Further, the company is in breach of some financial covenants which provides an option to the lenders/investors to exercise accelerated repayment, for outstanding borrowing accounting for ₹42.7 crore (out of which SSFL has received waiver for ₹27 core debt) as on December 31, 2025. The current market price is ₹227 which is more than the pending call amount of ₹115, however, lower than overall issue price of ₹230/-share.	The improvement witnessed from Q2FY26 strengthened further during H2FY26, as the Company continued its recovery from the structural and external challenges faced in FY25. This phase marked a period of progressive stabilization, supported by increasing disbursement volumes and renewed borrower engagement. Collection efficiency in the current buckets showed a steady upward trend during the year. Notably, loans originated in FY26 under enhanced credit guardrails have consistently demonstrated strong collection performance, reinforcing the effectiveness of the strengthened underwriting framework.
