|    |                               |                                                                                                                                                                                                                                                                                                                            |
|----|-------------------------------|----------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| 4. | Rationale                     | As per original plan- to meet the captive requirement of VS in the Proposed manufacture of Reactive Dyes.<br><br>It may be mentioned that the proposed Reactive Dyes plant of the capacity of 3000MTA as per plan has been commissioned in January 2016.                                                                   |
| 5. | Existing Capacity Utilization | The plant has just been commissioned.<br><br>It may be clarified that in the existing activities of the company, there is an existing plant of the company established during 2004-06 for the manufacture of VS with a capacity of 2700 MTA & during the current year the average utilisation has been in the range of 70% |
| 6. | Existing Capacity             | With the commissioning of the additional capacity of 1000MTA as per the announcement of June 02, 2016, the installed capacity stands enhanced from 2700MTA to 3700MTA.                                                                                                                                                     |

Hence we request you to kindly take the above information on your record.

Thanking you,

Yours Sincerely;

**For Shree Pushkar Chemicals & Fertilisers Limited**

  
**Punit Makharia**

**Chairman & Managing Director**
