PhysicsWallah Q2 profit doubles to ₹142 cr

FE BUREAU
Bengaluru, November 4

PHYSICSWALLAH'S CONSOLIDATED NET profit doubled year-on-year to ₹142 crore in the quarter ended September 2026. Revenue from operations grew 18.2% to ₹1,242 crore, its highest in any quarter.

The Noida-based company's adjusted Ebitda rose to ₹399 crore from ₹270 crore, with the margin widening to 32.1% from 25.7%. Employee costs, excluding stock options, fell to 42.3% of revenue in the first half from 44.6% in the corresponding period of previous fiscal, and marketing spend to 9.4% from 10.6%, with AI now resolving 80% of student support queries, the company said.

Profit before tax more than doubled to ₹209 crore from ₹99 crore, after a ₹20 crore goodwill impairment booked as an exceptional item and a ₹10 crore fair-value gain. Other income, which includes interest on bank deposits, rose to ₹92 crore from ₹47 crore.

Online NEET enrolments grew 31% during the quarter as demand released after the NEET UG 2026 results, declared on July 16. Across the admission cycle, however, online NEET collections are about 7% below last year and enrolments about 13% lower, while offline NEET enrolments are about 8% lower, the company said. It attributed the shortfall to the shorter window for admissions after a month-long delay in results.

"We expect this gap to show in the full-year NEET numbers," the company said, adding that it expects to partly offset it through its K-12 and newer categories.

PhysicsWallah opened 56 offline centres in the first half against 128 a year ago, a slower pace than it had indicated at its IPO, the company said. It now plans to open 25-30 centres a year for the next two years and will focus on improving the economics of existing ones. It had 370 centres at the end of September, against 314 a year ago.

Total paid users rose 7% to 3.86 million in the first half, after growing 2.4% in the June quarter.

Unilever to invest €35 mn in R&D centres in India

VIVEAT SUSAN PINTO
Mumbai, November 4

UNILEVER IS STEPPING up its research and development (R&D) investments in India with an additional €35 million commitment to upgrade its Mumbai and Bengaluru facilities, as the consumer goods major looks to accelerate product innovation through artificial intelligence (AI), advanced science and strategic partnerships.

Announced on Wednesday, the investment will transform the company's Mumbai R&D centre into a next-generation Product Innovation Centre, while strengthening Bengaluru's position as a global science, technology and partnership hub.

The fresh investment builds on more than €20 million that Unilever has invested in its Indian R&D capabilities over the past five years. The company said its India operations are among its largest global research and development hubs, bringing together more than 800 scientists, researchers, digital specialists and designers.

Alongside the R&D centre investments, Unilever also will commit €5 million over the next five years towards a strategic Bio-Futures partnership in India.

The initiative will connect the company's global R&D network with India's growing bioscience ecosystem, bringing together scientific institutions, startups, infrastructure and talent. The partnership will focus on research and innovation across human biology, microbiome science, biotechnology, biomanufacturing and AI-enabled biology.

Commenting on the investment, Richard Slater, chief research and development officer at Unilever, said India is a critical global R&D centre for the company. The investment would bring together science, consumer insights, design, digital technology, AI and rapid prototyping to accelerate innovation, he added.

d) Exceptional items:

i. On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing labour laws into a unified framework governing employee benefits during employment and post-employment. The Ministry of Labour & Employment published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Company has assessed and disclosed the incremental financial impact of these changes on the basis of legal advise obtained and the best information currently available, consistent with the guidance provided by the Institute of Chartered Accountants of India. Considering the materiality and regulatory-driven, non-recurring nature of this impact, the Company has presented this incremental financial impact as "Statutory impact of new Labour Codes" under "Exceptional item" in the standalone and consolidated financial results for the quarter ended March 31, 2026. The incremental impact consisting of gratuity of INR 24 million (for the year ended March 31, 2026) primarily arises due to change in wage definition.
The Company continues to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effect on the basis of such developments as needed, if any on the measurement of liability pertaining to employee benefits."

