Sub: SSWL bags patent for Disc forming process

Sir,

Innovation at SSWL R&D Approved by DSIR – Govt. of India is a continuous activity. SSWL gets yet another feather in its cap of achievements by getting patent on Disc forming process from Patent office-Govt of India. The patent is for invention number 258809.

The innovation in disc forming process helps to get better endurance life & reducing the input material weight. This also has an impact on finish weight of the wheel rim and brings a saving upto the extent of 2%. This weight reduction shall help in improving fuel efficiency & environment norms compliance for passenger cars.

Passenger car wheel rim consists of two parts Rim and Disc. Both parts are manufactured separately and then welded together to form the assembled wheel rim. Rim supports tire & disc is connected to the axle & brake system.

Kindly take the same on your record please.

Thanking you.

Yours faithfully,

For Steel Strips Wheels Limited

(Shaman Jindal)
DGM-Cum-Company Secretary
