The greater escape

KANIKA DATTA

In World War II lore, *The Wooden Horse*, and *The Great Escape* get star billing as heroic stories of Allied prisoners of war escaping German captivity from the Stalag Luft III in occupied Poland. Both accounts appeared as books that were made into popular movies. The heavily fictionalised version of *The Great Escape* went on to become a blockbuster with its stellar cast of Steve McQueen, Charles Bronson, and Richard Attenborough. *The Great Escape* may not have the ingredients of a Hollywood or Bollywood hit, but as a story it is long overdue in the telling.

The Great Escape involved much larger numbers. In *The Wooden Horse*, three British officers escaped (successfully) after building an escape tunnel under a vaulting horse in the prison camp gym. In *The Great Escape*, 50 officers made it out through a maze of tunnels, only to be caught and executed in cold blood. In *The Great Escape*, over 500 prisoners of war (POWs) of all ranks escaped from a German prison camp in occupied France and made it to neutral Switzerland. Yet this episode remained unknown in war histories because, as the book's Bowman points out, "...the escapees' faces were brown, not white, and as many were not officers, their experience has languished in the pool of the unremembered for years."

Bowman is a rare British historian who has chosen to focus on the Indian army in World War II, a contingent gaining grudging recognition in the multiple histories of the 1939-45 conflict. Over 5 million soldiers of undivided India fought under the British flag in a global conflagration that scholarship increasingly presents as a European imperial war. Since most were enlisted men rather than officers — the Indian army began the "Indianisation" of officer ranks after World War I but the process had a way to go at the outbreak of World War II — accounts from colonial sources are sparse. Bowman sought to bridge this information deficit in 2020 with *The Indian Contingent: The Forgotten Muslim Soldiers of the Battle of Dunkirk*.

The Great Escape goes beyond the narrow story of this extraordinary 1944 breakout to present a wider history of the roughly 15,000 Indian Army POWs in German hands. Bowman reminds us of the innately multicultural nature of the Indian Army. "They were Sikhs, Muslims, Hindus, Indians, Christians, and Gurkhas from right across South Asia... They had been taken prisoner in North Africa, France, Italy, Greece and Ethiopia, and on the high seas. They ended up to five long years

behind barbed wire, making music, learning languages, grumbling about the food, and praying to God." Among the more celebrated POWs (though he was not at Epinal) was P P Kumararamangalam, later chief of the army staff in independent India.

Combining prodigious research, archival and physical, Bowman tells the story of subaltern soldiers and the minutiae of camp life in alien lands against the larger picture of the shifting fortunes of battle and of popular racist theories that roiled Europe (not just Germany). Bowman paints a picture of soldiers who were also awakening to the freedom struggle. Like many Indians back home, they too had their allegiances to Jinnah, Gandhi, Nehru, and often with mixed feelings. Subhas Chandra Bose.

Not all the Indian POWs were soldiers. The Italian prisoners in the mercantile town of Bardonia, Italy, were merchant marine, sailors earning one-sixth of their European counterparts but who were the "lifeblood of the empire". The first Indian soldiers to be imprisoned were in the animal transport company of the Royal Indian Army Service Corp, and became the longest-serving Indian POWs. Of camp life and their struggles, Bowman shows the different religious apparently to coexist peacefully if separately.

Unlike their brutal treatment of POWs of French colonial soldiers from Africa — of which little has been written — and Russians, who were seen as *Untermenschen* or subhumans, the German-sequestered Indians with Aryans and, therefore, equivalent to Nordic Germans, so their treatment was relatively less cruel.

The town of Epinal (pronounced *ippinal*), in north-west France, had been occupied by the Germans since 1940. Two of its military barracks became Frontstalag 315 with Indians occupying four large buildings, overseen by a kindly, elderly officer, Oberst (Colonel) Lubren affectionately known as Papa-B-Epinal. He treated his charges, who behaved like "spoilt or badly brought-up children," with patient forbearance. When the Indians arrived in January 1944, the Germans were already on the back

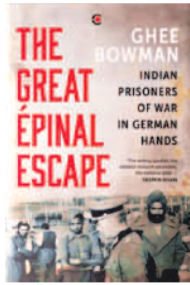

foot; Hitler's invasion of Russia had stalled, the Allies had prevailed in North Africa, the bombing campaign over Europe skies was sapping Wehrmacht morale, and the French Resistance was gaining traction.

