20 ஆண்டுகளை கடந்து வெற்றி நடை

சலுகையுடன் ஸ்டார் ஹெல்த் இன்சூரன்ஸ் புதிய காப்பீடு திட்டம்: நிர்வாக இயக்குனர் ஆனந்த்ராய் அறிமுகம்

சென்னை, மே 26- இந்நியாவின் முன்னணி தனியார் மருத்துவ காப்பீட்டு நிறுவனம் ஸ்டார் ஹெல்த் இன்சூரன்ஸ். இது, சிறு நகரங்களில் உள்ள இந்நிய இளைஞர்களின் மருத்துவ பாதுகாப்பை அதிகரிக்கும் வகையில் வடிவமைக்கப்பட்ட, மலிவு விலையிலான "வேலு பிள்ஸ்" என்னும் ஒரு புதிய திட்டத்தை நிர்வாக இயக்குனரும் தலைமை செயல் அதிகாரியுமான ஆனந்த்ராய் அறிமுகம் செய்தார்.

அதற்கு மேற்பட்ட வயதுடைய பெரியவர்களுக்கும், 91 நாட்கள் முதலான குழந்தைகளுக்கும், உயர் பாதுகாப்பு மற்றும் சிறந்த செயல்திறன் ஆகியவற்றை சமநிலையில் வழங்கும் காப்பீட்டை அளிக்கிறது. இதன் மூலம் தனிநபர்களுக்கும் குடும்பங்களுக்கும் சேவை செய்வதை நோக்கமாகக் கொண்டுள்ளது என்றார் ஆனந்த்ராய். தொடர்ச்சியாக 5

வருடங்கள் உரிமைகோரல் இல்லாத நிலையில், முதல் ஆண்டின் அடிப்படையிலும் முழுமையாக திருப்பித் தரப்படும். அதிகப்பட்சமாக 100% திரட்டலுடன், உரிமைகோரல் இல்லாத ஒவ்வொரு வருடத்திற்கும் 50% கூடுதல் தொகை காப்பீடு செய்யப்படும். நீண்டகால பாஸிசிக்களைத் தேர்வு செய்யும் வாடிக்கையாளர்கள், வருடாந்திர காப்பீட்டு தொகையை பாஸிசி காலம் முழுவதும் இணைத்துப் பயன்படுத்துவதற்கு 'காப்பீடு செய்யப்பட்ட தொகை பெருக்கி' ஐ பயன்படுத்திக் கொள்ளலாம். இரண்டாம் ஆண்டு பிரிமியத்திலும், மூன்றாம் ஆண்டு பிரிமியத்திலும் 10% நீண்டகாலத் தள்ளுபடியைப் பெறலாம். ஒவ்வொரு 7 உரிமைகோரல் இல்லாத ஆண்டுகளுக்கும், அடிப்படையாக காப்பீடு தொகையில் 100% கூடுதலாக சேர்க்கப்படும் என்றார் அவர்.

Thiagarajan, District Revenue Officer M. Ganesh Kumar, Municipal Chairperson Thenmozhi Narendra, municipal officials, sanitation workers, government officials, and members of the public participated in the event.

Minister acts swiftly on passenger complaints

Chennai, May 26: Tamil Nadu Transport Minister A. Vijay Tamilan Parthiban took immediate action on passenger complaints involving State Express Transport Corporation and Villupuram Transport Corporation buses, directing officials to conduct inquiries and ensure prompt resolution of the issue.

One of the complaints, received on May 24, involved a passenger who lost a bag while travelling from Kilambakkam to Thanjavur on a State Express sleeper bus.

After learning about the issue, the minister personally contacted the passenger over the phone to gather details and later instructed the Managing Director of the Villupuram division to take swift action. Following an inquiry, officials found that another passenger travelling on the same bus may have mistakenly taken the bag. The information was communicated to the complainant, and officials assured that the bag would be returned if it was handed over by the passenger who had taken it accidentally.

In another incident, a passenger alleged that a Villupuram Transport Corporation bus operating from Gudiyatham to Ambur failed to stop at Kakka Thoppu bus stop around 5 a.m. despite being signalled to halt. Upon reviewing the complaint, the minister found that the driver and conductor on duty were temporary staff members. He directed the Deputy Manager (Operations) of the Vellore region to submit a detailed report on the matter.

The minister also visited the Villupuram bus depot, where he interacted with employees and listened to their grievances. During the visit, he inspected the attendance register and reviewed newly introduced buses following public complaints regarding the height of bus steps. Appreciating the efforts of the depot in maintaining clean and efficient transport services, the minister felicitated the Villupuram Managing Director during the inspection.

