French firm Valeo to pump in €200 m by 2028

FUTURE BETS. Investment to deepen localisation and strengthen next-gen automotive tech, besides expanding Indian footprint

S Ronendra Singh
New Delhi

French auto technology provider Valeo on Wednesday said it plans to invest more than €200 million in the next two years (around ₹2,149.20 crore, subject to prevailing exchange rates), to significantly expand its industrial footprint in India.

The investment will enable Valeo to triple its sales in India to around €700 million by 2028, and will also help prepare for the next step of high growth beyond 2028, a top official of the company told reporters here.

“The pace of transformation in the Indian automotive sector is remarkable, driven by a strong focus on electrification, autonomous driving, and sustainable mobility. As India and France deepen their strategic partnership, Valeo continues investments in localisation, research and development (R&D), and advanced manufacturing to support India’s ambition to become a global hub for next-generation automotive technologies,” Christophe Périllat, CEO of Valeo, said here.

Périllat is part of the French delegation that has come with President Em-

manuel Macron to attend the India AI Impact Summit, and also various bilateral trade agreements between the two countries during this visit.

He said the group was leveraging the rapid acceleration of electrification and artificial intelligence (AI) technologies to serve the growing needs of both Indian and global original equipment manufacturers (OEMs).

INDIA STRATEGY

Valeo’s strategy is focused on building strong competencies in new technology products in India, while progressively increasing localisation across manufacturing and operations.

The company has commissioned a new plant and dedicated e-axle production lines at its Pune facility to support a major electrification programme with Mahindra & Mahindra.

Valeo has been selected to supply electric powertrains for a range of vehicles under M&M’s ‘Born Electric’ passenger vehicle platform, along with on-board charger combo units for its electric utility vehicles.

This strategic partnership represents a total order value close to \$1 billion and reinforces Valeo’s commitment to localisation and the growth of India’s electric mobility ecosystem, he added.

FedEx to invest ₹2,500 cr in Navi Mumbai cargo hub

Anesh Phadnis
Mumbai

FedEx will invest ₹2,500 crore in developing an air cargo hub at Navi Mumbai airport to support India’s trade and transshipment ambitions.

The hub will comprise a fully automated facility over 3 lakh sq ft, with dedicated freighter parking bays. Maharashtra Chief Minister Devendra Fadnis performed a ground breaking ceremony along with the senior leadership of FedEx and Adani Airports on Wednesday.

The facility will be operational in two years and will result in direct and indirect employment of 6,000 persons.

“India’s trade ambition is entering a new phase — moving beyond point-to-point volume flows towards hub-led transshipment-driven logistics. FedEx Navi Mumbai hub is designed to support this shift,” said Raj Subramaniam, President and CEO, FedEx. The world’s largest express transport company has air cargo hubs in Guangzhou (China) and Dubai.

FIRST FACILITY

This will be a first such facility in India and comes as companies explore new markets and diversify their supply chains.

FedEx said the Navi Mum-

bai hub will support trade flows across South-East Asia, West Asia, Europe and the US.

EXPORT CORRIDORS

“In addition to increasing our operational capacity we are helping expand export corridors and strengthening service reliability for high growth industries,” Subramaniam said.

FedEx operates 24 weekly freighter flights to Delhi, Mumbai and Bengaluru. Jeet Adani, Director, Adani Airport Holdings Ltd, said the FedEx investment is a statement of confidence in India’s growth trajectory.

“For SMEs, manufacturers and agricultural exporters, the hub will serve as a bridge to the rest of the world,” he added.

“At a time when global trade and supply chains are rapidly evolving, FedEx’s decision to establish a major hub in Mumbai reflects India’s rising global economic strength and Maharashtra’s strategic importance in international commerce,” Fadanvis said.

Modi discusses gains from India-EU FTA with leaders from Finland, Spain

Our Bureau
New Delhi

Prime Minister Narendra Modi on Wednesday highlighted the boost to India-EU economic ties from the India-EU free trade agreement (FTA) during meetings with the leaders of Finland and Spain on the sidelines of the India AI Impact Summit in New Delhi.

The PM welcomed several world leaders, including UN Secretary General Antonio Guterres, IMF chief Kristalina Georgieva, Sri Lanka President Anura Kumara Dissanayake, Bhutan PM Tshering Tobgay, Mauritius PM Navinchandra Ramgoolam, Croatia PM Andrej Plenkovic, Serbia President Aleksandar Vucic, Seychelles Vice-President Sebastien Pillay, Estonia President Alar Karis, Greece Prime Minister Kyriakos Mitsotakis at the ongoing AI Impact Summit on Wednesday.

Over 20 Heads of State, 60 Ministers and 500 global AI leaders are participating in the AI Impact Summit 2026, in New Delhi, according to the government.

“Held extensive discussions with the Prime Minister of Finland, Petteri Orpo. Thanked him for his personal support to the India-EU FTA, which ushers in a golden era in India-Europe relations,” Modi said on X.

strengthening economic linkages, he said. “We also talked about enhancing co-operation in futuristic technologies like 6G, innovation, clean energy, biofuels, circular economy and more,” the PM added.

In a separate meeting with Spanish President Pedro Sánchez, the two leaders discussed the FTA’s positive impact on the India-Spain economic partnership.

POSITIVE IMPACT

“The historic FTA with the EU will have a very positive impact on the economic partnership with Spain and provide new opportunities to the people of our nations,” Modi noted.

The Prime Minister said talks also covered defence, security and technology. “Our nations are marking 2026 as the India-Spain year of culture, tourism and AI.

This will deepen people-to-people linkages. Glad to see a

big delegation of universities also come to India. This too will go a long way in connecting our people,” the PM said.

BILATERAL TALKS

Modi also held bilateral discussions with Serbian President Aleksandar Vucic. Serbia is a candidate for EU accession.

Modi expressed confidence that the ties would gather momentum. “We discussed ways to deepen co-operation in areas such as defence, manufacturing, DPI, fertilizers and infrastructure. For many years, India and Serbia have worked closely and I am confident our ties will gain even more momentum in the times to come,” he posted on X.

Negotiations on the India-EU FTA concluded last month. The pact is undergoing legal scrubbing and translation and will take effect after endorsement by the European Parliament.

India, UK launch offshore wind task force

Our Bureau
New Delhi

India and the UK on Wednesday announced the launch of the India-UK Offshore Wind Taskforce, which aims to offer strategic leadership to develop related ecosystems.

Pralhad Joshi, Minister of New & Renewable Energy, said, “In the ongoing financial year, we added more than 35 gigawatt (GW) of solar and 4.61 GW of wind capacity. Also, last year India achieved 50 per cent of its cumulative installed power capacity from non-fossil sources. Five years ahead of our national nationally determined contribution commitment...”

Offshore wind energy plays a strategic role in the next phase of India’s clean energy transition with the government identifying promising zones off the coast of Gujarat and Tamil Nadu, he noted.

As agreed under the India-UK Vision 2035 and the Fourth Energy Dialogue, the taskforce has been constituted to provide strategic leadership and coordination for India’s offshore wind ecosystem.

While the UK has demonstrated global leadership in scaling offshore wind, from early-stage deployment to large commercial markets with mature supply chains, India adds scale, long-term demand and a rapidly growing clean energy ecosystem, he noted.
