juncture, the operation of the SAT order granting partial reliefs on quantum of disgorgement has been challenged in the Hon'ble Supreme Court by the IRDAI and the Company. Pending final adjudication of these cross appeals filed with the Hon'ble Supreme Court, the Company has considered entire disputed amount of ₹ 27,529 Lakhs as contingent liability.

Note 3:

These cases pertain to litigation arising in the ordinary course of business and pending at various appellate forums/courts. The Company has made a provision of ₹ 12,894 Lakhs at March 31, 2026 (Previous year ended March 31, 2025 ₹ 5,319 Lakhs) where the management assessment of a financial outflow is probable.

2. Pending Litigation

The Company's pending litigations comprise of claims against the Company primarily by customers and proceedings pending with tax authorities. The Company has reviewed all its pending litigations and proceedings and has adequately provided for where provisions are required and disclosed the contingent liability (refer note 1 of Schedule 16 (C)) where applicable, in its financial statements. The Company does not expect the outcome of these proceedings to have a material adverse effect on its financial statements as at March 31, 2026.

Future expenses are considered separately for single premium, fully paid-up, reduced paid-up and regular premium paying policies.

Segment / Product	Expense Assumptions Per policy/ per member (Amounts in ₹)	
	Regular Premium	Single Premium, Reduced paid-up and Fully paid-up
Participating - Individual Life, Individual Pension, Individual VIP	Ranging from 198 to 726 based on the nature of product	Ranging from 154 to 588.50 based on the nature of product
Non-Participating - Individual Life, Individual Pension, Annuity (Individual and Group), Health (Individual), Individual VIP		
Linked - Individual Life, Individual Pension	759	577.50
Participating - Group Pension	Ranging from 16.50 to 115.5 based on the nature of product	Ranging from 77 to 379.50 based on the nature of product
Non-Participating - Group Other, OYRGTA		
Linked - Group		

For Non-Participating Group Savings & Group VIP products, expense of 0.165% of fund has been assumed.

An expense inflation rate of 5.50% per annum (previous year ended March 31, 2025: 5.50% per annum) is assumed for fixed per policy/ per member expenses.

For participating products, the vested bonuses are those which were distributed by the Company consequent to the actuarial valuations carried out annually at the end of each financial year dated March 31, 2002 to March 31, 2026. Regarding bonus provisions for the current financial year and bonus provision for future years, the bonus rates have been assessed by carrying out Bonus Earning Capacity (BEC) / asset share investigations and taking into consideration the policyholder’s reasonable expectations.

Prevailing tax rate as applicable has been duly allowed for in valuation of policy liabilities.

An appropriate allowance towards Margin for Adverse Deviation has been made while setting the assumptions to ensure prudence in accordance with the APS -7 issued by the Institute of Actuaries of India in concurrence with the IRDAI.

In respect of policies which are in force as at the valuation date and subsequently cancelled during their free-look period, there could be a strain to the extent of the amount payable being higher than the reserve held for that policy. In order to provide for such future strain, an

adequate provision has been made in respect of such policies which are likely to be cancelled during the free-look period basis company’s past experience.

In addition to this, Incurred but Not Reported (IBNR) claims reserve is also provided wherever required.

Provision for reinsurance has also been duly allowed for.

Considering the prudence in the valuation basis, our assessment is that the reserve set aside is sufficient to meet all future policy outgoes under adverse conditions.

The Surplus emerged from non-participating segment has been transferred to Profit & Loss Account for the period ended March 31, 2026 based on the recommendation of the Appointed Actuary and the necessary fund transfer will be made after the year end on the basis of Audited financials with required recommendations by the Appointed Actuary.

Qualitative Disclosures

1. Information relating to the composition and mandate of the Nomination and Remuneration Committee

The Board Nomination and Remuneration Committee (NRC) oversees and governs the compensation practices of the Company. The Company's Remuneration Policy is guided by a reward framework and set of principles and objectives as more fully and particularly envisaged under section 178 of Companies Act 2013, Master Circular on Corporate Governance for Insurers, 2024 and SEBI Listing Regulations.

