Smartworks Enters Compounding Phase in Q3 FY26 with Record EBITDA

Gurugram, Smartworks Coworking Spaces Limited ("Smartworks" or "the Company"), India's largest managed office platform by area under management, reported its strongest quarterly performance in Q3 FY26, marking a structural inflection in the Company's growth trajectory.

Q3 FY26 marked a decisive milestone for Smartworks, with growth, profitability, cash flows, and returns on capital improving simultaneously. The quarter reflects rising portfolio maturity, a higher share of large-format enterprise contracts, and operating leverage inherent in Smartworks' managed campus model.

Commenting on the performance, Neelish Sarda, Founder & Managing Director, Smartworks,

said: "Q3 FY26 represents Smartworks' strongest quarter to date and confirms that the business has entered a compounding phase. We delivered record normalised EBITDA alongside strong revenue growth, driven by rising portfolio maturity and sustained enterprise demand. Growth during the quarter was anchored in large, long-tenure enterprise contracts and continued expansions from existing clients, improving the quality, predictability, and durability of our revenues. As operating leverage plays out across a larger base of mature centres, profitability, cash generation, and returns on capital will continue to improve. With operating cash flow exceeding EBITDA and a net-debt-negative balance sheet, we are

scaling through a disciplined, self-funded expansion model.

With secured supply visibility and enterprise-led demand, Smartworks is well positioned to sustain momentum and continue improving returns over the coming quarters."

Q3 FY26 – Key Highlights-Revenue of ~Rs.472 crore, up 34% YoY and 11% QoQ, Normalised EBITDA at an all-time high of ~Rs.85 crore; margin expanded to ~18%, Normalised operating cash flow of ~Rs.101 crore; OCF-to-EBITDA at ~1.2, Annualised ROCE improved to ~21%, continuing its upward trajectory, Net-debt negative balance sheet sustained at ~Rs.42 crore, PAT profitability achieved under IndAS. Committed occupancy for mature centres at 93%

US will seek 'separate' semiconductor tariff pacts for countries: Official

Washington, Jan 17 (IANS) US President Donald Trump's administration will seek "separate" semiconductor tariff agreements for "separate countries," a U.S. official said, after the United States and Taiwan reached a deal on the chip levies this week.

"Separate agreements for separate countries," a U.S. official said, responding to a question from Yonhap News Agency regarding whether the deal with Taiwan would set a standard for chip tariffs or the U.S. would conduct separate negotiations with other countries for the sectoral tariffs.

The official's remarks came a day after the U.S. Commerce Department released a fact sheet about a trade and investment deal between the

United States and Taiwan, which outlined a bilateral agreement on semiconductor tariffs.

According to the fact sheet, Taiwanese companies building new U.S. semiconductor capacity may import up to 2.5 times that planned capacity without paying sectoral duties during the approved construction period.

Taiwanese companies that have completed new chip production projects in the U.S. will still be able to import 1.5 times their new U.S. production capacity without paying sectoral duties. The agreement on the chip tariffs raised questions over whether it will set a standard for chip-makers from other countries, including South Korea. On Wednesday, Trump signed a proclamation to levy a 25 percent

tariff on certain semiconductors for artificial intelligence (AI), which are imported into the U.S. and then reexported to other countries.

The White House has also said that Trump may impose "broader" tariffs on imports of semiconductors and their derivative products.

The president has rolled out various industry-wide tariffs, invoking Section 232 of the Trade Expansion Act of 1962, a law that provides the president with the authority to adjust imports into the U.S. when he determines they threaten to impair national security. South Korea's top trade envoy assessed the Trump administration's proclamation on semiconductor tariffs to have a "limited" impact on local chip makers.