Labour Welfare and Skill Development Minister J. Mohamed Parvez chairing a review meeting on departmental works and schemes at the Secretariat. Government Secretary K. Veera Raghava Rao, Labour Commissioner Shilpa Prabhakar Satish, Director of Employment and Training Dr. C. Palani, Director of Industrial Safety and Health S. Anand, Director of Medical and Rural Health Services (ESI) Dr. P.A.A. Ramesh Babu, and senior department officials participated in the meeting.

Anti-dumping duties may save ₹28,540 cr: Report

New Delhi: The non-implementation of the recommended anti-dumping duties has resulted in an annual economic loss of ₹11,938 crore to the domestic industry, whereas the imposition of these levies could generate an additional ₹28,540 crore annually in forex by reducing imports, a report by C-DEP Research and Centre for WTO Studies said on Tuesday. The Directorate General of Trade Remedies (DGTR) conducts investigations into alleged dumping as a quasi-judicial authority, whereas the Finance Ministry takes the final call to impose these duties. "The non-implementation of anti-dumping duties on 56 DGTR-recommended products has resulted in an annual economic loss of ₹11,938 crore to the domestic industry."

Govt clears Skymaps' ₹121 cr IMPCL bid

New Delhi: The government has approved strategic sale of Indian Medicines Pharmaceutical Corporation Ltd (IMPCL) to Skymap Pharmaceuticals Pvt Ltd for over ₹121 crore, the Finance Ministry said on Tuesday. The government received two financial bids for buying 100 per cent stake, along with management control, in IMPCL, and among them, Skymap Pharmaceuticals Pvt Ltd emerged as the highest bidder at ₹121,00,94,400, which was also above the reserve price, the Ministry said in a statement. Under the Ministry of Ayush, IMPCL is engaged in manufacturing and supplying standardised ayurvedic and unani medicines. The Cabinet Committee on Economic Affairs had granted "in-principle" approval in November 2017 for the strategic disinvestment of the entire equity shareholding of IMPCL to a strategic buyer to be identified through a two-stage bidding process.

Trade body Cotton Association of India (CAI) expects the area under the fibre crop in the upcoming 2026 sowing season to rise by 7 per cent, based on the reports received from various States. Farmers, encouraged by the remunerative prices and better income realised during the current season, are expected to bring larger area under cotton cultivation during the next (crop) year (July-June), said Vinay N Kotak, President, CAI, and Atul S Ganatra, Chairman, CAI Crop Committee, in a statement.

Cotton was planted on about 114.82 lakh hectares during 2025-26, according to data from the Agriculture Ministry. For the 2026-27 marketing season, the Centre increased minimum support price by ₹557 per quintal to ₹8,267 for medium staple and ₹8,667 for long staple.

The National Crop Com-

MARKET UPTICK. Domestic demand for cotton is pegged higher at 338 lakh bales, an increase of 7.6 per cent

mittee of CAI, which held a meeting with the stakeholders on Monday in Mumbai, deliberated on the State-wise cotton sowing prospects for the forthcoming season. The committee estimated total pressings/crop for the 2025-26 season at 334 lakh bales of 170 kg each, based on the inputs received from various state associations and stakeholders.

CAI sees imports for the 2025-26 season at 47 lakh bales of 170 kg each, an in-

crease of around 15 per cent over previous year's 41 lakh bales. Exports of cotton are seen flat at 18 lakh bales.

HIGH DEMAND Domestic demand is pegged higher at 338 lakh bales, an increase of 7.6 per cent, while the surplus is estimated higher at 103.59 lakh bales over previous year's 78.59 lakh bales.

The closing stocks for the 2025-26 season ending September are estimated at 85.59 lakh bales, about 41 per

For the 2026-27 marketing season, the Centre has increased MSP by ₹557 per quintal to ₹8,267 for medium staple and ₹8,667 for long staple

cent higher than previous year's 60.59 lakh bales.

Further, the committee proposed conducting a survey through an independent agency to ascertain the total cotton consumption in India. It was decided that this matter would be discussed at the ensuing meeting of the CAI Board of Directors, the statement said.

CAI said that during the discussions, differing views emerged regarding the carry-over stock numbers. Accordingly, a seven-member Committee has been constituted to reconcile the stock figures.

Bayer CropScience Q4 profit surges 13% to ₹162 crore

Our Bureau
Bengaluru

Bayer CropScience Ltd (BCSL) on Tuesday reported a 13 per cent rise in profit for the quarter-ended March 2026 at ₹162.1 crore over corresponding the last quarter's ₹143.3 crore on higher revenues.

Revenues from operations for the quarter were up 5 per cent at ₹1,100 crore as compared to the corresponding last quarter's ₹1,046 crore.

For financial year 2025-26, Bayer CropScience reported a 21 per cent increase in profits at ₹689.2 crore over the previous year's ₹568 crore. Revenues for the year were up at ₹5,675 crore over the previous year's ₹5,473 crore. Simon Wiebusch, Vice Chairman, Managing Director and CEO, BCSL, said, "In Q4, we delivered a resilient performance. We remain well-positioned to drive sustainable, quality-led growth going forward."

