PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

BMW to hike prices, 4th time this year

- Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the ShinyHunters collective, currently among the most prolific cyber-crime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba , Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country.

Form PAS-1

[Pursuant to section 27(1) and rule7 (2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of special resolution for varying the terms of any contract referred to in the prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

Any interested person may obtain the copy of the special resolution along with the explanatory statement free of charge at the registered office of the company or at the office of its Company Secretary Shri. Ikkurthi Chandramohan at cs@basilicfly.com or visit the website of the Company viz. https://basilicflystudio.com/investors for a copy of the same.

Sr. No.	Description of Resolution	Type of Resolution
1	To approve the change in designation of Mr. Sujeeth Pai (DIN – 07763929), from Whole-Time Director to Managing Director of the Company w.e.f. 1st September 2026 for a consecutive term of 5 (five) years and remuneration payable to him	Ordinary Resolution
2	To consider and approve the appointment of Mr. Mukund Vasudevan (DIN: 05146681) as a Non-Executive Director of the Company	Ordinary Resolution

The Postal Ballot Notice is available on Company's website at https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information. It is also available on the website of the stock exchanges where shares of the Company are listed i.e. BSE Limited (www.bseindia.com), National Stock Exchange of India Limited (www.nseindia.com) and on National Securities Depository Limited ("NSDL") website (www.evoting.nsdl.com).

Pursuant to and in accordance with the applicable MCA Circulars, the company has completed dispatch of the Postal Ballot Notice along with the explanatory statement thereto, through electronic mode only on **Friday, 11th September 2026** to those members whose names appeared in the Register of Members or in the List of Beneficial Owners as maintained by the Company or the Depositories, respectively, as on **Friday, 4th September 2026 (the "Cut-off Date")** and whose e-mail addresses are registered with the Company or their respective Depository Participants.

The Members whose names appear in the Register of Members or List of Beneficial Owners as on the cut-off date are entitled to vote on resolutions as set forth in the postal ballot notice. The voting rights shall be reckoned in proportion to the paid-up equity shares held by members as on the cut-off date. A person who is not a member as on the cut-off date shall treat the postal ballot notice for information only.

In accordance with the MCA Circulars, Company has provided the facility to cast vote on the proposed resolution by remote e-voting only. For this purpose, the Company has engaged the services of **NSDL** for facilitating remote e-voting process to enable the members to cast their votes electronically.

Members are requested to provide their assent or dissent through e-voting only. The important details regarding the e-voting process are provided below:

Cut-off date for determining the Members entitled to vote (voting rights shall be in proportion to the Equity shares held as on this date)	**Friday, 4th September 2026**
Commencement of E-voting	**Wednesday, 16th September 2026 at 9:00 am (IST)**
End of E-voting	**Thursday, 15th October 2026, at 5:00 pm (IST)**
Scrutinizer's detail	**Mr. Jayavant B Bhave (Membership No. FCS 4266 / CP 3068) of M/s. J. B. Bhave & Co., Company Secretaries.**

The detailed procedure/ instructions for e-voting are provided in the postal ballot notice. The said notice also contains instructions about login credentials for members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s. The e-voting facility shall not be provided beyond the end of e-voting period, and the e-voting module shall be forthwith disabled by upon the expiry of the aforesaid period.

Manner of registering/updating e-mail address:

1. In respect of shares held in physical form, shareholders who want to register their email id, will need to ensure complete KYC compliance for their folio. Such shareholders can download the relevant forms i.e. Forms ISR-1, ISR-2, ISR-3, SH-13, SH-14, for registering/ changing KYC details from our RTA website at https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC. The above-mentioned forms along with the details viz, PAN of all the holders, address with PIN code, email address, Mobile No., Bank Account details of the first holder, specimen signature and nomination details by all holders of physical securities along with supporting documents can be sent to kyc1@in.mpms.mufg.com. In case such forms are sent through soft copy, e-signed documents would be required to be uploaded on our RTA's web portal, as per directions given on the portal.
2. In respect of Members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s, the notice contains all the instructions about login credentials.

The results of the postal ballot will be declared within prescribed timelines from the conclusion of e-voting. The results will be posted on the website of the Company (https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information) and that of NSDL (www.evoting.nsdl.com) and will also be intimated to the NSE and the BSE in accordance with the provisions of the SEBI LODR.

If you have any queries relating to remote e-voting, please refer to the Frequently Asked Question (FAQs) and e-voting user manual for Shareholders available at the Downloads section of www.evoting.nsdl.com or contact at toll free no. 022-4886 7000 or send a request at evoting@nsdl.com

On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

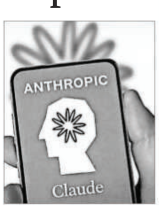
Anthropic said it also detected and disrupted activity linked to affiliates of the Shiny-Hunters collective, currently among the most prolific cyber-crime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.



In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country. — REUTERS

[Pursuant to section 27(1) and rule7 (2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of special resolution for varying the terms of any contract referred to in the prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

Any interested person may obtain the copy of the special resolution along with the explanatory statement free of charge at the registered office of the company or at the office of its Company Secretary Shri. NOTICE OF POSTAL BALLOT AND REMOTE E-VOTING TO MEMBERS

(Notice to the Members of the Company pursuant to Section 110 of the Companies Act, 2013, read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014 and applicable Circulars issued by Ministry of Corporate Affairs, Government of India, from time to time)

NOTICE is hereby given pursuant to and in compliance with the provisions of Section 108 and 110 and other applicable provisions, if any, of the Companies Act, 2013 (the **"Act"**), read with Rules 20 and 22 of the Companies (Management and Administration) Rules, 2014 (the **"Rules"**) and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**"SEBI LODR"**) as amended from time to time, read with the Secretarial Standard 2 issued by the Institute of Company Secretaries of India on General Meetings (SS-2) as amended from time to time, read with the General Circular Nos. 14/2020 dated 08th April 2020, 17/2020 dated 13th April 2020, and subsequent circulars issued in this regard, the latest being. 03/2025 dated 22nd September 2025 (**"MCA Circulars"**) and relevant circulars, issued by the Ministry of Corporate Affairs (MCA) and the Securities and Exchange Board of India ("SEBI Circulars"), and other applicable laws and regulations, as amended from time to time (including any statutory modification(s) or re-enactment thereof for the time being in force, SKF India (Industrial) Limited (**"the Company"**) is seeking approval from its members for passing of the following resolutions as set out in this Postal Ballot Notice by voting through electronic means (**"remote e-voting"**):

Sr. No.	Description of Resolution	Type of Resolution
1	To approve the change in designation of Mr. Sujeeth Pai (DIN – 07763929), from Whole-Time Director to Managing Director of the Company w.e.f. 1st September 2026 for a consecutive term of 5 (five) years and remuneration payable to him	Ordinary Resolution
2	To consider and approve the appointment of Mr. Mukund Vasudevan (DIN: 05146681) as a Non-Executive Director of the Company	Ordinary Resolution

The Postal Ballot Notice is available on Company's website at https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information. It is also available on the website of the stock exchanges where shares of the Company are listed i.e. BSE Limited (www.bseindia.com), National Stock Exchange of India Limited (www.nseindia.com) and on National Securities Depository Limited ("NSDL") website (www.evoting.nsdl.com).

Pursuant to and in accordance with the applicable MCA Circulars, the company has completed dispatch of the Postal Ballot Notice along with the explanatory statement thereto, through electronic mode only on **Friday, 11th September 2026** to those members whose names appeared in the Register of Members or in the List of Beneficial Owners as maintained by the Company or the Depositories, respectively, as on **Friday, 4th September 2026 (the "Cut-off Date")** and whose e-mail addresses are registered with the Company or their respective Depository Participants.

The Members whose names appear in the Register of Members or List of Beneficial Owners as on the cut-off date are entitled to vote on resolutions as set forth in the postal ballot notice. The voting rights shall be reckoned in proportion to the paid-up equity shares held by members as on the cut-off date. A person who is not a member as on the cut-off date shall treat the postal ballot notice for information only.

In accordance with the MCA Circulars, Company has provided the facility to cast vote on the proposed resolution by remote e-voting only. For this purpose, the Company has engaged the services of **NSDL** for facilitating remote e-voting process to enable the members to cast their votes electronically.

Members are requested to provide their assent or dissent through e-voting only. The important details regarding the e-voting process are provided below:

Cut-off date for determining the Members entitled to vote (voting rights shall be in proportion to the Equity shares held as on this date)	**Friday, 4th September 2026**
Commencement of E-voting	**Wednesday, 16th September 2026 at 9:00 am (IST)**
End of E-voting	**Thursday, 15th October 2026, at 5:00 pm (IST)**
Scrutinizer's detail	**Mr. Jayavant B Bhave (Membership No. FCS 4266 / CP 3068) of M/s. J. B. Bhave & Co., Company Secretaries.**

The detailed procedure/ instructions for e-voting are provided in the postal ballot notice. The said notice also contains instructions about login credentials for members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s. The e-voting facility shall not be provided beyond the end of e-voting period, and the e-voting module shall be forthwith disabled by upon the expiry of the aforesaid period.