The Composition of the Board Nomination & Remuneration Committee is as below:

Board Nomination & Remuneration Committee	
Name of the Committee Member	Designation
Mr. Narayan K. Seshadri	Chairman, Independent Director
Mr. Ashwini Kumar Tewari	Member, Nominee Director
Ms. Usha Sangwan	Member, Independent Director
Mr. Shobinder Duggal	Member, Independent Director
Dr. Tejendra M. Bhasin	Member, Independent Director

2. Information relating to the design and structure of remuneration policy and the key features and objective of remuneration policy

We follow contribution-oriented philosophy and our compensation is performance-driven, emphasizing and recognizing the contributions made by individual employees. It accentuates performance-based pay, incentives, and shared responsibility for benefits. The key objectives of the remuneration policy are:

- To define and implement overall remuneration philosophy and framework for payment of remuneration payable to Directors (Executive and Non-Executive), Key Managerial Persons and other employees of the Company.
- To ensure that level and composition of remuneration is reasonable and sufficient, relationship of remuneration to performance is clear and meets performance benchmarks. Remuneration shall consist of Fixed Pay including allowances, perquisites, retirement benefits and Variable Pay including incentives, bonus, share linked instruments, joining / sign of bonus, etc.
- To provide to Key Management Persons, Senior Management and other employees rewards linked directly to their effort, performance, dedication and achievement relating to the Company's operations and shall not encourage Key Managerial Persons to take inappropriate or excessive

risks for their performance based variable remuneration.

- To retain, motivate and promote talent and to ensure long term sustainability of talented managerial persons and create competitive advantage.
- To ensure alignment of compensation with prudent risk taking.

The policy is reviewed by Board NRC annually or as and when required.

3. Description of the ways in which current and future risks are taken into account in the remuneration policy including the nature and type of the key measures used to take account of these risks

The Remuneration policy promotes sound and prudent risk management. Remuneration structure is well aligned with the long-term growth, health and objectives of the company. Compensation outcomes are symmetric with risk outcomes and pay-outs thereof are sensitive to the time horizon of the risk and the mix of cash, equity and other forms of remuneration are consistent with risk alignment.

The Remuneration policy of the Company ensures proper balance between fixed pay and variable pay. Variable Pay is in the form of "pay at risk" and depending on performance and risk outcomes at individual and company-wide level, the quantum of Variable Pay changes.

Schedules Forming Part of Financial Statements

As per the Remuneration policy, which is aligned with IRDAI circular, for Key Managerial Persons, at least 50% of the total variable pay is under deferral arrangement and the deferral is spread over at least three years. The deferred variable pay is also subject to Malus and Claw-Back clauses as detailed in the Remuneration Policy of the Company.

4. **Description of ways in which the insurer seeks to link performance, during a performance measurement period, with levels of remuneration.**
The Company has an annual increment and variable pay policy which is based on merit pay

philosophy linked to both individual as well as Company's performance.

Various performance parameters for the Company are reviewed by Board NRC and approved by the Board every year. Based on the actual performance, the Company performance rating is approved by the Board based on the recommendations of Board NRC after the end of every financial year.

The framework of annual increment and performance linked Variable Pay for all employees is reviewed by the Board NRC and approved by the Board every year.

Fair value methodology

Method of computation of Fair Value of Options:

The fair value of options has been calculated using the Black-Scholes model. The key assumptions considered for calculating fair value of the options as on the grant date are as follows:

Particulars	Year ended							Basis
	Mar 31, 2026	Mar 31, 2025	Mar 31, 2024	Mar 31, 2023	Mar 31, 2022	Mar 31, 2021	Mar 31, 2020	
Risk free interest rate	6.40%	7.44%	7.22%	7.34%	5.99%	5.02%	6.52%	Determined based on G-Sec yield on the grant date corresponding to maturity period equal to expected life of options
Expected life of the options (years)	4.55	4.55	4.55	4.55	4.55	4.55	4.55	Average of the weighted-average time to vesting and the contractual life of options
Expected dividend yield	0.21%	0.20%	0.25%	0.25%	0.25%	0.20%	0.30%	Calculated based on recent rate of dividend declared
Expected volatility	23%	27%	28%	30%	30%	35%	25%	Based on historical stock prices using annualised standard deviation of daily change in stock price.

