SPML Infra Received First Smart Infrastructure Development Project worth Rs. 325 Crore

Gurgaon, July 09, 2015

SPML Infra Ltd in joint venture with Om Metal Infraprojects Ltd received First Smart Infrastructure Development Project worth **Rs. 325 Crores** from Vikram Udyogpuri Limited, Ujjain, Madhya Pradesh. This is a part of Delhi-Mumbai Industrial Corridor (DMIC) Project being developed by Government of India as a global manufacturing and investment destination. The development of Vikram Udyogpuri has been selected as one of the early bird projects under the development plan of Pithampur-Dhar-Mhow Investment Region which is one of the 24 regions of DMIC. The proposed site of "Vikram Udyogpuri" is located about 8km from Ujjain and 12km from Dewas and has a total area of 443.79 Ha (1096.63 acres). The Government of Madhya Pradesh (GoMP) and Delhi Mumbai Industrial Corridor Development Corporation (DMICDC) intend to facilitate development of trunk internal and external infrastructure for Vikram Udyogpuri.

Under this project scheme, SPML Infra will be developing smart infrastructures for 24X7 water supply with water treatment plant and pumping station, water supply conveyance from Shipra river to the site, complete sewerage network with sewage treatment and effluent treatment plants, storm water drainage system, solid waste management system, internal and external roads of 4 and 6 lanes, power transmission and distribution system, domestic gas distribution system, street lighting, CCTV and SCADA system, safety and security system, information and communication technology (ICT) network with peripheral boundary walls. This is first of its kind of a mini smart city project which will have all smart utility connected with technology for seamless services. SPML Infra will execute this Design Build Operate (DBO) smart city project to be completed in 3 years' time with operation & maintenance for 5 years post commissioning.

Mr. Rishabh Sethi, Chief Operating Officer, SPML Infra, commented**,** *"SPML has executed a number of smart water supply system and sewerage network in different cities and working on to create smart power transmission and distribution management system. With the Govt. of India focusing on to develop 100 smart cities with an outlay of Rs 48,000 crore and another Rs 50,000 crore under the Atal Mission for Rejuvenation and Urban Transformation (AMRUT) for urban rejuvenation program for 500 towns and cities in next 5 years, SPML is sure that with the expertise and focus on development of smart services for smart cities, it will become an integral partner with utilities across the country in the development of technologically advanced sustainable infrastructure for smart cities. As a first step towards that, we are happy to receive this new order to develop a mini smart city in Ujjain."*

About SPML Infra Ltd.:

SPML Infra is a leading infrastructure development company of India. With over three decades of experience, SPML has executed almost 600 turnkey projects and created significant value for our country that have touched the lives of millions of people; be it provision of drinking water, improved

sewerage facilities, better municipal waste management, building roads and highways and lighting up homes. An ISO–9001: 2008 certified company, SPML has established its leadership in urban infrastructure development on EPC, PPP and BOOT basis. The Project Management Systems includes conceptualization & implementation with SAP-Enterprise Resource Planning applications and Quality Management Systems to undertake all kinds of projects.