Manner of registering/updating e-mail address:

1. In respect of shares held in physical form, shareholders who want to register their email id, will need to ensure complete KYC compliance for their folio. Such shareholders can download the relevant forms i.e. Forms ISR-1, ISR-2, ISR-3, SH-13, SH-14, for registering/ changing KYC details from our RTA website at https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC. The above-mentioned forms along with the details viz, PAN of all the holders, address with PIN code, email address, Mobile No., Bank Account details of the first holder, specimen signature and nomination details by all holders of physical securities along with supporting documents can be sent to kyc1@in.mpms.mufg.com. In case such forms are sent through soft copy, e-signed documents would be required to be uploaded on our RTA's web portal, as per directions given on the portal.
2. In respect of Members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s, the notice contains all the instructions about login credentials.

The results of the postal ballot will be declared within prescribed timelines from the conclusion of e-voting. The results will be posted on the website of the Company (https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information) and that of NSDL (www.evoting.nsdl.com) and will also be intimated to the NSE and the BSE in accordance with the provisions of the SEBI LODR.

If you have any queries relating to remote e-voting, please refer to the Frequently Asked Question (FAQs) and e-voting user manual for Shareholders available at the Downloads section of www.evoting.nsdl.com or contact at toll free no. 022-4886 7000 or send a request at evoting@nsdl.com

PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

BOOKINGS OPEN IN OCT

■ The GLC EV is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly

Mercedes-Benz India's overall EV penetration stood at **14%** last quarter

SANTOSH IYER,
MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

(The writer was in Stuttgart at the invitation of Mercedes Benz)

BMW to hike prices, 4th time this year

● Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

HOT WHEELS GET COSTLIER

■ BMW had raised prices by up to 3% in January 2026, followed by another hike of up to 2% in April

■ The third increase, of up to 2%, came into effect from July

■ In 2025, it raised prices by up to 3% from Jan 1 & up to 3% from Sept 1

■ Despite the hikes, BMW is witnessing strong demand in India, says CEO Hardeep Singh Brar

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

FROM THE FRONT PAGE

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the ShinyHunters collective, currently among the most prolific cybercrime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba , Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country.

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

NOTICE OF POSTAL BALLOT AND REMOTE E-VOTING TO MEMBERS

(Notice to the Members of the Company pursuant to Section 110 of the Companies Act, 2013, read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014 and applicable Circulars issued by Ministry of Corporate Affairs, Government of India, from time to time)

NOTICE is hereby given pursuant to and in compliance with the provisions of Section 108 and 110 and other applicable provisions, if any, of the Companies Act, 2013 (the **"Act"**), read with Rules 20 and 22 of the Companies (Management and Administration) Rules, 2014 (the **"Rules"**) and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**"SEBI LODR"**) as amended from time to time, read with the Secretarial Standard 2 issued by the Institute of Company Secretaries of India on General Meetings (SS-2) as amended from time to time, read with the General Circular Nos. 14/2020 dated 08th April 2020, 17/2020 dated 13th April 2020, and subsequent circulars issued in this regard, the latest being 03/2025 dated 22nd September 2025 (**"MCA Circulars"**) and relevant circulars, issued by the Ministry of Corporate Affairs (MCA) and the Securities and Exchange Board of India ("SEBI Circulars"), and other applicable laws and regulations, as amended from time to time (including any statutory modification(s) or re-enactment thereof for the time being in force, SKF India (Industrial) Limited (**"the Company"**) is seeking approval from its members for passing of the following resolutions as set out in this Postal Ballot Notice by voting through electronic means (**"remote e-voting"**):

Sr. No.	Description of Resolution	Type of Resolution
1	To approve the change in designation of Mr. Sujeeth Pai (DIN – 07763929), from Whole-Time Director to Managing Director of the Company w.e.f. 1st September 2026 for a consecutive term of 5 (five) years and remuneration payable to him	Ordinary Resolution
2	To consider and approve the appointment of Mr. Mukund Vasudevan (DIN: 05146681) as a Non-Executive Director of the Company	Ordinary Resolution

The Postal Ballot Notice is available on Company's website at https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information. It is also available on the website of the stock exchanges where shares of the Company are listed i.e. BSE Limited (www.bseindia.com), National Stock Exchange of India Limited (www.nseindia.com) and on National Securities Depository Limited ("NSDL") website (www.evoting.nsdl.com).

Pursuant to and in accordance with the applicable MCA Circulars, the company has completed dispatch of the Postal Ballot Notice along with the explanatory statement thereto, through electronic mode only on **Friday, 11th September 2026** to those members whose names appeared in the Register of Members or in the List of Beneficial Owners as maintained by the Company or the Depositories, respectively, as on **Friday, 4th September 2026 (the "Cut-off Date")** and whose e-mail addresses are registered with the Company or their respective Depository Participants.

The Members whose names appear in the Register of Members or List of Beneficial Owners as on the cut-off date are entitled to vote on resolutions as set forth in the postal ballot notice. The voting rights shall be reckoned in proportion to the paid-up equity shares held by members as on the cut-off date. A person who is not a member as on the cut-off date shall treat the postal ballot notice for information only.

In accordance with the MCA Circulars, Company has provided the facility to cast vote on the proposed resolution by remote e-voting only. For this purpose, the Company has engaged the services of **NSDL** for facilitating remote e-voting process to enable the members to cast their votes electronically.

Members are requested to provide their assent or dissent through e-voting only. The important details regarding the e-voting process are provided below:

Cut-off date for determining the Members entitled to vote (voting rights shall be in proportion to the Equity shares held as on this date)	**Friday, 4th September 2026**
Commencement of E-voting	**Wednesday, 16th September 2026 at 9:00 am (IST)**
End of E-voting	**Thursday, 15th October 2026, at 5:00 pm (IST)**
Scrutinizer's detail	**Mr. Jayavant B Bhave (Membership No. FCS 4266 / CP 3068) of M/s. J. B. Bhave & Co., Company Secretaries.**

The detailed procedure/ instructions for e-voting are provided in the postal ballot notice. The said notice also contains instructions about login credentials for members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s. The e-voting facility shall not be provided beyond the end of e-voting period, and the e-voting module shall be forthwith disabled by upon the expiry of the aforesaid period.

Manner of registering/updating e-mail address:

1. In respect of shares held in physical form, shareholders who want to register their email id, will need to ensure complete KYC compliance for their folio. Such shareholders can download the relevant forms i.e. Forms ISR-1, ISR-2, ISR-3, SH-13, SH-14, for registering/ changing KYC details from our RTA website at https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC. The above-mentioned forms along with the details viz, PAN of all the holders, address with PIN code, email address, Mobile No., Bank Account details of the first holder, specimen signature and nomination details by all holders of physical securities along with supporting documents can be sent to kyc1@in.mpms.mufg.com. In case such forms are sent through soft copy, e-signed documents would be required to be uploaded on our RTA's web portal, as per directions given on the portal.
2. In respect of Members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s, the notice contains all the instructions about login credentials.

The results of the postal ballot will be declared within prescribed timelines from the conclusion of e-voting. The results will be posted on the website of the Company (https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information) and that of NSDL (www.evoting.nsdl.com) and will also be intimated to the NSE and the BSE in accordance with the provisions of the SEBI LODR.

If you have any queries relating to remote e-voting, please refer to the Frequently Asked Question (FAQs) and e-voting user manual for Shareholders available at the Downloads section of www.evoting.nsdl.com or contact at toll free no. 022-4886 7000 or send a request at evoting@nsdl.com

PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

(The writer was in Stuttgart at the invitation of Mercedes Benz)

BOOKINGS OPEN IN OCT

■ The GLC EV is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly

Mercedes-Benz India's overall EV penetration stood at 14% last quarter

SANTOSH IYER, MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

BMW to hike prices, 4th time this year

● Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

HOT WHEELS GET COSTLIER

■ BMW had raised prices by up to 3% in January 2026, followed by another hike of up to 2% in April

■ The third increase, of up to 2%, came into effect from July

■ In 2025, it raised prices by up to 3% from Jan 1 & up to 3% from Sept 1

■ Despite the hikes, BMW is witnessing strong demand in India, says CEO Hardeep Singh Brar

FROM THE FRONT PAGE

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the ShinyHunters collective, currently among the most prolific cyber-crime enterprises, which is linked to attacks on major corporations around the world.