Business Brief

**Sensex, Nifty end week on flat note amid optimism on Q3 earnings, trade deal**

Mumbai, Jan 17 (IANS) The Indian equity benchmarks closed this week almost unchanged amid optimism towards Q3 earnings and renewed India-US trade discussions, even as caution persisted due to increasing geopolitical tensions. Profit-booking in pharma, consumer durables, and autos weighed on indices during the week, while PSU banks and metals outperformed. Nifty added 0.04 per cent during the week and 0.11 per cent on the last trading day, to touch 25,694. At close, the Sensex was up 187 points or 0.23 per cent on the last trading day at 83,570. It dipped 0.01 per cent during the week. Analysts said investors focused on Q3 earnings, where IT and bank numbers provided a layer of confidence on growth and demand. The prolonged geopolitical tensions made FIIs risk-averse in emerging markets and raised bond yields. On the earnings front, the IT sector gained attention after the industry's bellwether revised its revenue guidance upward, while the broader IT space reported better-than-expected earnings growth. The banking sector also showed encouraging trends, with early results showing continued improvement in asset quality and better earnings performance.

India's SME Chamber of Ind. Announces Mukund Purohit as National Advisor in India's SME Think Tank

New Delhi, India's SME Chamber of India, a leading voice for small and medium enterprises, is pleased to announce the appointment of Mukund Purohit as its National Advisor. With over two decades of experience in business strategy, entrepreneurship, and industry leadership, Purohit brings a wealth of knowledge to the role.

As National Advisor, Purohit will work closely with the chamber's leadership to promote SME growth, advocate policy reforms, and foster industry collaborations.

Mukund Purohit is a seasoned industry expert with experience in sectors like manufacturing, technology, and entrepreneurship development. He has been a vocal advocate for MSME growth and has contributed to various government initiatives. He is

president of BMA.

Commenting on the appointment, Mr. Chandrakant Salunkhe, Founder and President, India's SME Chamber of India, said, "We are very happy to appoint Mukund Purohit as a key member of our organisation. His more than 35 years of experience in the SME and international trade sector will be a great asset and will help drive our mission forward."

About SME Chamber of India: "India's SME Chamber of India is a prominent industry body representing over 10,000 SMEs across sectors.

It focuses on policy advocacy, networking, and capacity building for MSMEs.

DEA strengthens economic fundamentals, positions India for sustained future growth

New Delhi, Jan 17 (IANS) The Department of Economic Affairs (DEA), through policies across macroeconomics, capital markets, infrastructure, digital finance and investor protection and empowerment, has strengthened economic fundamentals and positioned India for sustained future growth, according to the government. For example, DEA guided India's economic management, fiscal strategy, and financial sector coordination, while implementing reforms to support growth, stability, investment, and global engagement in 2025.

According to a Ministry of Finance statement, the 16th Finance Commission submitted its Report for the award period from 2026-27 to 2030-31 to the President of India on November 17. In 2025, a new sub-sector, "Large Ships," was added under the transport and logistics category of the Harmonised Master List. Also, funds raised through Sovereign Green Bonds amounted to Rs 21,697.40 crore in FY 2024-25, with proceeds allocated to eligible green projects across ministries.

"Capital expenditure monitoring by DEA enabled infrastructure ministries to achieve expenditure of Rs 10.46 lakh crore during FY 2024-25, exceeding revised estimates, while IEBR expenditure also surpassed targets," said the statement.

Several measures were implemented to enhance market integrity and strengthen the regulatory framework.

For example, the public issue framework for SMEs was tightened with eligibility criteria, caps on offer-for-sale and General Corporate Purpose funds, and restrictions on using IPO proceeds for loan repayment. Trading and risk monitoring in equity derivatives were improved. Measures were introduced to curb expiry-day volatility.

"To mitigate risk of securities misuse by stock broker, securities for payment are now credited directly to client demat accounts by Clearing Corporations. Framework for safer participation of retail investors in algorithmic trading has been introduced," it added.

Moreover, to deepen and diversify India's securities markets, focused measures were undertaken to improve efficiency and participation.

Financial inclusion initiatives included the roll-

out of "Chhoti SIP" — SIP of Rs 250, aimed at encouraging first-time investors. Digital public infrastructure was leveraged to enable retrieval and storage of mutual fund and demat statements through DigLocker. To prevent accumulation of unclaimed assets, nomination norms for demat accounts and mutual fund folios were revised. A new UPI address structure for all SEBI registered intermediaries who collect funds from investors with effect from October 01, 2025 has been mandated.
