Press Release

Servotech Power Systems Ltd. Bagged 2649 EV Chargers Order from BPCL

New Delhi, 22 Novemeber'2023: Servotech Power Systems Ltd., the leading manufacturer of EV Chargers in the country, **has bagged 2649 AC EV charger orders from Bharat Petroleum Corporation Limited (BPCL).** The company will be responsible for **manufacturing, supplying and installing 2649 AC EV Chargers** strategically **across the nation**, equipping petrol pumps in major Indian cities under the **BPCL E-drive Project**, playing a key role in the widespread implementation of EV charging solutions. The range of EV chargers includes 3 kW and 7 kW for this project. The manufacturing and production of these AC chargers has already begun and the supply of the chargers will begin **from December 15th and will be completed within three months.**

Servotech Power Systems and BPCL had previously worked together to transform the E-Mobility landscape. The company also supplied and installed 800 units of 30 KW DC fast EV Chargers at different locations across the country for BPCL's E-drive project. Servotech Power Systems will oversee the installation, commissioning, and upkeep of AC EV chargers and this initiative aims to establish e-mobility touchpoints that streamline transactions, enhance availability, facilitate discovery, and simplify navigation for EV users, ensuring convenient access to the EV charging network.

Sarika Bhatia, Director of Servotech Power Systems Ltd., commented on this announcement, "We are honoured to lead India's E-Mobility revolution in partnership with BPCL, collaborating closely to establish an energy corridor enabling on-the-move charging for electric vehicles across India. The company's state-of-the-art AC EV Chargers will contribute to the realization of India's ambitious goals in the E-Mobility sector. Implementing these chargers will not only enhance the convenience of EV charging but will also contribute significantly to reducing the carbon footprint associated with transportation. As India continues to embrace electric mobility, Servotech

stands committed to driving innovation in EV charging technology, supporting the nation's transition towards a cleaner and more sustainable transportation ecosystem. This step will undoubtedly be a significant milestone, paving the way for a robust and expansive charging network, essential for the future of high-capacity EV charging”.

About Servotech Power Systems Limited:

Servotech Power Systems is an NSE-listed organization that develops tech-enabled EV Charging solutions leveraging their over two decades of experience and expertise in the electronics space. We offer an extensive range of AC and DC chargers which are compatible with different EVs and serve multiple applications such as commercial and domestic. With our comprehensive engineering capabilities, we plan to play a pivotal role in developing India's EV tech infrastructure. A trusted brand with a strong pan-India presence, our legacy is marked by proven innovation and distribution of high-end LED lighting and UV-C disinfection products, along with medical-grade oxygen concentrators and its makings.
