Auto fuel demand skids in July over lockdown curbs

FE BUREAU
New Delhi, August 12

CONSUMPTION OF AUTO fuels in July was lower than the levels recorded in June, signaling that the re-imposition of lockdown curbs in many parts of the country has slowed industrial and commercial consumption. Diesel sales of 5.5 million tonne (MT) and petrol demand of 2.3 MT were lower 12.4% and 0.8%, respectively, against the volumes used in the preceding month.

On a year-on-year basis (y-o-y), diesel consumption was down 19.3% and petrol sales were lower by 10.3%. The sales had dropped over 60% annually in April in the beginning of the lockdown.

According to provisional data by the government's petroleum planning and analysis cell (PPAC), demand for the aviation turbine fuel (ATF) fell 64.6% annually to 233 thousand tonnes in the month. July ATF sales were only 11,000 tonnes more than May, with the opening of the domestic aviation sector.

Sales of liquefied petroleum gas, which was the only product

to register growth in the lockdown period due to government scheme of free cylinder refills for poor households, increased only 2.3% annually in July. Consumption of bitumen, mostly used in road construction, increased 4.4% annually. Consumption of petroleum products had moderated even before the lockdown due to extended monsoon and weak industrial activity. Domestic sales of petroleum products in FY20 had inched up 0.2% y-o-y to 213.7 MT.

Domestic natural gas production fell 10.1% y-o-y to 2,435 million metric standard cubic metre (MMSCM) in July. The 2.6 MT of crude oil produced in the country in the month was also 5% lower than the production from a year-ago period. The development coincides with domestic natural gas consumption falling 14.3% y-o-y to 13,536 MMSCM in Q1FY21 with the lockdown to contain the spread of the coronavirus being implemented in the quarter. Domestic production fell 15.5% annually to 6,785 MMSCM while imports dropped 12.5% to 7,003 MMSCM in the three-month period.

Covid recovery rate soars past 70%, record 56,110 recuperate in one day

PRESS TRUST OF INDIA
New Delhi, August 12

INDIA'S COVID-19 RECOVERY rate soared past 70% on Wednesday with 16,39,599 people having recuperated from the disease so far in the country, while active cases comprise 27.64% of the total caseload, the Union health ministry said. The case fatality rate has further declined to 1.98%, it said.

The highest single-day recoveries at 56,110 are the result of the successful implementation of effective containment strategy, aggressive and comprehensive testing coupled with standardised clinical management of the critical patients based on holistic standard of care approach, the ministry said.

The coordinated efforts of

the central, state and UT governments have resulted in continuously increasing average daily recoveries, it said.

"In the first week of July, the daily average recovered cases were at 15,000 which jumped to more than 50,000 in the first week of August," the health ministry said.

"With more patients recovering and being discharged from hospitals and home isolation (in case of mild and moderate cases), the total recoveries have crossed the 16 lakh-mark and recovery rate has reached another high of 70.38%," it added.

There are 6,43,948 active cases of coronavirus which is "actual caseload" of Covid-19 in the country and currently comprise 27.64% of the total positive cases.

Panel talks strategy to ensure vaccine availability, delivery

THE NATIONAL EXPERT group on vaccine administration for Covid-19 met for the first time on Wednesday and delved on the procurement mechanisms for the vaccine, including both indigenous and international manufacturing along with guiding principles for prioritisation of population groups for vaccination.

The meeting was chaired by Dr VK Paul, member Niti Aayog along with secretary (ministry of health) as co-chair. The committee also advised all the states not to chart separate pathways

of procurement. The group members discussed on broad parameters guiding the selection of vaccine candidates for the country and sought inputs from the standing Technical sub-committee of National Technical Advisory Group on Immunization (NTAGI).

It deliberated on "conceptualisation and implementation mechanisms for creation of a digital infrastructure for inventory management and delivery mechanism of the vaccine with focus on last mile delivery," the health ministry said.

'Pfizer-BioNTech vaccine candidate induces 'robust' immune response'

PRESS TRUST OF INDIA
New York, August 12

A COVID-19 VACCINE candidate co-developed by the pharmaceutical giant Pfizer and the German biotech company BioNTech induces a "robust" immune response in healthy adults aged 18-55 years, according to an interim report of an early phase clinical trial, published in the journal *Nature* on Wednesday.

