Vikram Solar charts ₹16K-cr expansion

SAURAV ANAND
New Delhi, August 4

VIKRAM SOLAR IS building a dedicated global business vertical and exploring local manufacturing partnerships overseas as part of a ₹15,000-16,000-crore expansion that will extend its operations from solar modules to cells, wafers, ingots and battery storage, chairman and managing director Gyanesh Chaudhary told Financial Express.

The company is setting up dedicated teams and hiring across Australia, Europe, Sri Lanka and Singapore to expand exports, develop partnerships and introduce its energy solutions in new markets.

“Vikram Solar has built a strong international presence over the last two decades through overseas subsidiaries, regional offices and local teams,” Chaudhary said.

The company has shipped products to more than 39 countries and crossed 10 GW of cumulative global shipments earlier this year.

It is expanding its commercial presence across Australia, Germany, Italy, Spain, Sri Lanka and the US, while building long-term partnerships with distributors and key accounts. Vikram Solar has wholly owned subsidiaries in the US, Germany, Australia and Singapore.

“In parallel with our commercial expansion, we are advancing initiatives to establish localised manufacturing and strategic supply-chain partnerships across these markets,” Chaudhary said.

The overseas push comes as global buyers increasingly adopt China+1 sourcing strategies and tighten supply-chain traceability requirements, including those linked to the US Uyghur Forced Labor Prevention Act.

“Leadership is no longer defined by manufacturing scale alone, but by technology and supply-chain resilience,”

MANUFACTURING LEAP

■ The company has shipped products to more than 39 countries and crossed 10 GW of cumulative global shipments earlier this year

■ The overseas push comes as global buyers increasingly adopt China+1 sourcing strategies and tighten supply-chain traceability requirements

GYANESH CHAUDHARY, CHAIRMAN AND MANAGING DIRECTOR, VIKRAM SOLAR

Vikram Solar has built a strong global presence over the last two decades via overseas subsidiaries, regional offices and local teams

Chaudhary said.

The company plans to invest close to ₹15,000-16,000 crore to add 6 GW of module capacity and establish 12 GW each of solar-cell and wafer-and-ingot capacity.

The programme will be funded through internal accruals, debt and IPO proceeds, with future project financing targeted at a debt-to-equity ratio of 3:1.

Vikram Solar aims to scale installed module capacity to 15.5 GW and cell capacity to 12 GW by FY27, followed by 12 GW of wafer and ingot manufacturing by FY30.

The company currently operates a 3.2-GW facility at Falta in West Bengal and plants of 1.3 GW at Oragadam and 5 GW at Vallam in Tamil Nadu. Its upcoming Gangaikondan unit rolled out its first module earlier this month.

Vikram Solar will also launch battery energy-storage system assembly in FY27 and begin integrated battery-cell manufacturing with 7.5 GWh capacity by FY29. Its VSL Powerhive business has secured a

100-MWh order and is in advanced discussions with cell-technology licensors and manufacturing partners.

The company is also monitoring production-linked incentive allocation cycles and preparing submissions for eligible government incentive programmes.

“India has made strong progress on module manufacturing, but cell, wafer and ingot capacity remain largely import-dependent today,” Chaudhary said. He expects visible improvement in domestic cell and wafer integration over the next five years, while full backward integration will remain a longer-term goal.

The expansion comes as ALMM List-II enforcement shifts fresh demand towards domestic-content-compliant products. Chaudhary expects DCR products to retain premium pricing until additional domestic cell capacity comes online, while competition and margin pressure intensify in the non-DCR market.

Nykaa Q1 revenue up 29%

URVI MALVANIA
Mumbai, August 4

BEAUTY AND FASHION firm FSN E-commerce which operates the brand Nykaa, recorded 243% jump in profit after tax (PAT) for the fiscal first quarter at ₹80 crore as compared to ₹23 crore in the same quarter previous fiscal.

PAT, however, came in behind Bloomberg estimates of ₹84 crore.

Revenue from operations stood at ₹2,782 crore, up 29.1% from ₹2,155 crore in Q1FY26, marginally beating street estimates of ₹2,763 crore. Earnings before interest, taxation, depreciation and amortisation (Ebitda) came in at ₹236 crore and was up 67.8% annually, beating Bloomberg estimates of ₹230 crore.

Ebitda margin for the quarter was 8.5%, up 200 basis points while PAT margin was up 180 basis points year-on-year at 2.9%.

“This quarter marked continued acceleration in our growth momentum and Ebitda margins, both reaching their highest levels in the last 12 quarters,” Falguni Nayar, executive chairperson, founder and chief executive, Nykaa said.

Consolidated GMV (gross market value) for the quarter as declared by the company stood at ₹5,590 crore, up 34% from Q1FY26 driven by 28% growth

MARGIN BOOST

Nykaa consolidated financials

in beauty and personal care (BPC) segment and 34% growth in the fashion segment.

Nykaa's cumulative customer base grew to 60 million at the end of the June quarter.

“Our AI-led initiatives are beginning to create meaningful consumer experiences, with Virtual Closet already driving 2x higher conversion and AskNykaa, our conversational search engine, emerging as a trusted beauty advisor on the platform,” Nayar added.

Beauty segment GMV grew to ₹4,105 crore from ₹3,208 crore in the fiscal first quarter while fashion segment GMV to ₹1,471 crore compared to ₹964 crore in Q1FY26.

