Airtel Q4 Net Jumps 39% on User Additions, Data Boost

However, telco's profit, including exceptional items, fell 34% in March quarter

Our Bureau
New Delhi: Bharti Airtel's consolidated net profit excluding exceptional items rose 38.7% from a year earlier to ₹2,244.7 crore in the fourth quarter, driven by subscriber additions, increased data consumption and growth in home broadband business.

When accounted for exceptional items, net profit fell 34% from a year earlier when it had posted a ₹5,913.3 crore gain, mainly due to a tax benefit. Sequentially, Airtel's net profit grew 9.2% from ₹6,630 crore.

Consolidated revenue climbed 15.7% on year to ₹55,363.2 crore, driven by sustained growth in India and robust performance in Africa.

For the full year, Bharti Airtel reported a consolidated net profit of ₹26,094 crore, before exceptional items on revenue of ₹2,10 lakh crore.

15.7%
RISE IN Q4 CONSOLIDATED REVENUE, DRIVEN BY GROWTH IN INDIA & AFRICA

"FY26 was an important year in our journey... we crossed the 690-million customer mark, launched our telco-grade sovereign cloud, received RBI approval through our subsidiary to commence the lending business, and achieved the expansion of our data centre footprint," executive vice-chairman Gopal Vittal said in a news release.

"We will continue to accelerate our investments towards building world-class digital networks, future proof Airtel by putting AI at the heart and sharpen our portfolio for long-term growth," he added.

Amid the Prime Minister's call to cut down on fuel usage, the company's infrastructure subsidiary, Indus, is simplifying efforts to reduce dependence

on diesel to power mobile towers and transition to high-powered batteries and alternative sources of energy, Vittal said.

Bharti Airtel's board recommended a dividend of ₹2 per share.

Airtel's stock ended 1.78% higher at ₹1,788.10 on the BSE. Results were declared after market hours.

The India mobile business, which contributes around 73% to Airtel's total revenue, grew 8% from a year earlier to ₹29,893.5 crore, driven by higher average revenue per user (ARPU) and strong smartphone data customer additions.

Airtel's ARPU—a key performance metric—rose to ₹57 from ₹45 a year earlier

Sunil Mittal Reappointed as Airtel Chairman till '31

New Delhi: Sunil Bharti Mittal, chairman of Bharti Airtel, has been reappointed for another five-year tenure at India's second largest telecom operator, the company informed exchanges Wednesday.

Following his reappointment, Mittal will remain as the chairman of Bharti Airtel till September 30, 2031. The board reappointed Nisaba Godrej as the independent director for a second term of five years.

The reappointment will be effective from August 4, 2026. Nisaba Godrej is the Exec Chairperson of Godrej Consumer Products. She sits on the board of Godrej Industries, Godrej Agrovet, Bharti Airtel, Mahindra and Mahindra and ISB. —Our Bureau

Cipla Q4 Profit Declines 55%, Total Income Falls 3%

Our Bureau
Mumbai: Pharma major Cipla reported a 55% year-on-year decline in consolidated net profit for the quarter ended March at ₹55 crore, while total income from operations fell 1% to ₹6,541 crore. For FY26, revenue rose 2% YoY to ₹28,163 crore, while profit after tax declined 26% to ₹3,879 crore. The board recommended a final dividend of ₹3 per equity share of

Tata Motors Consolidated Net Rises 35% in Q4 on Volume Growth, Better Realisations

But co flags a cautious outlook amid commodity inflation and weak exports

Our Bureau
Mumbai: Tata Motors, the commercial vehicle entity of the company, reported a 35% year-on-year rise in consolidated net profit for the March quarter at ₹1,800 crore, backed by volume growth, better realisations, and sustained margins, partially offset by higher input costs. Consolidated revenue for the quarter climbed 19% at ₹26,936 crore.

Full-year standalone EBITDA margin reached 13.2%, the highest in 15 years, said Girish Wagh, managing director and chief executive, ahead of the company's own mid-term guidance.

However, the management flagged a more cautious near-term outlook. Wagh pointed to commodity inflation and softer export markets as key concerns. "The

playbook has certainly changed a bit," he said, adding India's leading truck and bus maker had studied its expenditure plans and was "going a bit cautiously at this moment."