Impact of the fair value method on the net profit and earnings per share:

Had the compensation cost for the Company's stock option plans been determined based on the fair value approach, the Company's net profit for the year and earnings per share (both basic and diluted) would have been as per the proforma amounts indicated below:

Sr. No.	Particulars	Year ended March 31, 2026	Year ended March 31, 2025
1	Net Profit after tax as per Profit & Loss Account available for both basic and diluted earnings per share	247,030	241,330
	Add: Stock-based employee compensation expense under intrinsic value method	237	278
	Less: Stock-based compensation expense determined under fair value based	3,672	3,454
2	Net profit (proforma)	243,596	238,153
3	No. of equity shares for basic earnings per share	1,002,549,634	1,001,823,654
	Add: Weighted average outstanding options deemed to be issued for no consideration (Note 1)	722,546	778,737
4	Weighted average number of equity shares for Diluted Earnings per Share	1,003,272,179	1,002,602,391
5	Basic Earnings per share (₹) (proforma) (2/3)	24.30	23.77
	Diluted Earnings per share (₹) (proforma) (2/4)	24.28	23.75

The investment in Real Estate Investment Trusts (REIT's) of ₹ 222,931 Lakhs as at year ended March 31, 2026 (Previous year ended March 31, 2025 ₹ 131,338 Lakhs) has been disclosed as part of the Investment Property in accordance with the IRDAI AFI Master Circular 2024 and the IRDAI AFI Regulations 2024 under schedule 8 and 8A of the Financial Statements.

23. Derivatives

The Company offers guaranteed products wherein the Policyholders are assured of a fixed rate of return for premiums to be received in future. These premiums are likely to be received over a longer tenure and the guaranteed rate of return is fixed at the beginning of the policy term. Any fall in interest rates would mean that each incremental investment of the Company would earn a lower rate of return. Accordingly, the Company manages the Interest Rate Risk in accordance with the IRDAI AFI Master Circular 2024 and the IRDAI AFI Regulations 2024 (as amended) which allows insurers to deal in rupee interest rate derivatives such as Forward Rate Agreements ("FRAs"), Interest Rate Swaps ("IRS") and Exchange Traded Interest Rate Futures ("IRF"), and Bond Forward Agreements (BFAs).

The Company has in place a derivative policy approved by Board which covers various aspects that apply to the functioning of the derivative transactions undertaken to substantiate the hedge strategy to mitigate the interest rate risk, thereby managing the volatility of returns from future fixed income investments, due to variations in market interest rates.

The Company enters into Forward Rate Agreements (FRAs) / Bond Forward Agreements (BFAs) transactions, as part of its Hedging strategy, to hedge the interest rate sensitivity for highly probable forecasted transactions as permitted by the IRDAI circular on Interest Rate Derivatives and IRDAI circular on Exposure to Forward Contracts in Government Securities.

Interest Rate derivative contracts (FRAs / BFAs) are over-the-counter (OTC) derivative contracts wherein, the Company lock-in the yield on the government bond for the period till the maturity of the contract with an objective to lock in the price of an interest-bearing security at a future date.

Derivatives (FRA / BFA) are undertaken by Company solely for the purpose of hedging interest rate risks on account of following forecasted transactions: a) Reinvestment of maturity proceeds of existing fixed income investments; b) Investment of interest income receivable; and c) Expected policy premium income receivable on insurance contracts which are already underwritten in Life, Pension & Annuity business.