The Board of Directors has recommended a final dividend payment of ₹60 per equity share of ₹10 each for the financial year ended March 31, 2026, subject to shareholders' approval.

BioPrime in pact with US' Mosaic to incorporate biological components

Subramani Ra Mancombu
Chennai

Pune-based BioPrime AgriSolutions, a pioneer in the biological crop solutions, has entered into a commercial collaboration with The Mosaic Company, a global leader in crop nutrition, to incorporate its biological components into the US-based company's crop nutrition solutions.

BioPrime Co-founder and Chief Executive Officer Renuka Diwan told *businessline* that the collaboration will support growers with solutions that will tap the plant's potential, optimise resource use and build long-term agronomic resilience.

The partnership will directly benefit farmers by delivering improved productivity from the same quantity of fertiliser input. The collaboration with The Mosaic Company will facilitate easier integration of BioPrime's biological additives into fertiliser sachets and formulations.

7 GRADES VALIDATED

The bio additives are developed as powders compatible with existing fertilizer production infrastructure, allowing easy coating without altering regulatory nutrient profiles, said the company's co-founder and CEO. Diwan said seven fertilizer grades have been validated for integration, covering plant growth stages from vegetative to reproductive phases. The collaboration will be under a commercial agreement where Bioprime will supply ready-to-integrate bio additives, blended by Mosaic during fertilizer packaging. The crop performance system will simultaneously operate across multiple biological levers.

"We aim to improve fertilizer efficiency without increasing the farmer's overall fertiliser costs. The core objective is to help farmers achieve higher productivity, better nutrient absorption and improved outcomes from existing fertilizer usage," she said, adding they need not pay anything additional for this.

The goal will not be to en-

The partnership will directly benefit farmers by delivering improved productivity from the same quantity of fertilizer input

courage increased fertilizer dosage, but to maximise output from current input levels. BioPrime and The Mosaic Company carried out trials on farmers for two years before deciding to go ahead and launch the joint initiative, said Diwan.

The collaboration comes at a time when demand for sustainable agriculture is increasing amid disruptions to fertilizer supply. It will focus on farmer education, she said.

Diwan said the initiative aims to reflect the government's growing focus on biologicals amid fertilizer import and supply issues. It benefits beyond generic fertilizer use, focusing on nutrient use efficiency and plant health.

"The current fertilizer use efficiency in the country is estimated at approximately 20 per cent. Globally, it is 30 per cent, highlighting significant scope for optimisation," said the company's co-founder and CEO. BioPrime, powered by its proprietary SNIPRTM discovery platform, has been working on improving nutrient use efficiency (NUE) to ensure farmers derive greater benefits from fertilizer application.

COST PRESSURE

The collaboration with The Mosaic Company has strengthened this effort and accelerated commercialisation. Diwan said the collaboration comes at a time when farmers are facing increasing cost pressures and supply volatility across key agricultural inputs.

The BioPrime-Mosaic partnership is designed to advance a more ambitious thesis that fertilizers, integrated with advanced biological intelligence, can do far more than feed the plant, said the company's Co-founder and CEO.

UPL gets green light for Bioclassic in India

Our Bureau
Bengaluru

UPL, through its subsidiary SWAL, has secured a fertilizer control order (FCO) registration for Bioclassic, a flagship biostimulant from NPP. UPL's natural plant protection biologicals business. This milestone enables Bioclassic to become available to farmers across India, the company said in a statement.

Developed using a proprietary fermentation process, Bioclassic is formulated as a soluble concentrate.

The biostimulant is recommended for application twice during the vegetative stage at ultra-low dose rates to enhance key traits such as branching and photosynthesis. This drives resource accumulation, improves plant vigour, mitigates stress and contributes to incremental yield gains.

HIGH EFFICACY Bioclassic has demonstrated high efficacy under varied climatic and soil conditions during field trials.

This biostimulant is recommended for application with conventional sprayers

and, where permitted, can also be applied using drone-based platforms in accordance with applicable standard operating procedures. Ravishankar Cherukuri, CEO, UPL SAS, said, "Bio-

classic is designed to address the real-world stress conditions that Indian farmers frequently face — from extreme heat to the widespread challenge of high-alkaline soils across several States. Backed by scientific validation across geographies, Bioclassic's registration highlights the growing potential of biologicals to strengthen farm resilience. It also reaffirms our commitment to offer scientifically validated, compliant solutions that enhance long-term sustainability."

Anil Rohra, Global NPP Business Unit Leader, added, "Bioclassic is an integral part

of UPL's ProNutiva approach, that combines conventional crop protection solutions with advanced biosolutions to promote sustainable farming practices. By improving resource efficiency and supporting long-term crop health, Bioclassic can deliver significant value for oilseeds, pulses and vegetables."