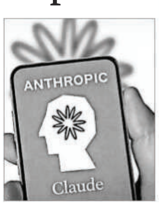
Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country. — REUTERS



In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information

[Pursuant to section 27(1) and rule7 (2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of special resolution for varying the terms of any contract referred to in the prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

SANTOSH IYER, MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

BMW to hike prices, 4th time this year

● Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its core businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulatory changes aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the ShinyHunters collective, currently among the most prolific cybercrime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country. **— REUTERS**

[Pursuant to section 27(1) and rule7 (2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of special resolution for varying the terms of any contract referred to in the prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

Any interested person may obtain the copy of the special resolution along with the explanatory statement free of charge at the registered office of the company or at the office of its Company Secretary Shri. PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

BOOKINGS OPEN IN OCT

■ The GLC EV is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly

Mercedes-Benz India's overall EV penetration stood at 14% last quarter

SANTOSH IYER, MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the ShinyHunters collective, currently among the most prolific cybercrime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country.

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

NOTICE OF POSTAL BALLOT AND REMOTE E-VOTING TO MEMBERS

(Notice to the Members of the Company pursuant to Section 110 of the Companies Act, 2013, read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014 and applicable Circulars issued by Ministry of Corporate Affairs, Government of India, from time to time)

NOTICE is hereby given pursuant to and in compliance with the provisions of Section 108 and 110 and other applicable provisions, if any, of the Companies Act, 2013 (the **"Act"**), read with Rules 20 and 22 of the Companies (Management and Administration) Rules, 2014 (the **"Rules"**) and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**"SEBI LODR"**) as amended from time to time, read with the Secretarial Standard 2 issued by the Institute of Company Secretaries of India on General Meetings (SS-2) as amended from time to time, read with the General Circular Nos. 14/2020 dated 08th April 2020, 17/2020 dated 13th April 2020, and subsequent circulars issued in this regard, the latest being, 03/2025 dated 22nd September 2025 (**"MCA Circulars"**) and relevant circulars, issued by the Ministry of Corporate Affairs (MCA) and the Securities and Exchange Board of India ("SEBI Circulars"), and other applicable laws and regulations, as amended from time to time (including any statutory modification(s) or re-enactment thereof for the time being in force, SKF India (Industrial) Limited (**"the Company"**) is seeking approval from its members for passing of the following resolutions as set out in this Postal Ballot Notice by voting through electronic means (**"remote e-voting"**):

Sr. No.	Description of Resolution	Type of Resolution
1	To approve the change in designation of Mr. Sujeeth Pai (DIN – 07763929), from Whole-Time Director to Managing Director of the Company w.e.f. 1st September 2026 for a consecutive term of 5 (five) years and remuneration payable to him	Ordinary Resolution
2	To consider and approve the appointment of Mr. Mukund Vasudevan (DIN: 05146681) as a Non-Executive Director of the Company	Ordinary Resolution

The Postal Ballot Notice is available on Company's website at https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information. It is also available on the website of the stock exchanges where shares of the Company are listed i.e. BSE Limited (www.bseindia.com), National Stock Exchange of India Limited (www.nseindia.com) and on National Securities Depository Limited ("NSDL") website (www.evoting.nsdl.com).

Pursuant to and in accordance with the applicable MCA Circulars, the company has completed dispatch of the Postal Ballot Notice along with the explanatory statement thereto, through electronic mode only on **Friday, 11th September 2026** to those members whose names appeared in the Register of Members or in the List of Beneficial Owners as maintained by the Company or the Depositories, respectively, as on **Friday, 4th September 2026 (the "Cut-off Date")** and whose e-mail addresses are registered with the Company or their respective Depository Participants.

The Members whose names appear in the Register of Members or List of Beneficial Owners as on the cut-off date are entitled to vote on resolutions as set forth in the postal ballot notice. The voting rights shall be reckoned in proportion to the paid-up equity shares held by members as on the cut-off date. A person who is not a member as on the cut-off date shall treat the postal ballot notice for information only.

In accordance with the MCA Circulars, Company has provided the facility to cast vote on the proposed resolution by remote e-voting only. For this purpose, the Company has engaged the services of **NSDL** for facilitating remote e-voting process to enable the members to cast their votes electronically.

Members are requested to provide their assent or dissent through e-voting only. The important details regarding the e-voting process are provided below:

Cut-off date for determining the Members entitled to vote (voting rights shall be in proportion to the Equity shares held as on this date)	**Friday, 4th September 2026**
Commencement of E-voting	**Wednesday, 16th September 2026 at 9:00 am (IST)**
End of E-voting	**Thursday, 15th October 2026, at 5:00 pm (IST)**
Scrutinizer's detail	**Mr. Jayavant B Bhave (Membership No. FCS 4266 / CP 3068) of M/s. J. B. Bhave & Co., Company Secretaries.**

The detailed procedure/ instructions for e-voting are provided in the postal ballot notice. The said notice also contains instructions about login credentials for members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s. The e-voting facility shall not be provided beyond the end of e-voting period, and the e-voting module shall be forthwith disabled by upon the expiry of the aforesaid period.

Manner of registering/updating e-mail address:

1. In respect of shares held in physical form, shareholders who want to register their email id, will need to ensure complete KYC compliance for their folio. Such shareholders can download the relevant forms i.e. Forms ISR-1, ISR-2, ISR-3, SH-13, SH-14, for registering/ changing KYC details from our RTA website at https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC. The above-mentioned forms along with the details viz, PAN of all the holders, address with PIN code, email address, Mobile No., Bank Account details of the first holder, specimen signature and nomination details by all holders of physical securities along with supporting documents can be sent to kyc1@in.mpms.mufg.com. In case such forms are sent through soft copy, e-signed documents would be required to be uploaded on our RTA's web portal, as per directions given on the portal.
2. In respect of Members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s, the notice contains all the instructions about login credentials.

The results of the postal ballot will be declared within prescribed timelines from the conclusion of e-voting. The results will be posted on the website of the Company (https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information) and that of NSDL (www.evoting.nsdl.com) and will also be intimated to the NSE and the BSE in accordance with the provisions of the SEBI LODR.

If you have any queries relating to remote e-voting, please refer to the Frequently Asked Question (FAQs) and e-voting user manual for Shareholders available at the Downloads section of www.evoting.nsdl.com or contact at toll free no. 022-4886 7000 or send a request at evoting@nsdl.com

PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

(The writer was in Stuttgart at the invitation of Mercedes Benz)

BOOKINGS OPEN IN OCT

■ The GLC EV is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly

Mercedes-Benz India's overall EV penetration stood at **14%** last quarter

SANTOSH IYER, MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which by itself is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

BMW to hike prices, 4th time this year

● Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

HOT WHEELS GET COSTLIER

■ BMW had raised prices by up to 3% in January 2026, followed by another hike of up to 2% in April

■ The third increase, of up to 2%, came into effect from July

■ In 2025, it raised prices by up to 3% from Jan 1 & up to 3% from Sept 1

■ Despite the hikes, BMW is witnessing strong demand in India, says CEO Hardeep Singh Brar

FROM THE FRONT PAGE

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the Shiny-Hunters collective, currently among the most prolific cyber-crime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources. considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

NOTICE OF POSTAL BALLOT AND REMOTE E-VOTING TO MEMBERS

(Notice to the Members of the Company pursuant to Section 110 of the Companies Act, 2013, read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014 and applicable Circulars issued by Ministry of Corporate Affairs, Government of India, from time to time)

NOTICE is hereby given pursuant to and in compliance with the provisions of Section 108 and 110 and other applicable provisions, if any, of the Companies Act, 2013 (the **"Act"**), read with Rules 20 and 22 of the Companies (Management and Administration) Rules, 2014 (the **"Rules"**) and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**"SEBI LODR"**) as amended from time to time, read with the Secretarial Standard 2 issued by the Institute of Company Secretaries of India on General Meetings (SS-2) as amended from time to time, read with the General Circular Nos. 14/2020 dated 08th April 2020, 17/2020 dated 13th April 2020, and subsequent circulars issued in this regard, the latest being. 03/2025 dated 22nd September 2025 (**"MCA Circulars"**) and relevant circulars, issued by the Ministry of Corporate Affairs (MCA) and the Securities and Exchange Board of India ("SEBI Circulars"), and other applicable laws and regulations, as amended from time to time (including any statutory modification(s) or re-enactment thereof for the time being in force, SKF India (Industrial) Limited (**"the Company"**) is seeking approval from its members for passing of the following resolutions as set out in this Postal Ballot Notice by voting through electronic means (**"remote e-voting"**):

Sr. No.	Description of Resolution	Type of Resolution
1	To approve the change in designation of Mr. Sujeeth Pai (DIN – 07763929), from Whole-Time Director to Managing Director of the Company w.e.f. 1st September 2026 for a consecutive term of 5 (five) years and remuneration payable to him	Ordinary Resolution
2	To consider and approve the appointment of Mr. Mukund Vasudevan (DIN: 05146681) as a Non-Executive Director of the Company	Ordinary Resolution

The Postal Ballot Notice is available on Company's website at https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information. It is also available on the website of the stock exchanges where shares of the Company are listed i.e. BSE Limited (www.bseindia.com), National Stock Exchange of India Limited (www.nseindia.com) and on National Securities Depository Limited ("NSDL") website (www.evoting.nsdl.com).

