Subject- Reply to the observation raised in Financial Results submitted dated 08-11-2024

Dear Sir,

With reference to the observation raised in Financial Result submitted dated 08-11-2024, it is to inform that the company is operating in **Single Business Unit i.e. Garment Sector with only one Geographical location. Hence the company has reported in single segment in the XBRL format.** Accordingly, filing of Segment report for Single Segment in XBRL is not applicable.

Even if we try to fill in XBRL file, it asks to select E23 as Geographic or Multi Segment in General Info Sheet.

This is for your information and records please.

Thanking You

For, **SPL Industries Limited**

Error- while filling detail of single Segment

The screenshot displays the Microsoft Excel interface with the 'BSE- Financial Results - XBRL Filings' dialog box open. The dialog box is divided into three steps:

- Step 1: Complete all Worksheets below:** Select the sheet you wish to go to: Index, General Info, Financial Results, Asset Liabilities, Segment, OCI, Cash Flow Indirect.
- Step 2: Enter Data** Enter Data in relevant sheets & Save File.
- Step 3: Validate All Sheets** Validate All Sheet.

A red error message box is overlaid on the dialog, stating: "To validate segment sheet please select E23 as Geographic or Multi segment in General Info sheet.....!!!!". The error message is accompanied by a red 'X' icon and an 'OK' button.

The background Excel spreadsheet shows a table with columns for 'Particulars', 'Date of start', and 'Date of end'. The table is currently empty. The Excel ribbon is visible at the top, and the Windows taskbar is at the bottom.
