LCV & MHCV segment volumes grew by 55% YoY in January 2015. This segment is looking extremely promising given the govt. initiative on the reforms. The segment is showing very good sign of recovery and will continue to grow in the next quarter. The 3 month order book is extremely promising and a growth of 30-40% is visible in coming months.

Exports dropped by 4% to 1.21 Lacs in January 2015 vs. 1.25 Lacs January 2014. This is a season adjustment of inventory and we are hopeful of returning back to growth in next month.

Domestic Tractor segment volumes dropped by 40% in January 2015. The tractor segment is continuing the YoY drop in dispatches but the MoM improvement is clearly visible with over 50 growth in January 2015 as compared to December 2014.

Kindly take the same on your record.

Thanking You.
