SWOT Analysis

STRENGTH

- Ability to Produce **large castings** up to 30 MT
- Established products with **Top Global OEMs**
- Ability to build large capacities **with capital efficiency**

WEAKNESS

- **Limited Capacity** compared to peers (scaled up to 45,000 TPA, planning to expand further)
- Dependency on **outsourced machining** (~20,000 TPA in-house machining established)

OPPORTUNITY

- Excellent **growth** opportunities in **Renewable's** with **high entry barriers**
- India is being converted as manufacturing Hub offers **growing** casting **demand**
- Trade wars/Global Sentiments **favor** India's demand
- INR depreciation against USD and CNY, **favouring Indian foundries**

THREAT

- **80% of business** from **wind industry** (facilities can produce large castings to any other industries)
- Volatile **Commodity prices** can impact profitability (Key commodities are hedged with customers on quarterly basis)

Profit/(Loss) after Tax	**(5.08)**	**(10.11)**	**2.36**	**(15.19)**	**5.74**	**4.66**

Disclaimer: The aforesaid information is based on unaudited quarterly results and present business conditions. Investors and stakeholders are advised to exercise their own judgment and seek independent advice before making any investment decisions.

Key Factors of Q2 Performance

Revenue:

For **H1FY27, Revenue has grown by 20.2% over H1 FY26,** and **production increased by 25.8% YoY** during the same period.

PBDIT Margins:

PBDIT margin stood at 10.2% in Q2 FY27, compared to 15.7% in Q2 FY26. H1 FY27 PBDIT margin stood at 8.9%, compared to 15.6% in H1 FY 26. FY 27 margins are impacted primarily due to steep input cost escalation.

Brief Overview of Financials

Revenue streams (in Rs Cr) and Estimate:

Quarterly Results of Q2 FY27 are unaudited. Executable Orderbook Projection is based on Orderbook Projections/Schedules available with management on the date of publishing and may be subject to change based on market conditions.

PBDIT over the period (in Rs Cr):

Quarterly Results of Q2 FY27 are unaudited; PBT before exceptional items

FY 27 is expected to have a ~33% revenue growth over FY 26, supported by additional capacity and revenues from new customers.

Considering the current input price scenario, FY27 margins are expected to increase by around 100 bps YoY.

Copyright © 2026 Synergy Green Industries Ltd 2026

The Path Ahead

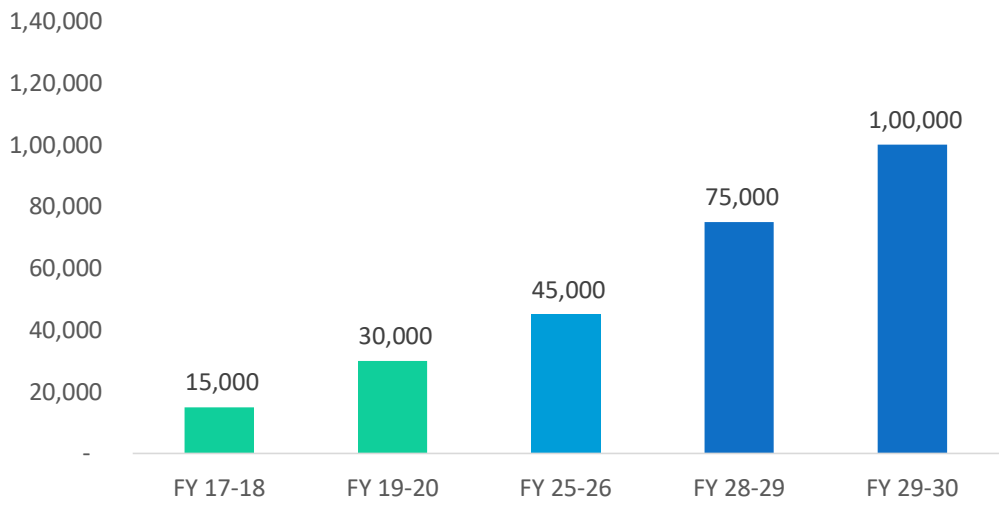

FY 2026-27 Performance Outlook

Revenue growth of ~33% projected in FY27 backed by new customer additions and enhanced capacity

Export revenues are projected to grow by ~50% over FY26, contributing around 30% of total revenue

PBDIT margins are expected to expand by around 100 basis points year-on-year

Medium Term Capacities (MT/Annum)

During the next 3-4 years, there is an opportunity for one more greenfield expansion to increase our capacity to over 100,000 MT