Pursuant to and in accordance with the applicable MCA Circulars, the company has completed dispatch of the Postal Ballot Notice along with the explanatory statement thereto, through electronic mode only on **Friday, 11th September 2026** to those members whose names appeared in the Register of Members or in the List of Beneficial Owners as maintained by the Company or the Depositories, respectively, as on **Friday, 4th September 2026 (the "Cut-off Date")** and whose e-mail addresses are registered with the Company or their respective Depository Participants.

The Members whose names appear in the Register of Members or List of Beneficial Owners as on the cut-off date are entitled to vote on resolutions as set forth in the postal ballot notice. The voting rights shall be reckoned in proportion to the paid-up equity shares held by members as on the cut-off date. A person who is not a member as on the cut-off date shall treat the postal ballot notice for information only.

In accordance with the MCA Circulars, Company has provided the facility to cast vote on the proposed resolution by remote e-voting only. For this purpose, the Company has engaged the services of **NSDL** for facilitating remote e-voting process to enable the members to cast their votes electronically.

Members are requested to provide their assent or dissent through e-voting only. The important details regarding the e-voting process are provided below:

Cut-off date for determining the Members entitled to vote (voting rights shall be in proportion to the Equity shares held as on this date)	**Friday, 4th September 2026**
Commencement of E-voting	**Wednesday, 16th September 2026 at 9:00 am (IST)**
End of E-voting	**Thursday, 15th October 2026, at 5:00 pm (IST)**
Scrutinizer's detail	**Mr. Jayavant B Bhave (Membership No. FCS 4266 / CP 3068) of M/s. J. B. Bhave & Co., Company Secretaries.**

The detailed procedure/ instructions for e-voting are provided in the postal ballot notice. The said notice also contains instructions about login credentials for members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s. The e-voting facility shall not be provided beyond the end of e-voting period, and the e-voting module shall be forthwith disabled by upon the expiry of the aforesaid period.

Manner of registering/updating e-mail address:

1. In respect of shares held in physical form, shareholders who want to register their email id, will need to ensure complete KYC compliance for their folio. Such shareholders can download the relevant forms i.e. Forms ISR-1, ISR-2, ISR-3, SH-13, SH-14, for registering/ changing KYC details from our RTA website at https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC. The above-mentioned forms along with the details viz, PAN of all the holders, address with PIN code, email address, Mobile No., Bank Account details of the first holder, specimen signature and nomination details by all holders of physical securities along with supporting documents can be sent to kyc1@in.mpms.mufg.com. In case such forms are sent through soft copy, e-signed documents would be required to be uploaded on our RTA's web portal, as per directions given on the portal.
2. In respect of Members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s, the notice contains all the instructions about login credentials.

The results of the postal ballot will be declared within prescribed timelines from the conclusion of e-voting. The results will be posted on the website of the Company (https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information) and that of NSDL (www.evoting.nsdl.com) and will also be intimated to the NSE and the BSE in accordance with the provisions of the SEBI LODR.

If you have any queries relating to remote e-voting, please refer to the Frequently Asked Question (FAQs) and e-voting user manual for Shareholders available at the Downloads section of www.evoting.nsdl.com or contact at toll free no. 022-4886 7000 or send a request at evoting@nsdl.com

PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

(The writer was in Stuttgart at the invitation of Mercedes Benz)

BOOKINGS OPEN IN OCT

■ The GLC EV is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly

Mercedes-Benz India's overall EV penetration stood at 14% last quarter

SANTOSH IYER,
MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

BMW to hike prices, 4th time this year

● Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

HOT WHEELS GET COSTLIER

■ BMW had raised prices by up to 3% in January 2026, followed by another hike of up to 2% in April

■ The third increase, of up to 2%, came into effect from July

■ In 2025, it raised prices by up to 3% from Jan 1 & up to 3% from Sept 1

■ Despite the hikes, BMW is witnessing strong demand in India, says CEO Hardeep Singh Brar

FROM THE FRONT PAGE

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the ShinyHunters collective, currently among the most prolific cybercrime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country. — REUTERS

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information

[Pursuant to section 27(1) and rule7 (2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of special resolution for varying the terms of any contract referred to in the prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

BMW to hike prices, 4th time this year

● Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the Shiny-Hunters collective, currently among the most prolific cybercrime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude models' capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country.

[Pursuant to section 27(1) and rule7 (2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of special resolution for varying the terms of any contract referred to in the prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

Any interested person may obtain the copy of the special resolution along with the explanatory statement free of charge at the registered office of the company or at the office of its Company Secretary Shri. PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

BOOKINGS OPEN IN OCT

■ The GLC EV is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly

Mercedes-Benz India's overall EV penetration stood at **14%** last quarter

SANTOSH IYER, MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

FM: Need stronger guardrails against...

However, Sitharaman cautioned that greater speed can also accelerate failures and vulnerabilities. "When decisions and transactions become instantaneous, software errors, fraud, and market shocks can spread at the same rapid pace," she said.

Terming AI a "double-edged sword", she said the technology can help detect fraud faster while simultaneously enabling attackers to automate larger and more sophisticated cyber-attacks. The emergence of quantum computing also means traditional security and encryption systems will need to be upgraded before existing defences become obsolete.

"Our goal should be neither to block innovation out of fear nor to let speed compromise safety," Sitharaman said. Instead, she called for a distinction between unnecessary operational friction and safeguards that are essential to protecting financial and technological systems.

"The policy challenge is straightforward: Can we build systems that are fast yet accountable, autonomous yet reversible when mistakes occur, and innovative without diluting consumer trust?" she asked.

Sitharaman stressed that responsibility for AI cannot be left solely to technology teams. "AI may assist judgement, but responsibility must remain human and institutional," she said, adding that the more serious the consequences of a decision, the greater the need for review, explanation and appeal.

She also called for closer coordination among financial regulators, competition authorities, data-protection bodies and cybersecurity agencies, warning that activities should not escape oversight simply because they operate across sectors or through technology platforms. On the broader fintech ecosystem, Sitharaman said India must combine innovation with stronger standards and responsible growth. "Where the regulator's writ ends, your own standards must begin," she said.

She urged the industry to measure success not only through users, transactions and valuations, but also through "the trust we earn, the problems we solve, and the resilience we build".

"We need to allow technology to move. Allow innovation to accelerate. But we cannot allow the human element—the ability to question, correct, restrain and take responsibility—to be lost along the way," Sitharaman added.

NSE IPO: Shares priced at ₹1,700-1,785

Highlighting NSE's technology capabilities, he said the exchange operates with response times of 500-800 nanoseconds and has built systems around continuous availability. "Many organisations can't measure that, let alone offer services," he said.

State Bank of India made the largest reduction, cutting its offer to 15.97 million shares from 24.75 million earlier, while MS Strategic (Mauritius) reduced its offer to 11.87 million shares from 16 million.

Other domestic shareholders, including Bank of Baroda, Stock Holding Corporation of India and General Insurance Corporation of India, also substantially reduced the number of shares offered from more than 10 million each to around 6-7 million.

Chauhan said that long-time investors had indicated a higher quantum of shares to be sold at the time of filing papers earlier this year, but the same got reduced as some may want to gain from the upside in the future. The final prospectus also added SBI Capital Markets as a selling shareholder, with an offer of 8.78 million shares, while National Insurance Company will no longer participate in the OFS.

NSE's dominance in Indian equities remains a key pillar of its business. In Q1FY27, the exchange commanded a 93.05% market share in the cash market and 99.72% in equity futures. Its share in equity options stood at 68.48%. Beyond its existing businesses, the exchange is also looking at growth opportunities from electronic gold receipts and its subsidiaries.

The exchange's rapid growth over the past several years has been driven partly by the surge in derivatives trading. Its revenue more than doubled between FY19 and FY26 to around ₹18,700 crore. NSE reported a profit of ₹10,300 crore in FY26, though this was 15% lower than the previous year.

The management expressed confidence that the exchange would continue to grow despite the recent decline in derivatives volumes amid regulatory changes, volatility following the introduction of the closing auction session and an increase in securities transaction tax (STT).

"In the long run, India's growth, India's demographics, technological adoption will prevail. What you see is a short-term blip," Chauhan said.

He added that regulations aimed at protecting investors would ultimately support greater participation in the markets. "If the regulator makes those regulations which are in favour of investors, then naturally more investors come in, and that's what we have seen," he said.

The management cited NSE's industry leadership, long-term earnings growth, rising incomes supporting greater participation in capital markets and a stable dividend distribution track record as factors underpinning its growth prospects.

Anthropic flags bids to use AI to build biological weapons

Anthropic said it also detected and disrupted activity linked to affiliates of the ShinyHunters collective, currently among the most prolific cybercrime enterprises, which is linked to attacks on major corporations around the world.

