**Sub.: Intimation regarding commissioning of 2.0 MW Solar Power Project by Spunweb India Private Limited (Wholly Owned Subsidiary).**

**Dear Sir/Madam,**

With reference to our earlier communication dated August 19, 2025, we are pleased to inform you that the 2.0 MW ground-mounted solar power project at Devsar Village, Surendranagar District, Gujarat, developed by our wholly owned subsidiary Spunweb India Private Limited (SIPL), has been successfully commissioned and is now operative.

This project, equipped with advanced n-type TOPCon 590 Wp solar modules and single-axis solar tracking technology, is designed for captive consumption and is expected to generate approximately 3.5 million units (35 lakh units) of clean energy annually. The initiative will result in a reduction of approximately 2,460 tons of CO<sub>2</sub> emissions per year, equivalent to planting nearly 66,000 trees annually.

Together with the ongoing 4.5 MW solar project of Spunweb Nonwoven Limited (SNL), the Group's total installed Ground Mounted Solar Capacity now stands at 6.5 MW, generating a combined 11.9 million units of renewable energy annually. Importantly, this solar initiative will enable to meet nearly 60% of its electricity requirement, thereby reinforcing our commitment to energy independence, environmental responsibility, and sustainable industrial growth.

This commissioning marks a significant milestone in our renewable energy journey and is aligned with our long-term vision of reducing carbon footprint, lowering energy costs, and creating enduring value for our shareholders and stakeholders.

Kindly take the aforementioned submission on your records.

Thanking you,  
Yours sincerely,

**For Spunweb Nonwoven Limited**
