T20 WORLD CUP

ICC pushes Bangladesh out, brings in Scotland

The decision follows Bangladesh's refusal to travel to India

PRESS TRUST OF INDIA
New Delhi, January 24

THE INTERNATIONAL CRICKET council (ICC) has pushed Bangladesh out of the upcoming T20 World Cup, bringing in Scotland after BCB refused to let its team travel to India citing security concerns in the wake of Mustafizur Rahman's ouster from the Indian Premier League (IPL).

Scotland's entry ended the month-long suspense after Bangladesh Cricket Board (BCB) repeatedly insisted that their matches be shifted to Sri Lanka and even suggested their group being swapped with Ireland. The Irish Cricket board, however, categorically dismissed the suggestion.

At the ICC Board meeting, Bangladesh were taken to the cleaners with an overwhelming 14-2 verdict in favour of the 'Tigers' travelling to India for their games. The ICC gave the BCB a 24-hour deadline to change its stance but with Asif Nazrul being adamant, the cricket crazy nation's hopes of

STANDOFF TO SHUTOFF

■ An ICC Board vote (14-2) backed India as host, giving Bangladesh 24 hours to reconsider their stance

■ BCB violated protocol by holding a press conference before officially responding

■ BCB faces losses including a \$500,000 participation fee & risks its annual revenue share

playing the T20 World Cup went up in smoke.

It has been learnt that top ICC officials including chairman Jay Shah were in Dubai on Friday and late evening an e-mail was sent to BCB chairman Aminul Islam Bulbul informing him about global body's decision.

An e-mail was sent last evening to Bangladesh Cricket Board chairman intimating him that his board didn't get back to ICC officially after the 24-hour deadline that was given to them to decide if they wanted to come to India," an ICC source told PTI on conditions of anonymity.

The BCB did a press conference in Dhaka before officially intimating the global body

which is a violation of protocol. They have been categorically told that they are being replaced. Scotland is the new team in the World Cup."

The ICC also intimated all the participating member nations separately about Bangladesh being dropped from the tournament.

Bangladesh Sports Ministry advisor Asif Nazrul had advised against national team travelling to India, citing security issues despite being given repeated assurances by the ICC.

Scotland will thus play their four group league games against West Indies (February 7), Italy (February 9) and England (February 14) in Kolkata fol-

lowed by a game against Nepal in Mumbai on February 17.

The BCB, in a desperate measure, had also approached the Dispute Resolution Committee (DRC) of the ICC, unaware about the terms of reference of the sub-committee which is not allowed to hear an appeal against a decision made by its own Board of Directors. The implications of this unceremonious ouster will also badly hit BCB's coffers.

The board will lose \$500,000 participation fee that each nation gets. But the bigger potential loss will be ICC's annual revenue.

The BCB annually receives close to \$27 million (330 crore BDT) as a share of its revenue from the ICC and that itself constitutes around 60% of its annual budget. Add to it, the loss of sponsorship money for not playing the tournament.

Last but not least, with India not now travelling to that part of the world for a bilateral series means BCB will lose money which would have been equal to playing 10 bilateral series against other nations. The only legal option that exists with BCB is to move to Court of Arbitration of Sports (CAS) in Lausanne but the tournament will still go on.

US special envoys in Israel over Gaza talks

REUTERS
Jerusalem, January 24

are less severe for us but more so for them, with critical but more limited support from the United States. In all cases, we will be honest but clear about the urgent need for them to do their part and that it is in their own interests to do so without delay," NDS 2026 said. This "increased burden-sharing" with US allies and "partners" is a clear message to India as well — that the US commitment to the Quad grouping of India, US, Australia and Japan is being put to test, if Delhi and other partners don't step up their end of the bargain.

Dominating the region is the clear focus in the NDS 2026 as it outlined its goals: "We will defend the Homeland and ensure that our interests in the Western Hemisphere are protected. We will deter China in the Indo-Pacific through strength, not confrontation. We will increase burden-sharing with allies and partners around the world. And we will rebuild the US defense industrial base as part of President Donald Trump's push to advance an Israel-Hamas ceasefire shaken by repeated violations.

The head of a transitional Palestinian committee backed by the US to temporarily administer Gaza, Ali Shaath, said on Thursday that the Rafah border crossing - effectively the sole route in or out of Gaza for nearly all of the more than 2 million people who live there - would open next week.

Israel wants to restrict the number of Palestinians entering Gaza through the border crossing with Egypt to ensure that more are allowed out than in, three sources said.

The US on Thursday announced plans for a "New Gaza" rebuilt from scratch, to include residential towers, data centres and seaside resorts, part of President Donald Trump's push to advance an Israel-Hamas ceasefire shaken by repeated violations.

Trump unveils new defence strategy, dials down on China

The roadmap makes homeland a priority; muscle in Indo-Pacific

SHUBHAJIT ROY
New Delhi, January 24

TAKING A SOFTER view on China and not referring to its perennial flashpoint Taiwan, the National Defence Strategy (NDS), released by Trump administration Friday flagged, as a key priority, its dominance in the Western hemisphere.

The NDS 2026, coming a month after the National Security Strategy, is sharply different from the NDS 2018 during Trump's first administration that had underlined how "China and Russia want to shape a world consistent with their authoritarian model".

In contrast, NDS 2026 said US will "deter China in the Indo-Pacific through strength, not confrontation".

"Our goal in doing so is not to dominate China; nor is it to strangle or humiliate them," NDS 2026 said. It added: "This does not require regime change or some other existential struggle... President Trump seeks a

stable peace, fair trade, and respectful relations with China."

The strategy frames how US sees its allies in the security project making it clear that its involvement will be calibrated based on its own "honest and clear" assessment of the challenge in tune with its interests.

"In the Indo-Pacific, where our allies share our desire for a free and open regional order, allies and partners' contributions will be vital to deterring and balancing China. In Europe and other theatres, allies will take the lead against threats that

are less severe for us but more so for them, with critical but more limited support from the United States. In all cases, we will be honest but clear about the urgent need for them to do their part and that it is in their own interests to do so without delay," NDS 2026 said. This "increased burden-sharing" with US allies and "partners" is a clear message to India as well — that the US commitment to the Quad grouping of India, US, Australia and Japan is being put to test, if Delhi and other partners don't step up their end of the bargain.

THE US IS in talks with Chevron, other crude producers and the world's biggest oil-field service providers about a plan to quickly revive output in Venezuela at a fraction of the estimated \$100 billion cost for a complete rebuilding.

Oilfield contractors such as SLB, Baker Hughes and Halliburton would focus their initial efforts on repairing or replacing damaged or outdated equipment and refreshing older drilling sites, according to senior administration officials.

The idea is that with limited investment, Venezuela could boost production by several hundred thousand barrels over the short term, the people said.

The go-fast approach is designed to fulfill the Trump administration's goal of swiftly increasing crude flows in the wake of the US capture of Venezuelan strongman Nicolas Maduro, generating cash that could be used to help pay for rebuilding the country.

Longer term, President Donald Trump's goal remains an industry revival that would bring output closer to the country's 1970 peak of roughly 3.75 million barrels per day from current production of less than 1 million.