Anthropic said it had disrupted attacks from seven China-based labs including Alibaba, Moonshot, DeepSeek and Xiaomi during the period covered by the report.

These companies did not immediately respond to a request for comment.

Operators it linked to Alibaba ran what Anthropic called the largest "illicit distillation" attack, allegedly aimed at extracting the Claude model's capabilities and using them to improve the Chinese tech firm's Qwen models.

Distillation refers to the process of training smaller AI models using output from larger, more expensive models in a bid to lower the costs of training a new AI tool.

In another misuse of its technology, Anthropic said Kimi chatbot creator Moonshot and DeepSeek allegedly routed live customer conversations, which sometimes included sensitive information, through Claude and used its responses as training data. China's foreign ministry said it was not aware of the Anthropic report and that the government maintains that AI should be developed for good and opposes distortion of facts and smears against the country.

[Pursuant to section 27(1) and rule7 (2) of Companies (Prospectus and Allotment of Securities) Rules, 2014]

Advertisement giving details of notice of special resolution for varying the terms of any contract referred to in the prospectus or altering the objects for which the prospectus was issued

Corporate Identification Number (CIN) : L92100TN2016PLC103861
Name of the Company : Basilic Fly Studio Limited
Registered office Address : Tower A, KRC Commerzone, Mount Poonamallee Road, Porur, Chennai, Tamil Nadu 600116, India.

Public Notice

Notice is hereby given that by a resolution dated 14th August, 2026 the Board has proposed to vary the terms of the contract referred to in the prospectus dated September 7, 2023 (or to alter the object(s) for which the prospectus dated September 7, 2023 was issued) issued in connection with Fresh Issue of 62,40,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 6052.80 Lakhs and Offer for Sale of 6,00,000 Equity Shares at an issue price of ₹ 97/- per Equity Share aggregating to ₹ 582.00 Lakhs.

In pursuance of the said resolution, further notice is given that for approving the said proposition, a special resolution is to be passed at the 10th Annual General Meeting of members of the Company scheduled to be held on Monday, September 28, 2026 at 3.00 P.M (IST) through Video Conferencing / Other Audio Visual Means ("VC/ OAVM").

The details regarding such variation/alteration are as follows :

1) Particulars of the terms of the contract to be varied (or objects to be altered) :

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

NOTICE OF POSTAL BALLOT AND REMOTE E-VOTING TO MEMBERS

(Notice to the Members of the Company pursuant to Section 110 of the Companies Act, 2013, read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014 and applicable Circulars issued by Ministry of Corporate Affairs, Government of India, from time to time)

NOTICE is hereby given pursuant to and in compliance with the provisions of Section 108 and 110 and other applicable provisions, if any, of the Companies Act, 2013 (the **"Act"**), read with Rules 20 and 22 of the Companies (Management and Administration) Rules, 2014 (the **"Rules"**) and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**"SEBI LODR"**) as amended from time to time, read with the Secretarial Standard 2 issued by the Institute of Company Secretaries of India on General Meetings (SS-2) as amended from time to time, read with the General Circular Nos. 14/2020 dated 08th April 2020, 17/2020 dated 13th April 2020, and subsequent circulars issued in this regard, the latest being. 03/2025 dated 22nd September 2025 (**"MCA Circulars"**) and relevant circulars, issued by the Ministry of Corporate Affairs (MCA) and the Securities and Exchange Board of India ("SEBI Circulars"), and other applicable laws and regulations, as amended from time to time (including any statutory modification(s) or re-enactment thereof for the time being in force, SKF India (Industrial) Limited (**"the Company"**) is seeking approval from its members for passing of the following resolutions as set out in this Postal Ballot Notice by voting through electronic means (**"remote e-voting"**):

Sr. No.	Description of Resolution	Type of Resolution
1	To approve the change in designation of Mr. Sujeeth Pai (DIN – 07763929), from Whole-Time Director to Managing Director of the Company w.e.f. 1st September 2026 for a consecutive term of 5 (five) years and remuneration payable to him	Ordinary Resolution
2	To consider and approve the appointment of Mr. Mukund Vasudevan (DIN: 05146681) as a Non-Executive Director of the Company	Ordinary Resolution

The Postal Ballot Notice is available on Company's website at https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information. It is also available on the website of the stock exchanges where shares of the Company are listed i.e. BSE Limited (www.bseindia.com), National Stock Exchange of India Limited (www.nseindia.com) and on National Securities Depository Limited ("NSDL") website (www.evoting.nsdl.com).

Pursuant to and in accordance with the applicable MCA Circulars, the company has completed dispatch of the Postal Ballot Notice along with the explanatory statement thereto, through electronic mode only on **Friday, 11th September 2026** to those members whose names appeared in the Register of Members or in the List of Beneficial Owners as maintained by the Company or the Depositories, respectively, as on **Friday, 4th September 2026 (the "Cut-off Date")** and whose e-mail addresses are registered with the Company or their respective Depository Participants.

The Members whose names appear in the Register of Members or List of Beneficial Owners as on the cut-off date are entitled to vote on resolutions as set forth in the postal ballot notice. The voting rights shall be reckoned in proportion to the paid-up equity shares held by members as on the cut-off date. A person who is not a member as on the cut-off date shall treat the postal ballot notice for information only.

In accordance with the MCA Circulars, Company has provided the facility to cast vote on the proposed resolution by remote e-voting only. For this purpose, the Company has engaged the services of **NSDL** for facilitating remote e-voting process to enable the members to cast their votes electronically.

Members are requested to provide their assent or dissent through e-voting only. The important details regarding the e-voting process are provided below:

Cut-off date for determining the Members entitled to vote (voting rights shall be in proportion to the Equity shares held as on this date)	**Friday, 4th September 2026**
Commencement of E-voting	**Wednesday, 16th September 2026 at 9:00 am (IST)**
End of E-voting	**Thursday, 15th October 2026, at 5:00 pm (IST)**
Scrutinizer's detail	**Mr. Jayavant B Bhave (Membership No. FCS 4266 / CP 3068) of M/s. J. B. Bhave & Co., Company Secretaries.**

The detailed procedure/ instructions for e-voting are provided in the postal ballot notice. The said notice also contains instructions about login credentials for members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s. The e-voting facility shall not be provided beyond the end of e-voting period, and the e-voting module shall be forthwith disabled by upon the expiry of the aforesaid period.

Manner of registering/updating e-mail address:

1. In respect of shares held in physical form, shareholders who want to register their email id, will need to ensure complete KYC compliance for their folio. Such shareholders can download the relevant forms i.e. Forms ISR-1, ISR-2, ISR-3, SH-13, SH-14, for registering/ changing KYC details from our RTA website at https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC. The above-mentioned forms along with the details viz, PAN of all the holders, address with PIN code, email address, Mobile No., Bank Account details of the first holder, specimen signature and nomination details by all holders of physical securities along with supporting documents can be sent to kyc1@in.mpms.mufg.com. In case such forms are sent through soft copy, e-signed documents would be required to be uploaded on our RTA's web portal, as per directions given on the portal.
2. In respect of Members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s, the notice contains all the instructions about login credentials.

The results of the postal ballot will be declared within prescribed timelines from the conclusion of e-voting. The results will be posted on the website of the Company (https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information) and that of NSDL (www.evoting.nsdl.com) and will also be intimated to the NSE and the BSE in accordance with the provisions of the SEBI LODR.

If you have any queries relating to remote e-voting, please refer to the Frequently Asked Question (FAQs) and e-voting user manual for Shareholders available at the Downloads section of www.evoting.nsdl.com or contact at toll free no. 022-4886 7000 or send a request at evoting@nsdl.com

PRICED AT ₹80-85 LAKH, DELIVERIES BY THE END OF THIS YEAR

Mercedes beefs up its luxury SUV portfolio with GLC EV

AKBAR MERCHANT
Stuttgart (Germany), September 11

MERCEDES-BENZ INDIA IS betting on the new GLC EV to expand its luxury electric SUV presence in the country. The German carmaker is expecting the battery-electric version to account for half of the overall GLC sales.

The locally assembled (completely knocked down or CKD) GLC EV, priced at around ₹80-85 lakh, is also set to strengthen Mercedes-Benz India's electric vehicle portfolio with bookings expected to start next month and deliveries by the end of this year.

"The GLC EV will expand the overall GLC lineup, and I wouldn't be surprised if EV penetration in the GLC lineup reaches as high as 50%," Santosh Iyer, MD & CEO, Mercedes-Benz India, said.

At the price point, the GLC EV will currently be Mercedes-Benz India's most affordable locally assembled EV. The CLA EV, which is priced at around ₹59.5-60 lakh, is not available for sales until next year.

The company's locally produced EV portfolio currently comprises the EQS SUV which will be joined by the GLC EV.