The opportunity to escape *en masse* came not from *The Great Escape*-type derailing but from an Allied bombing attack on May 11, 1944, that almost levelled the camp and enabled POWs to take their chance in the ensuing melee. Crossing the barbed wire individually or in groups was only the start; POWs had to navigate the enormous challenges of making it to the Swiss border, a little over 100 km away, through miles of uncharted terrain, the wooded valleys, in snow and freezing temperatures alien to men of the north Indian plains, dodging German patrols, some equipped with machine guns.

If most of the POWs made it successfully to "their promised land" of Switzerland, much of the credit goes to the French Resistance providing food, shelter, and medical aid to escaping POWs.

It was the risk of their lives to act as scouts and guides along the escape routes against many odds. This is a story of understated heroism that rarely attracts headlines in war. Several Resistants were discovered and executed by the Germans. Apart from interviews and a recce of the Epinal-Swiss border terrain, this part of the story draws on a remarkable secret diary kept by Jules Perret, a 59-year-old blacksmith and farmer. A key member of the Resistance, Perret and his family played a seminal role in rescuing Indian POWs. Other ordinary folk like him — housewives, pastors, schoolchildren — did their bit. For them, the POWs' brown skin counted for less than the fact that they had played their part in liberating Europe from the Nazis.

With its rare photographs, *The Great Escape* is an important record of the lives of the Indian Army in combat and captivity in major theatres of war in the west. It stands as testimony to a time when Europeans relied heavily on men from Asia and Africa to save them from Nazi tyranny. At a time when refugees from these nations are being shunned by this same continent, this book reminds us of the ironies and fallibilities of 21st century xenophobia.

Sony unveils WH-1000XM6 headphones

Sony has launched its latest flagship wireless headphones, the WH-1000XM6. Developed in partnership with prominent recording studios — Sterling Sound, Battery Studios, and Coast Mastering — the headphones aim to deliver studio-grade audio precision along with notably enhanced noise cancellation. The company has not yet announced details regarding India's availability.

Amazfit launches BIP 6 smartwatch

Amazfit has debuted its new BIP 6 smartwatch in India. The device features a 1.97-inch AMOLED screen with a peak brightness of 2,000 nits and offers a comprehensive suite of health monitoring tools.

Chrome, Android get AI updates

Google has announced a range of new accessibility updates, set to roll out on the Android platform and Chrome web browser. Among them are AI-based real-time Expressive Captions.

Microsoft offers to price Office without Teams at cheaper rate

REUTERS
16 May

Microsoft has offered to make its Office product without Teams cheaper than when sold with Teams, EU antitrust regulators said on Friday, which could spare the company a big fine and ease tensions with the United States.

The European Commission said it would seek feedback from rivals and customers before deciding whether to accept the offer.

If accepted, it would end a long-running case triggered by a 2020 complaint from Salesforce-owned Slack, which could have resulted in a massive antitrust fine for the US tech giant. Germany's antitrust authority also complained.

Microsoft's Vice President for European Government Affairs Nanna-Louise Linde said in a blogpost the proposal was a clear and complete resolution to concerns raised by rivals and would allow Europeans to buy Office 365 and Microsoft 365 suites without Teams for less than corresponding suites that include Teams, the EU competition enforcer said.

Microsoft said the maximum price differential between the two suites would be 8 euros.

Customers in Europe would be able to extract their Teams messaging data for use in competing solutions. The pricing offer would be valid for seven years and interoperability for 10 years.

Microsoft, which has accrued 2.2 billion euros in EU antitrust fines in past years, said it would allow the options and pricing for its suites and Teams service globally if the EU regulator accepts its offer.
