Immediate Press Release

13th October 2025

Servotech Renewable Power System Ltd. Bags an Order of 2.58 MW Solar Rooftop Project from South Eastern Railway

New Delhi, October 13, 2025: Servotech Renewable Power System Ltd. (NSE: SERVOTECH), India's leading renewable energy brand, is delighted to announce that it has bagged a **2.58 MW grid-connected** rooftop solar project from the **South Eastern Railway, Ranchi Division**. This milestone reflects Indian Railways' continued trust in Servotech's capabilities and reinforces its role in driving India's clean energy transition.

Under this contract, Servotech Renewable will undertake the complete execution of the on-grid rooftop solar PV project, including **design, manufacturing, supply, installation, testing, and commissioning of solar panels** of different capacities across multiple sites in the Ranchi Division. This initiative supports Indian Railways' broader sustainability agenda aiming to achieve net-zero carbon emissions through large-scale renewable energy adoption.

Speaking of the project, Sarika Bhatia, Director, Servotech Renewable Power System Ltd. said, "We are honoured to once again work with the Indian Railways in their journey toward a cleaner and more sustainable future. This project further reinforces the trust that Indian Railways has placed in Servotech Renewable's expertise and execution capabilities. We will be leveraging our innovation in high-performance solar technology to help the South Eastern Railway to not just meet its sustainability goals, but to set a new standard for clean energy adoption across the entire transport sector and support them in their continued efforts toward a green energy transition."

This project not only underscores Servotech's leadership in the renewable energy sector but also highlights the ongoing efforts of Indian Railways to expand solar adoption across its divisions, contributing significantly to India's commitment to a net-zero future.