Net cash for the consolidated business stood at ₹13,713 crore as of March 31.

On a standalone basis, which captures the core commercial vehicle business including joint operations with Tata Cummins, net profit rose 70% to ₹2,479 crore while revenue grew 22% to ₹24,452 crore. EBITDA for the quarter stood at ₹3,404 crore, up 35%, with margins at 13.5%, up 130

basis points.

For the fiscal year ended March, consolidated revenue grew 19% to ₹83,655 crore, while net profit fell 23% to ₹3,400 crore. Profit took an exceptional hit of ₹3,700 crore pertaining to mark-to-market losses on account of the automaker's listed investments in group company Tata Capital, implementation of the new labour code, and demerger related costs.

On growth, Wagh said underlying demand remains intact, but high input costs, availability and e-way bills but added that diesel prices remained a critical monitorable given they account for 25-30% of a fleet owner's total cost of ownership.

Wagh didn't rule out another round of price hikes to offset commodity inflation, though retaining from giving a firm commitment. On April 1, Tata Motors raised prices of its truck and bus range by 2%, to partially offset higher input costs. Despite the geopolitical uncertainty and other factors that could impact C.V. sales, Wagh held a single-digit volume growth for FY27 was still possible, though the company would need to remain agile in tracking how the market behaves.

TOTAL INCOME RISES 4.4% IN Q4 HPCL Profit Up 78% on Robust Refining Show

Our Bureau
Mumbai: State-run Hindustan Petroleum Corporation (HPCL) reported a 77.6% year-on-year increase in consolidated net profit for the March quarter, driven by robust marketing performance and strong refining profitability.

Net profit rose to ₹6,885.35 crore in the quarter from ₹3,415.44 crore a year earlier. Total income increased 4.4% to ₹1,24 lakh crore from ₹1,19 lakh crore in Q4 FY25.

For FY26, net profit surged 188% to ₹10,046.69 crore, while total consolidated income rose 2.6% to ₹41.81 lakh crore.

The board recommended a final dividend of ₹19.25 per share of face value ₹10 for FY26, in addition to an interim dividend of ₹5 per share paid earlier in the year.

Gross refining margin (GRM) for the March quarter stood at \$14.27 per barrel against \$8.44 per barrel a year earlier. For FY26, the GRM increased to \$8.79 per barrel from \$5.74 per barrel in FY25.

GRM refers to the profit earned by refineries from converting crude oil into petroleum products.

HPCL commissioned 526 retail outlets during the quarter, taking its network to 25,980 outlets. Shares of HPCL rose 0.5% higher at ₹90.10 apiece on the BSE on Wednesday. The company announced the results during market hours.

AMID RESTRICTED BORROWER PREPAYMENTS PFC Q4 Net Up 3%; Merger with REC Likely by Apr '27

Our Bureau
Mumbai: State-run power financiers Power Finance Corporation (PFC) and REC are targeting completion of their proposed merger by April 1, 2027, as the companies move ahead with creating a single-window financing platform for India's power sector, said PFC chairman and managing director Parminder Chopra.

"Both PFC and REC boards have already given their approval for restructuring and merger. For the process, we have also appointed legal advisers, transaction advisers, merchant bankers, and registered bankers," said Chopra, adding that a detailed structure is currently under discussion and subject to all regulatory approvals.

PFC and REC are non-banking financial corporations under the Ministry of Power. The company on Wednesday

reported a 3% rise in consolidated net profit, restricted by prepayments from borrowers amid low interest rates and also revenues given the rupee depreciation.

Net profit for the quarter came at ₹5,597.61 crore against ₹5,357.88 crore in the same quarter a year ago. During the quarter, total income fell to ₹28,866.60 crore from ₹29,285.45 crore in the corresponding previous quarter.

Net interest income, a key profitability metric for power lenders, fell 11% YoY to ₹10,833 crore from ₹12,108 crore in Q4 FY25. Chopra said, PFC aims to borrow ₹1.6 lakh crore in FY27 to fund the loan growth, but did not comment on the sourcing of funds given the ongoing geopolitical volatility.

Due to the ongoing West Asia crisis, for the full year the company saw a 1% increase in revenues of around ₹1,500 crore.
