- **Pan-India Capacity Expansion:** Initiated strategic plans to establish new biomass pellet manufacturing facilities across Uttar Pradesh, Karnataka, and Gujarat. This expansion **will add an aggregate capacity of approximately 500 TPD**, significantly strengthening the company's national footprint.
- **New O&M Project Commissioned:** Successfully secured and commenced operations for a new **40 TPH Boiler O&M project** in Jhagadia, Gujarat, **which is one of the India's biggest biomass-based boiler**. Further solidifying the company's presence in industrial utility management and biomass-based energy solutions.
- **Integrated Supply Chain Ecosystem:** Actively **developing a robust fuel supply and logistics network** designed to ensure uninterrupted biomass fuel availability for large industrial consumers and thermal power plants.
- **Diversified Renewable Platform:** Focused on building a scalable renewable energy platform with long-term growth visibility across key verticals, including **Biomass Manufacturing, Fuel Supply & Logistics, Boiler O&M, Thermic Fluid Heating Solutions, Ash Management Services, and Torrefied Biomass Technology**.
- **Socio-Economic Impact:** Upcoming expansion projects are projected to drive rural economic development by **creating significant "green" employment opportunities** across various rural and semi-urban regions.

### Management Commentary by Sagar Agrawal, Chairman and MD:

Shubhshree Biofuels Energy Limited continues to strengthen its position as one of India's leading biomass fuel companies through strategic expansion, operational excellence, and sustainable growth initiatives. With increasing focus on biomass manufacturing, fuel supply, Boiler O&M services, and advanced technologies such as torrefaction, we remain committed to supporting India's clean energy transition. Our vision is to build an integrated renewable energy platform that creates long-term value for stakeholders, generates rural employment, empowers farmers, and contributes meaningfully towards environmental sustainability and carbon emission reduction.