B. Qualitative Disclosures on risk exposure in Fixed Income Derivatives:

Overview of business and processes:

a) Fixed Income Derivative Hedging instruments:

Derivatives are financial instruments whose characteristics are derived from the underlying assets, or from interest and exchange rates or indices. These include forward rate agreements, interest rate swaps and interest rate futures.

The Company during the financial year has entered into FRA and BFA derivative instrument to minimise exposure to fluctuations in interest rates on plan assets and liabilities. This hedge is carried in accordance with its established policies, strategy, objective and applicable regulations. The Company does not engage in derivative transactions for speculative purposes.

b) Derivative policy/process and Hedge effectiveness assessment:

The Company has well defined Board approved Derivative Policy and Process document setting out the strategic objectives, regulatory and operational framework and risks associated with interest rate derivatives along with having measurement, monitoring processes and controls thereof. The accounting policy has been clearly laid out for ensuring a process of periodic effectiveness assessment and accounting.

Schedules Forming Part of Financial Statements

The Company has clearly identified roles and responsibilities to ensure independence and accountability through the investment decision, trade execution, to settlement, accounting and periodic reporting and audit of the Interest Rate Derivative exposures. The risk management framework for the Interest Rate Derivatives are monitored by the Risk Management Committee.

c) Scope and nature of risk identification, risk measurement, and risk monitoring:

The Derivative and related Policies as approved by the Board sets appropriate market limits such as sensitivity limits and value-at-risk limits for exposures in interest rate derivatives. All financial risks of the derivative portfolio are measured and monitored on periodic basis.

C. Quantitative disclosure on risk exposure in Forward Rate Agreement

A hedge is deemed effective, if it has a high statistical correlation between the change in value of the hedged item and the hedging instrument (FRA and BFA). Gains or losses arising from hedge ineffectiveness, if any, are recognised in the Revenue Account.

The tenure of the hedging instrument may be less than or equal to the tenure of underlying hedged asset/liability.

The credit exposure limit for FRA and BFA derivatives has been calculated on the basis of Credit Equivalent Amount using the Current Exposure Method (CEM) as detailed below:

The Credit Equivalent Amount of a market related off-balance sheet transaction calculated using the CEM is the sum of

- the current credit exposure (gross positive mark to market value of the contract); and
- potential future credit exposure which is a product of the notional principal amount across the outstanding contract and a factor that is based on the mandated credit conversion factors as prescribed under the IRDAI circular on Interest Rate Derivatives, which is applied on the residual maturity of the contract.

In accordance with the IRDAI AFI Regulations 2024 read with Accounting Standard – 17 on “Segment reporting”, life insurance companies are required to prepare Segmental Revenue Account and Segmental Balance Sheet. The Company's business is segmented into traditional -par business, non-par business and unit-linked business. Since the Company has conducted business only in India, the same is considered as one geographical segment. The accounting policies used in segmental reporting are same as those used in the preparation of the financial statements.

(a) Segmental Revenue Account

The methodology for determining segmental revenue and expenses adopted in the current year is described below:

Premium income, commission, investment income and profit or loss on sale or disposal of investments is directly allocated to the respective segments to which they relate. Within the Non-Participating segment, investment income and profit or loss on sale or disposal of investments are directly allocated if a segregated investment portfolio is maintained. The remaining investment income and profit or loss on sale of investments is apportioned on the basis of the average policy liabilities in the individual business and the group business.

Operating expenses that are directly attributable and identifiable to the business segments are allocated on actual basis. Other operating expenses, which are not directly identifiable and attributable, are allocated after considering the following:

- Cost centres identified by the Management
- Channels used for the business segments
- Annualised Premium Equivalent (APE)
- New lives covered / New policies issued during the year
- Total number of in-force lives covered
- New business sum assured
- Actuarial Liability

(b) Segmental Balance Sheet

Investments are effected from the respective funds and have been reflected accordingly. Fixed assets have been allocated to shareholders' funds, net current assets have been directly allocated among shareholders, life business, pension business, group business, unit – linked business and variable insurance business segments. Other net current assets have been allocated to life business and pension business in the ratio of the respective policy liabilities as at the year end.