In addition to Bioclassic, UPL has secured registration approvals for four more biostimulants — Opteine, Gaxy, Macarena and Pilatus — in India, marking a significant expansion of its biosolutions portfolio, the company said.

Crude above \$100 could trigger earnings downgrade cycle: SMC Global CEO Garg

Akshata Gorde
Mumbai

Ajay Garg, CEO, SMC Global

Rising oil prices and prolonged geopolitical tensions in West Asia could trigger a broader earnings downgrade cycle if Brent crude sustains above \$100 a barrel, Ajay Garg, CEO, SMC Global Securities, told *businessline*, warning that Indian markets are entering a phase of "sustained macro risk".

"Indian markets are correcting not just because crude is rising, but because the environment has shifted from benign risk to sustained macro risk," Garg said.

"What stands out this time is the duration and intensity, as there is still no clarity on stability around the Strait of Hormuz."

Higher crude prices are now directly feeding into do-

mestic inflation through fuel price hikes, while "policy signals around conserving forex, such as reducing gold imports and overseas spending, suggest that stress is becoming domestically transmitted, which markets tend to price more sharply," Garg said.

While a large part of the oil pressure has already been priced in since the conflict began in late February, India remains vulnerable to sustained high crude prices as a

net oil importer. "Higher fuel costs will pressure margins and keep inflation sticky. Consumption may soften, while sectors like aviation, paints, chemicals and OMCs remain the most vulnerable," he said.

Garg said Brent crude in the \$90-100 per barrel range remains manageable through deep price adjustments. However, if crude remains above \$100 for an extended period, "pressures on inflation, rupee and fiscal deficit begin to intensify", which could lead to a broader earnings downgrade cycle over the coming quarters.

CRUDE PRICES

Still the RBI has already factored in elevated crude prices, assuming an average of \$85 per barrel while projecting 6.9 per cent real GDP growth for FY27. Even if crude stays at \$95 per barrel, India's GDP growth is estim-

ated at 6.7 per cent for FY27.

Despite the near-term risks, he said Indian equities continue to command a premium valuation compared to most emerging markets, supported by resilient domestic fundamentals, retail inflows, improving manufacturing activity, infrastructure spending and the government's continued pro-growth policy stance.

Recent quarterly earnings have remained relatively stable, indicating that domestic demand conditions are still holding up, he said.

If the geopolitical situation stabilises, markets could recover as inflation fears ease and liquidity conditions improve.

"This phase could accelerate allocation toward energy transition themes like power, renewables, and EVs, turning a near-term headwind into a long-term opportunity," he said.

Maruti asks employees to limit travel, opt for work-from-home

Press Trust of India
New Delhi

Car market leader Maruti Suzuki India on Tuesday said it has taken steps, including work from home wherever feasible and restricted foreign travel, in response to Prime Minister Narendra Modi's call for austerity and the need to mitigate the long-term impact of the West Asia war.

In a post on social media

platform X, the company said it has "placed immense importance in the Hon'ble Prime Minister's clarion call for austerity as well as the need to mitigate the long-term impact of the West Asia war". The firm strongly feels whether it is during a crisis or business as usual, management should conduct business in the most efficient manner, minimising the use of petroleum products and foreign currency expenditure, it added.

GCC growth spreads beyond metros as tier-2 cities attract global enterprises

Our Bureau
Chennai

GCC growth has moved beyond metro hubs to tier-2 geographies with cities such as Navi Mumbai, Coimbatore, Bhubaneswar and Lucknow, among others, seeing traction for global enterprise expansion.

According to a report from GCC consulting firm ANSR, tier-2 cities now house over 220 of the 1,900 GCCs in India, while also hosting nearly 86,000 employees working in these organisations.

EMERGING CITIES

It suggested that these emerging cities are seeing a 11 per cent CAGR growth in GCCs

propelled by targeted policy initiatives like the Union Budget 2025's national guidance framework — the first coordinated, government-backed push to build GCC-ready ecosystems beyond the major metros.

The ready availability of STEM talent is also a contributing factor, with the report adding that these cities are recording a 44 per cent annual uptick in job openings while also having 20-30 per cent lower talent acquisition costs.

Competitive real estate economics with a 25-30 per cent lower grade A office rental benchmarks have also constituted sustained GCC activity.

"Emerging cities are no

longer alternatives to tier-1 metros. They are strategic complements within a more resilient and diversified operating model. The next chapter of India's GCC story will not be defined by concentration, but by distribution and the ability of enterprises to build agile, capability-led networks across a wider geographic canvas," said Smitha Hemmigae, Managing Director, ANSR.

CAPABILITY DIVIDE

The report also mentioned AI as a factor in the enablement of wider distributed GCC hubs by steadily narrowing the capability divide between tier-1 and tier-2 locations.
