# Allana, Captain Fresh ink JV deal to serve 4K retail stores

**SANJEEB MUKHERJEE**  
New Delhi, 20 April

Allana group, one of India's largest private food companies and a leading meat exporter, has joined hands with Captain Fresh, a major Indian player in the seafood market, to open around 4,000 retail stores across India over the next four years.

In the joint venture (JV), called the Indian Retail Alliance Private Ltd (IRAPL), Allana group will hold 51 per cent and Captain Fresh around 49 per cent.

The platform will retail a comprehensive range of fresh proteins, including seafood, chicken and mutton, across a pan-Indian network. It will serve customers through standalone stores, shop-in-shop formats, and HoReCa (hotel, restaurant, and catering) channels, creating a unified demand network for fresh proteins across India. Once complete, this could be one of the largest organised retail outlets for fresh protein products pan India.

"Captain Fresh will bring its seafood supply chain capabilities along with the omni-channel technology stack under its retail brand 'ChopServe', which will be complemented by Allana group's deep expertise and best-in-class infrastructure across chicken, Ready-To-Eat, and protein processing. Together, the platform aims to combine the product and supply chain leadership of both partners with market-facing retail entrepreneurs to organise India's fragmented protein industry," an official statement said.

The platform will retail a comprehensive range of fresh proteins, including seafood, chicken and mutton, across a pan-Indian network, serving customers through standalone stores, shop-in-shop formats, and

HoReCa (hotel, restaurant, and catering) channels, creating a unified demand network for fresh proteins across India.

Utham Gowda, chairman and managing director (CMD) and group chief executive officer (CEO), Captain Fresh, said that the group had a retail presence since 2020, which it scaled down in 2022 to focus more on the US and Europe as a leading B2B (business-to-business) supplier.

"We started in 2020, and began exiting this (retail) business in 2022. We currently exist, but we are like 5 per cent of what we were in 2022. Earlier we were doing around ₹800-900 crore. Now this is less

than 10 per cent of that," Gowda said.

He said what Captain Fresh learnt from its limited retail foray is that just doing seafood alone in the Indian market may not be successful because Indian retail works on seafood and animal protein both.

"We had built our competency only in seafood, so animal protein was a limitation. That was lesson number one. Lesson number two is to have product leadership and work on the product side rather than just the channel side. And on the channel side, bring as many small and medium entrepreneurs as possible so that they can take care of the end market because there are many things that cannot be organised at our level. The third lesson is using technology as much as possible in terms of aggregating all of these constituents so that we work as a single company," Gowda said.

So this time around, "we have tried to fix all of that", he said.

"We have Allana group, which brings leadership in poultry and animal proteins. We are one of the largest seafood players in the world, so we bring that expertise from the US and Europe back to India. Second, this is a platform where we attract entrepreneurs who run 5-10 stores in a city or micro market. We bring them onto this platform, where they sell our products while we drive quality. Third, we have a software platform called Chop-Serve, which is mature and tested over the last three-four years. It is deployed across retail chains like Spa and Nature's Basket," Gowda said.

These were the three ways in which Captain Fresh wants to re-enter the market with force, he added.

## Tissot launches official ecom platform in India

**ANEKA CHATTERJEE**  
Bengaluru, 20 April

Swiss watchmaker Tissot launched its own e-commerce platform in India, marking its entry into direct online retail. It also introduced the new Gentleman collection, available directly on the e-commerce platform.

Commenting on the launch, Sylvain Dolla, chief executive officer (CEO) at Tissot said, "India is one of the most dynamic markets in the world, and our commitment here continues to deepen. With our new e-commerce platform, we aim to get even closer to our customers."

Currently, Tissot is available in over 400 stores across India and on select luxury e-commerce platforms. Since entering online retail in 2020, Tissot noted that its sales have grown steadily. With its dedicated platform, the brand aims to strengthen its digital presence and enhance its e-commerce performance, offering customers a more streamlined way to discover its collection.

The platform delivers a seamless, user-friendly experience, bringing the brand closer to its audience. All products will be shipped directly from Tissot's India-based warehouse, ensuring authenticity and a direct, uncompromised purchase journey.

Founded in 1853, Tissot offers a diverse range of luxury, sport, and classic watches in India across automatic, solar, and quartz categories. It counts American basketball star Damian Lillard as its brand ambassador.

## Vedanta sets May 1 as demerger record date

**SAKET KUMAR**  
New Delhi, 20 April

Metals and mining giant Vedanta Ltd on Monday said it had fixed May 1, 2026, as both the effective date and record date for its long-awaited demerger. This marks a key step in the group's plan to split its diversified businesses into separate listed entities.

The company's board approved the timeline as part of its ongoing restructuring. According to the timeline, Vedanta will carve out its aluminium, power, oil and gas, and iron ore businesses into four independent companies, it said in an exchange filing.

