PRESS RELEASE

The Board of Directors of Srialahasthi Pipes Limited approved the un-audited financial results for the quarter ended 30th June, 2017 at its meeting held today at Chennai.

Mr. G S Rathi, Whole Time Director, informed that the capacity of Ductile Iron Pipes Plant has been fully stabilized and the Company has started getting full benefits of the increased capacity. The company is in the process of working on organic and inorganic growth plans for future.

Mr. Rathi informed that the volatility in the global coal prices is a cause of concern for the industry and during the quarter under review the company consumed higher cost of coal, which has taken a toll on the profitability of the Company. However with the enhanced production of blast furnace, full utilization of DI pipe plant capacity and the benefits from cost reduction measures, the Company was able to bring down the impact of higher input cost.

He informed that 3rd annealing furnace is proposed to be installed exclusively for smaller dia pipes, which will reduce oil consumption considerably. He further added that considering demand of higher dia ductile iron pipes, the company intends to take necessary steps for creating production facilities for 1200 mm dia pipes also. This will increase overall demand for Ductile Iron Pipes.

He also informed that backed by the continued thrust given by the Central and State Governments for water infrastructure development and irrigation sector, the demand for Ductile Iron Pipes is expected to be robust. The Company is having a healthy order book position and is confident of meeting the market demand with its increased capacity.

While briefing about the financials, he said that the profit before tax for the quarter ended 30th June, 2017 was Rs.50.31 crores, compared to Rs.58.82 crores reported in the corresponding quarter previous year. The Profit after tax for the quarter under review is Rs.36.44 crores as against Rs.42.96 crores in the same quarter of the previous year. He informed that the PAT for this quarter has increased to Rs.36.44 crores as compared to Rs.31.19 crores reported in the immediate preceding quarter ended 31st March, 2017.

He further said that the Company's project for installation of additional Coke Oven battery and boiler in Captive Power plant for expansion of capacity is moving ahead as per schedule and it is expected that the same will be in place by first quarter of FY 2018-19. He also informed that with the operational efficiency and improved market demand, the Company is hopeful of insulating its margins
