PRESS RELEASE

SP Refractories Limited Overview FY 23-24

In recent years, SP Refractories Ltd. has experienced remarkable growth across key performance metrics. Our success is fuelled by our expertise in the manufacturing and supplying of high quality refractory material, deep understanding of our consumers, and keen focus on long-term trends.

Highlights of 2023-2024

- The company reported PAT of 155.86 lakhs, a 153% Y-o-Y increase.
- The company reported EBITA of 292.10 lakhs, a 97% Y-o-Y increase.
- The company has installed a Rotary Kiln, increasing the installed capacity for producing clinkers from 4,000 MTPA to 10,000 MTPA. As a result, there is a 150% increase in installed capacity.
- The company is now completely debt-free (except from Cash Credit Facilities) after repaying its COVID term loan in full.

About SP Refractories

SP Refractories Limited is engaged in manufacturing and supplying refractory materials made using hydrated lime, calcined alumina, and other raw materials. The core focus of the company is on refractory cement, which is a niche and high-margin cement widely used in the iron and steel and construction industries because of its thermal conductivity, maximum strength, and heat resistance. The company began its operations in 2007 with the manufacturing of refractory cement and castables. The company has an in-house testing unit to check the quality of the product from every aspect.