ii. Pending completion of assessment proceedings, the total primary adjustment arising from the BAPA including advance tax, tax paid under protest, and provisions for these years continue to be carried in the Company's books. The tax impact of secondary adjustments, for which no provision or advance tax had previously been recorded, has been allocated between the Company and the Resulting Company in accordance with the Scheme of Demerger approved by Honourable National Company Law Tribunal (NCLT). The tax charge relating to such secondary adjustments, included in the incremental tax expense above, amounts to INR 88.8 million for the year ended March 31, 2026. During the previous quarter, the Company has filed the Modified Tax Returns for the financial years FY 2012-13 to FY 2020-21 under section 92CD of Income-tax Act, 1961 pursuant to BAPA and discharged its tax liabilities.

The Industrial Undertaking was demerged on a going concern basis, and on October 2, 2025, the Resulting Company allotted shares to the Demerged Company's shareholders in a 1:1 ratio. These shares of Resulting Company were listed on BSE and NSE on December 5, 2025.
The Management has accounted for the demerger in accordance with the accounting treatment specified in the sanctioned Scheme as a common control transaction wherein assets, liabilities and retained earnings have been transferred to the Resulting Company at their respective book values. In accordance with requirement of Ind AS 105, the financial results for the quarter ended September 30, 2025 and year ended March 31, 2026, have been re-presented to reflect the impact of the Scheme, with the Industrial Undertaking presented as discontinued operations. Consumers lap up festival offers on ecom platforms

PEERZADA ABRAR
Bengaluru, 4 November

Add to the cart

- Shopping volumes at Amazon's Great Indian Festival rose more than 50% from a year earlier
- **70%** of customer visits came from beyond metros
- A recent survey had projected that urban festive spending would fall about 6% this year
- Meesho saw 33% Y-o-Y net merchandise value growth over the comparable 90-day period before Dussehra
- The growth comes despite phones and appliances getting costlier because of high memory-chip prices and a weaker rupee
- EMI schemes helped fuel the shopping frenzy

Indian shoppers lapped up deals offered by ecommerce (ecom) giants Amazon and Flipkart, amid fears that consumers might stay away from shopping due to price increases and fewer discounts.

Shopping volumes at Amazon's Great Indian Festival (AGIF) rose more than 50 per cent from a year earlier. Some 70 per cent of customer visits came from beyond the metros, said the company.

Spending through EMIs (equated monthly instalments) rose 40 per cent, Amazon said. The surge runs counter to a LocalCircles survey that projected urban festive budgets would fall about 6 per cent.

Rival Flipkart's 13th edition of The Big Billion Days (TBBD) 2026 saw one in 15 of India's online shoppers visiting the platform in the first hour. Orders, units, and buyers each grew by approximately 20-22 per cent year-on-year (Y-o-Y). Nearly half of the buyers were GenZ, about 60 per cent of them came from Tier-II+ cities. Additionally, the number of beauty, grooming, and general merchandise buyers rose 40 per cent, said the company.

"It's a very broad-based demand that we are seeing," said Aman Deep Lohan, Amazon India's director for home, kitchen, and outdoors.

The AGIF, which opened to all customers at midnight on October 8, continues through Bhai Dooj on November 11. The event has attracted more than 3.93 billion shopper visits, setting new records across customer savings, sales, seller success, and delivery speed.

Lohan said brand partners across categories had planned their inventory and products well in advance for the AGIF.

The growth comes despite phones and appliances getting costlier this year because of high memory-chip prices and a weaker rupee.

The LocalCircles survey, based on over 67,000 responses from urban consumers, also projected that 83 per cent of households planning festive purchases would use savings to fund at least part of them. Also the use of EMI schemes has helped this time.

"The instant bank discounts, no-cost EMIs, and other affordability levers are seeing a huge spike in adoption. What this means is that customers are opting for these affordability levers to shop for the products that they have been waiting for," said Lohan.

Amazon said the AGIF has delivered the highest ever savings of over ₹2,800 crore.

Customers from nearly 4,500 pin codes shopped for two-wheelers, including premium models from Triumph and KTM. Fashion purchases by customers in Tier-II and Tier-III cities grew up to 23 per cent.