The new launch is expected to attract a broader customer base than existing GLC customers looking to switch from an internal combustion engine (ICE) vehicle. This includes existing Mercedes-Benz owners who have the EQS, those who have booked the CLA, mass-market EV owners looking to upgrade to a luxury EV, as well as first-time luxury car buyers who want to enter the segment directly with an electric vehicle.

Mercedes-Benz India locally assembles both the EQS 450 and EQS 580 while its Maybach version continues to be imported as a completely built unit (CBU).

The upcoming GLC EV also marks a significant reduction in Mercedes' localisation timeline. The model is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly.

(The writer was in Stuttgart at the invitation of Mercedes Benz)

BOOKINGS OPEN IN OCT

■ The GLC EV is being launched in India within six-seven months of its global debut, compared with the company's usual 12-15 months for local assembly

Mercedes-Benz India's overall EV penetration stood at **14%** last quarter

SANTOSH IYER, MD & CEO, MERCEDES-BENZ INDIA

The timeline taken for local production has been crunched significantly, which is a record by itself

Demand is quite strong— it's mostly a matter of how well we can supply it

BMW to hike prices, 4th time this year

● Weakening Re, rising commodity costs behind move

NITIN KUMAR
New Delhi, September 11

BMW GROUP INDIA is considering another increase in vehicle prices by next month as the luxury carmaker faces continued pressure from a weakening rupee and rising commodity costs, including copper, President and CEO Hardeep Singh Brar said.

The company has already raised prices three times this calendar year, about 7% cumulatively, with another hike now being considered.

"We have increased prices about 4-5% till now and there is another one around the corner. So the prices will continue to go up for us because of pressure from forex, commodities, etc," Brar said.

The comments come soon after BMW launched its new 7 Series range on Friday, with both the BMW 740 M Sport and the locally produced BMW i7 priced at ₹1.95 crore (ex-showroom). The BMW i7 M70 xDrive, available as a completely built-up unit, is priced at ₹2.65 crore.

BMW had raised prices by up to 3% from January 2026, followed by another hike of up to 2% effective April and a third increase of up to 2% from July. The company had cited rising material and logistics costs and rupee depreciation for the revisions.

The latest move, if implemented, would mark BMW's fourth price revision in 2026, underscoring the continuing cost pressures facing luxury carmakers amid currency volatility and higher input costs.

In 2025, BMW had also raised prices by up to 3% from January 1, 2025, and up to 3% from September 1, 2025.

Despite the repeated price increases, BMW is witnessing strong demand in India, with the company growing at a strong double-digit rate even as the broader luxury car market outside BMW is declining, Brar said.

HOT WHEELS GET COSTLIER

■ BMW had raised prices by up to 3% in January 2026, followed by another hike of up to 2% in April

■ The third increase, of up to 2%, came into effect from July

■ In 2025, it raised prices by up to 3% from Jan 1 & up to 3% from Sept 1

■ Despite the hikes, BMW is witnessing strong demand in India, says CEO Hardeep Singh Brar

Sr. No	Original objects of the IPO as stated in the Prospectus	Amount unutilized as on June 30, 2026 (in Million)	Details of variation (New Object)	Amount to be Utilized Towards New Object	Proposed Time Limit
1.	Setting up studios at Salem and Hyderabad	214	Setting up new studio in Bengaluru with an approximate size of 11,000 square feet. It will have a seating capacity of approximately 150 employees	The total amount proposed to be utilised for the new object is Rs. 233 Mn. Out of the said amount, Rs. 214 Mn shall be utilised from the unutilised proceeds of the issue, and the balance amount of Rs. 19 Mn shall be met through a combination of internal accruals and other sources, considering the larger size of the new location.	All project activities and the proposed varied objects are scheduled to be fully carried out and achieved by March 2027.

2) Particulars of the proposed variation/alteration- Same As Above.

3) Reasons/justification for the variation-

• The Company had proposed to set up its studio operations across two separate locations at Salem and Hyderabad; however, no business has commenced at either of these locations. The fragmented presence across these locations restricts the Company's ability to consolidate its teams, equipment and facilities under one roof, leading to increased time and expense in the movement of manpower and resources. To overcome these challenges, the Company has identified a suitable facility at Bengaluru, where the studio operations can be consolidated under one integrated setup. This move will allow the Company to operate seamlessly from a single location, improving operational efficiency, reducing overheads and ensuring smoother coordination across departments. The proposed Bengaluru studio, having an approximate area of 11,000 sq. ft. with a seating capacity of approximately 150 employees, will alsoprovide adequate space for the Company's present requirements as well as future growth, while enabling better infrastructure planning, resource utilization and compliance management. Accordingly, the Board is of the view that the proposed variation is in the best interest of the Company and its shareholders, and recommends the same for Members' approval.

4) Effect of the proposed variation/alteration on the financial position of the company-

• The proposed alteration in the Objects of the Issue is not expected to have any adverse impact on the Company's existing revenue streams, cost structure, funding strategy, liquidity, or overall financial position. The alteration pertains solely to the reallocation of the un utilised Issue Proceeds and does not involve any change in the total size of the Issue. The total amount proposed to be utilised towards the revised object is 233 Mn, of which 214 Mn shall be funded from the un utilised Issue Proceeds. The balance amount of 19 Mn shall be financed through a combination of internal accruals and other available funding sources, considering the larger size of the proposed new location. Accordingly, while the proposed alteration results in an incremental investment of 19 Mn over the originally allocated amount, it is not expected to have any material adverse impact on the Company's earnings, cash flows, or financial stability.

5) Major Risk factors pertaining to the new Objects-

• The risk factors associated with the objects of the Issue remain consistent with those disclosed in the Prospectus dated September 7, 2023. The only change in the current variation pertains to the location of the proposed studio, from Salem and Hyderabad to Bengaluru, where the IPO proceeds are proposed to be utilized. This change does not materially impact the risk profile of the project or the Company's ability to implement the proposed object. Accordingly, no new risk factors have been identified, other than those already disclosed in the Prospectus dated September 7, 2023.

6) Names of Directors who voted against the proposed variation/alteration- Nil

A copy of the annual general meeting notice is available on the website of the Company and National Stock Exchange of India Limited (NSE)

Any interested person may obtain the copy of the special resolution along with the explanatory statement free of charge at the registered office of the company or at the office of its Company Secretary Shri. NOTICE OF POSTAL BALLOT AND REMOTE E-VOTING TO MEMBERS

(Notice to the Members of the Company pursuant to Section 110 of the Companies Act, 2013, read with Rule 20 and Rule 22 of the Companies (Management and Administration) Rules, 2014 and applicable Circulars issued by Ministry of Corporate Affairs, Government of India, from time to time)

NOTICE is hereby given pursuant to and in compliance with the provisions of Section 108 and 110 and other applicable provisions, if any, of the Companies Act, 2013 (the **"Act"**), read with Rules 20 and 22 of the Companies (Management and Administration) Rules, 2014 (the **"Rules"**) and Regulation 44 of the SEBI (Listing Obligations and Disclosure Requirements) Regulations, 2015 (**"SEBI LODR"**) as amended from time to time, read with the Secretarial Standard 2 issued by the Institute of Company Secretaries of India on General Meetings (SS-2) as amended from time to time, read with the General Circular Nos. 14/2020 dated 08th April 2020, 17/2020 dated 13th April 2020, and subsequent circulars issued in this regard, the latest being. 03/2025 dated 22nd September 2025 (**"MCA Circulars"**) and relevant circulars, issued by the Ministry of Corporate Affairs (MCA) and the Securities and Exchange Board of India ("SEBI Circulars"), and other applicable laws and regulations, as amended from time to time (including any statutory modification(s) or re-enactment thereof for the time being in force, SKF India (Industrial) Limited (**"the Company"**) is seeking approval from its members for passing of the following resolutions as set out in this Postal Ballot Notice by voting through electronic means (**"remote e-voting"**):

Sr. No.	Description of Resolution	Type of Resolution
1	To approve the change in designation of Mr. Sujeeth Pai (DIN – 07763929), from Whole-Time Director to Managing Director of the Company w.e.f. 1st September 2026 for a consecutive term of 5 (five) years and remuneration payable to him	Ordinary Resolution
2	To consider and approve the appointment of Mr. Mukund Vasudevan (DIN: 05146681) as a Non-Executive Director of the Company	Ordinary Resolution

The Postal Ballot Notice is available on Company's website at https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information. It is also available on the website of the stock exchanges where shares of the Company are listed i.e. BSE Limited (www.bseindia.com), National Stock Exchange of India Limited (www.nseindia.com) and on National Securities Depository Limited ("NSDL") website (www.evoting.nsdl.com).

Pursuant to and in accordance with the applicable MCA Circulars, the company has completed dispatch of the Postal Ballot Notice along with the explanatory statement thereto, through electronic mode only on **Friday, 11th September 2026** to those members whose names appeared in the Register of Members or in the List of Beneficial Owners as maintained by the Company or the Depositories, respectively, as on **Friday, 4th September 2026 (the "Cut-off Date")** and whose e-mail addresses are registered with the Company or their respective Depository Participants.

