PRESS RELEASE

For Immediate Release

SPML Infra secures Rs. 1,073 Crore Water Supply Project under AMRUT 2.0 for Indore City

Kolkata, India – August 19, 2025

SPML Infra Limited (NSE: SPMLINFRA, BSE: 500402), India's leading water infrastructure development company, has been awarded a prestigious Rs. 1,073 Crore (inc. of GST) project by Indore Municipal Corporation for the augmentation of the water supply system under the AMRUT 2.0; an ambitious initiative launched by Govt. of India with the goal of making Indian cities "water secure" and self-reliant. The project also includes a comprehensive 10-year Operation & Maintenance (O&M) contract.

Project Scope and Significance

The landmark project is designed to significantly strengthen Indore's water supply infrastructure, ensuring reliable access to safe drinking water to its over 2 million citizens. The scope of work includes:

- **Intake & Raw Water Pumping:** Construction of a state-of-the-art Intake of **1,650 MLD capacity** along with a Raw Water Pump House.
- **Water Treatment Plant:** A modern **400 MLD Water Treatment Plant (WTP)** equipped with advanced technology to meet stringent water quality standards.
- **Pumping & Transmission:** Development of Clear Water Booster Pumping Stations, pumping mains, and associated transmission systems with 22 kilometres of pipeline of 1200 mm to 2337 mm diameter
- **Electric Substation:** Establishment of an integrated 132/33 kv power substation to support the water supply operations.
- **Long-Term Operations:** Comprehensive **10-year O&M contract**, ensuring optimal system performance with structured escalation provisions.

The EPC part of the project is scheduled to be completed within 30 months (including rainy seasons) from the signing of the contract.

Mr. Subhash Sethi, Chairman of SPML Infra Limited commented:

"We are proud to be entrusted with this important project by Indore Municipal Corporation under AMRUT 2.0. Indore is amongst India's cleanest cities, and this new water infrastructure will further enhance the quality of life for its residents. The scope of this project is truly unique, placing SPML Infra among a handful of companies worldwide with the capability to design and deliver such an integrated water infrastructure system. This project demonstrates SPML Infra's expertise in delivering large-scale, technologically advanced water supply systems, while ensuring sustainable operations through our long-term O&M commitment. Our

continued partnership with state governments and municipal bodies reflects our strong commitment to developing critical water infrastructure that not only supports India's growth and development but also contributes to the vision of Viksit Bharat."

About SPML Infra Ltd.:

SPML Infra Limited (CIN: L40106WB1981PLC276372) is a distinguished infrastructure development company with over four decades of expertise across power, water, environment, and technology sectors. With a pan-India presence, SPML has successfully executed over 700 projects, creating critical infrastructure, including drinking water facilities, wastewater treatment, integrated sewerage networks, municipal waste management, power transmission & distribution, substations, rural electrification, and smart city solutions. As India's leading water management company, SPML has contributed immensely to providing clean drinking water to over 50 million people across urban and rural areas. SPML is ranked **14th among the World's Top 50 Private Water Companies** as per **Global Water Intelligence (GWI), London** survey and is recognized as one of **India's 10 Best Infrastructure Companies**. As a publicly listed, ESG-compliant company, SPML Infra continues to drive innovation and growth in India's infrastructure landscape.