Within life business, certain assets and liabilities have been directly identified to the respective segments. Other assets and liabilities under Life business have been allocated in the ratio of the respective policy liabilities as at the year end.

The accounting policies used in segment reporting are the same as those used in the preparation of the financial statements.

47. On November 21, 2025, the Government of India notified Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 (collectively, the "Labour Codes"). The Ministry of Labour & Employment published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Company has evaluated the financial impact of the Labour Codes basis the FAQs of the Ministry of Labour & Employment and recognised incremental estimated liabilities towards employees' past service benefits, determined based on actuarial valuation in accordance with AS 15 – Employee Benefits and guidance issued by the Institute of Chartered Accountants of India (ICAI). The resulting incremental charge of ₹ 13,549 lakh has been recognised in the Revenue Account for the year ended March 31, 2026. The Company continues to monitor developments related to the Labour Codes and will assess any further impact on the measurement of employee benefits liabilities as and when they arise.

Appointed Actuary's Certificate

As at the year ended 31st March 2026

(Amounts in Lakhs of Indian Rupees)

I have valued the policy liabilities of SBI Life Insurance Company Limited as at 31st March 2026, in accordance with accepted actuarial practice and in line with relevant professional guidance issued by the Institute of Actuaries of India, including that covering the selection of appropriate assumptions.

In my opinion, the amount of policy liabilities ₹47,145,706 (net of reinsurance) makes appropriate provision for all policyholders' obligations, and the financial statements fairly present the result of the valuation.

Prithesh Chaubey
Appointed Actuary
SBI Life Insurance Company Limited

3. Methodology and Approach

IEV is calculated as the sum of Adjusted Net Worth (ANW) and Value of In-Force business (VIF).

ANW comprises Free Surplus (FS) and Required Capital (RC).

VIF consists of the following components:

Present Value of Future Profits (PVFP) expected to emerge from the covered business;

Less Frictional Cost of Capital (FCoC);

Less Time Value of Financial Options and Guarantees (TVFOG);

Less Cost of Residual Non-Hedgeable Risks (CRNHR).

3.1 Components of Adjusted Net Worth (ANW):

This is the value of all assets allocated to the covered business that are not required to back the liabilities of the covered business.

Free Surplus (FS): Free Surplus represents the market value of any assets in excess of liabilities and Required Capital which is potentially distributable to shareholders immediately. Free Surplus has been calculated as the excess of ANW over the Required Capital.

Required Capital (RC): Required Capital is the amount of assets attributed to the covered business over and above that required to back liabilities for the covered business whose distribution to shareholders is restricted. Required Capital has been set at 180% of the Required Solvency Margin (RSM), based on the Company's internal capital target. RSM has been determined by applying the solvency margin factors prescribed by the IRDAI appropriate to each line of business.

3.2 Components of Value of Inforce (VIF) business:

Present Value of Future Profits (PVFP): PVFP represents the present value of future post taxation shareholder cash-flows projected to emerge from the in-force covered business and the assets backing liabilities of the in-force covered business.

Frictional Cost of Capital (FCoC): FCoC reflects the impact of taxation on investment returns and investment costs on the assets backing required capital. FCoC has been estimated as the present value of:

- tax on investment earnings on assets backing the required capital; and
- investment expenses (after tax) incurred in holding such assets.

Required Capital is assumed to be maintained throughout the lifetime of the underlying liabilities, at the internal target level of 180% of the RSM.

Time Value of Financial Options and Guarantees (TVFOG): Allowance is made for asymmetric impact on shareholder value due to any financial options and guarantees within the covered business.

Cost of Residual Non-Hedgeable Risks (CRNHR): A bottom-up assessment of risks has been undertaken to allow for the cost of residual non-hedgeable risks not already allowed for elsewhere. CRNHR has been estimated using a cost of capital approach.

