MANAGEMENT COMMENTARY

Sujeeth Pai, MD, SKF India (Industrial) Limited, said,

"Our Q2 performance reflects strong industrial demand and disciplined execution of our strategy. Revenue grew 7.4% sequentially to Rs. 10,428.6 million, while PBT increased 54.6%, strengthening PBT margin to 12.9%.

Customer proximity, deeper localisation and application-led innovation remain our priorities for sustaining profitable growth. Looking ahead, our ambition is to enable a more reliable, efficient and competitive Indian industry, creating lasting value for customers and shareholders.

India's industrial and infrastructure story is in its early chapters, and SKF India (Industrial) is built to grow with it."

STRATEGIC OUTLOOK

SKF India (Industrial)'s long-term direction is to align its manufacturing footprint and technology capabilities with the evolving needs of India's industrial and infrastructure sectors. Its planned investments, including the 'Factory of the Future' in Pune, anchor this approach, supporting the

company's growth ambitions beyond the current financial year. As a focused industrial business, SKF aims to build a stronger foundation for sustained revenue growth and long-term margin expansion.

About SKF

Since 1907, SKF has been making some of the world's most innovative bearings, seals, lubrication systems, condition monitoring solutions, and services to reduce friction. Less friction means more energy saved and by reducing it, we make industry smarter, more competitive, and more energy efficient, building a more sustainable future where we can all do more with less. SKF is represented in approximately 130 countries and has around 17,000 distributor locations worldwide. Annual sales in 2025 were SEK 91,583 million and the number of employees was 37,271.
