Dear Sir,

SUB: SSWL bags Exports order from Renault Russia & European aftermarket.

We are pleased to announce that SSWL has bagged an Exports order from Renault's Moscow, Russia plant. Vehicles would be sold in Russia, Ukraine & other CEIR countries. This a great order win by SSWL despite the Russian currency depreciation indicating our superior quality on offer for customer. This is a carryover project and currently the wheel is being supplied to Renault's plant in India, Romania & South America . Supplies for this wheel would start by early 2016.

In addition to this, we have also bagged orders from European aftermarkets and wheels to be supplied in this March 2015. The company will start full supplies to the new European customer for entire next financial year . The order value is Euro 2,00,000.00

Kindly take the same on your record.

Thanking You.

Yours Faithfully,

For Steel Strips Wheels Limited