The researchers noted that BNT162b1 is an RNA vaccine that elicits an immune

response by mimicking the mRNA molecule used by the novel coronavirus SARS-CoV-2 to build its infectious proteins.

According to the study the vaccine candidate is delivered intramuscularly, and enables human cells to produce proteins part of the SARS-CoV-2 receptor-binding domain, against which the immune system is trained to produce antibodies.

They said such vaccines are generally considered safe and have facilitated the rapid development of vaccines against SARS-CoV-2.

3. The Company's operations and financial results for the quarter ended 30 June 2020 have been adversely impacted by the outbreak of COVID-19 pandemic and the consequent lockdown announced by the Government of India due to which the operations were suspended for part of the quarter and gradually resumed with requisite precautions. The result for the quarter are, therefore, not comparable with those for the corresponding previous quarter.

4. The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of property, plant and equipment, investments, inventories, receivables and other current assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial results has used internal and external sources on the expected future performance of the Company. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial results may differ from that estimated as at the date of approval of these financial results.

5. The above results for the quarter ended 30 June 2020 were reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on 12 August 2020. The unaudited results for the current quarter have been reviewed by the Statutory Auditor of the Company.

6. The above is an extract of the detailed format of the Financial Results for the quarter ended 30 June 2020, filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Financial Results for the quarter ended 30 June 2020, are available on the Stock Exchange websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) or Company's website (www.lumaxworld.in/lumaxindustries).

3. The Company's operations and financial results for the quarter ended 30 June 2020 have been adversely impacted by the outbreak of COVID-19 pandemic and the consequent lockdown announced by the Government of India due to which the operations were suspended for part of the quarter and gradually resumed with requisite precautions. The result for the quarter are, therefore, not comparable with those for the corresponding previous quarter.

4. The Company has considered the possible effects that may result from the pandemic relating to COVID-19 on the carrying amounts of property, plant and equipment, Investments, Inventories, receivables and other current assets. In developing the assumptions relating to the possible future uncertainties in the global economic conditions because of this pandemic, the Company, as at the date of approval of these financial results has used internal and external sources on the expected future performance of the Company. The Company has performed sensitivity analysis on the assumptions used and based on current estimates expects the carrying amount of these assets will be recovered. The impact of COVID-19 on the Company's financial results may differ from that estimated as at the date of approval of these financial results.

5. The above results for the quarter ended 30 June 2020 were reviewed by the Audit Committee and approved by the Board of Directors at its meeting held on 12 August 2020. The unaudited results for the current quarter have been reviewed by the Statutory Auditor of the Company.

6. The above is an extract of the detailed format of the Financial Results for the quarter ended 30 June 2020, filed with the Stock Exchanges under Regulation 33 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015. The full format of the Financial Results for the quarter ended 30 June 2020, are available on the Stock Exchange websites of NSE (www.nseindia.com) and BSE (www.bseindia.com) or Company's website (www.lumaxworld.in / lumaxindustries.com).

3) The Parent Company elected to exercise the option permitted under Section 115BAA of the Income-tax Act, 1961 as introduced by the Taxation Laws (Amendment) Ordinance, 2019 to pay income tax at a lower rate of 22% (plus applicable surcharge and cess). Accordingly, the Parent Company has recognised Provision for Income Tax and re-measured its net Deferred Tax Liabilities basis the rate prescribed in the said section.

4) Uncertainty caused by the Covid-19 pandemic has led to the short-term slowdown in the business operations, however the Company is experiencing pick-up of its operations post lock down. In preparation of these financial results for the quarter ended June 30, 2020, the Company has taken into account internal and external information for assessing possible impact of Covid-19 including impact on its business operations, liquidity, financial position and recoverability of its assets and has concluded that there are no material adjustments required in the consolidated financial results.

However, the impact assessment of Covid-19 is a continuing process given the uncertainties associated with its nature and duration and accordingly the impact may be different from that estimated as at the date of approval of these financial results. The Company will continue to monitor any material changes to future economic conditions.

5) The above is an extract of the detailed format of Unaudited Standalone and Consolidated Financial Results for the quarter ended June 30, 2020 filed with the Stock Exchanges under Regulation 33 of the Securities and Exchange Board of India (Listing Obligations & Disclosure Requirements) Regulations, 2015.
