Dear Sir,

Sub: Clarification on Announcement submitted on 26th July, 2021 regarding shutdown.

This has reference to your e-mail dated 29th July, 2021 seeking clarification in relation to announcement submitted by the Company on 26th July, 2021 regarding shutdown of the plant for commissioning of new Blast Furnace to increase the capacity. In this connection, our point wise clarification is given below :-

Sl. No.	Clarification sought by Exchange	Company's Response to the Clarification
1	Existing capacity utilization	The existing capacity utilisation of Mini Blast Furnace (MBF) is 100%.
2	Period within which the proposed capacity is to be added	It is proposed to increase the capacity which will be in place after completion of the ongoing shutdown in the 2 nd week of August, 2021.
3	Investment required	There is no fresh investment required, as the project has come to commissioning stage.
4	Mode of financing	The project was funded with 50% borrowed funds and remaining 50% with internal accruals of the Company.
5	Rationale	The existing MBF which was installed in 1994 is not adequate enough to deliver higher quantum of liquid metal required for Ductile Iron Pipe Plant on a consistent basis. In order to ensure un-interrupted and increased production of liquid metal, the existing MBF is being replaced with new MBF

Hope the above clarification is in order.

Thanking you,

Yours faithfully,
For **SRIKALAHASTHI PIPES LIMITED**
