Schaeffler India showcases smart & innovative motion technology solutions at IMTEX 2025, Bengaluru

Pune, India | January 23, 2025 | Schaeffler India, a leading motion technology company, is presenting its cutting-edge solutions for machine tools, robotics, and industrial automation at **IMTEX 2025 in Bengaluru**, with a focus on empowering the industry with precision, efficiency, and high-performance technologies.

As a trusted partner in the machine tool industry and a key enabler of automation, Schaeffler India combines its expertise in precision engineering and advanced motion technology with its deep understanding of customer challenges. This approach allows the company to provide customized solutions that enable its customers and partners to achieve operational excellence and address the dynamic needs of modern manufacturing.

Mr. Seshan Iyer, President of Bearings & Industrial Solutions, Schaeffler India stated, “IMTEX Bengaluru is the perfect platform to reaffirm our dedication to supporting the leading OEMs in the machine tool and manufacturing sectors with advanced solutions designed for precision, reliability, and sustainability. This platform allows us to connect with industry stakeholders to drive innovation and strengthen India’s position in the global industrial ecosystem. Visitors to our booth will have a first-hand experience to our solutions that aims to address the challenges of precision and efficiency in industrial applications.”

Schaeffler India’s booth at the IMTEX 2025 will highlight:

- **Comprehensive Products & Services that Guide, Generate and Sustain Motion:** Schaeffler India will showcase its high-performance spindle bearings, linear guidance systems, rotary tables, and mechatronic components for machine tools. These solutions are designed to maximize productivity and reliability in high-precision applications.
- **Robotics and Industrial Automation Innovations:** Visitors will experience Schaeffler’s state-of-the-art motion systems for robotics, including precision components for robotic arms, collaborative robots (co-bots), and automated guided vehicles (AGVs).
- **Keeping Machines Rolling with Conditions Monitoring Solutions:** Schaeffler India will highlight its sensor-integrated condition monitoring and predictive maintenance products for the machine lifetime, ensuring seamless operations and reduced downtime.
- **Ultra High-Performance Products That Unlock New Possibilities:** Characterized by higher basic dynamic load ratings compared to conventional products, Schaeffler’s X-life portfolio of products have heightened endurance, resilience under stress, and enormous flexibility, that can overcome even the most challenging of obstacles and environments.

Schaeffler is driving India's industrial transformation with products tailored to local needs. As a key partner in the industrial and machine tools sector, Schaeffler India is committed to delivering higher value to its stakeholders. Visitors are invited to explore these cutting-edge solutions at **The IMTEX Expo 2025 Hall – 3B, Booth – B 103, located at the Bangalore International Exhibition Centre (BIEC) from 23rd to 29th January 2025.**

Schaeffler Group – We pioneer motion

The Schaeffler Group has been driving forward groundbreaking inventions and developments in the field of motion technology for over 75 years. With innovative technologies, products, and services for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies, the company is a reliable partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle. Schaeffler describes its comprehensive range of products and services in the mobility ecosystem by means of eight product families: From bearing solutions and all types of linear guidance systems through to repair and monitoring services. Schaeffler is with around 120,000 employees and more than 250 locations in 55 countries, one of the world's largest family-owned companies and one of Germany's most innovative companies.

Schaeffler India Limited

Schaeffler India brings a 75-year global legacy of innovation in motion technology to the Indian market, offering precision engineering solutions. As a trusted partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle, Schaeffler offers innovative technologies, products, and solutions for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies. With four manufacturing plants in India (Pune, Savli, Maneja, and Hosur), three R&D centers, eight sales offices, and a strong industrial and automotive aftermarket network, Schaeffler India ensures nationwide accessibility of products and solutions to its customers.

With renowned product brands and a comprehensive range of products and services in the mobility ecosystem by means of eight motion families: from bearing solutions and linear guidance systems through to repair and monitoring services, Schaeffler is committed to partnering with its customers across segments for their engineering and motion technology needs. With its presence in India for over 60 years and with a dedicated workforce of over 3,000 employees Schaeffler is a leading motion technology company in India.
