5S

We at SKM have targeted to improve our egg processing efficiency every year. To achieve continuous improvement, lean management and lean manufacturing is the way forward. The foundation for the lean is 5 S. 5 S is the Japanese concept to improve the work place and to remove waste in any form and to become lean. We started implementing 5 S about a year ago and we challenged our self for the certification award with **M/s. ABK-AOTS Dosakai at Chennai.Asia Bunka Kailkan - Association of Overseas Technical Scholarship (AOTS) &Alumini(Dosakai) The Japan Foundation.**

The Organisation was audited and assessed by them on 17/12/15, our 5 S implementation level and awarded Platinum Award. It is important to note that within 1st year of implementation, we reached a standard of Platinum level score surpassing certificate of merit, silver and gold levels.

This award was given to us in a function conducted by them on 09th January 2016 at Chennai. Since we got Platinum category award, we are eligible to go for 5 S SUSTENANCE AWARD in the year 2016. Our target is to become a Model company in the coming 2 to 3 years.