3.3 Assumptions used for IEV (Indian Embedded Value) Calculation:

Best estimate assumptions are used to project the future shareholder cash flows. These assumptions include both economic and non-economic assumptions.

Economic Assumptions:

The zero-coupon government bond yield curve as applicable for valuation date and published by FBIL was used as the assumed reference rates.

Non-Economic Assumptions:

The best estimate assumptions for persistency, mortality and morbidity have been derived based on the Company's own experience. These assumptions are reviewed annually based on latest experience.

The expense assumptions used in the IEV estimation represent the unit costs arising out of actual expenses for the FY 2025-26 and makes no allowance for any productivity gains/cost efficiencies beyond what is achieved up to the valuation date. Allowance has been made for future inflation on the expenses.

Further, any one-off costs incurred during FY 2025-26 and development expenditure have not been identified separately or excluded when determining the unit cost assumptions.

The rate of income tax considered is 14.56%.

Independent Actuary's Opinion

21 April 2026

The Board of Directors
SBI Life Insurance Company Limited
Natraj, M.V. Road and Western Express Highway Junction
Andheri (East), Mumbai - 400 069

WTW Opinion on Embedded Value as at 31 March 2026

Willis Towers Watson Actuarial Advisory LLP ("WTW", "we", "us" or "our") has been engaged by SBI Life Insurance Company Limited ("SBI Life" or "the Company") to review and provide an independent actuarial opinion on the embedded value results prepared by SBI Life.

The review covered the embedded value as at 31 March 2026 of INR 807.9 billion and the value of one year's new business written during the period 1 April 2025 to 31 March 2026 of INR 66.7 billion (together, "embedded value results").

Scope of work

Our scope of work covered:

- A review of the model, methodology and assumptions used to determine the embedded value results;
- A review of the results of SBI Life's calculation of the embedded value results;
- A review of movement in embedded value from 31 March 2025 to 31 March 2026;
- A review of movement in value of new business from 31 March 2025 to 31 March 2026; and
- A review of select sensitivities as defined by the Company.

Opinion

WTW has concluded that the methodology and assumptions used to determine the embedded value results of SBI Life materially comply with the standards issued by the Institute of Actuaries of India within the Actuarial Practice Standard 10 ("Indian Embedded Value Principles"), and in particular that:

- the economic assumptions used are internally consistent and result in the projected cash-flows

being valued in line with the prices of similar cash-flows that are traded on the capital markets;

- the operating assumptions have been set with appropriate regard to the past, current and expected future experience;
- the Required Capital has been determined and projected on the basis of SBI Life's internal capital target of 180% of the Required Solvency Margin and has been assessed from a shareholders' perspective;
- allowance has been made for the Cost of Residual Non-Hedgeable Risks; and
- for participating business, the assumed bonus rates, and allocation of profit between policyholders and shareholders, are consistent with the projection assumptions, established company practice and local market practice.

WTW has performed high-level reasonableness checks, commensurate to the reporting schedule, on the results of the calculations performed by SBI Life. On the basis of this review, WTW has confirmed that no issues have been discovered that have a material impact on the disclosed embedded value as 31 March 2026, the value of one year's new business written during the period 1 April 2025 to 31 March 2026, the movement in embedded value over 31 March 2025 to 31 March 2026, movement in value of new business over 31 March 2025 to 31 March 2026 and the sensitivity analysis as at 31 March 2026.

Based on an incremental model review for material new products and key model changes incorporated by SBI Life during the year, WTW has confirmed that the model used to prepare the results align with, in all material respects, the intended methodology and assumptions.

In arriving at these conclusions, WTW has relied on data and information provided by SBI Life. This Opinion is made solely to SBI Life in accordance with the terms of WTW's engagement letter dated 17 November 2022. To the fullest extent permitted by applicable law, WTW does not accept or assume any responsibility, duty of care or liability to anyone other than SBI Life for or in connection with its review work, the opinions it has formed or for any statements set forth in this opinion.