The House of Nykaa, which consists of 13 brands – seven in beauty and six in fashion, delivered a GMV of ₹3,760

crore, up 40% annually. “Till date, we've served 18 million customers across these brands. And as a reminder, we have distribution across Nykaa platforms as well as 3P (third-party), whether that's online or offline,” Adwaita Nayar, executive director, chief executive officer, Nykaa Fashion said.

Revenue from BPC segment grew 27% at ₹2,516 crore and fashion segment revenue grew 48% at ₹253 crore in Q1FY27.

Annual unique transacting customers (AUTC) in beauty grew 25% (20.8 million in Q1FY27 versus 16.1 million in Q1FY26). Fashion AUTC grew 38% annual to 4.7 million in the first quarter of FY27 as compared to 3.4 million in the same period last year.

Exports to power Raymond Lifestyle's growth, says CEO

VIVEAT SUSAN PINTO
Mumbai, August 4

RAYMOND LIFESTYLE IS aiming to double its revenue over the next three to five years while growing earnings at an even faster pace, as the apparel and textile company sharpens its focus on exports, premium brands, digital capabilities and operational efficiency.

Speaking to FE, chief executive officer Satyaki Ghosh said the company expects its garmenting business to accelerate through FY27 as orders from the UK and Europe gather pace, aided by free trade agreements and the China-plus-one sourcing strategy.

Raymond Lifestyle derives around a fifth of its revenue from exports. In the June quarter, the garmenting business grew 50% year-on-year even as the company's overall performance remained subdued.

For the quarter ended June, Raymond Lifestyle reported a 5.9% year-on-year increase in revenue to ₹1,515.5 crore, while Ebitda rose 16.6% to ₹89.8 crore. Ebitda margin expanded to 6% from 5% a year ago. The company reported a net loss of ₹23 crore, compared with a loss of ₹20 crore in the year-ago quarter.

SATYAKI GHOSH, CHIEF EXECUTIVE OFFICER, RAYMOND LIFESTYLE

If turnover doubles, Ebitda has to grow more than double in three to five years' time

“If turnover doubles, Ebitda has to grow more than double in three to five years' time,” Ghosh said, adding that premiumisation-led profitable growth would drive margin expansion.

Exports are expected to become a much larger growth engine. Ghosh said Raymond is seeing strong demand from Europe following the India-UK free trade agreement, with enquiries increasing across the region.

The company already manufactures more than half the suits sold globally by British menswear retailer Charles Tyrwhitt and is now winning business in categories such as shirts.

Persistent on track to reach \$2 billion run-rate mark

GEETA NAIR
Pune, August 4

PERSISTENT SYSTEMS IS confident of maintaining its operating margins in the 16-17% range for this fiscal. Revenue growth is expected in all three verticals.

Vinit Teredesai, executive director and CFO, said Persistent was on track to reach the \$2 billion run-rate mark in FY27.

“The large deal takes us comfortably towards the \$2 billion mark,” he said.

Additionally, the acquisition of Nagarro and the synergies that the combined organisation is creating put them in a completely different orbit, Teredesai said. The acquisition was part of its strategy to become a \$5 billion organisation by FY31.

During the quarter, the company won a large deal for a high-tech client. It is a \$650 million total contract value deal over a period of six and a half years, with a \$125 million annual contract value. On a constant-currency basis, it was a 4.1% quarter-on-quarter growth.

The 8.7% sequential drop in net profits was due to a forex loss of ₹105 crore. According to Teredesai, there was significant volatility in the rupee during the quarter, as it depreciated for the first two months, and appreciated in June as the war eased.

This resulted in some hedging losses. Their debtors were revalued at the exchange rate prevailing on March 31, resulting in revaluation losses at the end of June. All these together contributed to the forex losses, he said. This should not be viewed as a recurring trend. These are unrealised mark-to-market losses, and most of these losses have been reversed in July, Teredesai said.

He pointed out that it was their 25th consecutive quarter of delivering more than 3% quarter-on-quarter growth, and very few compa-

nies are close to that benchmark. “The Nagarro acquisition will only strengthen our position and put us on a different trajectory. If you look at all the competitors who have announced results so far, our performance still stands in the top quartile,” he said.

On the Nagarro acquisition, Teredesai said Persistent and Nagarro together would create a \$2.9 billion engineering organisation led by AI capabilities. “We complement each other well. Customer-wise, there is very minimal overlap. Capability-wise, we bring strong cloud, infrastructure, and managed services capabilities to them. From their side, they bring SAP capabilities,” he said.

Teredesai said Nagarro's enterprise valuation at €81 per share is around 1.2 times revenue and about 8 to 9 times last year's EBITDA. “You do not get a billion-dollar European presence, a well-diversified business, 18,000 employees, strong digital expertise, SAP capabilities, and all these strengths at a low price. At the same time, we do not believe we have paid a high price,” he said. “As a combined organisation, our dependence on the US will reduce from over 80% to around 62%. Their European presence would increase from 8% to 22%.

Persistent secured finance of €1.4 billion from Barclays for 18 months. “We are evaluating multiple options for long-term financing. We are in discussions with multiple banks and a consortium of lenders to replace the bridge loan with a longer-term financing structure,” Teredesai said.
