**Commenting on the performance, Mr. Vee Rajmohan, Chairman and Managing Director of Supreme Power Equipment Limited** said, “We are pleased to share that our performance in H2 and the full year of FY25 reflects the strength of our business fundamentals and growing market relevance. Our consistent growth has been largely driven by robust demand from local utilities, which have emerged as a key pillar of our success.

To build on this momentum, we are now prioritizing orders for larger-capacity transformers. Our new manufacturing facility is around 70% complete, and once operational, it will boost our production capacity and help improve efficiency.

We are encouraged by the strength of our current consolidated order book, which stands at around ₹ 116 Cr. This healthy pipeline reflects the confidence our customers place in us and provides strong visibility for the quarters ahead.

We are also working to expand our focus to local utilities beyond Tamil Nadu, which we believe will support more sustained growth. With a strong order book and growing demand, we are confident about the road ahead and remain committed to creating long-term value for all our stakeholders.”
