Shakti Pumps (India) Limited Achieves ESG Impact Rating of 75 – “Good”; A Significant Milestone in its Sustainability Journey

Indore, Madhya Pradesh (India), 11 October 2025 – Shakti Pumps (India) Limited (SPIL) [BSE: 531431, NSE: SHAKTIPUMP], India’s leading manufacturer of energy-efficient pumps and motors, is proud to announce that it has been assigned an [ICRA ESG] Impact Rating **75, Good** by ICRA ESG Ratings Limited. This rating reflects the company’s robust commitment to environmental stewardship, social responsibility, and sound governance practices across its operations.

The ESG Impact Rating is a comprehensive assessment that evaluates a company’s performance on material ESG parameters, including climate risk management, energy efficiency, human capital development, supply chain sustainability, and governance transparency. A score of 75 signifies that Shakti Pumps has demonstrated strong ESG integration and risk mitigation practices, positioning it as a responsible and forward-looking enterprise.

Mr. Dinesh Patidar, Chairman of Shakti Pumps (India) Limited, shared his thoughts on this achievement: “We are honoured to receive this recognition, which validates our long-standing commitment to sustainable growth. At Shakti, sustainability is not a checkbox, but it is embedded in our DNA. From pioneering solar-powered pumping solutions to investing in green manufacturing and inclusive workforce development, we have consistently aligned our business strategy with global ESG imperatives. We will continue to raise the bar, deepen our ESG disclosures, and drive innovation that benefits our stakeholders and the planet. I extend my heartfelt gratitude to our employees, partners, and investors who have supported us on this journey.”

This recognition comes at a time when ESG considerations are becoming central to investor decision-making and regulatory frameworks. Shakti Pumps’ leadership in this space reinforces its position as a trusted partner in India’s clean energy and water sustainability mission. The company will continue to work closely with stakeholders to enhance its ESG performance and contribute meaningfully to India’s sustainable development goals.

About Shakti Pumps (India) Limited

SPIIL founded in 1982 as a partnership firm and later converted to a public limited company in 1995, manufactures solar pumps, energy-efficient stainless-steel submersible pumps, pressure booster pumps, pump-motors, and other products. SPIIL is the only company that manufactures a wide range of products for solar pump installation in-house, including Variable Frequency Drives, Structures, Motors, Invertors, and so on. Pithampur, Madhya Pradesh, is home to two manufacturing facilities with a combined capacity of 500,000 pumps and motors per year (India). Shakti Pumps is at the forefront of sustainable innovation and reliability in solar pumping solutions, while also being environmentally responsible. The company has been at the forefront of transforming the agriculture sector through solar pump technology. All Shakti submersible pumps are based on Stainless Steel (SS), which is a testimony to the latest technology and quality in manufacturing. Notably, Shakti Pumps has the distinction of being India's first 5-star rated pump manufacturer, supplying its products to more than 100 countries across the globe and manufacturing its own solar pumps, motors, structures, controllers & VFDs. Shakti Pumps is committed to helping India meet its energy goals.