At Meesho, the festive season continues to highlight the growing depth of consumption across India, particularly in smaller cities and towns, the company said. Meesho this year recorded 33 per cent net merchandise value (NMV) growth over the comparable 90-day period preceding Dussehra last year.

"We are also seeing consumers expand their purchases beyond everyday essentials, with increasing demand for beauty, personal care, and other discretionary categories," Meesho said in its shareholder letter. Meesho Mall's NMV grew 89 per cent Y-o-Y in Tier-III+ cities during the second quarter of financial year 2026-27 (Q2FY27). "These trends reinforce the significant long-term opportunity for ecommerce as more consumers across Bharat come online and shop more frequently," the company said.

For Amazon, its ultra-fast delivery service Amazon Now emerged as a powerful gateway for new customers during AGIF, driving 23 times more first-time shoppers to Amazon India Y-o-Y.

Daily orders on Amazon Now grew 18 times Y-o-Y. Customers also chose higher-value products, with the average value of each product ordered increasing 30 per cent Y-o-Y. Amazon Now is now present in more than 120 cities, with over 800 micro-fulfilment centres.

d) Exceptional items:

i. On November 21, 2025, the Government of India notified the four Labour Codes - the Code on Wages, 2019, the Industrial Relations Code, 2020, the Code on Social Security, 2020, and the Occupational Safety, Health and Working Conditions Code, 2020 - consolidating 29 existing labour laws into a unified framework governing employee benefits during employment and post-employment. The Ministry of Labour & Employment published draft Central Rules and FAQs to enable assessment of the financial impact due to changes in regulations. The Company has assessed and disclosed the incremental financial impact of these changes on the basis of legal advise obtained and the best information currently available, consistent with the guidance provided by the Institute of Chartered Accountants of India. Considering the materiality and regulatory-driven, non-recurring nature of this impact, the Company has presented this incremental financial impact as "Statutory impact of new Labour Codes" under "Exceptional item" in the standalone and consolidated financial results for the quarter ended March 31, 2026. The incremental impact consisting of gratuity of INR 24 million (for the year ended March 31, 2026) primarily arises due to change in wage definition.
The Company continues to monitor the finalisation of Central / State Rules and clarifications from the Government on other aspects of the Labour Code and would provide appropriate accounting effect on the basis of such developments as needed, if any on the measurement of liability pertaining to employee benefits."

ii. Pending completion of assessment proceedings, the total primary adjustment arising from the BAPA including advance tax, tax paid under protest, and provisions for these years continue to be carried in the Company's books. The tax impact of secondary adjustments, for which no provision or advance tax had previously been recorded, has been allocated between the Company and the Resulting Company in accordance with the Scheme of Demerger approved by Honourable National Company Law Tribunal (NCLT). The tax charge relating to such secondary adjustments, included in the incremental tax expense above, amounts to INR 88.8 million for the year ended March 31, 2026. During the previous quarter, the Company has filed the Modified Tax Returns for the financial years FY 2012-13 to FY 2020-21 under section 92CD of Income-tax Act, 1961 pursuant to BAPA and discharged its tax liabilities.

e) The Company had received the NCLT Order dated September 26, 2025, approving the Scheme of Arrangement between SKF India Limited ("Demerged Company") and SKF India (Industrial) Limited ("Resulting Company"), effective October 1, 2025. Post-scheme, the Resulting Company ceased to be a subsidiary.
The Industrial Undertaking was demerged on a going concern basis, and on October 2, 2025, the Resulting Company allotted shares to the Demerged Company's shareholders in a 1:1 ratio. These shares of Resulting Company were listed on BSE and NSE on December 5, 2025.
The Management has accounted for the demerger in accordance with the accounting treatment specified in the sanctioned Scheme as a common control transaction wherein assets, liabilities and retained earnings have been transferred to the Resulting Company at their respective book values. In accordance with requirement of Ind AS 105, the financial results for the quarter ended September 30, 2025 and year ended March 31, 2026, have been re-presented to reflect the impact of the Scheme, with the Industrial Undertaking presented as discontinued operations.