The Members whose names appear in the Register of Members or List of Beneficial Owners as on the cut-off date are entitled to vote on resolutions as set forth in the postal ballot notice. The voting rights shall be reckoned in proportion to the paid-up equity shares held by members as on the cut-off date. A person who is not a member as on the cut-off date shall treat the postal ballot notice for information only.

In accordance with the MCA Circulars, Company has provided the facility to cast vote on the proposed resolution by remote e-voting only. For this purpose, the Company has engaged the services of **NSDL** for facilitating remote e-voting process to enable the members to cast their votes electronically.

Members are requested to provide their assent or dissent through e-voting only. The important details regarding the e-voting process are provided below:

Cut-off date for determining the Members entitled to vote (voting rights shall be in proportion to the Equity shares held as on this date)	**Friday, 4th September 2026**
Commencement of E-voting	**Wednesday, 16th September 2026 at 9:00 am (IST)**
End of E-voting	**Thursday, 15th October 2026, at 5:00 pm (IST)**
Scrutinizer's detail	**Mr. Jayavant B Bhave (Membership No. FCS 4266 / CP 3068) of M/s. J. B. Bhave & Co., Company Secretaries.**

The detailed procedure/ instructions for e-voting are provided in the postal ballot notice. The said notice also contains instructions about login credentials for members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s. The e-voting facility shall not be provided beyond the end of e-voting period, and the e-voting module shall be forthwith disabled by upon the expiry of the aforesaid period.

Manner of registering/updating e-mail address:

1. In respect of shares held in physical form, shareholders who want to register their email id, will need to ensure complete KYC compliance for their folio. Such shareholders can download the relevant forms i.e. Forms ISR-1, ISR-2, ISR-3, SH-13, SH-14, for registering/ changing KYC details from our RTA website at https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC. The above-mentioned forms along with the details viz, PAN of all the holders, address with PIN code, email address, Mobile No., Bank Account details of the first holder, specimen signature and nomination details by all holders of physical securities along with supporting documents can be sent to kyc1@in.mpms.mufg.com. In case such forms are sent through soft copy, e-signed documents would be required to be uploaded on our RTA's web portal, as per directions given on the portal.

2. In respect of Members holding shares in electronic form who have not registered their e-mail addresses either with the company or their respective depository participant/s, the notice contains all the instructions about login credentials.

The results of the postal ballot will be declared within prescribed timelines from the conclusion of e-voting. The results will be posted on the website of the Company (https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information) and that of NSDL (www.evoting.nsdl.com) and will also be intimated to the NSE and the BSE in accordance with the provisions of the SEBI LODR.

If you have any queries relating to remote e-voting, please refer to the Frequently Asked Question (FAQs) and e-voting user manual for Shareholders available at the Downloads section of www.evoting.nsdl.com or contact at toll free no. 022-4886 7000 or send a request at evoting@nsdl.com

सभासदांसाठी टपाल मतदान (पोस्टल बॅलेट) आणि रिमोट ई-व्होटिंगची सूचना

(कंपनी कायदा, २०१३ चे कलम ११० सहवाचता कंपनी (व्यवस्थापन आणि प्रशासन) नियम, २०१४ चे नियम २० आणि नियम २२ तसेच भारत सरकारच्या कॉर्पोरेट व्यवहार मंत्रालयाने वेळोवेळी जारी केलेल्या लागू परिपत्रकांनुसार कंपनीच्या सभासदांना सूचना)

कंपनी कायदा, २०१३ (यापुढे "**कायदा**" असा उल्लेख) चे कलम १०८ व ११० आणि इतर लागू तरतुदी (असल्यास), सहवाचता कंपनी (व्यवस्थापन आणि प्रशासन) नियम, २०१४ (यापुढे "**नियम**" असा उल्लेख) चे नियम २० आणि २२, सेबी (लिस्टिंग ऑब्लिगेशन्स अँड डिस्क्लोजर रिक्वायरमेंट्स) रेग्युलेशन्स, २०१५ ("**सेबी एलओडीआर**") चे नियमन ४४ (वेळोवेळी झालेल्या सुधारणांसह), इन्स्टिट्यूट ऑफ कंपनी सेक्रेटरीज ऑफ इंडिया द्वारे जारी केलेले सर्वसाधारण सभांवरील सेक्रेटरीअल स्टँडर्ड २ (एसएस-२) (वेळोवेळी झालेल्या सुधारणांसह), कॉर्पोरेट व्यवहार मंत्रालयाने जारी केलेले सामान्य परिपत्रक क्र. १४/२०२० (दिनांक ०८ एप्रिल २०२०), १७/२०२० (दिनांक १३ एप्रिल २०२०) आणि या संदर्भात वेळोवेळी जारी केलेली पुढील परिपत्रके (ज्यात अद्ययावत परिपत्रक क्र. ०३/२०२५, दिनांक २२ सप्टेंबर २०२५ समाविष्ट आहे - ("**एमसीए परिपत्रके**"), तसेच मिनिस्ट्री ऑफ कॉर्पोरेट अफेअर्स (एमसीए) आणि सिक्युरिटीज अँड एक्स्चेंज बोर्ड ऑफ इंडिया (सेबी परिपत्रके) द्वारे जारी केलेली इतर संबंधित परिपत्रके आणि लागू असलेले इतर सर्व कायदे व नियम, वेळोवेळी झालेल्या सुधारणांसह (सध्या अंमलात असलेले कोणतेही वैधानिक बदल किंवा पुनर्अधिनियमन यांसह) यांच्या तरतुदींचे पालन करून याद्वारे सूचना देण्यात येते की, एसकेएफ इंडिया (इंडस्ट्रियल) लिमिटेड ("**कंपनी**") या पोस्टल बॅलेट सूचनेमध्ये नमूद केलेले खालील ठराव इलेक्ट्रॉनिक माध्यमाद्वारे मतदानाद्वारे ("**रिमोट ई-व्होटिंग**") संमत करण्यासाठी आपल्या सभासदांची मान्यता घेत आहे:

अ. क्र.	ठरावाचा तपशील	ठरावाचा प्रकार
१	१ सप्टेंबर २०२६ पासून पुढील ५ (पाच) वर्षांच्या सलग कालावधीसाठी श्री. सुजित पै (डीआयएन - ०७७९३९२९) यांच्या पदात बदल करून 'पूर्णवेळ संचालक' पदावरून कंपनीचे 'व्यवस्थापकीय संचालक' म्हणून नियुक्ती करणे आणि त्यांना देय असणाऱ्या मानधनास मंजुरी देणेबाबत.	सर्वसाधारण ठराव
२	श्री. मुकुंद वासुदेवन (डीआयएन-०५१४६६८१) यांची कंपनीचे 'अ-कार्यकारी संचालक' म्हणून नियुक्ती विचारात घेणे आणि त्यास मंजुरी देणेबाबत.	सर्वसाधारण ठराव

पोस्टल बॅलेट सूचना कंपनीच्या https://www.skf.com/in/investors/skf-india-industrial-ltd/shareholder-information या संकेतस्थळावर उपलब्ध आहे. तसेच, कंपनीचे शेअर्स ज्या स्टॉक एक्सचेंजवर सूचिबद्ध आहेत, म्हणजेच बीएसई लिमिटेड (www.bseindia.com), नॅशनल स्टॉक एक्स्चेंज ऑफ इंडिया लिमिटेड (www.nseindia.com) आणि नॅशनल सिक्युरिटीज डिपॉझिटरी लिमिटेड (एनएसडीएल) च्या वेबसाइटवर (www.evoting.nsdl.com) उपलब्ध आहे.

लागू एमसीए परिपत्रकांचे पालन करून, कंपनीने **शुक्रवार, ४ सप्टेंबर २०२६** ("**कट-ऑफ तारीख**") रोजी कंपनी किंवा डिपॉझिटरीकडे नोंदणीकृत असलेल्या सभासदांच्या नोंदवहीत किंवा लाभप्रद मालकांच्या यादीत नावे समाविष्ट असलेल्या आणि ज्यांचे ई-मेल पत्ते कंपनीकडे किंवा संबंधित डिपॉझिटरी पार्टिसिपंट्सकडे नोंदणीकृत आहेत, अशा सभासदांना पोस्टल बॅलेट सूचना (स्पष्टीकरणात्मक विवरणपत्रासह) इलेक्ट्रॉनिक माध्यमाद्वारे पाठविण्याचे काम **शुक्रवार, ११ सप्टेंबर २०२६** रोजी पूर्ण केले आहे.

कट-ऑफ तारखेनुसार सभासदांच्या नोंदवहीत किंवा लाभप्रद मालकांच्या यादीत ज्यांची नावे असतील, तेच सदस्य पोस्टल बॅलेट सूचनेतील ठरावांवर मतदान करण्यास पात्र असतील. मतदानाचे अधिकार हे कट-ऑफ तारखेला सदस्यांकडे असलेल्या भरणा झालेल्या समभागांच्या प्रमाणात निश्चित केले जातील. जी व्यक्ती कट-ऑफ तारखेला सदस्य नसेल, तिने ही पोस्टल बॅलेट सूचना केवळ माहितीसाठी समजावी.