The four resulting entities are Vedanta Aluminium Metal Ltd (VAML), Talwandi Sabo Power Ltd (TSPL), Malco Energy Ltd (MEL) and Vedanta Iron and Steel Ltd (VISL).

As part of the reorganisation, TSPL and MEL will be renamed Vedanta Power Ltd and Vedanta Oil and Gas Ltd, subject to regulatory approvals.

Shareholders of Vedanta as on the record date will receive shares in each

of the demerged entities. The company said investors will be allotted one equity share in each of the four businesses for every share held in Vedanta.

In a significant internal restructuring move, Vedanta also approved the transfer of its shareholding in Bharat Aluminium Company Ltd (Balco) to the VAML.

The unit contributed about ₹15,909 crore in Vedanta's revenue in the financial year ended March 2025, accounting for roughly 10 per cent of the mining conglomerate consolidated turnover. Balco's net worth stood at ₹12,088 crore, or about 39 per cent of the group's total net worth.

The transfer will be executed through the issuance of compulsorily convertible debentures by VAML and is expected to be completed by April 30, 2026. Certain non-convertible debentures linked Balco will be transferred to VAML as part of the scheme.

The move is aimed at simplifying the group's structure and create businesses that can pursue independent growth strategies.

**SHAREHOLDERS WILL GET ONE SHARE OF EACH DEMERGED FIRM FOR EVERY VEDANTA SHARE HELD**

## Stakeholders flag concerns over MRP distortions in health care

**ANJALI SINGH**  
Mumbai, 20 April

Concerns over inflated pricing and lack of transparency in India's maximum retail price (MRP) system, particularly in healthcare, were flagged during a stakeholder consultation, with industry representatives, legal experts and consumer activists urging urgent reforms.

The discussion centred on the argument that MRP, originally intended as a consumer protection mechanism, has gradually morphed into an inflated ceiling price rather

instead of a fair benchmark.

Patients in India, especially in hospital settings, rarely have the ability to negotiate prices and are often charged the full MRP, unlike other consumer markets, said Rajiv Nath, managing director of Hindustan Syringe and Medical Devices.

Participants flagged MRP distortion in the health care sector wherein patients are dependent on prescriptions and hospital procurement decisions. Wide variations in discounts across retail channels add to confusion over what constitutes a "fair price", several participants said.

## Office construction activity declines to four-quarter low

**PRACHI PISAL**  
New Delhi, 20 April

New completions in the office real estate sector fell sharply by 36 per cent to 9.7 million square feet (msf) on a sequential basis in the March quarter of 2026 (Q1 2026) amid the West Asia conflict, according to Vestian, an occupier-focused workplace solutions firm.

This is the lowest level recorded in the past four quarters. Bengaluru, Hyderabad, and Mumbai cities contributed significantly to this decline as developers adopted a cautious stance amid prevailing uncertainties.

Bhadresh Shah, managing director of Mumbai-based Today Group, stated that the global uncertainties have led developers to adopt a more calibrated approach, especially in the commercial segment, which is a sign of market maturity rather than concern. "At the same time, demand fundamentals remain strong. This is a temporary pause, and the outlook for commercial real estate remains firmly positive and growth-oriented," he added.

Meanwhile, Rohit Garodia, founder and managing partner, Pecan Realty, said that it is too simplistic to attribute this slowdown in construction activity to the West Asia crisis. India's commercial real estate sector has proven its resilience, supported by a steady economy, controlled inflation and stable interest rates.

New completions in Hyderabad contracted sharply to a mere 0.3 msf in Q1 2026 compared to 6 msf in Q4 2025, registering a decline of 95 per cent. Meanwhile, new completions in Mumbai stood at 1.2 msf, down 29 per cent quarter-on-quarter (Q-o-Q), while completions in Bengaluru were down 13 per cent Q-o-Q at 4.2 msf.

Despite a slowdown, office absorption was up 20 per cent to 21.53 msf in Q1 2026 compared to the same period last year, highlighting sustained occupier demand amid the West Asia conflict and global macroeconomic challenges.

## Thomas Cook starts insurance coverage for visa rejections

**AKSHARA SRIVASTAVA**  
New Delhi, 20 April

Travel platform Thomas Cook (India) and its group company SOTC Travel on Monday launched a new feature to provide insurance against visa rejection against the backdrop of a dynamic global environment for travellers.

Under this cover, if a customer's visa application (other than immigrant or employment visa), is rejected, the company will indemnify the insured for non-recoverable

advance payments towards accommodation and travel, including applicable official cancellation charges.

Insurance for trips cancelled due to visa rejection will cover group tours as well as MICE (Meetings, Incentives, Conferences, and Exhibitions) and corporate travel businesses. The product is underwritten by ICICI Lombard.

The move comes as a response to a long-standing customer concern around non-refundable losses in the event of visa denials.
