Hazira gas plant fire due to faulty gasket: PNGRB report

FE BUREAU
New Delhi, January 18

USE OF AN improper gasket procured from the local market has been identified as a probable cause of leak which led to the massive fire at ONGC's Hazira gas plant in the early hours of September 24, 2020, according to a report by an enquiry committee set up by the Petroleum and Natural Gas Regulatory Board (PNGRB) to investigate the incident.

The report said that gas-kets from the original equipment manufacturers (OEM) were not purchased, while the 'O' rings were bought from local markets and were used without any quality control measures.

The gasket was last replaced on September 18, 2020 — a few days before the fire broke out in the gas terminal of the Hazira plant — after a leakage was observed in an old meter installed in 1986.

"There is no record of date or authority of the decision to switch over from OEM supplied gasket to locally pur-

chased gasket," the PNGRB report noted, adding that "no hydro test was done after replacement of the gasket".

The leaked gas ignited, causing the fire, as it got exposed to the electrical fitting in one of the nearby faulty flame proof lamps.

The report pointed that three bolts were missing in the lamp, resulting in it being open with the glass case getting detached from the main body, leaving a gap of six centimetres.

Though electrical audit inspection is supposed to be done every six months, the

last inspection before the incident was carried out in July, 2019.

The Hazira plant is the largest sour gas processing complex in the country.

The plant also supplies special grade of high-flash high-speed diesel for specific use of Indian Navy.

Gas supply from the plant to the prime vendor Gail had been restored by ONGC just a day after the fire.

The pipelines were depressurised by flaring through the stack, causing blast-like noise, and the fire was put off within four hours.

TN urges Centre to allow all states to borrow up to 5% of GDP in 2021-22

FE BUREAU
Chennai, January 18

THE TAMIL NADU government on Monday urged the Centre to allow all state governments to borrow up to 5% of GDP in 2021-22 as well as to enable states to sustain expenditure on capital works and on Covid-19 prevention measures.

In a pre-Union Budget meeting with Union finance minister Nirmala Sitharaman, Tamil Nadu deputy chief minister O Pannerselvam, who also holds the finance portfolio, pointed out that while the early signs of economic revival are apparent, the finances of the state governments will take more time to recover.

Given the situation, he requested the finance minister that no abrupt fiscal correction

should be attempted during 2021-22. The transition back to fiscal targets should be a gradual glide path over two to three years.

Outlining issues related to GST, he said the expectations of revenue growth with the implementation of GST have been belied. The reasons for this tepid revenue growth have to be analysed in detail. The state governments will need to have their revenues protected, particularly in these difficult times.

He said alternatives, including continuance of the compensation mechanism and devolving further taxation powers on states, will have to be discussed in the GST Council in order to ensure that states are not put to hardship in 2022-23. "I urge Union finance minister to address this very crucial issue with the urgency that it warrants and to ensure that the interests of the states are not affected," Pannerselvam said.

The levy of cesses and surcharges by the central government deprives the states of their legitimate share of the Centre's tax revenue. Collections by way of cesses and surcharges have increased substantially as a proportion of the gross tax revenue of the Centre in recent years. All such cesses and surcharges should be merged into the basic rate of tax, so that the states also receive their due share from the additional revenue.
