The Company presents innovative solutions leading the future of automotive industry

Schaeffler India showcases Next – Generation Technologies at SIAT 2026

Pune | January 28 2026 | Schaeffler India Limited, a leading motion technology company, announces its participation at SIAT 2026, showcasing a portfolio of next-generation technologies designed to support India's rapidly evolving automotive landscape at **Hall: Zone D, Booths: 341 & 348.**

Visitors can experience Schaeffler's comprehensive range of Electrification Solutions - Drives, Motors & Modules, Efficient Powertrain solutions for optimized ICE and hybrid technologies, Innovative Chassis components, Smart Sensors & Fuel Delivery modules, Friction reducing bearing solutions for Next Generation Vehicles.

Speaking on Schaeffler's participation and display of advanced solutions, **Mr. Viswanathan Sambasivam, Division Head - Powertrain & Chassis India**, said, *"SIAT provides an ideal platform to demonstrate how we are shaping mobility for India. Our focus is on co-engineering with OEMs, accelerating technology transfer, and strengthening local value creation. The solutions we are bringing this year represent the next step in advancing clean, safe, and smarter mobility."*

Mr. Omkar Kulkarni, Division Head - E-Mobility India, added, *"India is one of our most important engineering hubs. Our teams here are working closely with customers to design for India, build in India, and innovate for India. The technologies displayed at SIAT underline our ability to combine global expertise with local development capabilities."*

Schaeffler leadership will also be present at SIAT 2026. Ms. Madhurisha Vippatoori, Chief Technical Officer, Schaeffler India, will serve as Session Chair for the Testing & Evaluation track on Day 1 (28 January). Mr. Deepak Kasturi, Head of Innovation India – System Engineering & Advanced Development, will deliver a keynote address on "Euro 7 Insights: Shaping the Future of Real-Time Emissions Monitoring" during the Emission Measurement & Control Technology session on Day 3 (30 January).

Mr. Harsha Kadam, CEO & MD, Schaeffler India Limited, said, *"As a leading mobility solutions provider in India, we at Schaeffler are proud to be associated with all the leading automotive customers in shaping the future of mobility. We are equally committed to supporting our customers across various types of*

powertrains that will support cleaner, electrified, and intelligent mobility.

Together, we are shaping a more secure, sustainable, and future-ready India."

Schaeffler's participation reconfirms its commitment in delivering high value technology to the stakeholders and its focus on engineering innovation driven from India, development of advanced technologies supporting electrification and energy efficiency, collaborative development with Automotive customers, innovators, and academia, and a strong commitment to sustainability and future-ready manufacturing.

Schaeffler Group – We pioneer motion

The Schaeffler Group has been driving forward groundbreaking inventions and developments in the field of motion technology for over 75 years. With innovative technologies, products, and services for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies, the company is a reliable partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle. Schaeffler describes its comprehensive range of products and services in the mobility ecosystem by means of eight product families: From bearing solutions and all types of linear guidance systems through to repair and monitoring services. Schaeffler is with around 120,000 employees and more than 250 locations in 55 countries, one of the world's largest family-owned companies and one of Germany's most innovative companies.

Schaeffler India Limited

Schaeffler India brings a 75-year global legacy of innovation in motion technology to the Indian market, offering precision engineering solutions. As a trusted partner for making motion more efficient, intelligent, and sustainable – over the entire life cycle, Schaeffler offers innovative technologies, products, and solutions for electric mobility, CO₂-efficient drives, chassis solutions and renewable energies. With five manufacturing plants in India (Pune, Savli, Maneja, Hosur and Shoolagiri), three R&D centers, seven sales offices, and a strong industrial and automotive aftermarket network, Schaeffler India ensures nationwide accessibility of products and solutions to its customers.

With renowned product brands and a comprehensive range of products and services in the mobility ecosystem by means of eight motion families: from bearing solutions and linear guidance systems through to repair and monitoring services, Schaeffler is committed to partnering with its customers across segments for their engineering and motion technology needs. With its presence in India for over 60 years and with a dedicated workforce of over 3,700 employees Schaeffler is a leading motion technology company in India. Explore more - www.schaeffler.co.in