एमसीए परिपत्रकांनुसार, कंपनीने प्रस्तावित ठरावांवर केवळ रिमोट ई-व्होटिंगद्वारेच मतदान करण्याची सुविधा उपलब्ध करून दिली आहे. यासाठी, सभासदांना इलेक्ट्रॉनिक पद्धतीने मतदान करता यावे म्हणून कंपनीने एनएसडीएलच्या सेवा घेतल्या आहेत.

सभासदांना विनंती आहे की त्यांनी आपली सहमती किंवा असहमती केवळ ई-व्होटिंगद्वारेच नोंदवावी. ई-व्होटिंग प्रक्रियेबाबतचा महत्त्वाचा तपशील खालीलप्रमाणे आहे:

मतदानास पात्र सभासद निश्चित करण्यासाठी कट-ऑफ तारीख (या तारखेला असलेल्या समभागांच्या प्रमाणात मतदानाचे अधिकार असतील):	शुक्रवार, ४ सप्टेंबर २०२६
ई-व्होटिंग सुरू होण्याची तारीख व वेळ	बुधवार, १६ सप्टेंबर २०२६, सकाळी ९:०० वाजता (भाप्रवे)
ई-व्होटिंग समाप्तीची तारीख व वेळ	गुरुवार, १५ ऑक्टोबर २०२६, संध्याकाळी ५:०० वाजता (भाप्रवे)
छाननी अधिकारी तपशील	श्री. जयंत बी. भावे (सदस्यत्व क्र. एफसीएस ४२६६ / सीपी ३०६८), मेसर्स जे. बी. भावे अँड कं., कंपनी सेक्रेटरीज.

ई-व्होटिंगची सविस्तर प्रक्रिया/सूचना पोस्टल बॅलेट सूचनेत दिलेल्या आहेत. ज्या सदस्यांचे शेअर्स इलेक्ट्रॉनिक स्वरूपात आहेत परंतु त्यांनी कंपनीकडे किंवा डिपॉझिटरी पार्टिसिपंट्सकडे ई-मेल पत्त्यांची नोंदणी केलेली नाही, त्यांच्यासाठी लॉगिन क्रेडेंशियल्सबाबतच्या सूचनाही सदर सूचनेत समाविष्ट आहेत. ई-व्होटिंग कालावधी संपल्यानंतर ई-व्होटिंग सुविधा उपलब्ध राहणार नाही आणि सदर कालावधी संपताच ई-व्होटिंग मॉड्यूल तात्काळ निष्क्रिय केले जाईल.

ई-मेल पत्ता नोंदणी / अद्ययावत करण्याची पद्धत:

१. भौतिक स्वरूपात शेअर्स असलेल्यांसाठी ई-मेल आयडी नोंदवू इच्छिणाऱ्या भागधारकांनी त्यांच्या फोलिओसाठी केवायसी पूर्तता करणे आवश्यक आहे. असे भागधारक केवायसी तपशील नोंदवण्यासाठी/बदलण्यासाठी आमच्या आरटीए च्या वेबसाइटवरून फॉर्म (फॉर्म ISR-1, ISR-2, ISR-3, SH-13, SH-14) डाउनलोड करू शकतात: https://in.mpms.mufg.com/home.html/ => Resources => Downloads => KYC => Format for KYC वरील फॉर्म्स सर्व धारकांचे पॅन, पिन कोडसह पत्ता, ई-मेल पत्ता, मोबाईल क्र., प्रथम धारकाच्या बँक खाते तपशील, नमुना स्वाक्षरी आणि सर्व धारकांचे नामांकन तपशील यासह आवश्यक कागदपत्रांसहित kyc1@in.mpms.mufg.com वर पाठवू शकतात. असे अर्ज सॉफ्ट कॉपी स्वरूपात पाठवायचे असल्यास, ई-स्वाक्षरी केलेली कागदपत्रे आरटीएच्या वेब पोर्टलवर दिलेल्या निर्देशांनुसार अपलोड करणे आवश्यक आहे.

२. इलेक्ट्रॉनिक स्वरूपात शेअर्स असलेल्या सदस्यांसाठी ज्या सदस्यांनी कंपनीकडे किंवा त्यांच्या डिपॉझिटरी पार्टिसिपंट्सकडे ई-मेल पत्ते नोंदवलेले नाहीत, त्यांच्यासाठी लॉगिन क्रेडेंशियल्सच्या सर्व सूचना या सूचनेत समाविष्ट केलेल्या आहेत.

पोस्टल बॅलेटचा निकाल ई-व्होटिंग संपल्यानंतर विहित मुदतीत जाहीर केला जाईल. तसेच ते निकाल कंपनीच्या वेबसाइटवर (https://www.skf.com/in/investors/ skf-india-industrial-ltd/shareholder-information) आणि एनएसडीएलच्या वेबसाइटवर (www.evoting.nsdl.com) प्रसिद्ध केले जातील, तसेच सेबी एलओडीआरच्या तरतुदींनुसार एनएसई आणि बीएसईकडे सादर केले जातील.

रिमोट ई-व्होटिंगबाबत काही शंका असल्यास, कृपया www.evoting.nsdl.com च्या डाउनलोड विभागात उपलब्ध असलेले वारंवार विचारले जाणारे प्रश्न (एफएक्यू) आणि भागधारकांसाठी ई-व्होटिंग वापरकर्ता मार्गदर्शिका पहा किंवा टोल फ्री क्र. ०२२ - ४८८६ ७००० वर संपर्क साधा किंवा evoting@nsdl.com वर विनंती पाठवा.

४. बँकेचे जे सभासद १०८ व्या वार्षिक सर्वसाधारण सभेत उपस्थित राहू शकले नाहीत त्या सर्व सभासदांना अनुपस्थितीची परवानगी देणे.

संचालक मंडळाच्या आदेशानुसार
सही/-
आरती पाटील
व्यवस्थापकीय संचालिका आणि मुख्य कार्यकारी अधिकारी

मुंबई, २० जुलै २०२६

टीप: गणसंख्येअभावी सभा तहकूब झाल्यास उपविधी क्र. ४८ नुसार, ती सभा त्याच दिवशी सायंकाळी ५.०० वाजता सुरु होईल व त्या सभेस गणसंख्येचे बंधन विचारात न घेता त्याच ठिकाणी सभेच्या कार्यसूचीतील कामकाज पार पाडले जाईल.

ता.क.: वार्षिक अहवाल बँकेची वेबसाईट www.saraswat.bank.in येथे प्रदर्शित केला आहे. सभासदांना अहवालाची प्रत हवी असल्यास, त्यांना सोईस्कर असलेल्या बँकेच्या कोणत्याही शाखेत, झोनल ऑफिस किंवा प्रशासकीय कार्यालयात जाऊन त्यांनी ही प्रत घ्यावी.

सभासदांनी कृपया वार्षिक सर्वसाधारण सभेसाठी येताना सुरक्षेच्या कारणास्तव फोटोसहित वैध ओळखपत्र आणावे ही विनंती.

सुवर्ण कर्ज लिलाव सूचना

खाली नमूद केलेल्या कर्जदारांनी **'श्रीराम फायनान्स लिमिटेड' (SFL) कडून घेतलेल्या 'सोन्याच्या दागिन्यांवरील कर्जा'पोटी (ज्याला 'सुविधा' असे संबोधले आहे)** थकीत असलेली रक्कम भरण्याबाबत त्यांना नोटिसा बजावण्यात आल्या आहेत. या सुविधेअंतर्गत देय असलेली रक्कम भरण्यात कर्जदार अपयशी ठरल्यामुळे, आम्ही खाली दिलेल्या पत्त्यावर आणि तारखेला तारण ठेवलेल्या सोन्याच्या दागिन्यांचा लिलाव आयोजित करत आहोत. या लिलावातून काही अतिरिक्त रक्कम प्राप्त झाल्यास, ती संबंधित कर्जदाराला परत केली जाईल; आणि लिलावानंतर काही तूट राहिल्यास, उर्वरित रक्कम योग्य कायदेशीर प्रक्रियेद्वारे कर्जदाराकडून वसूल केली जाईल. कोणत्याही पूर्वसूचनेशिवाय खालीलपैकी कोणतेही खाते लिलावाच्या प्रक्रियेतून वगळण्याचा अधिकार **SFL** कडे आहे. तसेच, 'फोर्स मॅजेअर' (अपरिहार्य परिस्थिती/नैसर्गिक आपत्ती) उद्भवल्यास, कोणत्याही पूर्वसूचनेशिवाय लिलावाची तारीख बदलण्याचा अधिकार SFL राखून ठेवते.
